

I Love Science A Journal For Self Discovery And Big Ideas

High Price - Carl Hart 2013-07-04

High Price by Carl Hart is a groundbreaking work on neuroscience and addiction. As a youth, Carl Hart didn't see the value of school, studying just enough to keep him on the basketball team. At the same time, he was immersed in street life, dealing drugs and committing petty larceny. Today, he is a cutting-edge neuroscientist whose landmark, controversial research is redefining our understanding of addiction. In this provocative and eye-opening memoir, he recalls his journey of self-discovery, how he escaped a life of crime and drugs and avoided becoming one of the crack addicts he now studies. Interweaving past and present, Hart goes beyond the hype as he examines the relationship between drugs and pleasure, choice, and motivation, both in the brain and in society. His findings shed new light on common ideas about race, poverty, and drugs and explain why current policies are failing. But while Hart escaped the ghetto, he has not turned his back on it. Determined to make a difference, he tirelessly applies his science to help save real lives. But balancing his former street life with his achievements today has not been easy—a struggle he reflects on publicly for the first time. *Homocide* (the inspiration for *The Wire*) meets Oliver Sacks' *The Man Who Mistook His Wife for A Hat*, this book applies neuroscience to crime, addiction and the most urgent and destructive issues of our times. Carl Hart is an Associate Professor in the Departments of Psychology and Psychiatry at Columbia University. He is also a Research Scientist in the Division of Substance Abuse at the New York State Psychiatric Institute. He and his work are featured in Eugene Jarecki's acclaimed documentary *The House I Live In*. The film examines the war on drugs and highlights some of the research that Hart includes in *High Price*. He lives in New York City.

The Self-Discovery Journal - Yana Lechtman

2021-07-27

Get to know your true self through a year of self-reflective journaling. Discovering who you really are is a powerful way to create change and build happiness in your life. Happy, Healthy Minds - The School of Life 2020-08-20

An essential guide to help children become more aware of their emotional needs. This book examines a range of everyday topics that might give children's minds difficulties, for example: when parents don't seem to understand us; when we fall out with friends; when school feels boring or difficult; when we're too busy and get overwhelmed; when our phones create trouble; when we feel sad, bored, anxious or fed up with things. As an atlas to a child's mind, we explore a range of common scenarios encountered by young children and talk about some of the very best ideas to help deal with them. By offering a sympathetic and supportive framework, we encourage children to open up, explore their own feelings and face the dilemmas of growing up armed with emotional intelligence.

Art Doodle Love - Dawn DeVries Sokol 2013-02-05

An interactive fill in book, full of creative prompts, lists, collage ideas and art journaling jumpstarts that will motivate individuals to "discover" themselves and their inner doodler.

Perfect for nature lovers of all ages, this is an utterly charming educational guide to the world we live in.

The Book of Me - The School of Life 2021-07-01
Children love to explore, born with a boundless

desire to understand the world around them. While most of the outside world has already been mapped, there's a whole other world that has yet to be discovered, one that's accessible only to them: their own minds. The Book of Me is a guided journal of self-discovery. It takes readers on a journey inside themselves, helping them explore their mind, their moods, their imagination, their conscience, and how they determine the course of their lives. Alongside wise and engaging explanations of ideas, each chapter contains a wealth of interactive exercises that together help to create a rich and unique self-portrait. Through writing, drawing, cutting out and colouring in, children can begin to untangle the mysteries of existence and work out who they really are (and who they might become...). Combining psychology, philosophy and sheer fun, The Book of Me is an introduction to the vital art of self-knowledge, showing how it can help us grow into calmer, wiser and more rounded human beings.

[I Love Science](#) - Rachel Ignatofsky 2017

Colourful and charmingly illustrated, the Women in Science Journal encourages young women and girls to ponder the world and the daily ins and outs of their lives. Opening with a short reference section that contains basic equations, the periodic table, basic HTML codes, and a measurement converter, the journal then invites the user to write and dream through writing prompts like, "What is a challenge you've overcome recently?" and inspirational quotes from notable women who've achieved greatness in the science, technology, mathematics, and engineering (STEM) fields, such as famous primatologist Jane Goodall's, "Only when our clever brain and our human heart work together can we reach our full potential."

[Women in Sports](#) - Rachel Ignatofsky 2021-06-22
New York Times bestseller Rachel Ignatofsky's Women in Sports comes to the youngest readers in board format! Highlighting the pioneering efforts of women athletes, this board book edition of the original bestseller features simpler text and Rachel Ignatofsky's signature beautiful illustrations reimagined for younger readers to introduce the perfect role models for inspiring a love of sports. The collection includes diverse women across various sports, time periods, and geographic location. The perfect gift for every

future athlete!
