

Building Successful Relationships Between Community Colleges And The Media

Practical Leadership in Community Colleges

- George R. Boggs 2016-07-18

Anticipate, manage, and overcome the complex issues facing community colleges Practical Leadership in Community Colleges offers a path forward through the challenges community colleges face every day. Through field observations, reports, news coverage, and interviews with leaders and policy makers, this book digs deep into the issues confronting college leaders and provides clear direction for managing through the storm. With close examination of both emerging trends and perennial problems, the discussion delves into

issues brought about by changing demographics, federal and state mandates, public demand, economic cycles, student unrest, employee groups, trustees, college supporters, and more to provide practical guidance toward optimal outcomes for all stakeholders. Written by former presidents, including a past president of the American Association of Community Colleges, this book provides expert guidance on anticipating and managing the critical issues that affect the entire institution. Both authors serve as consultants, executive coaches, and advisors to top leaders, higher education institutions, and leadership development

Building Successful Relationships Between Community Colleges And The Media

programs throughout the United States. Community colleges are facing increasingly complex issues from both without and within. Some can be avoided, others only mitigated—but all must be managed, and college leaders must be fully prepared or risk failing the students and the community. This book provides real-world guidance for current and emerging leaders and trustees seeking more effective management methods, with practical insight and expert perspective. Tackle the college completion challenge and performance-based funding initiatives Manage through economic cycles, declining support, and calls for accountability Delve into the issues of privatization and employee unionization Execute strategies to align institutional goals and mission Manage organizational change and new ways of thinking that are essential in today's competitive environment Manage issues involving diversity, inclusiveness, and equity Prepare adequately for campus emergencies Community colleges are

the heartbeat of the nation's higher education system, and bear the tremendous responsibility of serving the needs of a vast and varied student body. Every day may bring new issues, but effective management allows institutions to rise to the challenge rather than falter under pressure. Practical Leadership in Community Colleges goes beyond theory to provide the practical guidance leadership needs to more effectively lead institutions to achieve results and serve the students and the community.

Data Use in the Community College -

Christopher M. Mullin 2012-04-19

American community colleges represent a true success story. With their multiple missions, they have provided access and opportunity to millions of students. But community colleges are held accountable for their services and must be able to show that they are indeed serving their variety of students appropriately. This volume speaks of the multiplicity of data required to tell the community college story. The authors

Building Successful Relationships Between Community Colleges And The Media

explore and detail how various sources—workforce data, market data, state-level data, federal data, and, of course, institutional data such as transcript files—all have something to say about the life of a community college. Much like an orchestral score, where the different parts played by individual instruments become music under the hands of a conductor, these data can be coordinated and assembled into a message that answers questions of student success and institutional effectiveness. This is the 153rd volume of this Jossey-Bass quarterly report series. Always timely and comprehensive, *New Directions for Institutional Research* provides planners and administrators in all types of academic institutions with guidelines in such areas as resource coordination, information analysis, program evaluation, and institutional management.

Leadership Strategies for Community College Executives - Gunder Myran 2003

Presidents, executive teams, governing boards, administrators, faculty leaders, and graduate students alike will benefit from this comprehensive primer. Designed to help professionals at all stages of their careers, this resource is particularly useful to the growing number of new CEOs. Thorough attention is paid to operational principles and organizational design as well as policy development in both general and specific contexts such as students, curriculum, staff, and resource development. Look for special chapters on crisis management as well as practical advice for new CEOs.

Strategic Social Media - L. Meghan Mahoney
2016-10-31

Strategic Social Media is the first textbook to go beyond the marketing plans and how-to guides, and provide an overview of the theories, action plans, and case studies necessary for teaching students and readers about utilizing social media to meet marketing goals. Explores the best marketing practices for reaching business goals,

Building Online Communities in Higher Education Institutions: Creating Collaborative Experience - Stevenson, Carolyn N. 2014-02-28

Members of today's online educational settings are often isolated which can prohibit the sharing of ideas and best practices among individuals working and learning as a collective group. Promoting collaboration across various disciplines and departments fosters professional development activities, as well as creates strong connections to the entire online community. Building Online Communities in Higher Education Institutions: Creating Collaborative Experience cultivates knowledge on topics pertaining to the improvement of communication and collaboration in online learning communities. Advancing the current scope of research in this field, this book is designed for use by faculty, students, researchers, practitioners, and college administrators interested in strengthening communication and collaboration in virtual settings.

