2010 01 10

Grace Unbounded - 2021-11-15

Grace Unbounded provides daily devotions for each day from Ash Wednesday to the Vigil of Easter (traditionally known as Holy Saturday). Devotions begin with an evocative image and a brief passage from the Gospel of Luke (the gospel focus for 2022, year C in the Revised Common Lectionary). The writers then bring their unique voices and pastoral wisdom to the texts with quotations to ponder, reflections, and prayers.

Restorative Justice, Reconciliation, and Peacebuilding - Jennifer J. Llewellyn 2014

This book develops the twin concepts of restorative justice and reconciliation as frameworks for peacebuilding that contain great potential for addressing common dilemmas: peace versus justice, religious versus secular approaches, individual versus structural justice, reconciliation versus retribution, and the harmonization of the sheer multiplicity of practices involved in repairing past harms

The Silencing of the Lambs - Michael L. Brown 2022

"Conservative Christians in the United States today are feeling the fire thrown at them by liberal influencers who are pressuring Americans to pick up a left-wing agenda and abandon biblical values. Now is not the time for the church to stay quiet on the issues that will determine America's future. This is the moment for the church to reject the left's muzzle and turn the tide for this nation"--Dust jacket flap.

Bodies out of Place - Barbara Harris Combs 2022-09-01

Bodies out of Place asserts that anti-Black racism is not better than it used to be; it is just performed in more-nuanced ways. Barbara Harris Combs argues that racism is dynamic, so new theories are needed to help expose it. The Bodies-out-of-Place (BOP) theory she advances in the book offers such a corrective lens. Interrogating several recent racialized

events—the Central Park birding incident, the killing of Ahmaud Arbery, sleeping while Black occurrences, and others—Combs demonstrates how the underlying belief that undergirds each encounter is a false presumption that Black bodies in certain contexts are out of place. Within these examples she illustrates how, even amid professions to color-blindness, fixed attitudes about where Black bodies belong, in what positions, at what time, and with whom still predominate. Combs describes a long historical pattern of White pushback against Black advancement and illuminates how each of the various forms of pushback is aimed at social control and regulation of Black bodies. She describes overt and covert attempts to push Black bodies back into their presumed place in U.S. society. While the pushback takes many forms, each works to paint a narrative to justify, rationalize, and excuse continuing violence against Black bodies. Equally important, Combs celebrates the resilient Black agency that has resisted this subjugation.

Beyond a Whistle and a Prayer: Transforming Lives, Pursuing Excellence, Honoring Jesus through Coaching - Christopher M. Schrader,

PhD. 2015

"Beyond a Whistle and a Prayer will forever change the way you look at sports and coaching. Society advocates sports as a means to instill virtue and character in our youth. But we all know that the system is broken to a large extent - from youth sports through college, and beyond. Too many coaches and parents are driven by the scoreboard, the win-at-all costs model. Is it any wonder that 70% of kids drop out of sports by age 12? Many of us remember the words and actions of coaches for a lifetime. What memories are you leaving with your athletes? Chris helps us make sense of why sports are broken and how they can be restored as a tool to positively impact lives. It all centers on coaches being transformed by biblical truths and implementing practical tools so they can field competitive teams while also loving their athletes well. Join the journey and learn to coach with joy." -Gilbert Tuhabonye: Author of *This Voice in My Heart*; 8-time NCAA All-American; Distance Running Coach

