The Charisma Myth - Olivia Fox Cabane 2013-03-26

What if charisma could be taught? The charisma myth is the idea that charisma is a fundamental, inborn quality—you either have it (Bill Clinton, Steve Jobs, Oprah) or you don't. But that's simply not true, as Olivia Fox Cabane reveals. Charismatic behaviors can be learned and perfected by anyone. Drawing on techniques she originally developed for Harvard and MIT, Cabane breaks charisma down into its components. Becoming more charismatic doesn't mean transforming your fundamental personality. It's about adopting a series of specific practices that fit in with the personality you already have. The Charisma Myth shows you how to become more influential, more persuasive, and more inspiring.

Mobile Media In and Outside of the Art Classroom - Juan Carlos Castro 2019-09-19

This edited volume explores a range of educational effects on student learning that resulted from a long-term study using a creative visual arts curriculum designed for mobile media (smartphones and tablets) and used in art classrooms. The curriculum, entitled MonCoin, a French phrase meaning My Corner, was initially designed and piloted in a Montreal area school for at-risk youth in 2012. Since then, it has been refined, deployed, and researched across secondary schools from a range of socio-cultural educational contexts. This book is comprised of contributions from researchers and practitioners associated with the MonCoin project who address critical insights gleaned from our study, such as the social context of teen mobile media use; curriculum theory and design; influences of identity on creative practice; and specific strategies for creative applications of mobile media in schools. The purpose of this edited book is to offer art education researchers and teachers innovative curriculum for mobile media and the networked conditions that influence identity, space, and practice with and through this ubiquitous technology.

So You Wanna Be A Car Girl? - Grace Manning

A Young Woman's Guide To Cars

Towards a Sociology of Selfies - Maria-Carolina Cambre 2023-02-17

This book examines selfies as a relational and processual networked social practice, performed between people within digital contexts and that involve online/offline intersections and tensions. It offers an analysis of selfies through a rich and interdisciplinary framework, that explores the ritualized and affective engagements selfies provoke from others. Given that selfies by definition are shared and posted through networked platforms, they complicate notions of traditional photographic self-portraiture. As such, this book explores how selfies invoke broader, stratified patterns of looking that are occluded in discourses of "empowerment" and "visibility", as well as the subjectivities these networked practices work to produce. Drawing on extensive qualitative research conducted over a period of three years, this book questions not only what selfies are but what they do, the worlds they create, the imaginaries that organize them, and the flows of desire, affect and normativity that underpin them, questions that can only be addressed through research that closely attends to the experience of selfie-takers. It will be of interest to those working in the fields of Sociology, Cultural studies, Communications, Visual Studies, Social Media studies, Feminist research and Affect Theory.

Thou Art Lovelier - Austin Phillips 1843

Seducing a Woman with Words - Lucas Lautier 2018-05-31

"Hi, how are you?" Do you count on seducing a girl with this kind of line? Really? May he who has never ended up in the friendzone cast the first stone at me. We've all already found ourselves in this uncomfortable situation: the one where we try to go further with a friend before being gently rejected. And yet, by applying some powerful advice that would have allowed you to position yourself otherwise in the nascent relationship, you would surely be in a relationship with this woman at this time. The secrets I am about to pass on to you have made me the man I am today: a true and complete man who is aware of the hidden power of words. The seduction techniques that you will soon learn have allowed me to sleep with more than forty women at only 22 years old. Passionate about human psychology (and female beauty), I looked into the subject very early to reach my goals. I ended up mastering the tricks of the trade to a point where everything became too easy... Seducing a woman by SMS, approaching on Facebook or flirting on Tinder is child's play for me. This is what you're going to learn in this book: - How to never again end up in the Friendzone by learning the difference between a classic conversation and flirting (many people confuse the two). We don't talk to a friend in the same way that we would talk to a potential future girlfriend. - How to effectively start a conversation with a woman on a dating site or Facebook and make her want to get to know you, by differentiating yourself from other men. - How to never run out of subjects to talk about, by using the storytelling technique. - How to position yourself in the emerging relationship to be and continue to be the alpha-male and to control the upcoming sequence of events. - How to make a girl want you without seeming like a pervert. To handle the art of sexualisation like a God. - How to appear mysterious and make her crazy for you in a short amount of time. - How to be light-hearted, funny and endearing by using humour. The examples will be as real as can be and modelled on real conversations. All of the extracts from discussions which will be presented to you are not made up but rewritten versions of, or strongly inspired by, my past conversations: everything is authentic (except the names used for obvious confidentiality reasons). Ready to be part of the elite? The group of 5% of men who seduce Facebook, Tinder, Happn, Bumble, Match.com, OkCupid, Instagram and many others. And who sleep with all the women of their dreams.
