Human Trafficking - Joan Reid 2017-10-02

Human trafficking involves the violation of societal norms and often activates criminal justice responses including police, courts, juvenile justice, and child protective services. Due to the complex nature of human trafficking, some behaviours that facilitate human trafficking cannot be easily identified and assigned to conventional crime categories. As a result of this complexity, criminologists have yet to fully explore the problem of human trafficking. In recent years, however, there has been a growing interest among criminologists in human trafficking and its intersections with the criminal justice system and overlap with conventional types of crime. This edited collection of research aims to underscore these intersections in order to further improve the description, explanation, and prevention of human trafficking. Research contained in this book provides a step forward by describing police perceptions and responses to human trafficking while also providing insight into victims with reports on victim perceptions of their treatment by the police. Most notably, this volume has moved research on human trafficking beyond descriptive frequencies to sophisticated multivariate analyses. This book was originally published as a special issue of the Journal of Crime and Justice.

Handbook of Research on Present and Future Paradigms in Human Trafficking - Essien, Essien D. 2022-05-20

Human trafficking is currently regarded as a contemporary form of slavery. However, despite many initiatives undertaken over the last two decades to tackle the problem, there seems to be a disproportionate emphasis on the social phenomenon. Trafficking in persons remains a little-explored area in scholarship with many inconsistencies and ambiguities yet to be attended to. Human trafficking is a multifaceted issue that requires a multidisciplinary approach that must be studied and considered thoroughly and with heavy regard to the many layers of the issue. The Handbook of Research on Present and Future Paradigms in Human Trafficking presents a comprehensible view of what constitutes the underpinning of human trafficking, the means of combating it, its moral implications, and offers possible solutions toward curbing its excesses, inconsistencies, and ambiguities. Covering a range of topics such as social change, human rights, and ethics, this major reference work is ideal for researchers, scholars, practitioners, government officials, policymakers, instructors, academicians, and students.

BELLE BREZING - MC Price 2014-10-23

Somewhere between a paperboy's first cup of chicory coffee and the memories of the Madam who inspired Belle Watling of *Gone With the Wind* fame, there lies a story of sex, secrets and spiritual redemption. Interweaving portals to the past with the magic of a Spirit Guide called back to his lover's deathbed, *Belle Brezing* is a haunting love story about a loyal paperboy on a high-stakes mission: To guide his former lover to remember the secret that forged her rise to fame but closed her heart to love. *Belle Brezing*, the novel, takes a look at the woman who died in virtual isolation in 1940, decades after her business was closed by the Army in 1917. Brezing was a nationally known southern Madam whose obituary appeared on the front of the *NY Times* as well as *Time Magazine*. (1863-1940) Belle Brezing was a charismatic woman who brought herself out of poverty and an emotionally and physically painful early childhood. Shedding light on the connections of a wounded past and a life lived in quiet desperation, the award-winning novel *Belle Brezing* exposes the scandals and secrets of this dynamic woman whose life parallels timely issues in the arena of prostitution and sex trafficking.

Human Trafficking - Noël Bridget Busch-Armendariz 2017-03-31

Human Trafficking: Applying Research, Theory, and Case Studies is a practical, interdisciplinary text that draws from empirically grounded scholarship, survivor-centered practices, and an ecological perspective to help readers develop an understanding of the meaning and scope of human trafficking. Throughout the book, authors Noël Bridget Busch-Armendariz, Maura Nsonwu, and Laurie Cook Heffron address the specific vulnerabilities of human trafficking victims, their medical-psycho-social needs, and issues related to direct service delivery. They also address the identification of human trafficking crimes, traffickers, and the impact of this crime on the global economy. Using detailed case

studies to illuminate real situations, the book covers national and international anti-trafficking policies, prevention and intervention strategies, promising practices to combat human trafficking, responses of law enforcement and service providers, organizational challenges, and the cost of trafficking to human wellbeing.

Eradicating Human Trafficking: Culture, Law and Policy - Gabriela Curras DeBellis 2021-12-13

With over 40 million people still enslaved around the world, this book takes a closer look at the role of culture in society and how certain practices, beliefs or behaviors are fueling human trafficking beyond what the law can curtail.

