

Fearless One Woman One Kayak One Continent

To the Top - Joe Glickman 2003
A light-hearted account of two close friends accomplishing an American odyssey. Adventurer Joe Glickman and his friend, outdoor photographer Nels Akerlund, tell of their completed 50-state quest which began in 1994, when, over glasses of beer, they hatched a plan to climb America's 50 state summits while documenting the expedition. Expecting the exercise to take six months, Joe and Nels found themselves embarking on a five-year marathon.

Encounters from a Kayak - Nigel Foster 2012-11-20
What makes travel special? Perhaps the chill realization that a polar bear's eyes are fixed on you. Maybe it is the chance meeting with a man who buries sharks in a beach, only to dig them up months

later, not out of morbid curiosity, but for food. Perhaps it is the undulating wing-beat of a dark shell-less gastropod in the canal of a 17th Century French sea port, or the criminal history of a rusting ship with a tree growing from its hold. Encounters in a Kayak brings the reader along on the magical experiences that surround sea kayaking. It's about the animals, people, and special places around the globe that have grabbed the attention of renowned kayaker and writer Nigel Foster. His irrepressible curiosity drives him to tease out the unexpected stories hidden behind his subjects. These nuggets from around the world are bound together by water and a centuries-old form of sea travel: kayak. The result is a book of broad appeal for those

interested in kayaking, traveling, and adventure.

Amazon Woman - Darcy Gaechter 2020-03-03

An extraordinary and inspiring chronicle of one woman's harrowing journey to become the first female to kayak the entire Amazon River. Part memoir, part feminist manifesto, Amazon Woman shows what incredible feats we are capable of and will encourage people, especially women, across all backgrounds and ages to find the courage and strength to live the life they've imagined. This 148-day journey began on Darcy Gaechter's 35th birthday. The emotional waters that would fester and erupt on the ensuing journey was often more challenging to navigate than the mighty river itself. With blistering lips and irradiated fingernails, Darcy would tackle raging Class Five whitewater for twenty-five days straight, barely survived a dynamite-filled canyon being prepared for a new hydroelectric plan. She and her two companions would encounter illegal

loggers, narco-traffickers, murderous Shining Path rebels, and ruthless poachers in the black market trade in endangered species. In a desperate attempt meant to give her some pretense of control, Darcy even cut off all her hair before entering Peru's notoriously dangerous "Red Zone" in hopes of passing for a boy and being seen as less of a target. At once a heart-pounding adventure and a celebration of pushing personal limits, Amazon Woman speaks to all of us feeling trapped by our desk-bound, online society. This a story of finding the courage and strength to challenge nature, cultures, social norms, and oneself.

Kayaking - Allison Stark Draper 2015-12-15

Kayaking is an ancient activity that was once key to the survival of Inuit peoples. It has since become a recreational pursuit popular among young and old alike. Readers will be excited to take to the water after learning the basics of kayaking, including proper paddle control and performing

a roll. Beginners will learn where they can enjoy a leisurely introduction to kayaking with a scenic guided tour and how they can work their way up to the difficult rapids tackled by advanced kayakers. Important terms, equipment, strokes, and the differences between sea and whitewater kayaking are also covered.

Theodore Von Neuhoff, King of Corsica - Julia Gasper 2013

"A visionary and a madman" was how one British statesman, Lord Carteret, described Theodore von Neuhoff. This exciting biography, Theodore von Neuhoff, King of Corsica: The Man behind the Legend by Julia Gasper, traces the unlikely career of the German baron who in 1736 had himself crowned the King of Corsica. Theodore von Neuhoff's career spanned the entire European continent and his role in the Corsican rebellion against Genoa was as bold and unconventional as everything else in his life. Mixing with royalty, rogues and rabble, he was successively a soldier,

secret agent, Jacobite, speculator, alchemist, cabbalist, Rosicrucian, astrologer, fraudster, and spy. He had changed his name several times, abducted a nun and seen the inside of several prisons before turning his hand to revolution. Neuhoff had daring far-sighted ideas about religious tolerance and the abolition of slavery that turned the Corsican rebellion into a significant political event with repercussions way beyond the shores of one small island. Denounced as an arch-criminal, traitor and seditious heretic, he survived pursuit by the agents of the Genoese Republic for twenty years with a price on his head, dodging assassination attempts while meeting countless famous and fascinating people. Valuable to the British as a political tool against the French, he spent his old age in relative comfort in an English debtors' prison. Theodore von Neuhoff, King of Corsica argues that despite all his eccentricity Neuhoff was still a significant Enlightenment figure.

