*A Woman's Place, 1910-1975* - Ruth Adam 2000

Provides an overview of 20th century women's lives, covering what the reader want to know about the suffragettes, early 'type-writers', contraception, and work in wartime; and it complements Persephone's other books by exploring factually what they, indirectly, explore in fiction.

**The Oxford Encyclopedia of Women in World History** - Bonnie G. Smith 2008

The Encyclopedia of Women in World History captures the experiences of women throughout world history in a comprehensive, 4-volume work. Although there has been extensive research on women in history by region, no text or reference work has comprehensively covered the role women have played throughout world history. The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe. Historians

have investigated womens daily lives in virtually every region and have researched the leadership roles women have filled across time and region. They have found and demonstrated that there is virtually no historical, social, or demographic change in which women have not been involved and by which their lives have not been affected. The Oxford Encyclopedia of Women in World History benefits greatly from these efforts and experiences, and illuminates how women worldwide have influenced and been influenced by these historical, social, and demographic changes. The Encyclopedia contains over 1,250 signed articles arranged in an A-Z format for ease of use. The entries cover six main areas: biographies; geography and history; comparative culture and society, including adoption, abortion, performing arts; organizations and movements, such as the Egyptian Uprising, and the Paris Commune; womens and gender studies; and topics in world history that include slave trade, globalization, and disease. With its rich and insightful entries by leading scholars and experts, this reference work is sure to be a valued, go-to resource for scholars, college and high school students, and general readers alike.

Public Sector Management in Australia - Ciaran O'Faircheallaigh 1999

Revised and updated second edition of a text first published in 1992. Includes recent empirical research and a new section on management in practice. Addresses issues relating to the design and structure of governmental bodies, the utility and impact of alternative management techniques and public sector ethics and accountability. Includes references and an index. The authors have senior positions at the Centre for Australian Public Sector Management and have published extensively in their field.

Responsible Government in South Australia, Volume 2 - Robert Martin 2009

**The Ethical State?** - Marian Sawer 2003-01-01

The ethical state—a state committed to the common good and equal opportunity—was a central tenet of the social-liberal theory that emerged in Britain in the late nineteenth century. Here, Marian Sawer explores how the new nation of Australia enthusiastically embraced the ideal. Translated as the 'fair go', and accepted by major policy makers on both the left and right of politics, social liberalism gave rise to the distinctively Australian institution of wage arbitration, and to other aspects of the welfare state such as public education, parks and pensions. For early Australian feminists it offered the alluring prospect of equality with men. A century later, the idea of the fair go may still resonate in political rhetoric, but liberalism has become a somewhat tarnished ideal. The dream of the ethical state lies in tatters, eroded by economic rationalism and user-pays ideology, and degraded by political machination. Has the social-liberal vision of the state as a vehicle for social justice completely run its course? Sawer argues no. Her timely book offers an astute critique of the challenges facing social-liberal thought, and issues a rallying cry for its revival.

**The Struggle for Female Suffrage in Europe** - 2012-06-07

By comparing women's access to suffrage in the countries that make up the European Union, *The Struggle for Female Suffrage in Europe* provides a retelling of the story of how citizenship was gradually coined in Europe from the perspective of women.

**A Woman's Place** - 1984

**Speaking for the People** - Marian Sawer 2001

Explores the concepts of representation that lie at the heart of a representative democracy. Contends that without the belief that others can represent their interests, citizens will withdraw their trust from parliamentary institutions. Explores the ways in which Australians have thought about and practised representation in both parliamentary and societal arenas. Includes notes, references and index. Sawer is Associate Professor of Politics at the University of Canberra. She has previously written 'Sisters in Suits: Women and Public Policy in Australia' and 'A Woman's Place: Women and Politics in Australia' (with Marian Simms). Zappala is Research co-ordinator at the Smith Family.

