Impact Evaluation of the Prison-based Core Sex Offender Treatment Programme - Aidan Mews 2017

**Treatment programmes for high risk offenders** - Devon Polaschek 2017-10-02

High risk offenders can have a disproportionate impact on their communities because, despite all manner of sentencing options, they continue to commit a wide range of crimes, both minor and serious. It is tempting to throw the book at them, sometimes even to throw away the key. However, anything that helps offenders to change their propensity for re-offending can really make a difference. Over the last 30 years, scientific research has guided the provision of treatment, rehabilitation and reintegration services that lead to reductions in re-offending. Much of what we know, however, comes from work with medium-risk offenders. Although this work is important and valuable, there is a lower level of complexity to working with medium-risk offenders than most high-risk offenders require. This book recognizes the need to research and develop different approaches to rehabilitating high-risk offenders. Each of the contributions takes a different approach, with a different group of offenders, in a different setting. Cumulatively, the chapters provide encouragement for those working with high risk offenders, along with a wide range of ideas about how to develop better services. This book was originally published as a special issue of *Psychology, Crime & Law*.

*Impact Evaluation of the Prison-based* - 2017

*Step 3* - Anthony Beech 1998

**Working with Sexual Offenders** - Laura Louise Brampton 2010

Since the mid 1980s, a mass of scholarly material has been published on sex offender treatment, particularly relating to cognitive behavioural techniques. Alongside this, there has been a gradual recognition by academics and practitioners in the field of the particular challenges faced by those providing treatment for sexual offenders. As well as having to analyse detailed accounts of sexual violence, sex offender therapists are faced with the responsibility of working with some of the most difficult offenders in the system in terms of their generally poor motivation to change and the serious consequences of their reoffending. As a result, various detrimental impacts have been associated with providing treatment to sexual offenders, including stress, burnout and vicarious traumatisation. This thesis presents the results of interviews conducted with a variety of Prison Service staff working with sex offenders on the Sex Offender Treatment Programme (SOTP), which has been hailed as the largest multi-site, cognitive behavioural treatment programme for sex offenders in the world. Participants were asked about the positive and negative effects of working with sexual offenders, the quality of training they had received, and what types of personal and organisational support were available to them. The results show that the Prison Service needs to give greater consideration when selecting candidates to deliver the SOTP, and those individuals who have been a victim of sexual abuse should be excluded from the recruitment process. In addition, it is concluded that there should be further staff training for those working on the SOTP, and that existing sources of organisational support need to be improved.

Working with Sexual Offenders - Laura Brampton 2011-05

Since the mid 1980s, a mass of scholarly material has been published on

sex offender treatment. There has also been a gradual recognition by academics and practitioners working in the field of the particular challenges faced by those providing treatment for sexual offenders. Various detrimental impacts have been associated with providing treatment to sexual offenders, including stress, burnout and vicarious traumatisation. In this book, the author presents the results of interviews conducted with a variety of Prison Service staff working with sex offenders on the UK-based Sex Offender Treatment Programme (SOTP). Participants were asked about the positive and negative effects of working with sexual offenders, the quality of training they had received, and what types of personal and organisational support were available to them. The results show that the UK Prison Service needs to give greater consideration when selecting candidates to deliver the SOTP. In addition, it is concluded that there should be further staff training for those working on the SOTP, and that existing sources of organisational support need to be improved.

**The Prison-based Sex Offender Treatment Programme** - Lianne Anderson 1997

*Assessment and Treatment of Sex Offenders* - Anthony R. Beech  
2009-03-04

A comprehensive resource for practitioners working with sexual offenders. Discusses assessments and interventions, as well as providing a comprehensive literature review. There are around 10,000 convictions or cautions for sexual offences in the UK each year; early evidence suggests that treatment programmes can halve re-conviction rates. Edited by a University of Birmingham team who are world leaders in researching this area; the subject is of interest worldwide, with strong markets in Canada and New Zealand. Includes material on managing offenders with developmental disabilities and those with Dangerous and Severe Personality Disorder.