Public Relations Theory - Brigitta R. Brunner
2019-05-07

The comprehensive guide to applied PR theory

Building Successful Relationships Between Community Colleges And The Media

in the 21st century Public Relations Theory explores the central principles and theoretical components of public relations and their practical applications in actual situations. This informative text helps readers to understand the concepts, approaches, and perspectives of PR theory and learn development methods, implementation strategies, management techniques, and more. Chapters written by recognized experts on each topic provide readers with knowledge on how, when, and why appropriate theories are applied. Focusing on how organizations and individuals integrate theory in a public relations framework, each chapter explains one function, explores its potential challenges and opportunities, provides an example of the function in practice, and offers discussion questions and additional reading suggestions. Unique in structure, this text arranges chapters by function, rather than theory, allowing readers to see how multiple theories can be applied to each public relations

function and how theories can be used in different professional settings. Comprehensive treatment of topics including social and emerging media, globalization, public diplomacy, corporate and investor relations, and others ensures relevant and timely coverage of contemporary PR issues. Demonstrates how public relations theory is applied in real-world practice Illustrates how successfully applied public relations theories lead to positive outcomes Discusses the relevance of public relations with accessible and engaging language Offers multiple perspectives from leading international public relations scholars Includes pedagogical tools including chapter discussion questions, practical examples, tables, and suggested reading lists Public Relations Theory: Application and Understanding is suitable for instructors and graduate and advanced undergraduate students in courses on public relations theory, as well as practitioners seeking further knowledge on the most current

Building Successful Relationships Between Community Colleges And The Media

developments in the field.

Enhancing Community Colleges Through Professional Development - Gordon E. Watts
2002

Community college professional development programs can be dynamic forces in helping community colleges address significant issues, create solutions for change, and create opportunities for renewal. This issue examines the challenges and rewards of creating an effective professional development program. Editor Gordon E. Watts, professor of higher education at the University of Arkansas at Little Rock, brings together the research and findings of scholars in the fields of higher education and economics as well as the perspectives of professionals in staff and organizational development at community colleges and community based organizations. Beginning with an overview of the ongoing need for professional development in the community college, its current status, its struggles to become

institutionalized as a function in the community college, the issue offers a much needed perspective on professional development's expanding role and that challenges that it continues to face. Chapter authors illustrate how their institutions have addressed issues through professional development, created institutional change, developed new delivery systems for professional development, reached beyond development just for faculty, and found new uses for traditional development activities. Faculty development programs examined include orientation programs for new faculty members and programs that address the specific needs of part-time faculty. An analysis of an innovative online faculty development delivery system for both new and part-time faculty is presented along with positive outcomes of the program's implementation at two separate institutions. Another chapter explores the emergence of teaching and learning centers as catalysts for effective faculty development and institutional

Building Successful Relationships Between Community Colleges And The Media

change. Addressing campus development needs beyond faculty, other chapters examine staff development programs that include administration and classified staff as well as comprehensive programs that address professional development across the campus. The highly successful "great teacher" model for faculty development is revisited with descriptions of how the Great Teachers Seminars model can be taken a step further and successfully applied to classified, administration, and organizational development initiatives. As senior staff and faculty move toward retirement in greater numbers, potential shortages in leadership create the need for effective professional development at leadership levels. Evolution of the Presidents Academy, an innovative professional development program for newly appointed presidents, is examined in detail. Also explored is the need and importance of a renewed focus on leadership development overall and how leadership development

strategies can be strengthened to ensure a continuous supply of well-trained community college leaders.

