Not in Front of the Children - Marjorie Heins 2007-09-11

From Huckleberry Finn to Harry Potter, from Internet filters to the v-chip, censorship exercised on behalf of children and adolescents is often based on the assumption that they must be protected from “indecent” information that might harm their development—whether in art, in literature, or on a Web site. But where does this assumption come from, and is it true? In *Not in Front of the Children*, Marjorie Heins explores

the fascinating history of “indecent” laws and other restrictions aimed at protecting youth. From Plato’s argument for rigid censorship, through Victorian laws aimed at repressing libidinous thoughts, to contemporary battles over sex education in public schools and violence in the media, Heins guides us through what became, and remains, an ideological minefield. With fascinating examples drawn from around the globe, she suggests that the “harm to minors” argument rests on shaky foundations.

The Oldest Rule - Christopher B. Gilbert 2014

This book could save you \$1 million! OK, maybe not - but some school districts have spent that much defending themselves (and not always successfully) in First Amendment lawsuits brought by students and their parents. First Amendment litigation is on the rise across the nation, and as any principal who has sat through a deposition in one of those cases can tell you, the raw emotions and zealous anger that fuels such disputes can become a massive distraction from your real job of running a school. The

Oldest Rule is a comprehensive examination of the different First Amendment issues involving students that public school administrators and attorneys are increasingly facing on daily basis. We will look at such topics as school prayer, dress codes, student threats and cyberbullying, the distribution of literature, the use of public facilities by outside groups, the celebration of religious holidays, and the rise of esoteric religions and their impact in the public schools. Written by Chris Gilbert, an attorney with over twenty-one years' experience advising and representing school districts - big and small, urban and rural -- this book combines discussions of the legal standards and key case decisions with practical advice and hypotheticals.

The Educator's Guide to Texas School Law -
Jim Walsh 2022-09-13

Much has changed in the area of school law since the first edition of The Educator's Guide to Texas School Law was published in 1986. This new tenth edition of The Educator's Guide offers an authoritative source on Texas school law through the 2021 legislative sessions. Intended for educators, school board members, attorneys, and taxpayers, it explains what the law is and what the implications are for effective school operations; it helps professional educators avoid expensive and time-consuming lawsuits by taking effective preventive action; and it serves as a highly valuable resource for school law courses and staff development sessions. The tenth edition begins with a review of the legal structure of the Texas school system, incorporating recent features such as charter schools and districts of innovation, then addresses the instructional program, service to students with special needs, the rights of public

school employees, the role of religion, student discipline, governmental transparency, privacy, parental rights, and the parameters of legal liability for schools and school personnel. The book includes discussion of major federal legislation, such as the Individuals with Disabilities Education Act, the Family Educational Rights and Privacy Act, Section 504 of the Rehabilitation Act of 1973, and Title IX. On the state level, the book incorporates laws pertaining to cyberbullying, inappropriate relationships between students and employees, and human sexuality instruction.

It's Now Or Never - Jody Hice 2012-01-11

Not since the Revolution has our nation faced greater challenges or more potential for total collapse. America is hanging by a thread. Politics have failed; government policies are disastrous; corruption abounds; the dollar is fading; courts are abandoning the Constitution; morality has

been lost ... and the majority of citizens are dreadfully silent. The light from "the city on a hill" has grown dim. The question is, "Will it go out?" One thing is certain: now is the time for action! America originated from an ideal unlike anything previous, consisting of "We the people" and the foundation of "under God." Tragically, the Founders' vision has become unrecognizable today. Hence, under God, we the people have a sacred responsibility to be good citizens ~ involved in preserving the moral and political purity of our republic. In fact, our system of government does not work without involvement from the people, so to be disengaged at this critical hour must be considered un-American and unacceptable. Another "revolution" is desperately needed if America is to be salvaged, and the sacrificial commitment of our forefathers will be required. Today the enemy is not the British; we are the problem ... but we are also the solution! It's Now or Never provides a path for reclaiming America. By clearly

identifying the key issues that are destroying our nation's core, this book sets forth essential steps each citizen can take to help regain our country and become a part of the solution. The light of America can shine again. Your role is vital, but you must act quickly it's now or never!

United States. Congress. House. Committee on Economic and Educational Opportunities. Subcommittee on Oversight and Investigations 1996

These hearings transcripts present testimony regarding parents' and schools' roles in teaching values to school age children, the federal funds involved in values education, and the remedies available to parents who may object to or be offended by some of the topics taught and the vehicles used to teach these topics. Witnesses included: (1) representatives from Delaware, California, Wisconsin, Michigan, and Ohio; (2) William Bennett, former Secretary of Education; and (3) several parents, teachers, and school administrators. Testimony presented noted that parental involvement is the most important factor in helping children succeed in school. Parents want their children to be taught the basics, but trust in schools is broken when parents are shut out of the process. Schools need to reflect the values of the community.

School choice improves schools and reinvolves parents. How people in school treat one another is more important than values programs. Children are moral agents who recognize right from wrong as defined by moral influences, whether from parents, teachers, friends, or television. Additional testimony conveyed parents' disagreement with the content of information conveyed in school programs for sex education and AIDS education, parents' concerns about treatment of homosexual students, and possible misuse of government funds for AIDS education. Creating Safe and Supportive Learning

Environments - Emily S. Fisher 2013-04-17

The importance of creating safe spaces for lesbian, gay, bisexual, transgender, and questioning (LGBTQ) students in the school environment cannot be overstated. It is one of the most prominent issues facing school professionals today, and its success has lasting, positive effects on the entire student body. Drawing on the expertise of researchers and practitioners, *Creating Safe and Supportive Learning Environments* provides a comprehensive examination of the topics most relevant for school professionals. The first section lays out the theoretical foundation and background school professionals need to understand the social and political trends that

impact LGBTQ individuals, the development of sexual orientation and gender identity, risk and resilience factors, and the intersection of LGBTQ identity with other aspects of diversity. The second section explores topics critical for the development of safe, supportive school environments, including understanding legal and ethical mandates, training school personnel, addressing bullying and harassment, and developing inclusive classrooms. Special topics related to counseling LGBTQ students, supporting families of LGBTQ students, becoming an ally and advocate in the schools, and connecting with community resources are also covered.
