Mad Girl's Love Song - Andrew Wilson 2013-02-05

A new biography of Sylvia Plath, a literary icon who continues to haunt, fascinate, and enthrall even now, fifty years after her death On February 25 , 1956, twenty-three-year-old Sylvia Plath walked into a party and immediately spotted Ted Hughes. This encounter—now one of the most famous in all of literary history—was recorded by Plath in her journal, where she described Hughes as a “big, dark, hunky boy.” Sylvia viewed

Ted as something of a colossus, and to this day his enormous shadow has obscured her life and work. The sensational aspects of the Plath-Hughes relationship have dominated the cultural landscape to such an extent that their story has taken on the resonance of a modern myth. Before she met Ted, Plath had lived a complex, creative, and disturbing life. Her father had died when she was only eight; she had gone out with literally hundreds of men, had been unofficially engaged, had tried to commit suicide, and had written more than two hundred poems. *Mad Girl's Love Song* chronicles these early years, traces the sources of her mental instability, and examines how a range of personal, economic, and societal factors—the real disquieting muses—conspired against her. Drawing on exclusive interviews with friends and lovers who have never spoken openly about Plath before and using previously unavailable archives and papers, this is the first book to focus on the early life of the twentieth century's most popular and enduring female poet. *Mad Girl's Love Song* reclaims Sylvia Plath from the tangle of emotions associated with her relationship with Ted Hughes and reveals the origins of her unsettled and unsettling voice.

Why We Love - Helen Fisher 2005-01-02

A groundbreaking exploration of our most complex and mysterious emotion Elation, mood swings, sleeplessness, and obsession—these are the tell-tale signs of someone in the throes of romantic passion. In this revealing new book, renowned anthropologist Helen Fisher explains why this experience—which cuts across time, geography, and gender—is a force as powerful as the need for food or sleep. *Why We Love* begins by presenting the results of a scientific study in which Fisher scanned the brains of people who had just fallen madly in love. She proves, at last, what researchers had only suspected: when you fall in love, primordial areas of the brain "light up" with increased blood flow, creating romantic passion. Fisher uses this new research to show exactly what you experience when you fall in love, why you choose one person rather than another, and how romantic love affects your sex drive and your feelings of attachment to a partner. She argues that all animals feel romantic attraction, that love at first sight comes out of nature, and that human romance evolved for crucial reasons of survival. Lastly, she offers concrete suggestions on how to control this ancient passion, and she optimistically explores the future of romantic love in our chaotic modern world. Provocative, enlightening, and persuasive, *Why We Love* offers radical new answers to the age-old question of what love is and thus provides invaluable new insights into keeping love alive.

How to Tell If Someone Truly Loves You - Femi Ogunjinmi 2020-03-25

Statistics show that about nine-in-ten Americans cited love as a very important reason to get married. Whether you are single, dating or in a relationship, the thought of if someone truly loves you or you are in love comes to mind. We all want to fall in love and get married to someone who feels the same way we feel about them. However, people find it hard to say those three big words (I Love You) we want to hear. The reason for their hesitation varies. They are afraid to be perceived as moving too fast if it's a relatively new relationship, so they don't want to push you away. It could be because they don't want to come off too strong if they cannot tell that you have similar feelings. And some people hold off saying it because they feel like the other person should say it first. Regardless if they are professing their love or hiding it, this book will reveal the signs that convey someone truly loves you and if what you are feeling also is true love. Dr. Femi "Gfem" Ogunjinmi is a global relationship new rule expert, TV host of Dr. Femi Show, United Nation Representative, and author of Revelations of Relationship: What You Don't Know About Finding True Love and Sustaining Relationship.