The Color of Mind - Derrick Darby 2018-01-24
American students vary in educational achievement, but white students in general typically have better test scores and grades than black students. Why is this the case, and what can school leaders do about it? In *The Color of Mind*, Derrick Darby and John L. Rury answer these pressing questions and show that we cannot make further progress in closing the achievement gap until we understand its racist origins. Telling the story of what they call the Color of Mind—the idea that there are racial differences in intelligence, character, and behavior—they show how philosophers, such as David Hume and Immanuel Kant, and American statesman Thomas Jefferson, contributed to the construction of this pernicious idea, how it influenced the nature of schooling and student achievement, and how voices of dissent such as Frederick Douglass, Frances Ellen Watkins Harper, and W. E. B. Du Bois debunked the Color of Mind and worked to undo its adverse impacts. Rejecting the view that racial differences in educational achievement are a product of innate or cultural differences, Darby and Rury uncover the historical interplay between ideas about race and American schooling, to show clearly that the racial

achievement gap has been socially and institutionally constructed. School leaders striving to bring justice and dignity to American schools today must work to root out the systemic manifestations of these ideas within schools, while still doing what they can to mitigate the negative effects of poverty, segregation, inequality, and other external factors that adversely affect student achievement. While we cannot expect schools alone to solve these vexing social problems, we must demand that they address the dignitary injustices associated with how we track, discipline, and deal with special education that reinforce long-standing racist ideas. That is the only way to expel the Color of Mind from schools, close the racial achievement gap, and afford all children the dignity they deserve.

Unraveling Philosophy - Adam Groza 2023-05-15

Moreland, provides a simple overview of the importance and ongoing relevance of philosophy from a Christian perspective. Readers will be exposed to major figures, eras, and questions raised in the history of philosophy. Additionally, this project functions as a textbook and workbook all in one, including illustrations, quotes, interactive exercises, and reflection questions throughout. Professors, students, and armchair learners will find it to be quite simply the readiest introduction to philosophy available.

Banned Questions About the Bible - Christian D Piatt 2011-03-31

From Christian Piatt: "When I was a teenager, my youth minister threw a bible at my head for asking questions." Too often, for various reasons, people don't have the opportunity to ask the hard questions they have about faith, religion, salvation and the bible. And when questions are left unanswered in communities of faith, people either seek answers elsewhere or lose interest all together. The purpose of the series is to collect the most compelling and challenging questions from various theological areas and pose them to a panel of "experts" who are challenged with responding in two hundred words or less in plain English. This volume addresses challenging or controversial questions about scripture collected from people on

Facebook, MySpace, Twitter and other social networking media. Respondents include theology professors, clergy, lay leaders, liberals, conservatives and voices representing a spectrum of views. The idea behind the books is not so much to provide definitive answers as it is to stimulate thought, reflection and discussion. By offering multiple perspectives, readers have the opportunity to arrive at their own questions. Better, they come to understand that questioning faith is not taboo, but rather that it can be at the foundation of a strong and growing faith. The directive given to each respondent guided them to be concise and to speak in plain language, but also not to rely exclusively on "the Bible says it" justifications, or to wax abstract or overly intellectual. Instead, they write from personal experience as much as possible, and provide real-life contexts that will allow the average seeker or churchgoer to apply such ideas to their daily lives.

Strength to Love - Martin Luther King, Jr.
2019-10-15

The classic collection of Dr. King's sermons that fuse his Christian teachings with his radical ideas of love and nonviolence as a means to combat hate and oppression. As Martin Luther King, Jr., prepared for the Birmingham campaign in early 1963, he drafted the final sermons for *Strength to Love*, a volume of his most well known homilies. King had begun working on the sermons during a fortnight in jail in July 1962. While behind bars, he spent uninterrupted time preparing the drafts for works such as "Loving Your Enemies" and "Shattered Dreams," and he continued to edit the volume after his release. *Strength to Love* includes these classic sermons selected by Dr. King. Collectively they present King's fusion of Christian teachings and social consciousness and promote his prescient vision of love as a social and political force for change.

