[\(Re-\)Imagining New Media - Christoph Ernst 2021-05-31](#)

The late 20th century was a formative phase in the history of digital media culture. The introduction of "new media" was associated with promises for the future that still resonate today. This book brings together contributions that discuss key aspects of the "imaginaries" surrounding new media in this epoch. The focus is on the works of the media artist group Van Gogh-TV, especially the historically very important interactive television project "Piazza virtuale" (1992).

[Kremos - Jerry Carr 2015-12-21](#)

(PREMIUM EDITION) He worked under numerous names--Kremos, Niso, Nys O'Ramp--but he occupies a singular space as Italy's cartooning Casanova, and he finally gets his due in this new two-volume set from Lost Art Books. From the mid-1940s through the early 1960s, Niso Ramponi's work was everywhere, from collaborating with friend Federico Fellini in Italy's animation industry to drawing newspaper strips to creating movie posters for Walt Disney. Ramponi made his name, however, in Italy's weekly satire magazines, for which he drew some of the world's prettiest "good girl" gag cartoons and covers for over a decade. Volume 1 collects over 200 of Kremos' bodacious black & white cartoons and illustrations, while Volume 2 adds 250 of his curvaceous color comics and covers to the set. Combined, these volumes offer a

comprehensive overview of the maverick artist when he was at the height of his powers.

Bad Blood - John Carreyrou 2018-05-31

'I couldn't put down this thriller' - Bill Gates Winner of the Financial Times/McKinsey Business Book of the Year Award. The shocking true story of the breathtaking rise and collapse of Theranos, the multibillion-dollar biotech startup founded by Elizabeth Holmes, written by the prize-winning journalist who first broke the story and pursued it to the end. Seen as the female Steve Jobs, Theranos founder and CEO Elizabeth Holmes was a brilliant Stanford dropout whose startup 'unicorn' promised to revolutionize the medical industry with a machine that would make blood testing significantly faster and easier. Backed by wealthy investors, Theranos sold shares that valued the company at more than \$9 billion. There was just one problem: the technology didn't work . . . Despite threats of legal action, brave whistleblowers started to talk. They revealed a culture of intimidation and secrecy, technology that repeatedly failed, results sent to real patients that were incorrect but upon which life-changing medical decisions were being made, with devastating consequences. The riveting story behind The Dropout, in *Bad Blood*, John Carreyrou investigates the biggest corporate fraud since Enron, a tale of ambition and scandal set amid the bold promises of Silicon Valley. Women Vs Capitalism - Vicky Pryce 2019

The free market as we know it cannot produce gender equality. This is the bold but authoritative argument of Vicky Pryce, the government's former economics chief. *Women vs Capitalism* is a fresh and timely reminder that, although the #MeToo movement has been hugely important, empowerment of the mind will not achieve full power for women while there remains economic inequality. Pryce urgently calls for feminists to focus attention on this pressing issue: the pay gap, the glass ceiling, and the obstacles to women working at all. Only with government intervention in the labor market will these long-standing problems finally be conquered. From the gendered threat of robot labor to the lack of women in economics itself, this is a sharp look at an uncomfortable truth: we will not achieve equality for women in our society without radical changes to Western capitalism.