Fearless - Joe Glickman 2012

The Bombproof Roll and Beyond - Paul Dutky 2005

"The Bombproof Roll and Beyond" is an introduction to edge control and balance for paddlers at the beginner through advanced levels. Most of this book is dedicated to the Eskimo roll, because the path leading toward mastery of the roll introduces the aspiring paddler to almost all the fundamentals needed for advanced whitewater maneuvers. A reliable roll also gives paddlers the confidence to experiment with new techniques.

All the Way Round - Stuart Trueman 2013-06-01

In 2010, Stuart Trueman set out on a 16-month voyage to circumnavigate Australia by kayak. He wasn't the first person to complete the circumnavigation, or even the second - but he was determined to make it a triumphant third. Stuart's adventure was to be done on a shoestring, with no support team and a powerful belief in

the philosophy of Do-It-Yourself, albeit with the kindness and help of the many people he met along the way. This single-handed journey would see him face extraordinary challenges, including the non-stop crossing of mighty 200-kilometre cliff formations, huge seas, dangerous surf, sleeping whales, inquisitive sharks, large crocodiles and the sheer, relentless grind of paddling day in and day out all around Australia's massive coastline. From heatstroke in the tropical north to the icy gales of the Southern Ocean, and everything in between, Stuart's experienced all the wonders and terrors of Australia's diverse geography, writing a gripping account that vividly brings to life the coasts of our incredible continent. Filled with dry humour, resilience and the myriad incidents and dramas that made up this epic journey, *All the Way Round* is a classic of adventure.

Literature for Young Adults -

Joan L. Knickerbocker
2017-03-15

Young adults are actively looking for anything that connects them with the changes happening in their lives, and the books discussed throughout *Literature for Young Adults* have the potential to make that connection and motivate them to read. It explores a great variety of works, genres, and formats, but it places special emphasis on contemporary works whose nontraditional themes, protagonists, and literary conventions make them well suited to young adult readers. It also looks at the ways in which contemporary readers access and share the works they're reading, and it shows teachers ways to incorporate nontraditional ways of accessing and sharing books throughout their literature programs. In addition to traditional genre chapters, *Literature for Young Adults* includes chapters on literary nonfiction; poetry, short stories, and drama; cover art, picture books, illustrated literature, and graphic novels; and film. It recognizes that,

while films can be used to complement print literature, they are also a literacy format in their own right--and one that young adults are particularly familiar and comfortable with. The book's discussion of literary language--including traditional elements as well as metafictional terms--enables readers to share in a literary conversation with their students (and others) when communicating about books. It will help readers teach young adults the language they need to articulate their responses to the books they are reading.

Crazy for the Storm: A Memoir of Survival - Norman Ollestad 2009-08-06

Set in the aftermath of a harrowing plane crash, this is the true story of one young boy's fight for survival in nature's most treacherous conditions.

Love with a Chance of Drowning - Torre DeRoche 2013-05-14

New love. Exotic destinations. A once-in-a-lifetime adventure. What could go wrong? City girl Torre DeRoche isn't looking for

love, but a chance encounter in a San Francisco bar sparks an instant connection with a soulful Argentinean man who unexpectedly sweeps her off her feet. The problem? He's just about to cast the dock lines and voyage around the world on his small sailboat, and Torre is terrified of deep water. However, lovesick Torre determines that to keep the man of her dreams, she must embark on the voyage of her nightmares, so she waves goodbye to dry land and braces for a life-changing journey that's as exhilarating as it is terrifying. Somewhere mid-Pacific, she finds herself battling to keep the old boat, the new relationship, and her floundering sanity afloat. . . . This sometimes hilarious, often harrowing, and always poignant memoir is set against a backdrop of the world's most beautiful and remote destinations. Equal parts love story and travel memoir, *Love with a Chance of Drowning* is witty, charming, and proof positive that there are some risks worth taking.

One for the Road - Bjørn Christian Tørrissen 2008-11-10
 Building on experience from 60 countries worth of independent travel, the author takes you on three journeys to places you may never have considered visiting, although you probably should and you definitely could. Learn about a low-budget cruise to Antarctica, understand what the Trans-Siberian Railway really is like, enjoy the natural wonders of Southern Africa. The book is a fun read, but you will also learn about far-away destinations and about how to travel independently anywhere. It's not a travel guide or a travel journal, it's both! More details, including free downloads, available from <http://bjornfree.com/>

Fearless - Joe Glickman 2012-01-24
 Like the instant classic *The Last American Man*, *Fearless* is the story of a remarkable individual who accepts no personal limits—including fear. Freya Hoffmeister, a forty-six-year-old former sky diver, gymnast, marksman, and Miss

Germany contestant, left her twelve-year-old son behind to paddle alone and unsupported around Australia—a year-long adventure that virtually every expert guaranteed would get her killed. She planned not only to survive the 9,420-mile trip through huge, shark-infested seas, but to do it faster than the only other paddler who did it. As journalist and expert kayaker Joe Glickman details the voyage of this Teutonic force of nature, he captures interminable days on the water and nights camped out on deserted islands; hair-raising encounters with crocs and great white sharks; and the daring 300-mile open-ocean crossing that shaved three weeks off her trip. For 332 days Glickman followed Freya’s journey on her blog—along with a far-flung audience of awestruck, even lovesick, groupies—as she took on one terrifying ordeal after the next. In the end, he says, “her vanity and pigheadedness paled next to her nearly superhuman ability to master fear and persevere.”