The Arc of Truth - Lewis V. Baldwin
2022-10-04

Martin Luther King Jr. said and wrote as much or more about the meaning, nature, and power of truth as any other prominent figure in the 1950s and '60s. King was not only vastly influential as an advocate for and defender of truth; he also did more than anyone in his time to organize truth into a movement for the liberation, uplift, and empowerment of

humanity, efforts that ultimately resulted in the loss of his life. Drawing on King's published and unpublished sermons, speeches, and writings, *The Arc of Truth* explores King's lifelong pilgrimage in pursuit of truth. Lewis Baldwin explores King's quest for truth from his inquisitive childhood to the influence of family and church, to Morehouse College, Crozer Theological Seminary, Boston University, and other academic institutions in the Northeast. Continuing on, the book follows King's sense that he was involved in experiments of truth within the context of the struggle to liberate and empower humanity, to his understanding of the civil rights movement as unfolding truth, to his persistent challenge to America around its need to engage in a serious reckoning with truth regarding its history and heritage. Baldwin investigates King's determination to speak truth to power, and his untiring efforts to actualize what he envisioned as the truthful ends of the beloved community through the truthful means of nonviolent direct action. King believed, taught, and demonstrated by example that truth derives from a revolution in the heart, mind, and soul before it can be translated into institutions and structures that guarantee freedom, justice, human dignity, equality of opportunity, and peace. Ultimately, King's significance for humanity cannot be considered only his contributions as a preacher, pastor, civil rights leader, and world figure--he was and remains equally impactful as a theologian, philosopher, and ethicist whose life and thought evince an enduring search for and commitment to truth.

Communication in Mission - Marcus Dean
2022-10-07

Communicating the Gospel—To All People, By All Means Communication has always been the heartbeat of God’s interaction with humankind, and without thoughtful communication, mission is not fully effective. With the rise of technology and social media, the church faces a unique set of opportunities. At the same time, our shrinking world presents challenges and requires an increased sensitivity to social, cultural, and geopolitical triggers. With case studies that span the globe from Australia and Asia to the Black church and Muslim youth diaspora in the United States, this book closely considers what is working in the twenty-first century and what isn’t. From post-colonial contexts to creative-access countries, this collection doesn’t shy away from today’s complex issues.

Communication in Mission pulls together diverse voices—some seem like shouts and others like gentle whispers—but each has an important contribution for all who will listen and learn. This synthesis of personal experiences from field practitioners and theoretical concepts from scholars lays a foundation for application, calling for careful and intentional communication in the ongoing work of missions. Full of hope, this book looks forward to the gospel being received as Good News around the globe.

Why Not Moderation? - Aurelian Craiutu
2023-10-12

Moderation is often presented as a simple virtue for lukewarm and indecisive minds, searching for a fuzzy center between the extremes. Not surprisingly, many politicians do not want to be labelled 'moderates' for fear of losing elections. Why Not Moderation? challenges this conventional image and shows that moderation is a complex virtue with a rich tradition and unexplored radical sides. Through a series of imaginary letters between a passionate moderate and two young radicals, the book outlines the distinctive political vision undergirding moderation and makes a case for why we need this virtue today in America. Drawing on clearly written and compelling sources, Craiutu offers an opportunity to rethink moderation and participate in the important public debate on what kind of society we want to live in. His book reminds us that we cannot

afford to bargain away the liberal civilization and open society we have inherited from our forefathers.

What Does Theology Do, Actually? - Matthew Ryan Robinson 2022-07-26

»What Does Theology Do, Actually? Observing Theology and the Transcultural« is to be the first in a series of 5 books, each presented under the same question - »What Does Theology Do, Actually?«, with vols. 2-5 focusing on one of the theological subdisciplines. This first volume proceeds from the observation of a need for a highly inflected »trans-cultural«, and not simply »inter-cultural«, set of perspectives in theological work and training. The revolution brought about across the humanities disciplines through globalization and the recognition of »multiple modernities« has introduced a diversity of overlapping cultural content and multiple cultural and religious belongings not only into academic work in the humanities and social sciences, but into the Christian churches as well.

