The Melodrama of Mobility Nancy Abelmann 2003-09-30 How do people make sense of their world in the face of the breakneck speed of contemporary social change? Through the lives and narratives of eight women, *The Melodrama of Mobility* chronicles South Korea's experience of just such dizzyingly rapid development. Abelmann captures the mood, feeling, and language of a generation and an era while providing a rare window on the personal and social struggles of South Korean modernity. Drawing also from television soap operas and films, she argues that a melodramatic sensibility speaks to South Korea's transformation because it preserves the tension and ambivalence of daily life in unsettled times. The melodramatic mode helps people to wonder: Can individuals be blamed for their social fates? How should we live? Who can say who is good or bad? By combining the ethnographic tools of anthropology, an engagement with prevailing sociological questions, and a literary approach to personal narratives, *The Melodrama of Mobility* offers a rich portrait of the experience of compressed modernity in the non-West.

Transnational East Asian Studies Kevin Cawley 2022-12-15

Transnational East Asian Studies demonstrates how transnationalism as a mode of intellectual enquiry has wide-ranging interdisciplinary potential and has immense value when examining the past, just as much as when examining the present. Artificially erected borders, which appear on maps and globes, fail to consider the ways people in diverse regions live and practice their everyday lives, existing beyond boundaries. The people of East Asia have always been on the move, they have never been homogeneous, and have evolved together, not apart. In this sense, people around the globe and also in East Asia have always been involved in a process of change and transformation. Hence, transnationalism is a way to overcome methodological nationalism, not only as a concept of identity and spatiality, but also as a concept temporally situated in the modern, because as a methodology, transnationalism does not take the national as a precondition. It allows us to move beyond and across borders, and to examine how ideas have been used and transformed in different contexts. This book thus underscores the complex interactions in the context of East Asia, past and present, while shaping the future of this complicated region.

Awakening the Hermit Kingdom Katherine H. Lee Ahn 2009-06-01

Awakening the Hermit Kingdom: Pioneer American Women Missionaries in Korea gives a focused look at the long-ignored subject, the pioneer women missionaries to the Hermit Kingdom, as the early missionaries often called Korea. Based largely on private papers and mission reports of the missionaries, the author explores the life and work of the American women missionaries in the first quarter century of the Protestant mission in Korea. This book brings a new light to the history of Protestantism in Korea by revealing the identity and activities of the women missionaries, as well as the level of religious and social impact made by their presence and work in Korea.

firsthand account of the American Jewish experience on the front lines of the Korean War. During the height of the Korean conflict, 1950–51, Orthodox Jewish chaplain Milton J. Rosen wrote 19 feature-length articles for *Der Morgen Zhornal*, a Yiddish daily in New York, documenting his wartime experiences as well as those of the servicemen under his care. Rosen was among those nearly caught in the Chinese entrapment of American and Allied forces in North Korea in late 1950, and some of his most poignant writing details the trying circumstances that faced both soldiers and civilians during that time. As chaplain, Rosen was able to offer a unique account of the American Jewish experience on the frontlines and in the United States military while also describing the impact of the American presence on Korean citizens and their culture. His interest in Korean attitudes toward Jews is also a significant theme within these articles. Stanley R. Rosen has translated his father's articles into English and provides background on Milton Rosen's military service before and after the Korean conflict. He presents an introductory overview of the war and includes helpful maps and photographs. The sum is a readable account of war and its turmoil from an astute and compassionate observer.

In Order To Live Yeonmi Park 2015-09-29 'I am most grateful for two things: that I was born in North Korea, and that I escaped from North Korea.' Yeonmi Park was not dreaming of freedom when she escaped from North Korea. She didn't even know what it meant to be free. All she knew was that she was running for her life, that if she and her family stayed behind they would die - from starvation, or disease, or even execution. This book is the story of Park's struggle to survive in the darkest, most repressive country on earth; her harrowing escape through China's underworld of smugglers and human traffickers; and then her escape from China across the Gobi desert to Mongolia, with only the stars to guide her way, and from there to South Korea and at last to freedom; and finally her emergence as a leading human rights activist - all before her 21st birthday. Learning Chinese Patricia Duff 2013-03-01 The acquisition of Mandarin Chinese, one of the most important and widely spoken languages in the world today, is the focus of this innovative study. It describes the rise of Chinese as a global language and the many challenges and opportunities associated with learning it. The collaborative, multiple-case study and cross-case analysis is presented from three distinct but complementary theoretical and analytic perspectives: linguistic, sociocultural, and narrative. The book reveals fascinating dimensions of Chinese language learning based on vivid first-person accounts (with autobiographical narratives included in the book) of adults negotiating not only their own and others' language and literacy learning, but also