Sea Kayaking - John Dowd 2015-04-20

Still regarded as “the bible” for both new and experienced kayakers after more than thirty years in print, *Sea Kayaking* covers the basics of equipment and technique, including types of paddles and strokes, as well as such essential skills as how to read the weather and the water, how to navigate with and without GPS and how to travel with a group. Drawing on his many years of experience paddling in all climates, John Dowd presents practical advice on dealing with potential hazards (from surf to sea ice to sharks), carrying out rescues and planning for long-distance expeditions. New for this edition are hints about digital technologies for planning and navigating while kayak touring as well as lots of tips for outfitting boats, adapting equipment and finessing fishing technique while kayak angling—whether casting and jigging for fun on a day trip or trolling for dinner on a longer expedition. are the sections on managing risk and the inspiring stories of adventure, including Freya Hoffmeister's record-breaking circumnavigation of Australia and Japanese paddlers' increasingly challenging trips around the islands and beyond. As a sport, sea kayaking continues to evolve. Once the sport of a very few long-distance paddlers embarking on international expeditions, then the recreational pursuit of many weekend tourers, sea kayaking is now popular with many day trippers as well. As more and more paddlers take to the water—for the day, the weekend or many months, this classic guide continues to be required reading for those seeking adventure on the open ocean.

Totch - Loren G. Brown
2018-12

"Totch Brown's memoirs of vanished days in the Ten Thousand Islands and the Everglades--the last real frontier in Florida, and even today the greatest roadless wilderness in the United States--are invaluable as well

as vivid and entertaining, for Totch is a natural-born storyteller, and his accounts of fishing and gator hunting as well as his life beyond the law as gator poacher and drug runner are evocative and colorful, fresh and exciting."--from the foreword by Peter Matthiessen In the mysterious wilderness of swamps, marshes, and rivers that conceals life in the Florida Everglades, Totch Brown hung up his career as alligator hunter and commercial fisherman to become a self-confessed pot smuggler. Before the marijuana money rolled in, he survived excruciating poverty in one of the most primitive and beautiful spots on earth, Chokoloskee Island, in the mangrove keys known as the Ten Thousand Islands located at the western gateway to the Everglades National Park. Until he wrote this memoir--recollections from his childhood in the twenties that merge with reflections on a way of life dying at the hands of progress in the nineties--Totch had never read a book in

his life. Still, his writing conveys the tension he experienced from trying to live off the land and within the laws of the land. Told with energy and authenticity, his story begins with the handful of souls who came to the area a hundred years ago to homestead on the high ground formed from oyster mounds built and left by the Calusa Indians. They lived close to nature in shacks built of tin or palmetto fans; they ate wild meat, Chokoloskee chicken (white ibis), swamp cabbage, even--when they were desperate--manatee; and they weathered all manner of natural disaster from hurricanes to swarms of "swamp angels" (mosquitoes). In his grandpa's day, Totch writes, outlaws and cutthroats would "shoot a man down just as quick as they'd knock down an egret, especially if he came between them and the plume birds." His grandparents were both contemporaries of Ed J. Watson, the subject of Peter Matthiessen's best-selling *Killing Mr. Watson*, and Totch

is featured in the recent award-winning PBS film *Lost Man's River: An Everglades Adventure with Peter Matthiessen*. He also appeared in *Wind Across the Everglades*, the 1957 Budd Schulberg movie in which Totch and Burl Ives sing some of Totch's Florida cracker songs. Loren G. "Totch" Brown was born in Chokoloskee, Florida, in 1920. After purchasing his first motorboat at the age of thirteen (and retiring from formal schooling after the seventh grade) he worked as an alligator hunter, commercial fisherman, crabber, professional guide, poacher, marijuana runner, singer, and songwriter.

