Happiness in Marriage Ashok Gulla 2008-11-01 The book "HAPPINESS IN MARRIAGE" by ASHOK GULLA deliberates on how to lead a happy and contented married life by bringing physical and emotional closeness, improvement of inner condition, imbibing feeling of love and concern, removal of negative feelings, enhancing attractiveness towards each other and focussing on higher goals in life. To be happy in marriage is not only a personal issue but from a broader perspective, it affects the well being of societies. Most married couples are not fully informed about emotional, psychological and physical aspirations of each other. Enhancing pleasure through sex is not sufficient, if the couple does not attain emotional closeness. The efforts we make to develop

ourselves in profession are lacking on our part when it comes to nurturing our married relationship. The essence of one's happiness, inner calmness and growth is related to one's capability to love others. Our ego, intolerance and selfish tendencies affect this inner growth. Man and woman get married not fully informed about each other, expectations are too high, and we do not work properly to make it a success. Some people pretend to be happy married couple while talking to others; but in actuality, they have no deep love and affection. We always believe that everything in marriage will happen to our liking and blame other partner when it turns contrary to our expectations. Our journey of life is much influenced by the quality of relationship with our spouse. Whatever we may achieve professionally, that will not help to compensate for troubles emanating from our physical and emotional relationship with our spouse. The pressure of modern life, constraints of meeting professional goals and getting material benefits requires both husband and wife to work hard leaving little time to develop understanding of emotional needs. We come together as strangers to get tied in the wedlock and in most cases continue to remain not attached emotionally. We do not make enough efforts to understand what troubles our spouse. As we go through the process of marriage, we tend to err in our understanding and meeting aspirations of our spouse. This spoils the relationship. People often get angry with their partner when they feel to be giving more in the relationship than what the other person is offering in return. We have to keep communication channels open with the spouse to listen to all the bad things he/ she feels about us so that these get clarified at regular moments. This may help us to adjust our understanding and behavior suitably. At times, when a person is of a dominating nature, his or her spouse feels hurt and increasingly entrapped in the role of a weak and dependent partner. The feeling of hurt makes a person dysfunctional and not able to perform to the best of his or her capability. We may not be fully aware the agony and pain which certain harsh words or dominating nature causes to our spouse. A happy marriage depends on better communication and understanding of each other. Some people have tendency to find fault with the way other person talks or the manner in which some task is accomplished. As husband and wife, we have to perform various tasks together to shoulder responsibility towards maintenance of home, care of children, meeting financial needs of the family or fulfilling responsibility towards other members of the family. As couple, we will continue to have differences on various issues and it may lead to anger or arguments at times. We have to be careful not to get into the habit of finding fault at each and every time. There is a better and sophisticated way of communicating our concerns without finding fault with our spouse. We have to imbibe certain qualities that make us attracted to our spouse. Life should look incomplete without our spouse. The true love requires that it ought not to be conditional. Loving our life partner should flow

**Lasting Love** Gay Hendricks, Ph.D. 2004-01-17 In this long-awaited follow-up to their seminal *Conscious Loving*, Kathlyn and Gay Hendricks take on two of the most pressing problems that sap vitality and energy from our committed relationships: how to forge a closer relationship that still allows each partner full creative autonomy, and how to generate the passion and preserve the harmony essential to keeping long-term partnerships alive and blooming. *Lasting Love* grew out of the Hendricks' laboratory of their 23-year marriage as well as their 10-year study of more than 2,000 long-term, committed couples. They discovered that the most common couples conflicts could be traced to at least one of five root causes: \* An imbalance between the creative energy each partner contributes to the relationship \* A lack of emotional honesty \* An unwillingness to accept responsibility for everyday issues \* Deep-seated commitment problems \* A deficiency of daily appreciations Using these insights as a starting point, the Hendricks devised a program based on five vital actions that simultaneously lead to a deeper flow of intimacy between partners and greater creative freedom for each individual: \* Spend time expressing your own creativity rather than focusing on "fixing" your partner \* Eliminate the barrier to speaking and hearing the truth about everything \* Break the cycle of blame and criticism \* Make commitments you can really stand by \* Become a master of verbal and nonverbal appreciation Filled with helpful real-life scenarios and straightforward advice, *Lasting Love* is an essential guide for anyone involved in a long-term relationship who wants it not only to last but to flourish.