their identities, communities, and trajectories as users of Chinese. Escaping North Korea Mike Kim 2010-05-16 The first of its kind, this book provides a unique inside look into the hidden world of ordinary North Koreans. Mike Kim, who worked with refugees on the Chinese border for four years, recounts their experiences of enduring famine, sex-trafficking, and torture, as well as the inspirational stories of those who overcame tremendous adversity to escape the repressive regime of their homeland and make new lives. One of the few Americans granted entry into the secretive "Hermit Kingdom," Kim came to know the isolated country and its people intimately. His North Korean friends entrusted their secrets to him as they revealed the government's brainwashing tactics and confessed their true thoughts about the repressive regime that so rigidly controls their lives. Civilians and soldiers alike spoke of what North Koreans think of Americans and war with America. Children remembered the suffering they endured through the famine. Women and girls recalled their horrific experiences at the hands of sex-traffickers. Former political prisoners shared their memories of beatings, torture, and executions in the gulags. With the permission of these courageous individuals, Kim now shares their stories and recounts his dramatic experiences leading North Koreans to asylum through the six-thousand-mile modern-day underground railway through Asia. His unflinching narrative exposes the truth about North Korea, stripping away the last veils that still shroud this brutal dictatorship.

The Courtesan's Arts Martha Feldman 2006-03-23 Courtesans, hetaeras, tawaif-s, ji-s--these women have exchanged artistic graces, elevated conversation, and sexual favors with male patrons throughout history and around the world. In Ming dynasty China and early modern Italy, exchange was made through poetry, speech, and music; in pre-colonial India through magic, music, chemistry, and other arts. Yet like the art of courtesantry itself, those arts have often thrived outside present-

day canons and modes of transmission, and have mostly vanished without trace. The Courtesan's Arts delves into this hidden legacy, while touching on its equivocal relationship to geisha. At once interdisciplinary, empirical, and theoretical, the book is the first to ask how arts have figured in the survival or demise of courtesan cultures by juxtaposing research from different fields. Among cases studied by writers on classics, ethnomusicology, anthropology, and various histories of art, music, literature, and political culture are Ming dynasty China, twentieth-century Korea, Edo and modern Japan, ancient Greece, early modern Italy, and India, past and present. Refusing a universal model, the authors nevertheless share a perception that courtesans hover in the crevices of space, time, and practice--between gifts and money, courts and cities, subtlety and flamboyance, feminine allure and masculine power, as wifely surrogates but keepers of culture. What most binds them to their arts in our post-industrialized world of global services and commodities, they find, is courtesans' fragility, as their cultures, once vital to civilizations founded in leisure and pleasure, are now largely forgotten, transforming courtesans into national icons or historical curiosities, or reducing them to prostitution.

Global Technography Grant Kien 2009 This book develops and employs a new methodology - Global Technography - to investigate wireless mobility from a sociological and cultural perspective. It illustrates that technologies are created to perform roles - to act - in everyday life, and this demands an ethnography that can track the social performativity of technology in addition to that of human beings. The book is suitable for graduate and upper level undergraduate courses in methodology, communications, and cultural work dealing with globalization and new digital communications media.

Elusive Belonging Minjeong Kim 2018-04-30 Elusive Belonging examines the post-migration experiences of Filipina marriage immigrants in rural South Korea. Marriage migration—crossing national borders for marriage—has attracted significant public and scholarly attention, especially in new destination countries, which grapple with how to integrate marriage migrants and their children and what that integration means for citizenship boundaries and a once-homogenous national identity. In the early twenty-first century many Filipina marriage immigrants arrived in South Korea under the auspices of the Unification Church, which has long served as an institutional matchmaker. Based on ethnographic fieldwork, Elusive Belonging examines Filipinas who married rural South Korean bachelors in the first decade of the twenty-first century. Turning away from the common stereotype of Filipinas as victims of domestic violence at the mercy of husbands and in-laws, Minjeong Kim provides a nuanced understanding of both the conflicts and emotional attachments of their relationships with marital families and communities. Her close-up accounts of the day-to-day operations of the state's