[The Final Frontiersman](#) - James Campbell 2007-11-01

The inspiration for *The Last Alaskans*—the hit documentary series now on the

Discovery+—James Campbell's inimitable insider account of a family's nomadic life in the unshaped Arctic wilderness "is an icily gripping, intimate profile that stands up well beside Krakauer's classic [Intro

the Wild], and it stands too, as a kind of testament to the rough beauty of improbably wild dreams” (Men’s Journal). Hundreds of hardy people have tried to carve a living in the Alaskan bush, but few have succeeded as consistently as Heimo Korth. Originally from Wisconsin, Heimo traveled to the Arctic wilderness in his twenties. Now, more than three decades later, Heimo lives with his wife and two daughters approximately 200 miles from civilization—a sustainable, nomadic life bounded by the migrating caribou, the dangers of swollen rivers, and by the very exigencies of daily existence. In *The Final Frontiersman*, Heimo’s cousin James Campbell chronicles the Korth family’s amazing experience, their adventures, and the tragedy that continues to shape their lives. With a deft voice and in spectacular, at times unimaginable detail, Campbell invites us into Heimo’s heartland and home. The Korths wait patiently for a small plane to deliver their provisions, listen to distant

chatter on the radio, and go sledding at 44 degrees below zero—all the while cultivating the hard-learned survival skills that stand between them and a terrible fate. Awe-inspiring and memorable, *The Final Frontiersman* reads like a rustic version of the American Dream and reveals for the first time a life undreamed by most of us: amid encroaching environmental pressures, apart from the herd, and alone in a stunning wilderness that for now, at least, remains the final frontier.

The Lost Canyon of Gold - W.

C. Jameson 2017-09-01

Join the Search for Lost Treasure First popularized by folklorist and author J. Frank Dobie in his book *Apache Gold and Yaqui Silver* in 1928, the legend of the Lost Adams Diggings is one of the most mythologized tales of lost treasure on the continent. In the 1860s, Gold was taken from Adams’ canyon in enormous quantities, with nuggets ranging from dust-size to some as large as hen’s eggs, all being plucked from the bottom

of a shallow stream. This true story of the Lost Adams Diggings starts with the discovery of the rich deposit of gold in a remote mountain range, and ends with the author's own story of search and discovery in the twentieth century.

The Pacific Alone - Dave Shively 2018-10-01

In the summer of 1987 Ed Gillet achieved what no person has accomplished before or since, a solo crossing from California to Hawaii by kayak. Gillet, at the age of 36 an accomplished sailor and paddler, navigated by sextant and always knew his position within a few miles. Still, Gillet underestimated the abuse his body would take from the relentless, pounding, swells of the Pacific, and early into his voyage he was covered with salt water sores and found that he could find no comfortable position for sitting or sleeping. Along the way he endured a broken rudder, among other calamities, but at last reached Maui on his 63rd day at sea, four days after his food had run

out. Dave Shively brings Gillet's remarkable story to life in this gripping narrative, based on exclusive access to Gillet's logs as well as interviews with the legendary paddler himself.

Ten Hours Until Dawn -

Michael J. Tougias 2007-04-01

In the midst of the Blizzard of 1978, the tanker Global Hope floundered on the shoals in Salem Sound off the Massachusetts coast. The Coast Guard heard the Mayday calls and immediately dispatched a patrol boat. Within an hour, the Coast Guard boat was in as much trouble as the tanker, having lost its radar, depth finder, and engine power in horrendous seas. Pilot boat Captain Frank Quirk was monitoring the Coast Guard's efforts by radio, and when he heard that the patrol boat was in jeopardy, he decided to act. Gathering his crew of four, he readied his forty-nine-foot steel boat, the Can Do, and entered the maelstrom of the blizzard. Using dozens of interview and audiotapes that recorded every

word exchanged between Quirk and the Coast Guard, Tougias has written a devastating, true account of bravery and death at sea, in *Ten Hours Until Dawn*. *Sea Kayaker's More Deep Trouble* - Christopher Cunningham 2013-08-02

29 STORIES THAT ILLUSTRATE WHAT CAN HAPPEN WHEN SAFETY IS LEFT ON SHORE *Sea Kayaker's Deep Trouble* was a bestselling warning to kayakers: Do not let ignorance or arrogance get you hurt or even killed. Thousands heeded *Deep Trouble's* tales of tragedy; but even with the benefits of evolving technology and more safety options, kayakers still fall prey to human error. To renew the cautious attitude of seasoned paddlers and to instill safe practices in kayaking newbies, *Sea Kayaker's More Deep Trouble* presents more stories of kayaking trials, rescues, and

tragedy. In these 29 stories collected from *Sea Kayaker* magazine, survivors and witnesses tell of their experiences with the dangers and risks of kayaking. You will feel the cold rush of water when paddlers fall in, the panic they feel when they do not know how to rescue themselves, and the anxiousness of loved ones waiting to hear any news. You will learn how whale watching could cost you your life, how life-saving electronics are only as good as the batteries you have in them, and how a float plan can initiate a timely search and rescue. End-of-story Lessons Learned summaries suggest what to do if you find yourself in similar unfortunate situations. Read these tales, understand the lessons learned in these incidents, and respect the advice given as you take your next kayaking adventure. This tome of danger and survival may ultimately save your life.
