*The Urban Beekeeper* - Steve Benbow 2012-06-07

At a time when the UK bee population is in decline there's no better way to make a difference than to start up your own beehive. Steve Benbow's enormous success with urban beekeeping show's how easy it is to keep bees, whether you're in the city or in the countryside, a beginner or an experienced beekeeper, and you'll never look back once you've tasted your very own sticky, golden honey, or lit a candle made from the beeswax from your beehive. Steve Benbow is a visionary beekeeper who started his first beehive ten years ago on the roof of his tower block in Bermondsey and today runs 30 sites across the city. His bees live atop the Tate Modern and Tate Britain, Fortnum & Mason and the National Portrait Gallery, and he supplies honey to the Savoy tearooms, Harvey Nichols, Harrods and delis across London. His bees forage in parks, cemeteries, along railway lines and in window boxes, and because of the diversity of the plants and trees in the city, produce far richer honey and greater yields than they would in rural areas. *The Urban Beekeeper* is a fact-filled diary and practical guide to beekeeping that follows a year in the life of Steve and his bees and shows how keeping bees and making your own delicious honey is something anyone can do. It is a tempting glimpse into a sunlit lifestyle that starts with the first rays of the morning and ends with the warm glow of sunset, filled with oozing honeycomb, recipes for sensational honey-based dishes, and honey that tastes like sunshine. A hugely affectionate but practical diary of a beekeeper's year and the immense satisfaction of harvesting your own delicious honey. Read it and join the revolution.

**The Social Life of Coffee** - Brian Cowan 2008-10-01

What induced the British to adopt foreign coffee-drinking customs in the seventeenth century? Why did an entirely new social institution, the coffeehouse, emerge as the primary place for consumption of this new drink? In this lively book, Brian Cowan locates the answers to these questions in the particularly British combination of curiosity, commerce, and civil society. Cowan provides the definitive account of the origins of coffee drinking and coffeehouse society, and in so doing he reshapes our understanding of the commercial and consumer revolutions in Britain during the long Stuart century. Britain's virtuosi, gentlemanly patrons of

the arts and sciences, were profoundly interested in things strange and exotic. Cowan explores how such virtuosi spurred initial consumer interest in coffee and invented the social template for the first coffeehouses. As the coffeehouse evolved, rising to take a central role in British commercial and civil society, the virtuosi were also transformed by their own invention.

The money-talk taboo and many more ...Through a mixture of anthropological analysis and her own unorthodox experiments (using herself as a reluctant guinea-pig), Kate Fox discovers what these unwritten behaviour codes tell us about Englishness.
