**Renaissance Fun** Philip Steadman 2021-04-13 Renaissance Fun is about the technology of Renaissance entertainments in stage machinery and theatrical special effects; in gardens and fountains; and in the automata and self-playing musical instruments that were installed in garden grottoes. How did the machines behind these shows work? How exactly were chariots filled with singers let down onto the stage? How were flaming dragons made to fly across the sky? How were seas created on stage? How did mechanical birds imitate real birdsong? What was 'artificial music', three centuries before Edison and the phonograph? How could pipe organs be driven and made to play themselves by waterpower alone? And who were the architects, engineers, and craftsmen who created these wonders? All these questions are answered. At the end of the book we visit the lost 'garden of marvels' at Pratolino with its many grottoes, automata and water jokes; and we attend the performance of Mercury and Mars in Parma in 1628, with its spectacular stage effects and its music by Claudio Monteverdi - one of the places where opera was born. Renaissance Fun is offered as an entertainment in itself. But behind the show is a more serious scholarly argument, centred on the enormous influence of two ancient writers on these subjects, Vitruvius and Hero. Vitruvius's Ten Books on Architecture were widely studied by Renaissance theatre designers. Hero of Alexandria wrote the Pneumatics, a collection of designs for surprising and entertaining devices that were the models for sixteenth and seventeenth century automata. A second book by Hero On Automata-Making - much less well known, then and now - describes two miniature theatres that presented plays without human intervention. One of these, it is argued, provided the model for the type of proscenium theatre introduced from the mid-sixteenth century, the generic design which is still built today. As the influence of Vitruvius waned, the influence of Hero grew.

*English Furniture* John Bly 2010-07-20 The story of English furniture really begins in the sixteenth century, when the crudities of medieval domestic tables and stools gave way to more sophisticated, jointed designs. This Tudor furniture is the earliest to survive in any quantity and it is where John Bly's classic history of English furniture sets out on its journey of illumination. Over the years, changing fashions, influences from around the world, different materials and developing manufacturing techniques have all had an impact on English furniture, causing it to change over the decades, sometimes quite suddenly. Each of these changes is fully explained, along with studies of completely new types of furniture as they appear in the story. Oak gives way to walnut, and then mahogany, and over the course of the Eighteenth century furniture becomes finer and more formal and the great names - Chippendale, Sheraton and Hepplewhite - emerge and shine a light that takes the story to the next stage. This brand-new, full-color edition of a classic text traces the story up to the twentieth century, with a new coverage of Art Deco furniture by Eric Knowles. It concludes with a masterclass in detecting alterations and fakery that can significantly affect the worth of a piece of furniture. An invaluable tool for the collector, and a delight for the museum visitor, this book is the only one you will need to gain a thorough grounding in the fascinating subject of English furniture.

**Corpus Linguistics, Context and Culture** Viola Wiegand 2019-11-18 Corpus Linguistics, Context and Culture demonstrates the potential of corpus linguistic methods for investigating language patterns across a range of contexts. Organised in three sections, the chapters range from detailed case studies on lexico-grammatical patterns to fundamental discussions of meaning as part of the 'discourse, contexts and cultures' theme. The final part on 'learner contexts' specifically emphasises the need for mixed-method approaches and the consideration of pedagogical implications for real world contexts. Beyond its contribution to current debates in the field, this edited volume indicates new directions in cross-disciplinary work.

What The Butler Saw Joe Orton 2013-12-30 "Joe Orton's last play, What the Butler Saw, will live to be accepted as a comedy classic of English literature" (Sunday Telegraph) The chase is on in this breakneck comedy of licensed insanity, from the moment when Dr Prentice, a psychoanalyst

interviewing a prospective secretary, instructs her to undress. The plot of *What the Butler Saw* contains enough twists and turns, mishaps and changes of fortune, coincidences and lunatic logic to furnish three or four conventional comedies. But however the six characters in search of a plot lose the thread of the action - their wits or their clothes - their verbal self-possession never deserts them. Hailed as a modern comedy every bit as good as Wilde's *The Importance of Being Earnest*, Orton's play is regularly produced, read and studied. *What the Butler Saw* was Orton's final play. "He is the Oscar Wilde of Welfare State gentility" (Observer)

**Sikunder Burnes** Craig Murray 2016-10-20 This is an astonishing true tale of espionage, journeys in disguise, secret messages, double agents, assassinations and sexual intrigue. Alexander Burnes was one of the most accomplished spies Britain ever produced and the main antagonist of the Great Game as Britain strove with Russia for control of Central Asia and the routes to the Raj. There are many lessons for the present day in this tale of the folly of invading Afghanistan and Anglo-Russian tensions in the Caucasus. Murray's meticulous study has unearthed original manuscripts from Montrose to Mumbai to put together a detailed study of how British secret agents operated in India. The story of Burnes' life has a cast of extraordinary figures, including Queen Victoria, King William IV, Earl Grey, Benjamin Disraeli, Lola Montez, John Stuart Mill and Karl Marx. Among the unexpected discoveries are that Alexander and his brother James invented the myths about the Knights Templars and Scottish Freemasons which are the foundation of the Da Vinci Code; and that the most famous nineteenth-century scholar of Afghanistan was a double agent for Russia.