**Sex Positions for Couples** Damian Old 2020-02-03 Do you want to learn how to School of sex guide for couples? Tantric sex and sex positions for men and woman. Experience and training to get to know your partner? If yes, then keep reading... We realize that the more inventive and the greater sexual repertoire we have, the more prominent the possibility of keeping up a good sex life. If I served you up a similar dinner, simultaneously of day, in a similar seat, at a similar table, you would before long get exhausted and uninterested. We have to recall that sexual activity is a lot of the equivalent; we need variety, that thrill of trying something new together. It is this that keeps us as intrigued by sex as it does in eating. Parents regularly feel that it would be so humiliating if their kids knew that they are having intercourse. We react to this by having quick sex, and albeit a 'fast in

and out' can be fun in the correct conditions, it is so natural to get into an unfortunate propensity and disregard the intimacy of sex, having the opportunity to snuggle and talk and explore one another's bodies as opposed to simply going for orgasm. A new relationship is a journey into a world of commitment, goals, and intimacy. As you begin to bond with a new partner, you may want to explore life together, and this includes lovemaking and the principles of pleasure. This book will provide you with a guide into the basics of sex and intimacy so that you develop a strong, healthy relationship with your partner. Before you engage in a variety of sexual activities, it is important to communicate and discover everything you both have in common. This book gives you the tools to be open with your partner and to develop a deep understanding and appreciation for all the pleasure you can explore and enjoy together. Intimacy is an important part of every relationship. Getting to know your partner and connecting with them on a deeper level through communication and affection can go a long way to ensuring a relationship grows into a strong and resilient love that can last for decades. While this book primarily focuses on intimacy in new couples, anyone in any type of relationship can apply the principles and suggestions offered here. Intimacy evolves over time, from intense and frequent to more routine and sometimes infrequent. For this reason, more effort and creativity should be placed, from increasing the spontaneity in your marriage or relationship to creating a surprise for your partner with a new activity or idea. If you are with a new partner or spouse, it may take time to become comfortable and well acquainted with them. Every situation is different. Some couples progress quickly, while others take their relationship slowly. In every personal relationship, there needs to develop a strong sense of trust and open communication first, as these both serve as a solid foundation for a close, loving bond. When the power of trust and communication is underestimated, challenges and misunderstandings could arise, often leading to unintended difficulties and hurt. Most, if not all, future problems can be averted with a strong desire to communicate and understand the other person's priorities. In this book, you will learn more about: Sexuality today The importance of intimacy Learning to make love (practical sex advice) Orgasm Practical an erotic massage advice Foreplay (oral sex techniques, use only your hands) Beginners positions (man on top, woman on top) Advanced positions The kama sutra techniques related to kissing Tantric sex positions Sex variants Sex in pregnancy ... Happy Marriage Rhian Baldo 2019-03-09 Use These Powerful Techniques That Will Greatly Improve The Quality of Your Marriage. So many of us on our wedding day, think that our marriage will be immune to heartache and infidelity. It's easy to think that only "other people" get divorced. After all,

how many of us would walk down the aisle if we thought our relationships would end in a divorce court? The hard truth is, no relationship comes with a lifetime guarantee. Too many people nowadays think that once they find "the one" they will be happy for the rest of their lives. This could not be further from the truth. After you find the one and get married to them, you have to work on creating a happy life together. A happy marriage does not just happen, it is created by two people who are always willing to work on it. Here are some keys to creating a happy marriage; When the Pharisee asked Jesus, "Which is the greatest commandment?" He responded, "You shall love the Lord your God with all your heart and all your soul and all your mind" (Matt. 22:37). Then He adds, "And a second is like it: You shall love your neighbor as yourself" (v. 39). Notice the phrase at the end of verse 39-"as yourself." We often think of loving ourselves as a bad thing. We think it's selfish or unkind, sometimes we even struggle to find reasons to love ourselves. But Jesus is saying here that in order to love other people in the best way possible, we've got to love ourselves first. If the love you have for yourself is low or non-existent, the bar to love your partner isn't going to be very high. This is why self-love is so important in your marriage, you can't pour from an empty cup, love yourself, take care of yourself and you will have so much more to offer. So maybe you've managed to get the self-love part right but something is still wrong. Please know that there is no such thing as the perfect marriage. Relationships are high maintenance. If you want a good & healthy marriage, you need to be willing to work at it, you need the wisdom of God, and you need to understand the dynamics of relationships. One effective way of working on your marriage without being too pushy with your partner is to be the person you want them to be. You want a partner who respects you, understands you, loves you unconditionally, spends time with you and supports you, right? Think about whether you've been doing all of the above for them or just expecting them to do it for you. Speaking of expectations, has sex become just that in your marriage? Has it become a duty that needs to be fulfilled? This is not what God intended. In fact, sexual intimacy in a marriage is a gift from God and it is a major key to a happy marriage. Don't feel like today? Don't do it, it's not a chore and it's not meant to be forced but make sure your partner understands how you feel. This is where the next key comes in. Communication. Communication is so important, you can't read your partner's mind, so don't expect them to be able to read yours. Find a time to talk about the expectations you have concerning one another before anyone's feelings get hurt. Don't feel good about something? Say so. Your partner did something amazing today? Say so. This is the only way they will know what truly makes you happy and also what doesn't. When we can communicate better we will also be able to empathize better. Empathy is the ability to take in another's experience and feel it in our own brain and body. It is the practice of understanding another person's condition from their perspective. Empathy is another necessary key to creating a happy marriage. When couples can empathize with each other, they are attuned to one another, less defensive and better able to stay calm during conflict. I encourage you to get a copy of my book where I go much more in depth on this topic.

