Small Steps to Great Parenting - Kalanit Ben-Ari 2018-08-24

This clear, concise and easy to read book is a wonderful guide for busy parents to enable them to parent in a positive and productive way. It provides many suggestions of games and simple tweaks in communication designed to turn conflict into connection, and stressful triggers into playful cooperation between parent and child. Unlike long theoretical books, it is full of practical tips to dip into and apply every day, to help bring CALM to your family and home-life, eliminate power-struggles with your children, and encourage independence. It includes tips on setting limits, sibling rivalry, and dealing with your own parental baggage. Dr Kalanit Ben-Ari's down-to-earth approach offers realistic, tried and tested advice. The everyday scenarios she provides are drawn from her extensive experience in research, lecturing and years of practice as a parenting "guru." Review from Harville Hendrix PhD and Helen LaKelly Hunt PhD, authors of the best-selling book "Giving the Love That Heals" "Small Steps To Great Parenting will help any parent who takes the first step to follow through to the status of 'master' parent. And will save another child from suffering from parental ignorance. "This small book is full of cutting-edge information about what to do, and instructive examples showing how to do it. "We recommend this book to all parents, whether new to the task or experienced, or currently contemplating parenthood - and to anyone who wants to learn to navigate their family relationships better."

Creating Loving Attachments - Kim S. Golding 2012

Troubled children need special parenting to build attachments and heal from trauma. This book provides a parenting model that parents and carers can follow to incorporate love, play, acceptance, curiosity and empathy into their parenting. These elements are vital to a child's development and will help children to feel confident, secure and happy.

Carpe Aqualis! Seize the Wave - Frank F. Lunn 2006

Building Love Together in Blended Families - Gary Chapman 2020-02-04
Create a Loving and Safe Environment for Your Blended Family Blended families face unique challenges, and sadly, good intentions aren't always enough. With so many complex relationships involved, all the normal rules for family life change, even how you apply something as simple as the five love languages. That's why Gary Chapman, the bestselling author of *The 5 Love Languages®* and national expert on stepfamilies, Ron Deal, join together in this book to teach you how the five love languages can help your blended family. They'll teach you: About the unique dynamics of stepfamilies How to overcome fear and trust issues in marriage How to develop healthy parenting and step-parenting practices How the love languages should—and should not—be applied You're going to face many challenges, but with the right strategies and smart work, your family can be stronger and healthier together.

The Language of Parenting - David M. Frees 2003

The Language of Parenting is a compelling, interesting, and entertaining review of communication skills designed to improve family relationships at all ages. Expecting mothers, new parents, parents of teens, grandparents facing new communications challenges, and educators find the strategies and tactics of communication to be practical and compelling.

The 5 Love Languages of Children - Gary Chapman 2016-04-15

More than 1 million sold! You know you love your child. But how can you make sure your child knows it? The #1 New York Times bestselling *The 5 Love Languages®* has helped millions of couples learn the secret to building a love that lasts. Now discover how to speak your child's love language in a way that he or she understands. Dr. Gary Chapman and Dr. Ross Campbell help you: Discover your child's love language Assist your child in successful learning Use the love languages to correct and

discipline more effectively Build a foundation of unconditional love for your child Plus: Find dozens of tips for practical ways to speak your child's love language. Discover your child's primary language—then speak it—and you will be well on your way to a stronger relationship with your flourishing child. For a free online study guide, visit 5lovelanguages.com.

15-Minute Parenting 8-12 Years - Joanna Fortune 2020-05-21

As featured in *Grazia's* 21 of the Best Parenting Books in 2020 'Joanna's books give you every answer to every question you have as a parent with practical methods to tackle every obstacle and connect with your child and help them flourish.' Madeleine Shaw 'When I tried Joanna's approach during the first lockdown, I was both comforted and excited by how such a small change could have such a big impact.' Dr. Suzanne McClean A mindful and practical parenting roadmap for busy, time-poor parents. Based on a simple and effective formula, it will transform family life in just 15 minutes of daily play, resulting in fewer tears and more laughter. Middle childhood, the period for those aged 8-12 years old, is often the most overlooked phase of a child's development, but it's the age where play continues to serve an important role in their emotional growth. It's also a time where we are most likely to stop playing with our children. With over 20 years of clinical and neuroscientific expertise, psychotherapist and parenting expert Joanna Fortune shares her proven techniques that will enable you to better understand your relationship with your children as they grow and ensure that your parenting is developing with them. Packed with 15-minute games and activities that you can easily incorporate into your daily routine, Joanna also explores the neurological, physical and emotional development of 8-12 year olds and offers parents hands-on advice on how to deal with: Friendships and bullying Sibling relationships Difficult conversations (the ones that catch you off guard!) Risk-taking behaviour Building independence, self-esteem and emotional resilience Resistance 15-Minute Parenting 8-12 years will show you how to keep play alive with your child, foster great communication and help to secure strong foundations for adolescence. 15-Minute Parenting 0-7 years: Quick and easy way to connect with your