**Woman's Place in the Commonwealth** - Catherine Helen Spence 2009-09-09

Language and Woman's Place - Robin Tolmach Lakoff 2004-07-22

The 1975 publication of Robin Tolmach Lakoff's *Language and Woman's Place*, is widely recognized as having inaugurated feminist research on the relationship between language and gender, touching off a remarkable response among language scholars, feminists, and general readers. For the past thirty years, scholars of language and gender have been debating and developing Lakoff's initial observations. Arguing that language is fundamental to gender inequality, Lakoff pointed to two areas in which inequalities can be found: Language used about women, such as the asymmetries between seemingly parallel terms like master and mistress, and language used by women, which places women in a double bind between being appropriately feminine and being fully human. Lakoff's central argument that "women's language" expresses powerlessness triggered a controversy that continues to this day. The revised and expanded edition presents the full text of the original first edition, along with an introduction and annotations by Lakoff in which she reflects on the text a quarter century later and expands on some of the most widely discussed issues it raises. The volume also brings together commentaries from twenty-six leading scholars of language, gender, and sexuality, within linguistics, anthropology, modern languages, education, information sciences, and other disciplines. The commentaries discuss the book's contribution to feminist research on language and explore its ongoing relevance for scholarship in the field. This new edition of *Language and Woman's Place* not only makes available once again the pioneering text of feminist linguistics; just as important, it places the text in the context of contemporary feminist and gender theory for a new generation of readers.

**Women in Governing Institutions in South Asia** - Nizam Ahmed 2017-08-24

This edited volume examines policies aimed at increasing the representation of women in governing institutions in six South Asian countries. Divided into three parts, it addresses the implications of uniformity and diversity for the substantive representation of women in parliament, civil service and local government. The contributing authors explore the scope and limits of 'positive discriminatory policies' within distinct country contexts, and the implications of the lack of such policies in other countries. Their findings shed new light on the extent to which the higher presence of women in different governing institutions matters, particularly in respect of promoting women's issues; and also on the way men and women in different governing institutions look upon each other's roles and adopt strategies for mutual adjustment. This innovative collection will appeal to students and scholars of gender studies, public policy and administration, international relations, law and political science.

**Women in British Public Life, 1914 - 50** - Helen Jones 2014-09-11

An examination of the ways in which women challenged the British educational, employment and welfare systems after the franchise. Helen Jones explores how women adapted their strategies to confront the system from within, and what constraints were imposed on them. She also examines the active role that British women played in Continental Europe, and an important comparative chapter looks at the experience of women in France, Germany, Italy, Australia and the USA.

**A Woman's Place** - Marian Simms 1989

**Woman-Nation-State** - Floya Anthias 1989-04-21

This book examines the place of women within ethnic and national communities in nine different societies, and the ways in which the state intervenes in their lives. Contributions from a group of scholars examine the situations in their religious, economic and historical context.

Women, Elections, & Representation - Robert Darcy 1994-01-01

The first women representatives in the United States were elected in 1894 when Colorado voters sent three women to the state legislature. Now, a century later, women almost everywhere are the majority of voters

but a distinct minority of elected officials. This discrepancy is a puzzle for those who thought democratic institutions would incorporate newly enfranchised women, and a problem for those working to expand democratic representation. Darcy, Welch, and Clark examine women candidates and candidacies in the United States and several other democratic nations. Their careful analysis reveals that male voters and political elites are not the barriers to women's election that common wisdom suggests. Instead, they find that a party's ability to determine candidate selection, along with election procedures that benefit incumbents, produces slow turnover of elected officials and few opportunities for new women candidates.

In addition, the authors analyze nomination procedures and election systems to document both the conditions that lead political parties to nominate more women and the mechanisms that yield more victories by women candidates. *Women, Elections, and Representation* is an extensively revised and expanded edition of a successful text that provides a thorough and up-to-date account of research on women and politics.

**A Woman's Place** - Marian Sawer 1993

The most comprehensive and accessible discussion of the role of women in Australian politics.