These factors help strengthen self-confidence and can improve behavior and attitudes. Therefore, for a man who wants to conquer an incredible, valuable, open, loving, independent woman, the man needs to become also, the male equivalent of what a woman desires. **Marriage Be Hard** Kevin Fredericks 2022-09-13 NEW YORK TIMES BESTSELLER • Discover the keys to upholding your vows while staying sane in this hilariously candid guide to relationships, from the husband-and-wife team of comedian Kevin Fredericks and influencer Melissa Fredericks. “Kevin and Melissa are not afraid to tell the truth!”—Tabitha Brown, New York Times bestselling author of *Feeding the Soul*. Growing up, Kevin and Melissa Fredericks were taught endless rules around dating, sex, and marriage, but not a lot about what actually makes a relationship work. When they first got married, they felt alone—like every other couple had perfect chemistry while the two of them struggled. There were conversations that they didn’t know they needed to have, fears that affected how they related to each other, and seasons of change that put their marriage to the test. Part of their story reads like a Christian fairytale: high school sweethearts, married in college, never sowed any wild oats, with two sons and a thriving marriage. But there’s another side of their story: the night Melissa kicked Kevin out of her car after years of communication problems, the time early in their marriage when Kevin bordered on an emotional affair, the way they’ve used social media and podcasts to conduct a no-holds-barred conversation about forbidden topics like jealousy, divorce, and how to be Christian and sex positive. (Because, as Kevin writes, “Your hormones don’t care about your religious beliefs. Your hormones want you to subscribe to OnlyFans.”) In *Marriage Be Hard*, the authors provide a hilarious and fresh master class on what it takes to build and maintain a lasting relationship. Drawing on interviews with experts and nearly two decades of marriage, they argue that • Compatibility is overrated. • Communication is about way more than simply talking. • Seeing divorce as an option can actually help your marriage. • There’s such a thing as healthy jealousy. Real marriage is not automatic. It ain’t no Tesla on the open road. Sometimes it’s a stick shift on a hill in the rain with no windshield wipers. But if you get comfortable visiting—and revisiting—the topics that matter, it can transform your bond with your partner and the life you’re building together. Written for those tired of unrealistic relationship books—and for anyone wondering if they’re the only ones breaking all the rules—*Marriage Be Hard* is a breath of fresh air and the manual you wish existed after you said “I do.”

