Special overview of 2011 thru 2020 Sun Signs Taina Ketola 2001 Portrait of the Soul describes the evolution of the individual through many lifetimes. It takes more than one lifetime to master each sign, and this book describes that process. Each sign has three distinct stages of development and at least three completely different personality types are the result of this process. Individuals in each of these stages of evolution have an entirely different view of the world, which may not be compatible with those in other stages. If you are a Libra, are you happily engaged in peaceful wedded bliss? Or do you struggle with incompatible partners? Perhaps you are dedicated to changing the world. Virgo, do you live in a protected life where you are given every advantage in the development of your talents? Or have you been abused and abandoned while making your way through a hostile world that you are not quite ready for? Instead you may have become a gifted healer and a living example of the human spirit's capacity to triumph. Scorpio, does the achievement of your goals eclipse all else? Instead you may subconsciously sabotage your career and relationships. Or does your faith in life and acceptance of yourself allow you to work miracles? These are very brief descriptions of the three stages of the above signs. Portrait of the Soul describes these stages in much greater detail, providing insights that aid in the solution of any problems that may arise, helping you to make the best use of your innate potential. Why do so many Geminis hide their true selves from the world? Can Pisces overcome an attraction to victimization and allow their vision to inspire the world? Why do Aries have trouble putting their foot down with themselves or others? Each chapter also includes detailed information concerning early childhood conditions and their influence on later development. It also describes many common patterns and difficulties that the individual may experience in intimate relationships and how to resolve them.
