Deep Green Resistance Derrick Jensen 2011-01-04 For years, Derrick Jensen has asked his audiences, "Do you think this culture will undergo a voluntary transformation to a sane and sustainable way of life?" No one ever says yes. Deep Green Resistance starts where the environmental movement leaves off: industrial civilization is incompatible with life. Technology can't fix it, and shopping—no matter how green—won't stop it. To save this planet, we need a serious resistance movement that can bring down the industrial economy. Deep Green Resistance evaluates strategic options for resistance, from nonviolence to guerrilla warfare, and the conditions required for those options to be successful. It provides an exploration of organizational structures, recruitment, security, and target selection for both aboveground and underground action. Deep Green Resistance also discusses a culture of resistance and the crucial support role that it can play. Deep Green Resistance is a plan of action for anyone determined to fight for this planet—and win.

You've Come a Long Way, Baby Lilly J. Goren 2009-05-22 "Provocative and diverse" essays on the image—and the reality—of feminism in the twenty-first century (Christine A. Kelly, author of *Tangled Up in Red, White, and Blue*). No matter what brand of feminism one may subscribe to, one thing is indisputable: the role of women in society during the past several decades has changed dramatically, and continues to change in a variety of ways. In *You've Come a Long Way, Baby*, Lilly J. Goren and an impressive group of contributors explore the remarkable advancement achieved by American women in a historically patriarchal social and political landscape, while examining where women stand today and contemplating the future challenges they face worldwide. As comprehensive as it is accessible, *You've Come a Long Way, Baby* appeals to anyone interested in confronting the struggles and celebrating the achievements of women in modern society. "Some of the articles are down-to-earth, some are down-and-dirty. Some are matter-of-fact, others deliberately argumentative in tone. The book itself is a treasury." —Lincoln County News

Sunflower Houses Sharon Lovejoy 2017-01-24 A magical book of adventures and appreciations written and illustrated by the author of *Roots, Shoots, Buckets & Boots* this award-winning title was published by a small press in Colorado in 1991. The reviews say it all: A fetching primer on gardening for children. . . . Irresistible (The Smithsonian). What child, or indeed adult, would not be delighted? Lovejoy's recollections are wonderful, as are the illustrations (Victoria). Celebrating the lore of the garden and the joy of interacting with nature, *Sunflower Houses* is a unique garden lover's miscellany, a collection of memories, poems, activities, garden plans, crafts, botanical riddles, stories, games, and planting projects. There are inspirations for a Floral Clock Garden, A Child's Own Rainbow, Faerie Tea Parties, and, of course, the Sunflower House. Plus, from garden lovers, stories of favorite flowers. Throughout are the artist's warm and appealing watercolors of a life in gardening remembered.

Idols of the Marketplace D. Hawkes 2001-10-11 Postmodern society seems incapable of elaborating an ethical critique of the market economy. Early modern society showed no such reticence. Between 1580 and 1680, Aristotelian teleology was replaced as the dominant mode of philosophy in England by Baconian empiricism. This was a process with implications for every sphere of life: for politics and theology, economics and ethics, aesthetics and sexuality. Through nuanced and original readings of Shakespeare, Herbert, Donne, Milton, Traherne, and Bunyan, David Hawkes sheds light

on the antitheatrical controversy, and early modern debates over idolatry and value and trade. Hawkes argues that the people of Renaissance England believed that the decline of telos resulted in a reified, fetishistic mode of consciousness which manifests itself in such phenomena as religious idolatry, commodity fetish, and carnal sensuality. He suggests that the resulting early modern critique of the market economy has much to offer postmodern society.

The Mating Mind Geoffrey Miller 2001 Miller shows how our brains are the products of sexual selection, not natural selection, and how this alters and illuminates our understanding of intelligence, art, language, mortality, sex and the differences between men and women.

The African Diaspora Patrick Manning 2010-03-05 Patrick Manning follows the multiple routes that brought Africans and people of African descent into contact with one another and with Europe, Asia, and the Americas. In joining these stories, he shows how the waters of the Atlantic Ocean, the Mediterranean Sea, and the Indian Ocean fueled dynamic interactions among black communities and cultures and how these patterns resembled those of a number of connected diasporas concurrently taking shape across the globe. Manning begins in 1400 and traces the connections that enabled Africans to mutually identify and hold together as a global community. He tracks discourses on race, changes in economic circumstance, the evolving character of family life, and the growth of popular culture. He underscores the profound influence that the African diaspora had on world history and demonstrates the inextricable link between black migration and the rise of modernity. Inclusive and far-reaching, *The African Diaspora* proves that the advent of modernity cannot be fully understood without taking the African peoples and the African continent into account.

