Finance for Youth - W. Stanton 2010-04-29

This book is the first step on the path of teaching teens and young adults the skills that they will need throughout their lives. Not a get-rich-quick book, this isn't even about getting rich. Instead, Finance For Youth: This Book covers basic, time-tested strategies like: - Getting and keeping a job-Choices in financial institutions-Making a budget based on priorities-Getting a car-Living on your own for the first time, and much more! Since our schools either cannot or will not teach financial literacy, Finance For Youth has stepped in to give parents, teens, young adults, and those who might need a little nudge in the right direction an alternative based on experience and authority in the subject.

[Pull Yourself up by Your Bootstraps](#) - Evelyn Cross 2022-01-05

Many self-help books promise a magical leap from rags to riches, but this book is different. Evelyn Cross went from being a homeless single mother to a professional woman steeped in success. Today, she owns a home, drives a new car, and has all the trappings of a put-together woman. In this book, she emphasizes the value of hard work, noting that we're not all born with a special gift—and we're not all destined to become celebrities, sports heroes, or business tycoons. With hard work, however, you can:

- make the most of the cards you're dealt;
- create a plan to achieve goals;
- identify the work you want to do;
- spend your money wisely.

You can act today to overcome obstacles and live a happy, healthy productive life. You can be a success! Make smart decisions, stop feeling sorry for yourself, and walk down a path that leads to success with the wisdom in *Pull Yourself Up by Your Bootstraps*.

Shaping Sustainable Fashion - Alison Gwilt 2012-06-25

The production, use and eventual disposal of most clothing is environmentally damaging, and many fashion and textile designers are becoming keen to employ more sustainable strategies in their work. This book provides a practical guide to the ways in which designers are creating fashion with less waste and greater durability. Based on the results of extensive research into lifecycle approaches to sustainable fashion, the book is divided into four sections:

- source: explores the motivations for the selection of materials for fashion garments and suggests that garments can be made from materials that also assist in the management of textile waste
- make: discusses the differing approaches to the design and manufacture of sustainable fashion

garments that can also provide the opportunity for waste control and minimization use: explores schemes that encourage the consumer to engage in slow fashion consumption last: examines alternative solutions to the predictable fate of most garments – landfill. Illustrated throughout with case studies of best practice from international designers and fashion labels and written in a practical, accessible style, this is a must-have guide for fashion and textile designers and students in their areas.

Questioning Evangelism, 3rd edition - Randy Newman 2023-01-17

You don't need to memorize evangelical formulas or answers. You just have to be willing to ask questions. There was something different about the way Jesus communicated with the lost: He didn't force answers upon people; He asked questions. So why don't we? Campus ministry veteran Randy Newman has been using a questioning style of evangelism for years. In this thought-provoking book, he provides practical insights to help Christians engage others in meaningful spiritual conversations. To Newman, asking questions challenges how we think about unbelievers, their questions, and our message, instead of telling unbelievers what to think. A perennial best-seller, this third edition includes both revisions of current chapters, such as an expanded discussion on LGBTQ+ issues and the debate on transgenderism, and new chapters that ponder issues such as science and suffering. "Distilled out of twenty years of personal evangelism, this book reflects both a deep grasp of biblical theology and a penetrating compassion for people--and finds a way forward in wise, probing questions. How very much like the Master Himself!" --D. A. Carson, Trinity Evangelical Divinity School "Questioning Evangelism steps outside the boundaries of evangelism as usual and tackles the

tougher issues of our modern day." --Mitch Glaser, Chosen People
