**Inter-State Comparative Analysis. Trends and Determinants causing Gender Imbalance in India** - Ramanpreet Kaur Nayyar 2017-11-14

Research Paper (postgraduate) from the year 2017 in the subject Economics - Case Scenarios, grade: -, Doon University, language: English, abstract: Evidences show that many states in our country have shown wide variations in the gender balance. Throughout its long history, India experiences wide variety of cultures and traditions. However, it is unfortunate that this transitional phase led to creation of a culture where women are treated inferior to men. Also, it has been seen that the ideology and perception further differs on the basis of geographical areas too. On one hand, in a matriarchal society under southern parts, women are treated as leaders and natural heirs whereas on the other hand in northern parts they are not even allowed to born. It is also noticed that states differ in sex ratio on the basis of literacy as well. In this context, the present study aims to analyze the trends and their determinants of the skewed distribution among the states and the union territories of the country.

*The Demographic and Development Divide in India* - Sanjay K. Mohanty 2019-09-16

This book is the first-ever volume which provides comprehensive information on demographic, health and development at the level of 640 districts in India. Central and state governments, developmental organizations, national and international NGOs and researchers require disaggregated data at the district level for many practical purposes. However, such information is not readily available for use. The editors, with a close-knit group of collaborators, have compiled data from reliable sources for each district of India and present the results in the form of composite indexes. The chapters rank districts within the state and vis-à-vis all districts of India to help readers understand intra-district and inter-district developmental disparities. They present spatial analyses that depict clustering of development. It is a ready reference for planners, researchers and students and provides scientific analyses that depict the clustering of development parameters at the district level. This volume is meant for a wide readership interested in development in India, across population studies, sociology, economics, statistics, to regional development, and from academics, researchers, and planners to policy makers.

Issues in Women's Rights - K M Baharul Islam 2014-04-25

A key challenge facing the overall women's rights scenario in any remote region like Northeast India is availability of trained lawyers in local courts to assist the aggrieved women to fight their rights violation cases or otherwise guard their interests in a dispute. Such legal services, embracing both individual access to justice and public interest law transcending individual needs, contribute to the rule of law, good governance, human rights, empowerment of the poor and poverty alleviation. The women's rights lawyers need special training and set of professional tools for forging the future of legal services and legal systems. In order to address this gap, a special training workshop was organized by PFI Foundation, Guwahati in February, 2012. This resource book is an outcome of that exercise. It may be used as a Women's Rights Lawyers' Handbook or a manual which is readily available for adoption by law schools to conduct similar programs and also act as a ready-reckoner for the lawyers, police officers, administrators, corporate human resource managers and chief executives of organizations. The contents of the resource book contains training materials used at the training workshop, individual research studies by the authors and a compilation of some important reference documents from different sources. The book mainly covers issues like social security legislations, free legal aid, constitutional remedies, marriage laws, separation, divorce, maintenance, offences of dowry, violence against women, rights at work place, sexual harassment at work place, Vishaka Guidelines, etc.
