Lessons - Gisele Bündchen 2018-10-02

The instant New York Times bestseller Supermodel and philanthropist

Gisele Bündchen shares personal stories, insights, and photos to explore lessons that have helped shape her life. Gisele Bündchen's journey began

in southern Brazil, growing up with five sisters, playing volleyball, and rescuing the dogs and cats around her hometown. In fact, she wanted to become either a professional volley player or a veterinarian. But at the age of 14, fate suddenly intervened in the form of a modeling scout, who spotted her in São Paulo. Four years later, Gisele's appearance in Alexander McQueen's memorably rain-soaked London runway show in the spring 1998 launched her spectacular career as a fashion model, and put an end to the "heroin chic" era of fashion. Since then, Gisele has appeared in almost 400 ad campaigns and on over 1200 magazine covers. She has walked in more than 470 fashion shows for the most influential brands in the world. Gisele has become an icon, leaving a lasting mark on the fashion industry. But until now, few people have gotten to know the real Gisele, a woman whose private life stands in dramatic contrast to her public image. In *Lessons*, she reveals for the first time who she really is and what she's learned over the past 37 years to help her live a meaningful life--a journey that takes readers from a childhood spent barefoot in small-town Brazil, to an internationally successful career, motherhood and marriage to quarterback Tom Brady. A work of great openness and vulnerability, *Lessons* reveals the inner life of a very public woman.

Marine Plastic Debris and Microplastics - United Nations Environment Programme (UNEP) 2016-05-11

This report presents both short- and long-term approaches to the problem of marine plastic debris and micro plastics. It provides an overview of the latest science and experiences, identifies priority areas of

action, and points out areas requiring more research. Improved waste management is urgently needed to reduce the flow of plastic into our oceans.

Fishing in the Aftermath - Salena Saliva Godden 2014-03-07

How often is it that a poet with the critical standing of Selena Godden publishes their first collection 20 years into their collection? This is more than a sweeping up exercise, more than a greatest hits retrospective. Salena takes us on a hair-raising ride through the process of a writer, the highs, the lows, the drinks, the lovers, the sex (especially the sex) that she has embraced and shared with audiences over 20 years.

Springfield Road - Salena Godden 2014-09-30

'Honest, grippingly readable, funny and uplifting' MAGGIE GEE
Springfield Road is a journey into childhood in the late 1970s, a time of halfpenny sweets, fish and chips in newspaper, scrumping apples and foraging for conkers. Set in the dawn of Thatcher's Britain, it's a salute to every curly-top, scabby knee'd, mixed-up, half-crazy kid with NHS glasses, free school dinners and hand-me-downs, as told by the daughter of an Irish jazz musician and a Jamaican go-go dancer. It's about discovering that life is unfair, that there are bullies out there, and that parents die; yet it is the very antithesis of a misery memoir. It's a vivid, uplifting tale that seeks out the humour, colour and tenderness in the world, and when you read it you will say Hey! I remember, we did that too! You might say: I remember being closer to the ground; I remember summers were longer and how oranges were bigger; I remember struggling to comprehend sex and war, life and death, heaven and hell, and perhaps you'll say, I remember I missed my dad too...

Luckenbooth - Jenni Fagan 2021-01-14

ONE OF GRANTA MAGAZINE'S BEST OF YOUNG BRITISH NOVELISTS SHORTLISTED FOR THE JAMES TAIT BLACK PRIZE FOR FICTION, THE DESMOND ELLIOTT PRIZE FOR THE PANOPTICON and THE GORDON BURN PRIZE 2021 'One of the most stunning literary experiences I've had in years' Irvine Welsh 'Dazzlingly ambitious' Douglas Stuart, author of Shuggie Bain 'A gloriously transgressive novel' Ian Rankin 1910, Edinburgh. Caught in the crossfire are the residents of 10 Luckenbooth Close, and they all have their own stories to tell. While the world outside is changing, inside, the curse creeps up all nine floors and through each door. Soon, the building's longest kept secret - the truth of what happened to Jessie - will finally be heard.