Paths to the Prevention and Detection of Human Trafficking - Andrews, Sharon K. 2022-06-10

Much has already been published to better understand the problems associated with human trafficking such as why it occurs, where it occurs, and the horrendous tolls it takes on individuals and society. However, further study on the latest innovative ideas, research, and real-world efforts towards the detection and prevention of human trafficking analysis as well consideration of the success or failure of the current approaches is required in order to understand the necessary future improvements and how to best achieve them. *Paths to the Prevention and Detection of Human Trafficking* presents innovative and potentially transformational concepts and research results that discuss current, or developing, approaches that address the identification, reporting, and prevention of human trafficking, including important identified enablers of trafficking. Covering a range of topics such as machine learning and child exploitation, this reference work is ideal for policymakers, government officials, hospital administrators, researchers, academicians, scholars, practitioners, instructors, and students.

The Sex Trade, Evil, and Christian Theology - Glenn M. Harden 2016-03-04

As a scholar and an activist, Glenn Harden seeks a theology of hope that can sustain opposition to evil. Looking into the face of evil without blinking, he uses the sex trade as an example of how horrendous evil can be. But he also uncovers stories of radical healing which are problematic for those who deny either God or the resurrection. This book is for those people of faith who walk in dark places and need deeper theological sustenance to sustain their journey.

Domestic Minor Sex Trafficking - Alexandra Lutnick 2016-01-12

The domestic sex trafficking of minors is a problem of growing concern yet little critical attention. This book analyzes the forces behind the sex-trafficking industry in the United States and provides a much-needed reference for practitioners. It adopts a holistic approach, pursuing a nuanced exploration of these young people's experiences, their treatment, and outside efforts to combat sex trafficking. The book features interviews with service providers and experts, and incorporates recent research, thereby mapping the complex factors associated with young people's involvement in trading sex and the social connections that facilitate their behavior. It considers the experiences of both those who "choose" sex work and those who are forced into it by circumstances or third parties, and it discusses the networks of friends and close acquaintances who introduce newcomers to the trade. In addition, it takes a hard look at how local and federal responses to trafficking increase young people's vulnerability to trading sex. Urging policymakers and practitioners to move beyond the simple framework of "rescuing" victims and "punishing" villains, this book calls for policies and programs that focus on the failure of social and cultural systems and respond better to the young people caught in this web.

Sex Trafficking of Minors - Jennifer Cole 2018

Domestic Minor Sex Trafficking - Susan C. Mapp 2016

The Body Traffick - Ron Formisano 2021-09-19

Investigative reporter Clay "call me Thorne" Hawthorne takes on the multi-billion-dollar industry of human trafficking that steals for profit the

freedom of millions of victims. In Kentucky arrests of restaurant and other business owners using forced labor in inhumane conditions are common. But Thorne wants to expose the bigger business of sex trafficking that coerces hundreds of women and girls into a modern form of slavery. His inquiries lead him into conflict with a racist motorcycle gang as he focuses on erotic massage parlors, over ten thousand in the U.S. and hundreds in Kentucky. Thorne discovers that voluntary and involuntary prostitution, from high-class escort services to local rings in small towns to the strings of massage parlors, is "hiding in plain sight." But exposing the extensive criminal networks that operate strings of parlors proves difficult and dangerous. He enlists the reluctant help of a former escort, a beautiful, mysterious woman with a past she wants to forget. Meanwhile, white nationalist militias and Nazis are recruiting in Kentucky and prompted by their deluded conspiracy theories, have targeted his newspaper, the Bluegrass Herald as an enemy of white supremacy.

Sex, Lies & Black Tie - Kris Calvert 2016-11-08

"Sex, Lies and heroes that will make you swoon. Kris Calvert's Sex Lies Series will keep you hot, bothered and begging for more!" —Robyn Peterman, New York Times and USA Today bestselling author Mac Callahan has left the fast lane of the FBI, trading a firearm for tea parties with his baby girl, and dangerous raids for a game of catch with his son. Still, he fights off a nagging feeling every day. Mac is restless. When the North Star Gala, a charitable affair his wife Samantha has been planning, unexpectedly finds its way to his home in Shadeland, Alabama, he's asked to oversee security for the event filled with Washington insiders, politicians and the elite. The U.S. President and Secretary of State are coming to Lone Oak. Finding his way back to Washington, D.C. to lead the project, he's met head on with his former life as a free-wheeling bachelor and his long-time assistant, Micah. But when Micah's sister goes missing from a college field trip, Mac walks away from the Secret Service and their plans, taking the opportunity to quench his thirst for action and the lead to find the young girl. Expecting an open and shut case, what he discovers is far worse than he could've imagined. Deep in the darkest part of the Internet, a human trafficking ring operates so steeped in anonymity, its patrons are highly protected—all the way to Capitol Hill. Counting down to the black tie event, Mac will face the toughest fight of his life—protecting his family and friends from politicians and government operatives who live above the law and wield the power to ruin and end lives without retribution. When it's a twisted game of sex, lies and clandestine espionage, no one is safe, no one is to be trusted, and no one is truly unknown.