multicultural policies and public programs show intimate relationships between Filipinas, South Korean husbands, in-laws, and multicultural agents, and how various emotions of love, care, anxiety, and gratitude affect immigrant women's fragmented citizenship and elusive sense of belonging to their new country. By offering the perspectives of varied actors, the book reveals how women's experiences of tension and marginalization are not generated within the family alone; they also reflect the socioeconomic conditions of rural Korea and the state's unbalanced approach to "multiculturalism." Against a backdrop of the South Korean government's multicultural policies and projects aimed at integrating marriage immigrants, *Elusive Belonging* attends to the emotional aspects of citizenship rooted in a sense of belonging. It mediates between a critique of the assimilation inherent in Korea's "multiculturalism" and the contention that the country's core identity is shifting from ethnic homogeneity to multiethnic diversity. In the process it shows how marriage immigrants are incorporated into the fabric of Korean society even as they construct new identities as Filipinas in South Korea.

Korean American Women Jenny Pak 2013-09-13 Current models of acculturation in multicultural counseling literature are severely limited in describing how individuals deal with the complexity of culture change. The reasons for immigration, the historical period during which the immigration occurred, educational and socioeconomic levels, ethnic community and religious involvements, family functioning, and social support, to name a few, all have an impact in the process of cultural adaptation. This book examines Korean American women's dual-cultural identity. By utilizing multiple case studies, the book highlights: (1) the complexity of issues involved as individuals go through different levels of culture change, and (2) the multiplicity of people negotiating their lives in the dual-cultural context and creating meaning out of many ambiguous and even contradictory life situations.

Praxis-oriented Pedagogy for Novice L2 Teachers Karen E. Johnson 2022-11-30 In this cutting-edge book on L2 teacher education, experts Johnson, Verity, and Childs demonstrate how praxis-oriented pedagogy grounded in the principles of Vygotskian Sociocultural Theory (VSCT) can have a meaningful impact on L2 teachers' development. Starting with a clear definition of praxis-oriented pedagogy, the authors lay out a theoretical foundation and document how appropriately designed praxis-oriented L2 teacher education pedagogy supports the development of novice teacher reasoning. Drawing from a longitudinal study of L2 novice teachers, chapters address the teachers' understanding, learning, and cognitive development and how their capabilities grow in creating and implementing engaging language learning environments for their ESL students. At the core of the book lies a unique set of pedagogical concepts: linguistically compact, conceptually rich chunks of language that function as psychological tools for learning and teaching. By covering teachers' changes in understanding, reasoning, and pedagogical activities, the book reveals the role that pedagogical concepts play in praxis-oriented pedagogy. Essential reading for language teacher educators, language teachers, and researchers, this book makes the VSCT principles that inform praxis-oriented pedagogy both clear and accessible.

malnutrition, and bears the scars of a tragic life. Facing a future of nothing but pain, loss, and hopelessness, we follow the story of a mixed-race African-American child of the Korean War. When Korea begins purging itself of its unwanted casualties, babies of war, her abandonment leads to two orphanages and eventually to adoption in America - where Bang Sun must now become an American - a Black American. Fiercely resilient and embodying her birth country's hope as expressed in the song Arirang, Bang Sun, who becomes Sandra Henderson must learn to navigate a new language, a new culture, and a new family. Through it all, she holds resolutely to the imperfect memory from her five years in her homeland and tenaciously to that of the 'Boy' who saved her life. A powerful memoir of strength, grace, resilience, courage, and kindness, you'll find yourself immersed in this beautiful and inspiring recollection of the child called Bang Sun.

Doing what Had to be Done Soo-Young Chin 1999 The first biography of an American-born Korean woman, *Doing What Had to Be Done* is, on the surface, the life story of Dora Yum Kim. But telling more than one woman's story, author Soo-Young Chin offers more than an unusual glimpse at the shaping of a remarkable community activist. In addition as she questions her subject, introduces each chapter, and reflects on how Dora's story relates to her own experience as a Korean-American who immigrated to this country as an adult she carves around Dora's compelling and courageous life story, a story of her own and one of all Korean-Americans. Born in 1921, Dora, as she tells Chin her story, chronicles the shifting salience of gendered ethnic identity as she journeys through her life. Traveling through time and place, she moves from San Francisco's Chinatown where Koreans were a minority within a minority to suburban Dewey Boulevard where Dora and her family attempt to integrate into mainstream America and where she becomes a social worker in the California State Department of Employment. characterization fails to account for the reality of the two Koreas and their global engagements. The opening essay situates the chapters by highlighting some significant contrasts and commonalities between the experiences of North and South Korea's history of engagement with the world beyond the Peninsula. The chapters explore both the longer-term historical influence of Korea's international contacts as well as specific Korean cultural, linguistic, and social developments that have occurred since the 1990s demise of the global Cold War and greater international integration.

