Roman Sexualities - Judith P. Hallett 2020-10-06

This collection of essays seeks to establish Roman constructions of sexuality and gender difference as a distinct area of research, complementing work already done on Greece to give a fuller picture of ancient sexuality. By applying feminist critical tools to forms of public discourse, including literature, history, law, medicine, and political oratory, the essays explore the hierarchy of power reflected so strongly in most Roman sexual relations, where noblemen acted as the penetrators and women, boys, and slaves the penetrated. In many cases, the authors show how these roles could be inverted--in ways that revealed citizens' anxieties during the days of the early Empire, when traditional power structures seemed threatened. In the essays, Jonathan Walters defines the impenetrable male body as the

ideational norm; Holt Parker and Catharine Edwards treat literary and legal models of male sexual deviance; Anthony Corbeill unpacks political charges of immoral behavior at banquets, while Marilyn B. Skinner, Ellen Oliensis, and David Fredrick trace linkages between social status and the gender role of the male speaker in Roman lyric and elegy; Amy Richlin interrogates popular medical belief about the female body; Sandra R. Joshel examines the semiotics of empire underlying the historiographic portrayal of the empress Messalina; Judith P. Hallett and Pamela Gordon critique Roman caricatures of the woman-desiring woman; and Alison Keith discovers subversive allusions to the tragedy of Dido in the elegist Sulpicia's self-depiction as a woman in love.

Modernist Sexualities - Hugh Stevens 2000

Leading critics from Britain,

*Downloaded from
legacy.opendemocracy.net
on 2021-11-05 by guest*

Canada, and the US examine modernism's imaginative rethinkings of sex, gender, and sexuality. Original essays show how modernism intersects with the suffragette movement, technological change and its effects on women and labor, the growth of pseudo-scientific writings, and the burgeoning lesbian and gay movement. They show how modernism upsets the fixities of gender and sexuality through its fascination with ambiguities, marginality, and the crossing of borders. Sex reformers and sex changers, unsexed storytellers, typewriters, femme and butch experimenters, suffragettes in wide-brimmed hats, musical and dramatic pageants, adolescent delinquents, sunbathers, and dancing indigenes all play a role in the heterodox and varied modernism revealed in these essays.

Luxurious Sexualities - Jean Howard 2005-08-12

Luxurious Sexualities contains some of the most path-breaking adventurous critical writing currently to be found in

Britain. Focusing on eighteenth century sexuality it is intriguing, controversial and provoking. Textual Practice contains articles relating to women, popular culture, visual media, and ethnic and sexual minorities.

Getting Medieval - Carolyn Dinshaw 1999-09-22

In Getting Medieval Carolyn Dinshaw examines communities—dissident and orthodox—in late-fourteenth and early-fifteenth-century England to create a new sense of queer history. Reaching beyond both medieval and queer studies, Dinshaw demonstrates in this challenging work how intellectual inquiry into pre-modern societies can contribute invaluablely to current issues in cultural studies. In the process, she makes important connections between past and present cultures that until now have not been realized. In her pursuit of historical analyses that embrace the heterogeneity and indeterminacy of sex and sexuality, Dinshaw examines

*Downloaded from
legacy.opendemocracy.net
on 2021-11-05 by guest*

canonical Middle English texts such as the Canterbury Tales and The Book of Margery Kempe. She examines polemics around the religious dissidents known as the Lollards as well as accounts of prostitutes in London to address questions of how particular sexual practices and identifications were normalized while others were proscribed. By exploring contemporary (mis)appropriations of medieval tropes in texts ranging from Quentin Tarantino's Pulp Fiction to recent Congressional debates on U.S. cultural production, Dinshaw demonstrates how such modern media can serve to reinforce constrictive heteronormative values and deny the multifarious nature of history. Finally, she works with and against the theories of Michel Foucault, Homi K. Bhabha, Roland Barthes, and John Boswell to show how deconstructionist impulses as well as historical perspectives can further an understanding of community in both pre- and postmodern societies. This

long-anticipated volume will be indispensable to medieval and queer scholars and will be welcomed by a larger cultural studies audience.

Researching Non-Heterosexual Sexualities - Dr Constantinos N Phellas
2012-11-01

After widespread neglect over many years, the study of human sexuality has recently come to the forefront of many of the most important debates in contemporary society and culture. This book addresses seriously the issue of how to improve the methodological basis of research into non-heterosexual sexualities, exploring the key question of what different methodological and theoretical uses of intersectionality contribute to our understandings of non-heterosexual sexualities. Bringing together research from the UK, USA, Europe and Australasia, this innovative collection rethinks traditional methodologies, creating new epistemologies and applying new approaches, whilst critically examining key issues,

Downloaded from
legacy.opendemocracy.net
on 2021-11-05 by guest

including communities, identities, relationships, sexualities, homosexual parenthood, fostering, civil marriage, and politics. As such, it will be of interest to researchers, scholars and students across the social sciences and health professionals.