Secrets of "Men are from Mars, Women are from Venus" PAUL CARNEGIE 2019-11-25 Reading through the book Men Are From Mars, Women Are From Venus which was written by American author and relationship counselor John Gray, after he had earned degrees in meditation and taken a correspondence course in psychology. The book was published on January 1, 1992. It provides a practical and proven way for men and women to improve their communication by acknowledging the differences between their needs, desires, and behaviors. Absolutely, there is no other relationship guide on the market that will give you the same level of evidence-based insight sure to help you strengthen and nurture your relationships for years to come more than this book. In the book Men Are From Mars, Women Are From Venus, the author opines that most prevalent relationship challenges between men and women are as a result of fundamental psychological differences between the sexes, which the author demonstrates by means of its eponymous metaphor: that men and women are from separate planets, that is, men are from Mars while women are from Venus; and that each sex is wont to its own planet's society and customs, but not to those of the other. One example John Gray gave was that men's complaint that if they offer solutions to problems that women bring up in conversation, the women are not necessarily interested in solving those problems, but mainly want to discuss about them. The book avers each sex can be understood in terms of their unique ways they respond to stress and stressful situations. In the book, the author wrote: "When a man can listen to a woman's feelings without getting angry and frustrated, he gives her a wonderful gift. He makes it safe for her to express herself. The more she is able to express herself, the more she feels heard and understood, and the more she is able to give a man the loving trust, acceptance, appreciation, admiration, approval, and encouragement that he needs." This explains that when a man genuinely listens to the emotions of a woman by not being upset, he is showing her she is safe with him and understood as well. And she reciprocates this gesture with love, trust and encouragement a man needs. Likewise, when he stated that, "Men are motivated when they feel needed while women are motivated when they feel cherished." This is just the basic fact of a successful relationship or marriage by the author. In the world of many self-help books we are, there are very few titles that can be compared with the popularity of John Gray's Men Are From Mars, Women Are From Venus. Interestingly, when this title was first published in 1992, it not only helped educate countless men and women from around the globe, but it managed to nestle its way into popular culture and become an instant classic. In spite of the fun, metaphoric and catchy title, this book essentially tackles a very serious relationship issues in many male or female relationships we have today -which can be said to be a lack of effective communication. In lieu of focusing blame on one person or one gender, this book dives into some of the inherent differences between the way males and females communicate. As it is a well known fact that communication is one of the most central factors in finding the right balance, genuine love and loyalty in a long term relationship. Well, based on the concept that men and women are living on different "planets," this book helps to not only identify these differences for the opposing gender, but to offer solutions on how both men and women can meet in the middle to have better, more productive communication strategies. The

author deliberately lays big emphasis placed on love – since it is a relationship advice book. One of the biggest takeaways about love from the book actually has nothing to do with talking, it is all about showing. This is one of the biggest keys to keeping the love alive in long-term relationships. This is a very important lesson to note throughout the book, *Men Are From Mars, Women Are From Venus*, as communication isn't always about talking or telling someone something, it is often about showing them or using non-verbal communication in order to get your message across. According to *Men Are From Mars, Women Are From Venus*, men will give and give until they are pleased with what they have done. This can be with emotions, money, effort, work, or physical objects. However, women will typically give with the hope that the man will return the gesture. This is where a lot of disconnect can happen. Now, let's take a vivid look at where communication falls short. Where communication falls short Both man and woman may feel as though they are doing everything they can to show their love and that they are giving love the way they want to receive it. But, the opposing party may not recognize this, and may actually think that their partner is not showing love at all. This is one tip that both men and women should keep in the back of their minds as they continue to take John Gray's relationship advice, as many communication disconnects or crumbles, it may actually stem from this one major issue. If both parties can understand that the other partner simply has a different interpretation of what it means to show and give love, they can move forward. To cap it all, everyone has a different love language. *How To Improve Communication In A Relationship* There are so many little things that men and women can both do in order to improve their communication lines, yet one of the classic disconnects between these two genders often comes when women are not as direct with men while communicating. There is an old story about men and women communicating that perfectly depict how this lack of directness can cause misunderstandings. A man and a woman are driving down the street. The woman points at the ice cream store and says "look! The ice cream store is open." The man says "Yes, it is," and keeps driving. Later that evening, the woman is upset and asks "Why didn't you stop for ice cream when I asked?" The man is confused and says, "I never heard you ask to stop for ice cream." It may be either small or inconsequential example, but it is one that many people in male or female relationships can relate to. What went wrong? Both parties thought they said and heard different things in the same conversation. This is one of the reasons why communication tends to be more effective when women are more direct. According to John Gray, if a woman wants to go do something with a man, she shouldn't just ask him what he wants to do. She should, instead, tell him what she wants to do, and then ask him to join. This is an instance of direct communication that doesn't blur the lines and allows both parties to communicate more clearly. *How to make communication work* The following scenario was suggested by: - The woman gives the man three options of what she wants to do on a date, a week in advance. - The man gets to decide, but doesn't tell the woman until the date happens. - This allows the woman to anticipate the date all week, while the man gets to feel as though he made a decision, while still receiving clear communication on what types of dates the woman wanted to go on. It may sound like a lot of work, but the key is to start with direct communication on the woman's part. It can open up new doorways to successful interaction that both parties may have never thought were possible. In addition, emotions have great impact as regards how we communicate. They can entice us to say certain things, hold different things in, or even respond in ways we may have never thought we would. Emotions can also alter our body language and the way we give off signals to one another, even when we don't realize we are doing it. Yes, it can be safe to state that women's emotions go up and down and have really high-highs and really low-lows. In general, women's emotions tend to fluctuate more than men's do. Men tend to be a bit steadier with their emotions, which can be both positive and negative. While they may not have as deep of a dive into depression, they may also not experience as high of a high when they are happy. All this now depend on how each sex processes "alone time." As well, men are much more prone to want alone time when they feel scared or uncomfortable. Men need to be left alone where they feel safe. It scientifically helps them to build up their testosterone and think more clearly. If given the time to retreat to his safe space, a man will come out of this "alone time" once he has handled the problem internally and finally. On the other