**Beards and Texts** Sebastian Coxon 2021-09-08 *Beards and Texts* explores the literary portrayal of beards in medieval German texts from the mid-twelfth to the early sixteenth centuries. It argues that as the pre-eminent symbol for masculinity the beard played a distinctive role throughout the Middle Ages in literary discussions of such major themes as majesty and humanity. At the same time beards served as an important point of reference in didactic poetry concerned with wisdom, teaching and learning, and in comedic texts that were designed to make their audiences laugh, not least by submitting various figure-types to the indignity of having their beards manhandled. Four main chapters each offer a reading of a work or poetic tradition of particular significance (Pfaffe Konrad's *Rolandslied*; Wolfram von Eschenbach's *Willehalm*; 'Sangspruchdichtung'; Heinrich Wittenwiler's *Ring*), before examining cognate material of various kinds, including sources or later versions of the same story, manuscript variants and miniatures and further relevant beard-motifs from the same period. The book concludes by reviewing the portrayal of Jesus in vernacular German literature, which represents a special test-case in the literary history of beards. As the first study of its kind in medieval German studies, this investigation submits beard-motifs to sustained and detailed analysis in order to shed light both on medieval poetic techniques and the normative construction of masculinity in a wide range of literary genres.

**The Land Gardeners** Bridget Elworthy 2022-04-26 *The Land Gardeners* show you how to establish organic garden beds and sow, grow and harvest over 100 varieties of cut flowers. 'With their instinctive flair, Elworthy and Courtauld established cutting gardens that bring the deep poetry of organic flowers to their enthusiastic customers.' Patrick Kinmonth For *American Vogue* In this visual diary of life in the garden, *The Land Gardeners* share their beliefs on the importance of soil health, introduce you to their favourite blooms and inspire you to create your own cutting garden with expert knowledge on how to grow and what to gather by season. Based in the original walled garden at Wardington Manor, *The Land Gardeners* have revived the tradition of working with the land to produce abundant, seasonal flowers for clients' use in decoration, design and events. But for all the frivolous bucolic beauty of the flowers, it is the productivity and health of the soil that truly underpins *The Land Gardeners'* philosophy. The book

explores lively soil, the joy (and, arguably, necessity) of gathering from our gardens, and the imperative that we care for our soils and live among healthy, vital gardens.

**The Magician's Book** Laura Miller 2008-12-03 Enchanted by Narnia's fantastic world as a child, prominent critic Laura Miller returns to the series as an adult to uncover the source of these small books' mysterious power by looking at their creator, Clive Staples Lewis. What she discovers is not the familiar, idealized image of the author, but a more interesting and ambiguous truth: Lewis's tragic and troubled childhood, his unconventional love life, and his intense but ultimately doomed friendship with J.R.R. Tolkien. Finally reclaiming Narnia "for the rest of us," Miller casts the *Chronicles* as a profoundly literary creation, and the portal to a lifelong adventure in books, art, and the imagination.

**The Three Amigos** Deborah Shaw 2015 This is the first academic book dedicated to the filmmaking of the Mexican born directors Guillermo del Toro, Alejandro González Iñárritu, and Alfonso Cuarón. The book examines the career trajectories of the directors and presents a detailed analysis of their most significant films. These include studies on del Toro's *Cronos/Chronos*, *El laberinto del fauno/Pan's Labyrinth*, *Hellboy II: The Golden Army*; Iñárritu's *Amores Perros*, *21 Grams* and *Babel*; and Cuarón's *Sólo con tu pareja/Love in the Time of Hysteria*, *Y tu mamá también*, and *Children of Men*. All three have worked in diverse industrial contexts, and between them they have made key films that have changed the nature of filmmaking in Mexico, Hollywood blockbusters, US independent films, 'European' art films, and films that defy easy classification. They have had unprecedented

international success and have crossed linguistic, national and generic borders, cutting through traditional divisions created by film markets. As a result, this book challenges the ways both markets and critics have created clear-cut distinctions between mainstream commercial and independent art cinema, and the ways they have conceptualised US, Latin American and European cinema as discrete entities. The work of the three directors creates new hybrid formations and makes us rethink ways in which we have understood the auteur label. The main theoretical approaches applied in this book to analyse the directors' working practices and texts centre on new readings of auteurism and transnational film theories. This book will be of interest to undergraduate and postgraduate students of film studies and Hispanic studies, and general cinema enthusiasts who are interested in the films of the three directors.