Italian Sexualities Uncovered, 1789-1914 - Valeria P. Babini
2015-03-24

Bringing together an interdisciplinary group of scholars, this volume explores nineteenth-century Italian sexualities from a variety of viewpoints, illuminating in particular personal and political relationships, same-sex desires, gender roles that defy societal norms, sexual behaviours of different classes and transnational encounters.

Sexualities in History - Kim M. Phillips 2013-10-18

Over the past twenty years, historians have overturned nearly everything we once took for granted about human sexuality. Gender, sexual orientation, "deviance," and even the biology of sex have

been unmasked for what they are-historically specific, culturally contested, and above all, unstable constructions.

Bodies, Sex and Desire from the Renaissance to the Present - Kate Fisher

2011-10-18

An examination of how bodies and sexualities have been constructed, categorised, represented, diagnosed, experienced and subverted from the fifteenth to the early twenty-first century. It draws attention to continuities in thinking about bodies and sex: concept may have changed, but they nevertheless draw on older ideas and language.

Premodern Sexualities -

Louise Fradenburg 2013-12-02

Premodern Sexualities offers rigorous new approaches to current problems in the historiography of sexuality. From queer readings of early modern medical texts to transcribing and interrogating premodern documents of sexual transgression, the contributors bring together current theoretical discourses on sexuality while emphasizing

problems in the historicist interpretation of early textualizations of sexuality. *Premodern Sexualities* clarifies the contributions literary studies can make--through its emphasis on reading strategies--to the historiography of sexuality. [Novel Bodies](#) - Jason S. Farr 2019-06-07

Novel Bodies examines how disability shapes the British literary history of sexuality. Jason Farr shows that various eighteenth-century novelists represent disability and sexuality in flexible ways to reconfigure the political and social landscapes of eighteenth-century Britain. In imagining the lived experience of disability as analogous to—and as informed by—queer genders and sexualities, the authors featured in *Novel Bodies* expose emerging ideas of able-bodiedness and heterosexuality as interconnected systems that sustain dominant models of courtship, reproduction, and degeneracy. Further, Farr argues that they use

intersections of disability and queerness to stage an array of contemporaneous debates covering topics as wide-ranging as education, feminism, domesticity, medicine, and plantation life. In his close attention to the fiction of Eliza Haywood, Samuel Richardson, Sarah Scott, Maria Edgeworth, and Frances Burney, Farr demonstrates that disabled and queer characters inhabit strict social orders in unconventional ways, and thus opened up new avenues of expression for readers from the eighteenth century forward. Published by Bucknell University Press. Distributed worldwide by Rutgers University Press.

[English Sexualities, 1700–1800](#)

- Tim Hitchcock 1997-03-05

This fascinating and wide-ranging analysis of gender and sexualities brings together the disparate literatures on demography, love and marriage, the body, homosexuality, lesbianism, and the regulation of sexuality. It makes available to both undergraduates and

professionals these complex literatures in an accessible and readable form, and in the process changes our understanding of the nature of the origins and development of modern sexual roles and gender relations.

Language, Sexualities and Desires - Sakis Kyratzis
2006-12-14

Sexualities are perceived, constructed and represented in different ways in various languages and cultures. This volume addresses how people use various linguistic features to construct their sexual identities and relationships and how membership of specific social groups, based on sexual and lifestyle choices, may be signalled through language.

Queering Sexualities in Turkey - Cenk Özbay 2017-05-25

Despite its some of its more liberal and democratic characteristics - when compared to many other countries in the Middle East - the more conservative elements within Turkish politics and society have made gains over the past decades. As

a result, like many others in the region, Turkish society has multiple standards when naming, evaluating and reacting to men who have sex with men. Cenk Özbay argues that overall, self-identified gay men (as well as men who practice clandestine same-sex acts) are most of the time marginalised, ostracised and rendered 'immoral' in both everyday practices and social institutions. He offers in this book an analysis of the concept of masculinity as central to redefining boundaries of class, gender and sexuality, particularly looking at the dynamics between self-identified gay men and straight-acting male prostitutes, or 'rent boys'. A result of in-depth interviews with both self-identified gay men and rent boys, Özbay explores the changing discourses and meaning of class, gender and queer sexualities, and how these three are embedded within urban and familial narratives.