Ali Baba and the Forty Thieves - Walter McVitty 1998

Digital Entrepreneurship in Africa - Nicolas Friederici 2020-07-28

The hope and hype about African digital entrepreneurship, contrasted with the reality on the ground in local ecosystems. In recent years, Africa has seen a digital entrepreneurship boom, with hundreds of millions of dollars poured into tech cities, entrepreneurship trainings, coworking spaces, innovation prizes, and investment funds. Politicians and technologists have offered Silicon Valley-influenced narratives of boundless opportunity and exponential growth, in which internet-enabled entrepreneurship allows Africa to "leapfrog" developmental stages to take a leading role in the digital revolution. This book contrasts these aspirations with empirical research about what is actually happening on the ground. The authors find that although the digital revolution has empowered local entrepreneurs, it does not untether local economies from the continent's structural legacies. Drawing on a five-year research

project, the authors show how entrepreneurs creatively and productively adapt digital technologies to local markets rather than dreaming of global dominance, achieving sustainable businesses by scaling based on relationships and customizing digital platform business models for African infrastructure challenge. The authors examine African entrepreneurial ecosystems; show that African digital entrepreneurs have begun to form a new professional class, becoming part of a relatively exclusive cultural and economic elite; and discuss the impact of Silicon Valley's mythologies and expectations. Finally, they consider the implications of their findings and offer recommendations to policymakers and others.

Acts: Courageous Witness in a Hostile World - Howard Brant 2013-01-24

Most commentaries on Acts are written by Western scholars for a Western audience. This book comes out of more than forty years of teaching in the Majority World. It is aimed at the new breed of emerging missionaries from Asia, Africa, and Latin America. The apostles in Acts faced a hostile world. Yet in that context, the Holy Spirit gave them incredible courage. The scenes of Peter, Stephen, and Paul facing angry mobs and the fury of the Jewish Sanhedrin are being played out in India, China, and Eritrea today. Acts teaches us how to have a "courageous witness in a hostile world." Further, this work addresses the powerful forces that assault the worldwide church--particularly the racism that splits the church all over the world. Acts: Courageous Witness in a Hostile World will thrill you as you see how God's Spirit overcomes every obstacle and keeps the church on track, even when we think all is lost. Read this book for yourself and become courageous.

Complex, Intelligent and Software Intensive Systems - Leonard Barolli 2021-06-29

This book includes the proceedings of the 15th International Conference on Complex, Intelligent, and Software Intensive Systems, which took place in Asan, Korea, on July 1-3, 2021. Software intensive systems are systems, which heavily interact with other systems, sensors, actuators, devices, and other software systems and users. More and more domains are involved with software intensive systems, e.g., automotive,

telecommunication systems, embedded systems in general, industrial automation systems, and business applications. Moreover, the outcome of web services delivers a new platform for enabling software intensive systems. Complex systems research is focused on the overall understanding of systems rather than its components. Complex systems are very much characterized by the changing environments in which they act by their multiple internal and external interactions. They evolve and adapt through internal and external dynamic interactions. The development of intelligent systems and agents, which is each time more characterized by the use of ontologies and their logical foundations build a fruitful impulse for both software intensive systems and complex systems. Recent research in the field of intelligent systems, robotics, neuroscience, artificial intelligence, and cognitive sciences is very important factor for the future development and innovation of software intensive and complex systems. The aim of the book is to deliver a platform of scientific interaction between the three interwoven challenging areas of research and development of future ICT-enabled applications: Software intensive systems, complex systems, and intelligent systems.

Educated - Tara Westover 2022-02-08

#1 NEW YORK TIMES, WALL STREET JOURNAL, AND BOSTON GLOBE BESTSELLER • One of the most acclaimed books of our time: an unforgettable memoir about a young woman who, kept out of school, leaves her survivalist family and goes on to earn a PhD from Cambridge University “Extraordinary . . . an act of courage and self-invention.”—The New York Times NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW • ONE OF PRESIDENT BARACK OBAMA’S FAVORITE BOOKS OF THE YEAR • BILL GATES’S HOLIDAY READING LIST • FINALIST: National Book Critics Circle’s Award In Autobiography and John Leonard Prize For Best First Book • PEN/Jean Stein Book Award • Los Angeles Times Book Prize Born to

survivalists in the mountains of Idaho, Tara Westover was seventeen the first time she set foot in a classroom. Her family was so isolated from mainstream society that there was no one to ensure the children received an education, and no one to intervene when one of Tara’s older brothers became violent. When another brother got himself into college, Tara decided to try a new kind of life. Her quest for knowledge transformed her, taking her over oceans and across continents, to Harvard and to Cambridge University. Only then would she wonder if she’d traveled too far, if there was still a way home. “Beautiful and propulsive . . . Despite the singularity of [Westover’s] childhood, the questions her book poses are universal: How much of ourselves should we give to those we love? And how much must we betray them to grow up?”—Vogue ONE OF THE BEST BOOKS OF THE YEAR: The Washington Post, O: The Oprah Magazine, Time, NPR, Good Morning America, San Francisco Chronicle, The Guardian, The Economist, Financial Times, Newsday, New York Post, theSkimm, Refinery29, Bloomberg, Self, Real Simple, Town & Country, Bustle, Paste, Publishers Weekly, Library Journal, LibraryReads, Book Riot, Pamela Paul, KQED, New York Public Library

The Social Construction of Reality - Peter L. Berger 2011-04-26

A watershed event in the field of sociology, this text introduced “a major breakthrough in the sociology of knowledge and sociological theory generally” (George Simpson, American Sociological Review). In this seminal book, Peter L. Berger and Thomas Luckmann examine how knowledge forms and how it is preserved and altered within a society. Unlike earlier theorists and philosophers, Berger and Luckmann go beyond intellectual history and focus on commonsense, everyday knowledge—the proverbs, morals, values, and beliefs shared among ordinary people. When first published in 1966, this systematic, theoretical treatise introduced the term social construction, effectively creating a new thought and transforming Western philosophy.