BUILDING SUCCESSFUL RELATIONSHIPS BETWEEN COMMUNITY COLLEGES AND THE MEDIA. NEW DIRECTIONS FOR COMMUNITY COLLEGES, NUMBER 110.

THE JOSSEY-BA. - United States. Office of Educational Research and Improvement 2001*

Public Relations As Relationship Management -
Eyun-Jung Ki 2015-04-24

The emergence of relationship management as a paradigm for public relations scholarship and practice necessitates an examination of precisely what public relations achieves -- its definition, function and value, and the benefits it generates. Promoting the view that public relations provides value to organizations, publics, and societies through relationships, Public Relations as Relationship Management takes a in-depth look at organization-public relationships and

Building Successful Relationships Between Community Colleges And The Media

explores the strategies that can be employed to cultivate and maintain them. Expanding on the work published in the first edition, this thoroughly up-to-date volume covers such specialized areas of public relations as non-profit organizations, shareholder relations, lobbying, employee relations, and risk management. It expands the reader's ability to understand, conceptualize, theorize, and measure public relations through the presentation of state-of-the-art research and examples of the use of the relationship paradigm. Developed for scholars, researchers, and advanced students in public relations, *Public Relations as Relationship Management* provides a contemporary perspective on the role of relationships in public relations, and encourages further research and study.

Building Successful Relationships Between Community Colleges and the Media - Clifton

Truman Daniel 2000-08-11

Although community colleges play an

increasingly important role in the lives of millions of Americans, they often have difficulty maintaining visibility within their communities and keeping students and potential partners aware of their programs. In the face of limited budgets, it is important that community college practitioners turn to one particular resource that can be invaluable for promoting a college's academic programs and services: the media. This volume explores current relationships between two-year colleges and the media across the country, reviewing the history of community colleges' relationships with members of the press, examining the media's relationships with community college practitioners, and offering practical strategies for advancing an institution's visibility. The contributors reveal how to use media outlets ranging from local and regional newspapers to the Internet to promote programs and services. Perhaps most importantly, they offer sound suggestions on establishing lasting, mutually beneficial relationships with members

Building Successful Relationships Between Community Colleges And The Media

of the media to ensure that both college and media representatives achieve their overall goals of promoting services and educating the public. This is the 110th issue of the quarterly journal *New Directions for Community Colleges*.

The Role of the Community College in Teacher Education - Barbara K. Townsend 2003-04-22

A community college role in teacher education is not new. But there is a new--or, more accurately, renewed--interest in this role. A national conversation about how community colleges can help us alleviate the teacher shortage has truly begun, with many believe that an expanded community college role is critical to meet the nation's need for well prepared teachers. This volume illustrates the extent to which community colleges have become major players in teacher education, not only in the traditional way of providing the first two years of an undergraduate degree in teacher education but in such more controversial ways as offering associate and baccalaureate degrees in teacher

education and providing alternative certification programs. This is the 121st issue of the Jossey-Bass higher education series *New Directions for Community Colleges*.

Pitch Perfect - William Tyson 2023-07-03

This book is intended for scholars, researchers, and academic leaders who have a passion to share their knowledge outside their classroom, laboratory, or institution; who want to make a difference; and who believe that the information they possess and ideas they offer are important for a wider public. *Pitch Perfect* is a practical guide to communicating your knowledge and research to broader audiences. How do you get yourself heard amid the volume of news and information in today's 24-hour news cycle, and get your message across in an environment where blogs and Twitter vie with traditional media? To break through, you need to amplify your ideas and make them relevant for a wider public audience. Bill Tyson - who has been successfully advising scholars and academic

Building Successful Relationships Between Community Colleges And The Media

leaders on media relations for over 30 years - shows you how to undertake early and thoughtful communications planning, understand the needs and workings of the media, both traditional and digital, and tell your story in a way that will capture your audience. Bill Tyson is strategic in his advice, no less so when discussing how to engage with such social media as blogs, Facebook, Twitter, YouTube, podcasts or wikis. Whether you are working on research or a new initiative that has public implications, or have a story that deserves wide telling; whether you want to address funders' requests for communications plans to promote the programs they are supporting, or whether you want to know how to publicize your new book; this practical guide offers insider advice - complete with case studies - on how to communicate your message. An appendix lists key media in North America, Australia, and the UK.