Christianity and Sexuality in the Early Modern World -

*Downloaded from
legacy.opendemocracy.net
on 2021-11-05 by guest*

Merry E. Wiesner 2000
In this global survey of Christianity and sexuality in the early modern period, Merry Wiesner-Hanks assesses the role of personal faith and the Church itself in the control and expression of all aspects of sexuality.

Reading Sexualities - Donald E. Hall 2012-08-06

Reading Sexualities confronts the reigning practices, priorities, and preoccupations of queer theory and sexuality studies. Looking at a range of texts, from novels to travel narratives to internet porn, Donald E. Hall deftly weaves the theoretical with the literary in order to: examine the vexed ethical, critical, and political questions arising from sexual consumerism and cross-cultural encounters read the changing landscape of sexual identity, finding great cause for optimism and enthusiastic engagement urge readers to embrace a far-reaching dialogic practice as a mechanism for furthering radical social change. Reading Sexualities shows how our

sexual desires and bases for identification are being widely challenged and changed.

Drawing on hermeneutic theory and the work of Hans-Georg Gadamer, Hall argues that by approaching sexual diversity with openness and humility, we become active participants in the politically urgent process of reading the self through the perspective of the other.

Sexualities and Society - Megan Todd 2020-11-11

By using a fresh, sociological perspective, this book explores the development of sexualities across both public and private spheres, highlighting the history and development of 'sexualities' before looking at how sexualities are framed by cultural factors, including the media, religion, and politics, with thoughtful consideration given to heterosexualities, cis, bi and trans identities.

Sexuality and its Queer Discontents in Middle English Literature - T. Pugh 2008-02-04

This book exposes the ways in which ostensibly normative sexualities depend upon

Downloaded from
legacy.opendemocracy.net
on 2021-11-05 by guest

queerness to shore up their claims of privilege. Through readings of such classic texts as *The Canterbury Tales* and *Eger and Grime*, Tison Pugh explains how sexual normativity can often be claimed only after queerness has been rejected.

De-Centering Sexualities -

Richard Phillips 2005-08-19

This book of critical rural geography breaks new ground by drawing attention to sex and sexualities outside the metropolis. It explores sexualities and sexual experiences in a variety of rural and marginal spaces with international contributions from a wide range of disciplines. These include: literary and cultural studies, lesbian and gay studies, geography, history and law. Among the topics uncovered are: * a lesbian in rural England * sexual life in rural Wales * sexuality in rural South Africa * scandal in the American South: sex, race and politics * nature and homosexuality in literature * Derry/Londonderry as a sexual

space * how 'country folk' are sexualised in popular culture.

English Sexualities,

1700-1800 - Tim Hitchcock

1997-04-15

The eighteenth century witnessed the birth of the first recognisably modern sexual identities. This book charts the development of those identities through the examination of pornography, sexual practice, medical belief, social policy, and the cultures of homosexuality, lesbianism, and heterosexuality. It concludes that the century saw a sexual revolution in which sexual practice itself changed. From a culture in which mutual masturbation and mutable sexual categories were the norm, eighteenth-century England became a society increasingly concerned to foster penetrative and procreative sexual behaviour. In the process, newly harsh divisions between men and women were created and reinforced, and new models of both femininity and masculinity were created. This book charts a series of complex

interrelationships between changes in language and practice, and suggests that men were increasingly encouraged to invest their masculinity in an exclusive desire for the opposite sex, while women were pushed towards a sexual identity in which motherhood came to dominate, and in which female lust was denigrated or denied. At the same time, new homosexual and lesbian identities were likewise created and denigrated.

Sexual Sites, Seminal Attitudes

- Sanjay Srivastava 2004-03-20
Discussions on sexuality in the South Asian context have tended to focus largely on men's preoccupations through notions such as 'semen-anxiety'. Another restrictive framework is the excessive

importance ascribed to religion in everyday life. The result has been a rather narrow debate on sexuality. By providing accounts of a myriad sites and meanings of sexuality, this remarkable volume broadens the debate on sexuality in South Asia. It combines perspectives from history, anthropology, and cultural and literary studies to provide an interdisciplinary exploration of the cultures of, and the multiple meanings and contestations that gather around, masculinities and sexualities. The collection is unique in the breadth of its theoretical concerns; its focus on hitherto marginalized sexual identities; and its novel juxtapositions of analyses of colonial discourses with those of postcolonised modernity.