hand, a woman may feel better by talking it out. She may not understand why her male partner wants to spend time alone processing the issue. Allowing women and men to process emotions in a way that is comfortable and natural to them is an essential component to keeping communications lines free and open. You Should Learn To Show Appreciation So much of Men Are From Mars, Women Are From Venus is about the differences between men and women, but there is one big similarity between men and women in relationships—showing understanding is key. Men and women are different. They are different physically, biologically, emotionally, almost in every way. Yet, the reason so many of these relationships can work out in the end is because these differences provide a balance. You just need to find that balance. Get to know your partner more intimately If you sincerely take the time to really get to understand your partner, it can go a long way in helping them feel loved, valued, and appreciated. Men and women are different, and it is important to accept and understand this. You may be speaking different languages, but if you take the time to really talk to your partner and attempt to understand the place they are coming from it can speak volumes. For instance, take the time to do things like ask questions, put yourself in the other person's shoes, or even read relationship advice books, like Men Are From Mars, Women Are From Venus, to show the other person that you want to understand them better because you appreciate who they are and that you want to communicate more clearly and effectively. Mind you, this can help restore energy in your romantic relationship so that you and your partner can continue to keep your relationship as healthy as possible.

Marriage Communication Workbook Melissa Keller 2019-12-18 Here's What All Happy Marriages Have In Common (And You Can Learn This Too!) What is the ultimate force that holds a marriage together? Love? Sex? Children? Regular tropical vacations? The answer is both very simple and very complex: Communication. Communication may sound like a very dry word - after all, it's just the transfer of information from one person to another, right? However, communication is the foundation of everything that makes a marriage happy, including love, good sex and good parenting. Good communication creates an environment of safety, love, and respect - this makes a relationship satisfying. In fact, failed communication is the main reason why so many marriages either end in divorce or make the partners unhappy. If the partners lack the necessary communication strategies, simple misunderstandings can escalate into heated arguments that may end in emotional abuse. Failure to communicate about sex leads to (guess what!) bad sex. The inability to communicate about emotions may lead to uncontrollable outbursts of anger and aggression - something that doesn't benefit the marriage at all. Unfortunately, communication skills and strategies aren't routinely taught at schools, so most of us don't approach communication in the family with the necessary mindfulness. This book will fill all the important gaps in your communication skills and greatly improve - or maybe even save - your marriage. Here's what you'll learn: Key communication rules for women and men Common communication mistakes in a marriage - and how to avoid them Actionable communication tips that will improve your relationship instantly Smart strategies to solve and prevent marital conflicts How to overcome the challenges of intercultural and long-distance marriages This book will benefit you even if you're not married or already divorced. You'll learn useful skills and strategies that are guaranteed to make your future relationships much more fulfilling. Take your first step towards marital bliss. presents the profound principles that form a loving relationship in an easily accessible manner. Using a very simple approach, it will help people shift their attitudes and provide them with the skills to create loving, long-lasting partnerships. There are so many titles in print on change because it is an ongoing challenge for most of us. So are relationships. With more than six decades of experience working with couples, we knew we had vital information, lessons, and insights to share, but we insisted that the book be short, engaging, and easy to read. A helpful book does not have to be dense to be packed with wisdom, skills, and ideas that can open the door to a new era of fulfilling relationships. We have brought complex material and common sense into a format that is carefully constructed to achieve results by being communicative and consistent, enjoyable and hopeful. Unlike the textbook appearance of most self-help books that include psychological jargon, case examples and exercises, *The Art of Love: The Craft of Relationship* uses stories and dialogue to teach profound insights and valuable skills. It sticks to people talking in a way the reader can identify with and understand. It brings hope because the reader who is experiencing stress in a relationship can see that other people, like them, are, too. And, that learning a few basic skills can bring lasting change and renew love. The best news is that our book will be useful to many people because it will give them a new way to look at their relationship and the skills to handle problem after problem in a way that builds love and trust. Our mission is to appeal strongly to those who are considering a relationship, seeking to renew one, or are looking for a way to understand a partner and a process for dealing with problems in love, romance, sex, intimacy and living together.