Working With Students in Community

Colleges - Lisa S. Kelsay 2023-07-03

Co-published with This timely volume addresses the urgent need for new strategies and better ways to serve community colleges' present and future students at a time of rapid diversification, not just racially and ethnically, but including such groups as the undocumented, international students, older adult learners and veterans, all of whom come with varied levels of academic and technical skills. The contributing researchers, higher education faculty, college presidents, and community college administrators provide thorough understanding of student groups who have received scant attention in the higher education literature. They address the often unconscious barriers to access our institutions have erected and describe emerging strategies, frameworks, and pilot projects that can ease students' transition into college and through the maze of the college experience to completion. They offer advice on organizational culture, on defining institutional outcomes, on aligning

Building Successful Relationships Between Community Colleges And The Media

shifting demographics with the multiple missions of the community college, on strengthening the collaboration of student and academic affairs to leverage their respective roles and resources, and on engaging with the opportunities afforded by technology. Divided into three parts - understanding today's community college campuses; supporting today's community college learners; and specialized populations and communities - this book offers a vision and solutions that should inform the work of faculty, administrators, presidents, and board members.

Resources in Education - 2001

Create Success! - Kadhira Rajagopal 2011

For far too long, disadvantaged students in urban environments have believed the fallacy that academic success is unattainable. Why? The unfortunate answer is that too many urban school systems preemptively declare underperforming students to be failures, a practice that fosters dysfunctional classrooms

that fail to motivate, engage, and inspire students to succeed. In Create Success!, Kadhira Rajagopal, affectionately known as Dr. Raja to his students, outlines his no-holds-barred approach to teaching urban students. Through his CREATE model of instruction, students are held accountable for their own learning, taught at an appropriate level and in familiar language, and imbued with the sense that learning and personal achievement are qualities of which they should be proud--not ashamed. Dr. Raja's CREATE model also places an emphasis on the active participation of teachers, parents, caregivers, and coaches in each student's success. Resulting in unprecedented success among students previously dismissed as lost causes and academic failures, the CREATE model has demonstrated that it is indeed possible to close the achievement gap, even in the most difficult cases. Rajagopal has also shown that his model can be replicated in any classroom by a teacher who is willing to assume

Building Successful Relationships Between Community Colleges And The Media

responsibility for each student's success, hold students accountable, embrace culturally responsive instruction, and vigorously work on behalf of all students. Filled with personal insights and battle-tested strategies that promote student achievement, *Create Success!* is a pioneering approach to urban education from a 2011 California Teacher of the Year.

The Community's College - Robert L. Pura
2023-07-03

Co-published with *An Agenda for Leaders / A Text for Leadership Courses* While community colleges promote American ideals of democracy, opportunity, and social mobility; they provide a vital, accessible, and affordable education for nearly 12 million first-generation, economically-disadvantaged, and minoritized students; are engines of local workforce and economic development; and enroll nearly half of all students who go on to complete a four-year degree; they remain the least resourced and the least funded institutions in the United

States. Offering the insights of the former president of Greenfield Community College—located in Massachusetts’s poorest rural county—who was a national leader in community college and higher education organizations as well as closely involved with local businesses and organizations; and commentary and background data provided by Professor of Higher Education and Chair of the Department of Leadership in Education at the University of Massachusetts Boston, this book addresses the challenges that community colleges face as they strive to achieve their complex missions in a changing world. By providing vivid accounts of the diversity of students that community colleges serve, the complexity of their missions—from dual enrollment with high schools, to vocational training, adult education, and transfer to four-year colleges—and the role they play in supporting and responding to the needs of local business, as well in regional economic

