Affective Sexual Pedagogies in Film and Television - Kyra Clarke 2017-02-17

Popular film and television hold valuable potential for learning about sex and sexuality beyond the information-based model of sex education currently in schools. This book argues that the representation of complicated—or "messy"—relationships in these popular cultural forms makes them potent as affective pedagogical moments. It endeavours to develop new sexual literacies by contemplating how pedagogical moments, that is, fleeting moments which disrupt expectations or create discomfort, might enrich the available discourses of sexuality and gender, especially those available to adolescents. In Part One, Clarke critiques the heteronormative discourses of sex education that produce youth in particularly gendered ways, noting that "rationality" is often expected to govern experiences that are embodied and arguably inherently incoherent. Part Two explores public intimacy, contemplating the often overlapping and confused boundaries between public and private.

The Encyclopædia of Sexual Behaviour - Albert Ellis 2013-09-24

The Encyclopedia of Sexual Behavior, Volume 1 is a comprehensive review of the major aspects of the biology, physiology, and anatomy of sex. This book is divided into 57 chapters that also cover the major facets of the emotional, psychological, sociological, legal, anthropological, geographical, and historical aspects of sexuality, including the related fields of love, marriage, and the family. This book deals first with the advances in sex research, the issues on abortion, abstinence, adolescent, sexuality, and the link between sex and aging. The subsequent chapters consider the demographic, geographical, and anthropological aspects of sex; life; the physiology, anatomy, and history of sex; the attitude toward sex; the concept of autoerotism; and the religious view of sex. Other sex-related topics covered include chastity and virginity, child sexuality, nakedness, coitus, contraception, courtship, culture, social dancing, and sex education. This book further discusses the emotional aspects of sex, such as divorce, marriage, extramarital sex relations, family, and reproduction. The remaining chapters look into the issues of hermaphroditism, homosexuality, illegitimacy, impotence, and jealousy. This book is of value to psychologists, psychiatrists, sociologists, medical practitioners, and researchers and workers in the allied fields.

The Transgender Studies Reader - Susan Stryker 2013-10-18

Transgender studies is the latest area of academic inquiry to grow out of the exciting nexus of queer theory, feminist studies, and the history of sexuality. Because transpeople challenge our most fundamental assumptions about the relationship between bodies, desire, and identity, the field is both fascinating and contentious. The Transgender Studies Reader puts between two covers fifty influential texts with new introductions by the editors that, taken together, document the evolution of transgender studies in the English-speaking world. By bringing together the voices and experience of transgender individuals, doctors, psychologists and academically-based theorists, this volume will be a foundational text for the transgender community, transgender studies, and related queer theory.

comedy-drama series Sex Education debuted on Netflix in 2020 (with three further seasons following in 2020, 2021 and 2023), screenwriter Laurie Nunn's show was welcomed by critics and audiences alike as an innovative addition to the often rather formulaic canon of cinematic teen narratives. This paper will investigate on various levels what role the eponymous [Sex-]Education plays in the series. Education is part and parcel of Sex Education. While telling a story that focuses on the lives of students, parents and teachers of Moordale Secondary School, including [sex-]educational matters in the plot, the show clearly has its own didactics to eventually educate its spectators. On the one hand, conventional educational systems, and mechanisms of socialization such as school, therapy, family, and popular culture are part of the plot, which makes visible the kind of influence these might have on adolescent identity formation. On the other hand, common educational structures are taken and playfully converted. Also, well-known educational hierarchies are mentioned, are deconstructed, and finally re-emerge, their original order reversed. The spectator is presented with the question "Who educates who?". Normative, conventional forms of relation are often dissolved and new forms of companionship or even kinship are established. The series subjects its protagonists as well as its spectators to dichotomies such as direct/indirect education and conscious/unconscious education and it mirrors the different ways in which education can affect and [de-]construct identity. The series investigates the relation between power and knowledge, ultimately obtained through education, it negotiates questions regarding the place and the way in which people receive and share education and it reveals how ideologies are imparted and how they direct a certain discourse. For my analysis of how Sex Education/[Sex-]Education [de-]constructs identities, educational systems and institutions, uncommon educational structures and the development of the characters and their relations within the diegesis and on a metatextual level, the series' didactics will be considered. Recourses to conceptual works by Judith Butler, Kimberley Crenshaw, Donna Haraway, Louis Althusser, and Timothy Shary will be mobilized to conceptualize the manifold role education plays in this show.

Sex, Freedom, and Power in Imperial Germany, 1880-1914 -

Edward Ross Dickinson 2014-02-17

This is a study of debate over sexuality and sexual morality that roiled politics in Germany between 1880 and 1914. All parties involved understood it to be a debate over the most fundamental question of modern political life: how to secure both national power and individual freedom in the context of rapid social and cultural change.

Women, the Family, and Freedom - Susan G. Bell 1983

This is the second book in a two-part collection of 264 primary source documents from the Enlightenment to 1950 chronicling the public debate that raged in Europe and America over the role of women in Western society. The present volume looks at the period from 1880 to 1950. The central issues--motherhood, women's legal position in the family, equality of the sexes, the effect on social stability of women's education and labor--extended to women the struggle by men for personal and political liberty. These issues were political, economic, and religious dynamite. They exploded in debates of philosophers, political theorists, scientists, novelists, and religious and political leaders. This collection emphasizes the debate by juxtaposing prevailing and dissenting points of view at given historical moments (e.g. Madame de Staël vs. Rousseau, Eleanor Marx vs. Pope Leo XIII, Strindberg vs. Ibsen, Simone de Beauvoir vs. Margaret Mead). Each section is preceded by a contextual headnote pinpointing the documents significance. Many of the documents have been translated into English for the first time.