You Can't Ask That! - Christian Piatt 2020-10-06

Have you ever had a burning question that seemed off limits or inappropriate to ask about Christianity, the Bible, or Jesus? *You Can't Ask That!* gathers 50 of the most provocative, challenging, or otherwise taboo questions that many of us have wondered about but few have actually asked. Edited by Christian Piatt, who once had a bible thrown at his head for asking too many questions during a Sunday school class, this collection considers nothing off limits and takes the hard questions seriously. Responses from theology professors, pastors, lay leaders, and other progressive Christians range from the personal to the profound and from sarcastic to deeply touching. By offering multiple perspectives to those banned questions, readers can craft their own answers. Better yet, they'll understand that questioning faith is not taboo; it's the foundation of a strong and growing faith.

A Virtue for Courageous Minds - Aurelian Craiutu 2016-05-31

Political moderation is the touchstone of democracy, which could not function without compromise and bargaining, yet it is one of the most understudied concepts in political theory. How can we explain this striking paradox? Why

do we often underestimate the virtue of moderation? Seeking to answer these questions, *A Virtue for Courageous Minds* examines moderation in modern French political thought and sheds light on the French Revolution and its legacy. Aurelian Craiutu begins with classical thinkers who extolled the virtues of a moderate approach to politics, such as Aristotle and Cicero. He then shows how Montesquieu inaugurated the modern rebirth of this tradition by laying the intellectual foundations for moderate government. Craiutu looks at important figures such as Jacques Necker, Madame de Staël, and Benjamin Constant, not only in the context of revolutionary France but throughout Europe. He traces how moderation evolves from an individual moral virtue into a set of institutional arrangements calculated to protect individual liberty, and he explores the deep affinity between political moderation and constitutional complexity. Craiutu demonstrates how moderation navigates between political extremes, and he challenges the common notion that moderation is an essentially conservative virtue, stressing instead its eclectic nature. Drawing on a broad range of writings in political theory, the history of political thought, philosophy, and law, *A Virtue for Courageous Minds* reveals how the virtue of political moderation can address the profound complexities of the world today.

[Preaching to a Divided Nation](#) - Matthew D. Kim
2022-08-09

We live in angry times. No matter where we go, what we watch, or how we communicate, our culture is rife with division and polarization. Unfortunately, Christians appear to be caught up in the same animosity as the culture at large. While our faith calls us to Christian unity, the hard fact remains: our churches are tragically divided across class, ethnic, gender, and political lines. As these social chasms grow--both inside and outside the church--the role of the preacher becomes paramount. This book issues a prophetic call to pastors to use the influence of

their pulpits to promote reconciliation and unity in their churches and communities. Two scholar-practitioners who are experts in homiletics and reconciliation present a practical, 7-step model that empowers faithful leaders to bring healing and peace to their fractured churches and world. The book includes questions for reflection, salient illustrations, and an accountability covenant. It also includes useful appendixes on preaching themes, preaching texts, and sample sermons from three leading preachers: Ralph Douglas West, Rich Villodas, and Sandra Maria Van Opstal.

The God Who Sees - Karen González
2019-05-21

Meet people who have fled their homelands. Hagar. Joseph. Ruth. Jesus. Here is a riveting story of seeking safety in another land. Here is a gripping journey of loss, alienation, and belonging. In *The God Who Sees*, immigration advocate Karen Gonzalez recounts her family's migration from the instability of Guatemala to making a new life in Los Angeles and the suburbs of south Florida. In the midst of language barriers, cultural misunderstandings, and the tremendous pressure to assimilate, Gonzalez encounters Christ through a campus ministry program and begins to follow him. Here, too, is the sweeping epic of immigrants and refugees in Scripture. Abraham, Hagar, Joseph, Ruth: these intrepid heroes of the faith cross borders and seek refuge. As witnesses to God's liberating power, they name the God they see at work, and they become grafted onto God's family tree. Find resources for welcoming immigrants in your community and speaking out about an outdated immigration system. Find the power of Jesus, a refugee Savior who calls us to become citizens in a country not of this world.