*Child Sexual Abusers* - Jackie Craissati 2021-10-30

Uniquely, this book aims to provide students and practitioners with a knowledge base in relation to child sexual abusers which is focused on

practice - assessment, treatment and evaluation - but rooted in psychological theory. Its strength lies in the simplification and outlining of a coherent approach to this group of offenders that is afforded by the single-author treatment, particularly so given that this author has developed and managed a sex offender project in South East London which is now one of the largest, longest running, and most thoroughly evaluated in the country.

*Offending Behaviour Programmes* - Emma J. Palmer 2006-10-02  
Part of the Wiley Series in Forensic Clinical Psychology, *Offending Behaviour Programmes: Development, Application and Controversies* explores the subject at two levels: the technical issues associated with designing and implementing programs and the broader issues surrounding programs such as the impact on practitioners. Each chapter covers theory, research, practice, and evaluation.

*The Development of a New Multi-disciplinary Sex Offender Rehabilitation Programme for the Irish Prison Service* - Francesca Lundström 2002

**An Evaluation of the Prison Service Sex Offender Treatment Programme** - Great Britain. Home Office. Research and Statistics Directorate 1998

Therapy, child abuser, deviancy, denial.

**Treating Sex Offenders** - Sarah Brown 2013-07-04

This book aims to provide an introduction and overview of sex offender treatment programmes, designed for students and practitioners coming to this field. It seeks to describe the development, theoretical underpinnings, treatment goals and operation of cognitive-behavioural and other programmes to an audience unfamiliar with this form of rehabilitation. In addition, it aims to examine the effectiveness of these programmes and the difficulties associated with assessing this, the public response to treatment and also the effects on staff responsible for implementing them. The book is concerned particularly to assess the operation of sex offender treatment programmes in the UK context, considering also the issues associated with implementing programmes developed in other contexts, especially the USA and Canada. It will be of

interest to practitioners, particularly those who are beginning work on sex offender treatment programmes, or others (such as health workers, social workers, probation officers) who come into contact with these programmes indirectly.

*Sourcebook of Treatment Programs for Sexual Offenders* - William Lamont Marshall 2013-11-22

A guide for the design and implementation of treatment programs, this book emphasizes clinical issues over research and offers valuable suggestions for dealing with problems that arise in treatment.

Contributors describe their work in prisons, psychiatric institutions, and community settings. Special attention is given to culturally sensitive treatments and to special populations, including professionals, clergy, juveniles, women, and the physically challenged.

*The Prison-based Sex Offender Treatment Programme* - Caroline Friendship 2003

[The Treatment of Sex Offenders with Developmental Disabilities](#) - William R. Lindsay 2009-03-12

A practical treatment manual, specifically developed for use with offenders who have intellectual disabilities, which will help clinicians to prepare and run therapeutic group sessions as part of an offender rehabilitation programme. Traditional methods and techniques have been modified so that they can be used with offenders with developmental disabilities Looks at topics such as disclosure, dealing with cognitive distortions, the cycle of offending, victim awareness,

pathways to offending and non-offending and relapse prevention As well as CBT, new initiatives in offender rehabilitation, such as self-regulation and the Good Lives Model (GLM), are covered

**An Evaluation of the Prison Sex Offender Treatment Programme** - Anthony Beech 1998

**Offending Identities** - Kirsty Hudson 2013-06-17

This book aims to explore sex offenders' perspectives of the way they are treated and managed. Whilst a great deal has been written about sex offenders and their treatment within the criminal justice system, few studies have approached the issues through an understanding of offenders' own views and perspectives on their offending behaviour and others' responses to it. This book aims to redress this imbalance. The book is based on in-depth interviews with 32 convicted male sex offenders attending three different sex offender treatment programmes (the prison based Sex Offender Treatment Programme, Behaviour Assessment Programme and the community-led Sex Offender Groupwork Programme). Through gaining an understanding of offenders perceptions of initiatives designed to both treat and control their risk of future offending, *Offending Identities* at the same time helps us to evaluate the effectiveness of such schemes.