child, is also available now! Praise for the 15-Minute Parenting series: 'Now that we have to be teachers and coaches as well as parents — and feel guilty and overburdened — it's the perfect time for psychotherapist Joanna Fortune's new book.' Sunday Independent 'Absolutely love this! I've read multiple parenting books as a daddy blogger and this is BY FAR one of my favorites!' Amazon Reviewer 'A must read for all parents! Absolutely loving this book. Joanna has a no frills, relaxed attitude towards parenting & brings fun into it. She made me realise that we don't need to question ourselves as much as we do.' Amazon Reviewer 'All of my friends love this. It's expert advice but... accessible and smart and actually kind of fun. All the exercises are easily implemented and kids respond to them immediately... this book is well broken down so that whatever crisis you're dealing with today you can check the chapter outline and jump straight to the few pages (and solutions) about that issue...' Amazon Reviewer 'Simple and effective reading. Totally love this book... Fabulous chapter on relationships covering how to stay connected to your partner which I feel gets left out from other books I've read... my friend already has her hands on it so I will definitely be passing on.' Amazon Reviewer 'A well thought out and written book to nudge you and guide you to better parenting without any self-flagellation... a gentle and kind written piece of work... Certainly think it can help parents that feel they can't find their own way back.' Goodreads Reviewer

Handbook of Parent-Child Interaction Therapy - Larissa N. Niec 2018-11-10

This handbook examines advances in the evidence-based behavioral family intervention, parent-child interaction therapy (PCIT). It surveys innovative adaptations tailored to specific diagnostic concerns, client populations, treatment settings, and delivery formats. Chapters provide rationales for adaptation, reviews of relevant research, and discussions of advantages and challenges. Case studies illustrate the implementation of the adaptations and help to make new techniques concrete. The handbook offers practical descriptions of the adaptations to PCIT, comprehensively reviews treatment outcome literature, and integrates

cutting-edge implementation science into an exploration of the current dissemination strategies in PCIT. The handbook concludes with a consideration of the questions that remain to be addressed to extend the reach of PCIT among traditionally underserved families and to continue to advance the science and practice of children's mental health interventions. Featured topics include: PCIT for children with callous-unemotional traits. PCIT for families with a history of child maltreatment. Group PCIT. PCIT for military families. The PCIT CALM program for treating anxiety in young children. PCIT for American Indian families. Transporting and disseminating PCIT internationally. Using technology to expand the reach of PCIT. The Handbook of Parent-Child Interaction Therapy is a must-have resource for researchers, professors, instructors, clinicians, and graduate students in child and school psychology, child psychiatry, and social work as well as such related disciplines as developmental, clinical, counseling, and community psychology, family studies, and mental health services and agencies.

The 10 Building Blocks for a Happy Family - Jim Burns 2003-10-03
You Don't Have to Be a Perfect Parent. Do you every worry that you're just not getting the parenting thing right? This truthful and enlightening book from one Christian parent to another is filled with encouragement and time-tested techniques for anyone who wants to ensure the health and happiness of their own family. Jim Burns will be the first to tell you that no family is perfect-including his own. The 10 Building Blocks for a Happy Family emphasizes the heartening news that most parents do a good job of parenting but just don't know it. Here you'll find many personal stories from interviews with parents and experts on family relationships covering almost every aspect of parenting. TRIM SIZE: 5.5 X 8.5

Parenting Matters - National Academies of Sciences, Engineering, and Medicine 2016-12-21

Decades of research have demonstrated that the parent-child dyad and the environment of the family"which includes all primary caregivers"are at the foundation of children's well- being and healthy development. From birth, children are learning and rely on parents and

the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. *Parenting Matters* identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

Resiliency in Action - Nan Henderson 2007

How to build bounce-back kids, families, schools, and communities is the theme of *Resiliency In Action: Practical Ideas for Overcoming Risks and Building Strengths in Youth, Families, and Communities*. It is edited by internationally recognized resiliency expert, trainer, and consultant Nan

Henderson, M.S.W., whose publications are used in more than 25 countries. The book is a research-based, practical guide for educators, counselors, parents, community organizers, and mentors and is filled with the latest strategies for helping children, families, schools, and communities bounce back from risk, stress, trauma, and adversity. More than two dozen experts in the fields of child, family, organizational, and community resiliency contributed to the book, which challenges a widely accepted myth about people especially young people, who experience risks, stress, trauma, and adversity in their lives, according to Henderson. Contrary to popular opinion, the majority of these individuals, over time, do bounce back and do well. There is a growing body of scientific research from several fields that documents this fact and yields important information as to what can be done every day to facilitate this process of overcoming. This book is really three books in one: it contains the most recent research, hands-on and practical strategies, and stories of resilient individuals and best practices. The book includes 60 chapters grouped in seven sections: The Foundations of Resiliency, Resiliency and Schools, Resiliency and Communities, Resiliency Connections (Mentoring, Support, and Counseling), Resiliency and Youth Development, Resiliency and Families, and Resiliency and the Brain.