The Thousand and One Nights - M. S. Mahdi 1995

Almost three centuries have passed since the oldest manuscript of "The Thousand and One Nights" arrived in Europe. Since then, the "Nights"

have occupied the minds of scholars world-wide, in particular the questions of origin, composition, language and literary form. In this book, Muhsin Mahdi, whose critical edition of the text brought so much praise, explores the complex literary history of the "Nights," bringing to fruition the search for the archetype that constituted the core of the surviving editions, and treating the fascinating story of the growth of the collection of stories that we now know as "The Thousand and One Nights,"

Anti-Diet - Christy Harrison 2019-12-26

A how-to guide to reclaiming your time, money, health and happiness in our toxic diet culture. In *Anti-Diet*, Christy Harrison takes on diet culture and the multi-billion-pound industries that profit from it, exposing all the ways it robs people of their time, money, health and happiness. It will turn what you think you know about health and wellness upside down, as Harrison explores the history of diet culture, how it's infiltrated the health and wellness world, how to recognise it in all its sneaky forms, and how letting go of efforts to lose weight or eat 'perfectly' actually helps to improve people's health - no matter their size. Drawing on scientific research, personal experience and stories from patients and

colleagues, *Anti-Diet* provides a radical alternative to diet culture, and helps readers reclaim their bodies, minds, and lives so they can focus on the things that truly matter. 'Please read this book! *Anti-Diet* is the book to end all diet books, and will be a game changer for so many people. Christy is an expert on this subject and leaves no stone unturned in exposing how insidious and harmful diet culture is - and teaching readers how to opt-out of the madness.' - Caroline Dooner, author of *The F*ck It Diet* 'A huge burden has been lifted: I no longer have to revise my first book to reflect current understanding! Christy Harrison beat me to it. I'm blown away by how good *Anti-Diet* is. Using a social justice lens, well-researched and smart science, captivating storytelling, and practical advice, this book will help you reclaim your life from the throttle of diet culture.' - Linda Bacon, author of *Health at Every Size*, co-author of *Body Respect* 'Most diet and wellness books claim to address mind, body, and spirit, but in fact they are just about body. Thank goodness for Christy Harrison, whose empathetic book reveals oppressive diet culture for what it truly is, and offers a genuinely holistic alternative.' - Alan Levinovitz, author of *The Gluten Lie*

New York, My Village: A Novel - Uwem Akpan 2021-11-02

Exuberant storytelling full of wry comedy, dark history, and devastating satire—by the celebrated and original author of the #1 New York Times bestseller, *Say You're One of Them*. From a suspiciously cheap Hell's Kitchen walk-up, Nigerian editor and winner of a Toni Morrison Publishing Fellowship Ekong Udousoro is about to begin the opportunity of a lifetime: to learn the ins and outs of the publishing industry from its incandescent epicenter. While his sophisticated colleagues meet him with kindness and hospitality, he is soon exposed to a colder, ruthlessly commercial underbelly—callous agents, greedy landlords, boorish and hostile neighbors, and, beneath a superficial cosmopolitanism, a bedrock of white cultural superiority and racist assumptions about Africa, its peoples, and worst of all, its food. Reckoning, at the same time, with the recent history of the devastating and brutal Biafran War, in which Ekong's people were a minority of a minority caught up in the mutual slaughter of majority tribes, Ekong's life in New York becomes a saga of

unanticipated strife. The great apartment deal wrangled by his editor turns out to be an illegal sublet crawling with bedbugs. The lights of Times Square slide off the hardened veneer of New Yorkers plowing past the tourists. A collective antagonism toward the “other” consumes Ekong’s daily life. Yet in overcoming misunderstandings with his neighbors, Chinese and Latino and African American, and in bonding with his true allies at work and advocating for healing back home, Ekong

proves that there is still hope in sharing our stories. Akpan’s prose melds humor, tenderness, and pain to explore the myriad ways that tribalisms define life everywhere, from the villages of Nigeria to the villages within New York City. *New York, My Village* is a triumph of storytelling and a testament to the life-sustaining power of community across borders and across boroughs.