Building Successful Relationships Between Community Colleges And The Media

development, the authors make the case for increased investment, while at the same time making apparent to all stakeholders—from policy makers and trustees to college leaders, faculty and staff—how they can contribute to the vital development of human capacities. Community colleges are open-access, train nearly 80% of all first responders, graduate more than half of new nurses and health-care workers, and have a history of nimbleness and responsiveness to community needs, and can play a vital role in training for tomorrow's jobs, over 60% of which will, in the next decade, require some college education. The first four chapters set the scene, demonstrating the key foundational linkage between education, community, and democracy, presenting a history of the community college movement, illustrating what's involved in building strong and reciprocal community relationships, and covering a whole panoply of leadership issues such as governance, institutional culture, facilities planning, resource

development, accreditation, and crisis management. The second part of the book presents Bob Pura's accounts of his visits to five community colleges, each representing different geographic regions, institutional size, urban and rural locations, and how they respond to the varied racial and ethnic populations from they draw their students and establish themselves as anchors in their communities. As well as offering an important message to state and federal policy makers, this book serves as a roadmap for aspiring leaders of community colleges as well as a text for leadership and higher education courses. College leaders may find it useful for internal training and learning community groups.

Monthly Catalog of United States Government Publications - 2001

Public Relations Theory - Jae-Hwa Shin

2020-12-22

Winner of the 2021 National Communication

Building Successful Relationships Between Community Colleges And The Media

Association PRIDE award in the 'Outstanding Textbook' category! Explore a wide range of theoretical frameworks and themes for public relations in this comprehensive and authoritative work *Public Relations Theory: Capabilities and Competencies* is a comprehensive overview of the major theoretical perspectives in public relations, considering the evolution, diversification and merger of approaches that have been spurred by rapid changes in society, cultural boundaries, technology, and media environments. Authors Jae-Hwa Shin and Robert Heath explain both organizational and social theories of public relations, including cases and challenges to help students bring theory and research to bear on solving the daily challenges of public relations practice. Rather than advocate in favor of a particular theoretical view or position, *Public Relations Theory: Capabilities and Competencies* covers a broad range of theoretical perspectives and themes in public relations, including: An examination of

excellence theory, contingency theory, rhetorical theory, and critical theory as these perspectives apply to public relations Issues management, crisis management, risk management and conflict management with respect to public relations Combining theory and practice for conceptualization and strategic execution of robust public relations programs and campaigns The importance of public relations ethics to serve the public good How to define “the public” or “relationships” in the field of public relations The book closes with discussion of emerging topics and the recent transformation of public relations theory to take diversity, technology, and global identity into account and offers insight into future direction. This book is perfect for upper level undergraduate and graduate students of public relations in journalism and communication. It will also be useful for public relations practitioners who hope to improve their understanding of the theoretical background and principles of their work and

Building Successful Relationships Between Community Colleges And The Media

serve as an excellent reference for doctoral students and researchers in the area.

Content to Commerce - Avi Savar 2013-05-06
Master the publishing and entertainment world's tools and techniques for content marketing success Over the last decade the convergence of media and technology has turned the marketing world on its head. In order for brands to succeed in today's socially connected world, they must think like publishers and act like media networks. Content to Commerce shows how utilizing publishing- and entertainment-based principles can help brands and marketers use social media effectively—ultimately reaching today's hyper-connected and highly fragmented audiences. From big picture strategy to the

tactics and tools require to execute, this book offers a clear approach to social media marketing for both big and small brands alike. Shows how to turn shallow, wide, and short-term projects into deep, narrow, and long-term engagements Explains how to prioritize with a clear escalation path in order to drive big, significant, and measurable value Author Avi Savar is a frequent media commentator on social media, branded content and marketing and was recently named the Jury President of the Cannes Lions International Festival of Creativity's new Branded Content & Entertainment category Content to Commerce will show you how to conquer the media world's medium and control your own brand's destiny.
