

Catching Them Young Volume 1 Sex Race And Class In Childrens Fiction

[A Necessary Fantasy?](#) - Dudley Jones 2021-10-28

This book addresses a variety of issues through the examination of heroic figures in children's popular literature, comics, film, and television.

Big and Small - Lynne Vallone 2017-01-01

A groundbreaking work that explores human size as a distinctive cultural marker in Western thought Author, scholar, and editor Lynne Vallone has an international reputation in the field of child studies. In this analytical tour-de-force, she explores bodily size difference--particularly unusual bodies, big and small--as an overlooked yet crucial marker that informs human identity and culture. Exploring

miniaturism, gigantism, obesity, and the lived experiences of actual big and small people, Vallone boldly addresses the uncomfortable implications of using physical measures to judge normalcy, goodness, gender identity, and beauty. This wide-ranging work surveys the lives and contexts of both real and imagined persons with extraordinary bodies from the seventeenth century to the present day through close examinations of art, literature, folklore, and cultural practices, as well as scientific and pseudo-scientific discourses. Generously illustrated and written in a lively and accessible style, Vallone's provocative study encourages

readers to look with care at extraordinary bodies and the cultures that created, depicted, loved, and dominated them.

New Society - 1977

International Companion Encyclopedia of Children's Literature - Peter Hunt 2003-09-02

The International Companion Encyclopedia answers these questions and provides comprehensive coverage of children's literature from a wide range of perspectives. Over 80 substantial essays by world experts include Iona Opie on the oral tradition, Gillian Avery on family stories and Michael Rosen on audio, TV and other media. The Companion covers a broad range of topics, from the fairy tale to critical theory, from the classics to comics. Structure The Companion is divided into five sections: 1) Theory and Critical Approaches 2) Types and Genres 3) The Context of Children's Literature 4) Applications of Children's Literature 5) The World of Children's Literature Each essay is

followed by references and suggestions for further reading. The volume is fully indexed.

Routledge Revivals: History Workshop Series - Various Authors 2022-07-30

First published between 1975 and 1991, this set reissues 13 volumes that originally appeared as part of the History Workshop Series. This series of books, which grew out of the journal of the same name, advocated 'history from below' and examined numerous, often social, issues from the perspectives of ordinary people. In the words of founder Raphael Samuel, the aim was to turn historical research and writing into 'a

collaborative enterprise', via public gatherings outside of a traditional academic setting, that could be used to support activism and social justice as well as informing politics. Some of the topics examined in the set include: mineral workers, rural radicalism, and the lives and occupations of villagers in the nineteenth century; working class association; the development of left-wing workers theatre and the changing attitudes to mass culture across the twentieth century; the changing fortunes of the East End at the turn of the century; the position of women from the nineteenth century to the present; the miners' strike of 1984-5; the social and political images of late-twentieth century London; and a three volume analysis of the myriad facets of English patriotism. This set will be of interest to students of history, sociology, gender and politics.

Waking Sleeping Beauty - Roberta S. Trites
1997-06

The Sleeping Beauty in Roberta Seelinger Trites'

intriguing text is no silent snoozer passively waiting for Prince Charming to energize her life. Instead she wakes up all by herself and sets out to redefine the meaning of "happily ever after." Trites investigates the many ways that Sleeping Beauty's newfound voice has joined other strong female voices in feminist children's novels to generate equal potentials for all children. Waking Sleeping Beauty explores issues of voice in a wide range of children's novels, including books by Virginia Hamilton, Patricia MacLachlan, and Cynthia Voight as well as many multicultural and international books. Far from being a limiting genre that praises females at the expense of males, the feminist children's novel seeks to communicate an inclusive vision of politics, gender, age, race, and class. By revising former stereotypes of children's literature and replacing them with more complete images of females in children's books, Trites encourages those involved with children's literature—teachers, students, writers,

publishers, critics, librarian, booksellers, and parents—to be aware of the myriad possibilities of feminist expression. Roberta Trites focuses on the positive aspects of feminism: on the ways females interact through family and community relationships, on the ways females have revised patriarchal images, and on the ways female writers use fictional constructs to transmit their ideologies to readers. She thus provides a framework that allows everyone who enters a classroom with a children's book in hand to recognize and communicate—with an optimistic, reality-based sense of “happily ever after”—the politics and the potential of that book.

[Family, School and Nation](#) - Nivedita Sen
2015-07-03

This seminal work examines the concurrence of childhood rebellion and conformity in Bengali literary texts (including adult texts), a pertinent yet unexplored area, making it a first of its kind. It is a study of the voice of child protagonists across children's and adult literature in Bengali

vis-à-vis the institutions of family, the education system, and the nationalist movement in the nineteenth and twentieth centuries.

The Child and the Book - Nicholas Tucker
1990-09-13

This study considers the appeal of popular children's books from both a psychological and a literary viewpoint. It covers a range of reading matter including: picture books; fairy stories; myths and legends; comics and books for teenagers and adolescents.

Aesthetic Approaches to Children's

Literature - Maria Nikolajeva 2005-05-12
As undergraduate and graduate courses in children's literature become more established and numerous, there is an intense need for a textbook that offers aesthetic rather than educational approaches to children's literature. This work fills that void by providing students of children's literature with a comprehensible and easy-to-use analytical tool kit, showing through concrete demonstration how each tool might best be used. The chapters are organized around

familiar and easily recognized features of literary texts (e.g. author, genre, character). Theoretical issues are illustrated by specific texts from the North American children's literature canon. The book explores the particular aesthetics of children's fiction and the ways critical theory may be applied to children's texts, while remaining accessible to a college readership without prior specialized knowledge of literary theory. Each chapter includes a short introduction to a specific theoretical approach (e.g. semiotics, feminist, psychoanalytic), an example of its application to a literary text, a number of activities (study questions, reading exercises), and suggestions for further explorations.

Literature For Children - Peter Hunt
2003-09-02

Children's literature has recently produced a body of criticism with a highly distinctive voice. The book consolidates understanding of this area by including some of the most important

essays published in the field in the last five years, demonstrating the links between literary criticism, education, psychology, history and scientific theory. It includes Peter Hollindale's award-winning essay on Ideology and Children's Literature, topics from metafiction and post-modernism to fractal geometry, and the examination of texts ranging from picture books to The Wizard of Oz and the the Australian classic *Midnight*. Sources are as disparate as *Signal* and the Children's Literature Association Quarterly, and the international community is represented by writers from Britain, the USA, Canada, Australia and Germany. Each essay is set in its critical context by extensive quotation from authoritative articles.

Gender, 'Race' and Class in Schooling - Dr Chris Gaine 2005-06-27

With education and social inequalities under scrutiny, this timely book provides an up-to-date summary of research into the key issues, as well as practical strategies for educators, including

strategies for staff development, working with children and school policy. The facts have changed significantly, and much received wisdom cannot be relied upon: girls' performance is rising faster than boys and surpasses them in almost all respects up to the age of 18; unequal opportunity faced by those of different race is becoming more fractured along class, gender, ethnic and religious lines; class divisions are increased with the reintroduction of selection and has become a matter of concern for government and school policy makers. This title makes good the lack of literature on inequality, and brings teachers, and those training to be teachers, the latest information. *Understanding Sport* - John Horne 2005-10-10 Bringing a cultural and social dimension to the study of sport, this introductory guide will help students understand the context of sport and the place it has in the lives of individuals as well as in modern British society as a whole. Theoretically rigorous yet accessible,