Purchased - Deanna Lynn 2019-10-09

We live in a culture increasingly influenced by porn. Sex is used to sell everything, from household products to cars to electronics. Provocative and popular fiction like *50 Shades of Gray* is encouraging people to play with a fire that could destroy their homes. We supposedly stand against sex trafficking, and then we turn around and increase the demand through our music, clothing, and movie choices. These decisions to entertain ourselves with increasing shock factor reveal that most audiences are currently numb to the publicizing and proliferation of what was once deemed private. Amidst this sex-satiated culture, I want to give a realistic view of the life of someone who once allowed herself to be sold. In sharing my own story and journey into and out of the sex industry, I want to educate others in a way that encourages us to stop buying sex in all forms and instead to honor one another as whole people. I want to encourage us to consider the woman who has been made a sex symbol so that we learn to honor both who she was before and who she might become if given an opportunity to succeed in a life outside of selling her body. I have encountered many men and women who were put into this life by their pimps and boyfriends. Others entered it while trying to escape their own trauma and trying to gain some control or dignity in their own lives. Yet others truly believe they can do nothing else. I want to offer you a glimpse of the mentality of a young girl who thought this was her best option in life. As a woman who was once purchased, I am often placed into one of two categories: I am either victimized as a survivor of human trafficking, or my trauma is dismissed since I chose to enter the commercial sex industry. This is an unhelpful and extreme distinction—especially when some of those fighting to end trafficking are also those who justify their use of pornography, brothels, strip clubs, and escort services because they believe all these women choose to be there. Choice is not always a simple matter when it is derived from decades of compounding trauma, addictions, and lack of quality guidance. For this reason, I want to show you what life looks like when a person says yes to being sold. This book is not meant to leave

readers in despair but rather to depict enough of my own journey through deception to invite appreciation of the freedom possible with complete surrender. I want to show how hope gives birth to new life, when a true chance to heal and opportunities to flourish are given. No one is too far gone. However, no one can complete the journey in isolation. In this sense, I hope my story can also aid those who want to mentor other women on their journeys of healing and redemption. My desire is that the full presentation of my background—and the way it fed into my choices—can help offer understanding about the many layers of hurt that are present for women leaving the sex industry. More than the woman's body has been wounded, and many memories that stretch much further back than her start in the industry will need to be opened up and healed. Freedom does take work. But it is an infinitely good and worthwhile work. I personally engaged in my deepest healing efforts at the Refuge for Women in Kentucky. And there, I discovered a place to be truly safe for the first time in my life. I remember lying in my bed each night and saying to myself, "I am safe. I am loved. I am secure." Because of the hard work I did there, I can still say and mean those words today, many years later. If you are called to help a woman walk this road, please let my story invite you into awareness of the layers involved in both her hurt and her healing. And whether you read this story as a mentor or a mentee, let it encourage you of the good and the freedom yet in store. Ultimately, I hold to the unshakable belief that there here is hope and help for everyone. I hope my story confirms this for you.

Panics without Borders - Gregory Mitchell 2022-09-13

We are living in a time of great panic about "sex trafficking"—an idea whose meaning has been expanded beyond any real usefulness by evangelicals, conspiracy theorists, anti-prostitution feminists, and politicians with their own agendas. This is especially visible during events like the FIFA World Cup and the Olympic Games, when claims circulate that as many as 40,000 women and girls will be sex trafficked. Drawing on extensive fieldwork in Brazil as well as interviews with sex workers, policymakers, missionaries, and activists in Russia, Qatar, Japan, the UK, and South Africa, Gregory Mitchell shows that despite baseless statistical claims to the contrary, sex trafficking never increases as a result of these global mega-events—but police violence against sex workers always does. While advocates have long decried this myth, Mitchell follows the discourse across host countries to ask why this panic so easily embeds during these mega-events. What fears animate it? Who profits? He charts the move of sex trafficking into the realm of the spectacular—street protests, awareness-raising campaigns, telenovelas, social media, and celebrity spokespeople—where it then spreads across borders. This trend is dangerous because these events happen in moments of nationalist fervor during which fears of foreigners and migrants are heightened and easily exploited to frightening ends.
