**33 ways to make her miss you** - Celine Claire 2022-02-14

Being apart from the lady you like can be one of the difficult things you ever have to do. So how do you make sure that the girl misses you while you're gone? This e-book gives you up to 50 ways to make her miss you. Tip number one. Minimize the amount of time you spend together If you want the girl to miss you when you're apart from one another, then you can't spend too much of your free time with her. You should hang out with her enough to make her see how awesome, fun, and interesting you are, but not so much that she starts to take you for granted or feels like you've run out of things to say to each other. Make an effort to see her once or twice a week, but ensure that she's not the only to-do on your social calendar, or she'll start to think that she can have you whenever she wants. Tip number two. Limit your phone time with her If you and the girl you are interested in talk on the phone, ensure that you keep your conversations relatively short so she doesn't assume you have nothing better to do than to talk to her all the time. You can talk to her to set up plans or to see how she's doing for some few minutes, but you shouldn't let the conversation drag on so long that you've run out of things to say. To keep her interested, you want her to feel like she can never run out of things to say to you once you meet. Don't tell her everything that you're thinking or everything that's happening in your life over the phone. Save some of it for when you actually meet her in-person.