**How to Improve Your Marriage Without Talking About It** Patricia Love, Ed.D. 2009-01-21 Men are right. The "relationship talk" does not help. Dr. Patricia Love's and Dr. Steven Stosny's *How to Improve Your Marriage Without Talking About It* reveals the stunning truth about marital happiness: Love is not about better communication. It's about connection. You'll never get a closer relationship with your man by talking to him like you talk to one of your girlfriends. Male emotions are like women's sexuality: you can't be too direct too quickly. There are four ways to connect with a man: touch, activity, sex, routines. Men want closer marriages just as much as women do, but not if they have to act like a woman. Talking makes women move closer; it makes men move away. The secret of the silent male is this: his wife supplies the meaning in his life. The stunning truth about love is that talking doesn't help. Have you ever had this conversation with your spouse? Wife: "Honey, we need to talk about us." Husband: "Do we have to?" Drs. Patricia Love and Steven Stosny have studied this all-too-familiar dynamic between men and women and have reached a truly shocking conclusion. Even with the best of intentions, talking about your relationship doesn't bring you together, and it will eventually drive you apart. The reason for this is that underneath most couples' fights, there is a biological difference at work. A woman's vulnerability to fear and anxiety makes her draw closer, while a man's subtle sensitivity to shame makes him pull away in response. This is why so many married couples fall into the archetypal roles of nagging wife/stonewalling husband, and why improving a marriage can't happen through words. *How to Improve Your Marriage Without Talking About It* teaches couples how to get closer in ways that don't require "trying to turn a man into a woman." Rich in stories of couples who have turned their marriages around, and full of practical advice about the behaviors that make and break marriages, this essential guide will help couples find love beyond words.

**Married to the Enemy** Dawn K Kozarian 2011-06-08 Much of *Married to the Enemy* is about the authors individual and couple journey. By sharing their personal enlightenment on how our culture and family impacts our attitude with the opposite sex, we learn how to go from devaluing each other to a more respectful and honoring relationship. Throughout the book, the authors ask questions for you to reflect on to see how you may have developed a gender filter that keeps you from creating the intimacy that you would like to have with your partner. Good relationships are reciprocal, so the authors also provide an inventory that looks at how healthy the reciprocity is in your relationship. Ultimately, by accepting yourself and your partner as you really are, not as the gender culture says you should be, you are guided towards loving authentically. In loving genuinely, you can now experience the rewards of a love-based relationship, not a power-based one. Meeting someone is a

start; continuing a relationship with that person is progress; working together to create a positive and loving atmosphere is success. We come into this world with as much as half of our personality and inclinations present at birth. When we grow up with strong and excessive gender lines, these natural inclinations and personality tendencies tend to get blurred with what our interests should be and the type of personality we should have, whether it is true to our nature or not. For example: Im tough and can handle anything image for a boy, and Im sexy, sweet, and submissive image for a girl. These gender lines often leave us feeling like we are married to an opponent instead of a friend. Many couples may inadvertently begin playing a game of chess looking to get the upper hand over the other. Imagine loving authentically, positively, and with acceptance. Imagine seeing the individual in front of you without the limitation of contrived gender expectations. How might you connect? What might you discover about your human commonality?

**Ladies Listen Up!** Stephanie Rockey 2009-08-10 Stephanie Rockey is the founder of True Life Partners, a personal introduction and search company in the Washington, D.C. area. After interviewing several hundred men and women, she found that most working adults were achieving what they wanted in the world of work, but could not seem to establish a loving relationship. What was far more disconcerting, however, was the realization that most women are entirely confused about how men think and what men really want in a relationship. Understanding this is essential in establishing the beginning bonds of trust that can grow into a solid, long-term, committed relationship. Women it is not just about you. You cannot simply dictate demands: I want this and I want that. I have a list of attributes that I require in a man and if he doesn't get a checkmark in every box, he just isn't good enough for me. Relationships are about not only love and companionship, but also communication and compromise. Whether or not you believe this, let me be the first to tell you that you are not perfect. Men are not perfect either and you can simply not hold them to the impossibly high standards that 90% of women seem to have! There are many self-help relationship books out there, however, none seems to apply in today's society; and, none really covers all stages of a relationship. After setting many clients on the right track to establishing a successful relationship, I can tell you that this book will give you guidance on not only what you are doing wrong, but also how to make positive changes that will lead to a successful life and relationship. You will discover further insights into how to achieve a happy, healthy, successful life, and long-term loving relationship.