Asia: an Expat Adventure Timothy Marc Pelletier 2013-05-14 If you're looking to read about adventures, look no further. ASIA: An Expat Adventure will take you on a four-year journey through several countries and cultures. It's a true testament to what it's really like to live in another country, what culturalism really is, and how different the world really can be. Tim shoots from the hip in this anthology of all that is wrong (and a few things that are right) about teaching English in the Far East. ASIA: An Expat Adventure is half I Hope They Serve Beer in Hell and half Frommers; it's an essential guide for anybody who wants an insider's view on the agony and the ecstasy (mostly the agony) of ESL life. There are plenty of endearing qualities about Tim's memoirs, not the least of which is his ability to trudge on when others would have bought the next ticket home. As Tim looks back at his beer-soaked escapades through the clarity and wisdom that hindsight provides, we are granted a view of a man who is as resilient as he is ill-fated, and a world that is as perplexing as it is alluring. minority children and their peers at school, and how schools are responding to this trend in terms of providing minority children with opportunities and preparing them for the adult society. The contributors focus on interactions between individuals and among groups representing diverse cultural backgrounds, and explore how such interactions are changing the landscape of education in increasingly multicultural Japan. Drawing on detailed micro-level studies of schooling, the chapters reveal the ways in which these individuals and groups (long-existing minority groups, newcomers, and the 'mainstream Japanese') interact, and the significant consequences of such interactions on learning at school and the system of education as a whole. While the educational achievement of children of varying minority groups continues to reflect their places in the social hierarchy, the boundaries of individual and group categories are negotiated by mutual interactions and remain fluid and situational. *Minorities and Education in Multicultural Japan* provides important insights into bottom-up policy making processes and consciously brings together English and Japanese scholarship. As such, it will be an important resource for those interested in education and minority issues in Japan.

Becoming a Model Minority Fang GAO 2010-03-25 *Becoming a Model Minority: Schooling Experiences of Ethnic Koreans in China* looks at the manner in which ethnic Korean students construct self-perception out of the model minority stereotype in their school and lives in Northeast China. It also examines how this self-perception impacts the strength of the model minority stereotype in their attitudes toward school and strategies for success. Fang Gao shows how this stereotype tends to obscure significant barriers to scholastic success suffered by Korean students, as well as how it silences the disadvantages faced by Korean schooling in China's reform period and neglects the importance of multiculturalism and racial equality under the context of a harmonious society.

But his mission is to find a date to the dance! This is the story of a kid who never left home, embarrassing himself in a place where he doesn't understand anyone, NOT EVEN HIMSELF!

The Intimate University Nancy Abelmann 2009-10-30 The majority of the 30,000-plus undergraduates at the University of Illinois, Urbana-Champaign—including the large population of Korean American students—come from nearby metropolitan Chicago. Among the campus's largest non-white ethnicities, Korean American students arrive at college hoping to realize the liberal ideals of the modern American university, in which individuals can exit their comfort zones to realize their full potential regardless of race, nation, or religion. However, these ideals are compromised by their experiences of racial segregation and stereotypes, including images of instrumental striving that set Asian Americans apart. In *The Intimate University*, Nancy Abelmann explores the tensions between liberal ideals and the particularities of race, family, and community in the contemporary university. Drawing on ten years of ethnographic research with Korean American students at the University of Illinois and closely following multiple generations of a single extended Korean American family in the Chicago metropolitan area, Abelmann investigates the complexity of racial politics at the American university today. Racially hyper-visible and invisible, Korean American students face particular challenges as they try to realize their college dreams against the subtle, day-to-day workings of race. They frequently encounter the accusation of racial self-segregation—a charge accentuated by the fact that many attend the same Evangelical Protestant church—even as they express the desire to distinguish themselves from their

families and other Korean Americans. Abelmann concludes by examining the current state of the university, reflecting on how better to achieve the university's liberal ideals despite its paradoxical celebration of diversity and relative silence on race.