Alexander Payne Leo Adam Biga 2016-09 Leo Biga has reported on the career of filmmaker Alexander Payne for 20 years. In this updated collection of essays, the author-journalist-blogger offers the only comprehensive look at Payne's career and creative process. Based in Payne's hometown of Omaha, Nebraska, Biga has been granted access to location shooting for *Nebraska* and *Sideways*, the latter filmed in California's wine country. Biga has also been given many exclusive interviews by Payne and his creative collaborators. His insightful analysis of Payne's films and personal journey has been praised by Payne for its "honesty, thoughtfulness, and accuracy." The two-time Oscar-winner calls Biga's articles, "the most complete and perceptive of any journalist's anywhere." Payne's films are celebrated for their blend of humor and honest look at human relationships. Members of Hollywood's A-List, including George Clooney (*The Descendants*), Jack Nicholson (*About Schmidt*), Reese Witherspoon (*Election*), Paul Giamatti (*Sideways*), Laura Dern (*Citizen Ruth*), and Bruce Dern (*Nebraska*), have starred in his films.

The Many-Headed Hydra Peter Linebaugh 2013-09-03 Winner of the International Labor History Award Long before the American Revolution and the Declaration of the Rights of Man, a motley crew of sailors, slaves, pirates, laborers, market women, and indentured servants had ideas about freedom and equality that would forever change history. *The Many Headed-Hydra* recounts their stories in a sweeping history of the role of the dispossessed in the making of the modern world. When an unprecedented expansion of trade and colonization in the early seventeenth century launched the first global economy, a vast, diverse, and landless workforce was born. These workers crossed national, ethnic, and racial boundaries, as they circulated around the Atlantic world on trade ships and slave ships, from England to Virginia, from Africa to Barbados, and from the Americas back to Europe. Marshaling an impressive range of original research from archives in the Americas and Europe, the authors show how ordinary working people led dozens of rebellions on both sides of the North Atlantic. The rulers of the day called the multiethnic rebels a 'hydra' and brutally suppressed their risings, yet some of their ideas fueled the age of revolution. Others, hidden from history and recovered here, have much to teach us about our common humanity.

The Queer Fantasies of the American Family Sitcom Tison Pugh 2018-02-27 *The Queer Fantasies of the American Family Sitcom* examines the evasive depictions of sexuality in domestic and family-friendly sitcoms. Tison Pugh charts the history of increasing sexual depiction in this genre while also unpacking how sitcoms use sexuality as a source of power, as a kind of camouflage,

and as a foundation for family building. The book examines how queerness, at first latent, became a vibrant yet continually conflicted part of the family-sitcom tradition. Taking into account elements such as the casting of child actors, the use of and experimentation with plot traditions, the contradictory interpretive valences of comedy, and the subtle subversions of moral standards by writers and directors, Pugh points out how innocence and sexuality conflict on television. As older sitcoms often sit on a pedestal of nostalgia as representative of the Golden Age of the American Family, television history reveals a deeper, queerer vision of family bonds.

The Language of Food: A Linguist Reads the Menu Dan Jurafsky 2014-09-15 A 2015 James Beard Award Finalist: "Eye-opening, insightful, and huge fun to read." —Bee Wilson, author of *Consider the Fork* Why do we eat toast for breakfast, and then toast to good health at dinner? What does the turkey we eat on Thanksgiving have to do with the country on the eastern Mediterranean? Can you figure out how much your dinner will cost by counting the words on the menu? In *The Language of Food*, Stanford University professor and MacArthur Fellow Dan Jurafsky peels away the mysteries from the foods we think we know. Thirteen chapters evoke the joy and discovery of reading a menu dotted with the sharp-eyed annotations of a linguist. Jurafsky points out the subtle meanings hidden in filler words like "rich" and "crispy," zeroes in on the metaphors and storytelling tropes we rely on in restaurant reviews, and charts a microuniverse of marketing language on the back of a bag of potato chips. The fascinating journey through *The Language of Food* uncovers a global atlas of culinary influences. With Jurafsky's insight, words like ketchup, macaron, and even salad become living fossils that contain the patterns of early global exploration that predate our modern fusion-filled world. From ancient recipes preserved in Sumerian song lyrics to colonial shipping routes that first connected East and West, Jurafsky paints a vibrant portrait of how our foods developed. A surprising history of culinary exchange—a sharing of ideas and culture as much as ingredients and flavors—lies just beneath the surface of our daily snacks, soups, and suppers. Engaging and informed, Jurafsky's unique study illuminates an extraordinary network of language, history, and food. The menu is yours to enjoy.

The Values of Independent Hip-Hop in the Post-Golden Era Christopher Vito 2019-02-08 Utilizing a mixed-methods approach, this book uncovers the historical trajectory of U.S. independent hip-hop in the post-golden era, seeking to understand its complex relationship to mainstream hip-hop culture and U.S. culture more generally. Christopher Vito analyzes the lyrics of indie hip-hop albums from 2000-2013 to uncover the dominant ideologies of independent artists regarding race, class, gender, sexual orientation, and social change. These analyses inform interviews with members of the indie hip-hop community to explore the meanings that they associate with the culture today, how technological and media changes impact the boundaries between independent and major, and whether and how this shapes their engagement with oppositional consciousness. Ultimately, this book aims to understand the complex and contradictory cultural politics of independent hip-hop in the contemporary age.

Trouble Boys is a deeply intimate portrait, revealing the primal factors and forces that shaped one of the most brilliant and notoriously self-destructive rock 'n' roll bands of all time. Beginning with riveting revelations about the Replacements' troubled early years, Trouble Boys follows the group as they rise within the early '80s American underground.
