Sex Guides - Patty Campbell 2017-04-07

The history of the sex guide for adolescents
documents the quite unconscious movement of
Western culture's ideas about sex and youth,
revealing the heritage of our own sexual beliefs
and codes of behaviour. The first section of this
book, first published in 1986, traces the
development of the sex guide, examining 400
books from 1892 to the 1980s. The second
section comprises a detailed analysis of the
patterns, content and usefulness of all the
contemporary manifestations of the genre. The
history of the teen sex manual is a fascinating
revelation of American attitudes towards
adolescent sexuality.