The Big Disconnect - Catherine Steiner-Adair, EdD. 2014-08-12

Clinical psychologist Catherine Steiner-Adair takes an in-depth look at how the Internet and the digital revolution are profoundly changing childhood and family dynamics, and offers solutions parents can use to successfully shepherd their children through the technological wilderness. As the focus of the family has turned to the glow of the screen—children constantly texting their friends or going online to do homework; parents working online around the clock—everyday life is undergoing a massive transformation. Easy access to the Internet and social media has erased the boundaries that protect children from damaging exposure to excessive marketing and the unsavory aspects of adult culture. Parents often feel they are losing a meaningful connection with their children. Children are feeling lonely and alienated. The digital

world is here to stay, but what are families losing with technology's gain? As renowned clinical psychologist Catherine Steiner-Adair explains, families are in crisis as they face this issue, and even more so than they realize. Not only do chronic tech distractions have deep and lasting effects but children also desperately need parents to provide what tech cannot: close, significant interactions with the adults in their lives. Drawing on real-life stories from her clinical work with children and parents and her consulting work with educators and experts across the country, Steiner-Adair offers insights and advice that can help parents achieve greater understanding, authority, and confidence as they engage with the tech revolution unfolding in their living rooms.

The Book of Nurturing - Richard M. Eyre 2003

Presents tools for developing family relationships. This book offers nine lessons based on stories and parables, based on aspects as: Commitment; Praise, support, and positive affirmation; Responsibility; Awareness; and Communication; Discipline; Consistency; Security and identity; and Freedom and empowerment.

But It's Your Family . . . - Sherrie Campbell 2019-01-01

A psychologist offers a roadmap for those looking to break free of toxic family relationships and thrive in the aftermath. Toxic family abuse is always two-fold. The first layer of abuse is the original poor treatment by toxic family members, and the second is someone's denial of the ways in which abusers treat and harm them. Loving someone doesn't always mean having a relationship with them, just like forgiveness doesn't always mean reconciliation. A significant part of healing comes with accepting that there are some relationships that are so poisonous that they destroy one's ability to be healthy and function best. *But It's Your Family* is a remarkable account of what it means to cut ties to toxic family abuse and thrive in the aftermath. Inside, Dr. Sherrie Campbell clarifies:

- How parents, adult children, siblings, grandparents, and in-laws can be toxic
- The difference between flawed and toxic family members
- Explaining the cutting of ties to children and others who may not understand
- Spiritual and religious views on forgiveness
- The definition of cutting ties and what No Contact actually means

When

readers are able to bring closure to those toxic relationships, they give themselves the space to love those family members from a distance, as fellow human beings, with the knowledge that it is unwise to remain connected. Readers learn how to love themselves in the process and fundamentally change their lives for the better!

Encyclopedia of Family Health - Martha Craft-Rosenberg 2011-01-20
Including entries from disciplines across the social sciences, this two-volume set provides coverage of a variety of issues related to the theory, research, practice and policy of health within a family context.

Fostering Resilience and Well-being in Children and Families in Poverty - Valerie Maholmes 2014

"In *Fostering Resilience and Well-being in Children and Families in Poverty*, Dr. Valerie Maholmes sheds light on the mechanisms and processes that enable children and families to manage and overcome adversity"--

How to Really Love Your Adult Child - Gary Chapman 2011

More than 10 years after *Parenting Your Adult Child* was published, much has changed-- including young adults themselves, and even their parents. Economic upheavals, challenges to traditional values and beliefs, and the phenomenon of over-involved "helicopter parenting," all make relating to grown children more difficult than ever. Yet at the same time, being a parent of an adult child can bring great rewards. This revised and updated version of Dr. Gary Chapman's and Dr. Ross Campbell's message will help today's parents explore how to really love their adult child in today's changing world. The book includes brief sidebars from parents of adult children and adult children themselves with their own stories. An online study guide is also available.

Building Early Social and Emotional Relationships with Infants

and Toddlers - Amanda Sheffield Morris 2019-02-09

This book provides a comprehensive overview of the process of building healthy early social and emotional relationships with infants from a developmental perspective. The book synthesizes current research on the contextual influences of attachment, family relationships, and caregiving practices on social-emotional development. Chapters examine the processes of socioemotional development—particularly in relationships with parents, other family members, and peers—and identify areas for promoting healthy attachments and resilience, improving caregiving skills, and intervening in traumatic and stressful situations. Chapters also present empirically-supported intervention and prevention programs focused on building early relationships from birth through three years of age. The book concludes with future directions for supporting infant mental health and its vital importance as a component of research, clinical and educational practice, and child and family policy. Topics featured in this book include: The effect of prenatal and neonatal attachment on social and emotional development. The impact of primary relationships and early experiences in toddlerhood. Toddler autonomy and peer awareness in the context of families and child care. Supporting early social and emotional relationships through The Legacy for Children™ Intervention. How to build early relationship programming across various cultures. Building Early Social and Emotional Relationships with Infants and Toddlers is a must-have reference for researchers, clinicians and professionals, and graduate students in the fields of infant mental health, developmental psychology, pediatrics, public health, family studies, and early childhood education.

The Conscious Parent's Guide to Coparenting - Jenna Flowers 2016-06
