Sex Addiction as Affect Dysregulation: A Neurobiologically Informed Holistic Treatment (Norton Series on Interpersonal Neurobiology) - Alexandra Katehakis 2016-09-20

Examining the neurobiological underpinnings of sex addiction. Neuroaffective science—studying the integrated development of the body, brain, and mind—has revealed mechanisms linking psychological and biological factors of mental disorders, including addiction. Indeed, its paradigm-shifting theoretical umbrella demonstrated that substance and behavioral dependencies share identical neurobiological workings, and thus that problematic repetitive behaviors are genuine addictions—a state increasingly understood as a chronic brain disorder. Clinical experience strongly suggests that sex addiction (SA) treatment informed by affective neuroscience—the specialty of Alexandra Katehakis—proves profoundly transformative. Katehakis's relational protocol, presented here, blends neurobiology with psychology to accomplish full recovery. Her Psychobiological Approach to Sex Addiction Treatment (PASAT) joins therapist and patient through a relationally-based psychotherapy—a holistic, dyadic dance that calls on the body, brain, and mind of both. Written with clarity and compassion, this book integrates cutting-edge research, case studies, verbatim session records, and patient writings and art. Katehakis explicates neurophysiological, psychological, and cultural forces priming and maintaining SA, then details how her innovative treatment restores patients' interpersonal, sexual, and spiritual relationality.

Crystal Meth and Men Who Have Sex with Men - Drescher Jack 2006-10-19

Could crystal meth use in the gay community be responsible for a resurgence in the AIDS epidemic? According to recent studies, gay men who use crystal methamphetamine were twice as likely to have unprotected sex as those who did not — and more than three times as likely to be HIV-positive. *Crystal Meth and Men Who Have Sex with Men* is an unflinching look at this dangerous threat to the gay community, addressing the health and mental health needs of “Tina” users who are lost in a downward spiral of addiction and high-risk sexual behaviors. This vital book is the product of a unique collaboration between the New York City Department of Health and Mental Hygiene and researchers, clinicians, and community activists. *Crystal Meth and Men Who Have Sex with Men* contains the published proceedings of two important community events that took place in 2004 in New York City—“The Crystal Meth-HIV Connection: A Public Forum with Harvey Fierstein” and “Crystal Methamphetamine: Understanding and Treatment an Emerging Health Crisis.” Each article—whether drawn from personal account, research study, or online survey—reinforces the reality for the gay community that wherever crystal meth is, increases in sexual risk behaviors for HIV and other sexually transmitted infections (STIs) are sure to follow. This powerful book will help you to identify, approach, and treat clients who use meth, examining the physical, medical, and psychological effects and consequences of its widespread abuse. Topics addressed in *Crystal Meth and Men Who Have Sex with Men* include: the medical complications associated with methamphetamine use in HIV-infected patients, including hypertension, hyperthermia, rhabdomyolysis, and stroke the alarming rise in the number of emergency room visits related to crystal meth use the psychiatric consequences of methamphetamine use sexual history taking and screening for sexually transmitted infections creative educational interventions and clinical strategies substance abuse treatment interventions cognitive-behavioral

therapy motivational interviewing gay-identified community-based treatment programs “club drugs” and the increase of HIV incidence harm reduction and much more *Crystal Meth and Men Who Have Sex with Men* is an essential resource for health and mental health professionals, including psychiatrists, psychologists, social workers, counselors, primary care physicians, nurse practitioners, and physician assistants. It's equally beneficial for staff and administrators of community-based organizations that serve gay men.

Vicki will stop at nothing to get what she wants whether that be sexual satisfaction or financial gain.--Back cover.

Neuropsychodrama in the Treatment of Relational Trauma - T. Dayton 2015-11-10

There is a growing awareness that the body as well as the mind needs to be involved in therapy. Neuroscience and attachment theories have clearly demonstrated that emotion is a physiological as well as a mental phenomenon. Dr. Dayton's approach to experiential work has been in the forefront of what is now so commonly in use in treatment centers that it has become mainstream. Used in treating relational trauma and PTSD, neuropsychodrama is designed to be easily incorporated into existing programs regardless of length of stay, and can be used in outpatient settings, group and one-to-one practices. Additionally, she has created a model of treatment called Relational Trauma Repair, RTR which is a multi-sensory model used in the treatment of relational trauma issues. *Neuropsychodrama in the Treatment of Relational Trauma* provides education woven into a healing, interactive "experience." It will mobilize, engage, bond and motivate groups through a process that is interactional and relational and progressively imparts skills of emotional literacy and emotional regulation.

[Desire](#) - Susan Cheever 2009-10-06

We've all felt the giddy flutter of excitement when our new lover walks into the room. Waited by the phone, changed our plans...But are we in love, or is there something darker at work? In *Desire: Where Sex Meets Addiction*, Susan Cheever explores the shifting boundaries between the feelings of passion and addiction, desire and need, and she raises provocative and important questions about who we love and why. Elegantly written and thoughtfully composed, Cheever's book combines unsparing and intimate memoir, interviews and stories, hard science and psychology to explore the difference between falling in love and falling prey to an addiction. Part one defines what addiction is and how it works -- the obsession, the betrayals, the broken promises to oneself and others. Part two explores the possible causes of addiction -- is it nature or nurture, a permanent condition or a temporary derangement? Part three considers what we can do about it, including a provocative suggestion about how we describe and treat addiction, and a look at the importance of community and storytelling. In the end, there are no easy answers. "A straight look about some crooked feelings," *Desire* shows us the difference between the addiction that cripples our emotions, and healthy, empowering love that enhances our lives.

Lust, Anger, Love - Maureen Canning 2008-01-01

Sexual addiction is a problem that affects millions of people. Maureen Canning, LMFT, who has extensive experience treating sex addicts, explains its roots and how those afflicted can recover. This book also explains the poisonous childhood seeds that lead to public scandals like the revelations involving former congressman Mark Foley. Canning shows how compulsions are the product of early childhood abuse and how patterns, from the most violent to the most commonplace, develop. She explains that the overriding emotion sexually addicted people feel

towards the partners with whom they seek intimacy is anger turned into sexuality, or "sexualized anger." This yields a false sense of security and power, an "aggressive tendency," which destroys any chance of a healthy relationship. Lust, Anger, Love offers a comprehensive and enlightening look at the origins of these little discussed behaviors and maps out a plan for recovery.

Pleasure Island - Francene Carroll

[BookStrand Romantic Comedy, HEA] When Jackson Moore and Allie Read are paired up for reality show Pleasure Island, the challenge is simply to outlast their opponent. Both believe they will win with ease. What they do not realize is that they are about to face the greatest challenge of all—falling in love. Jackson Moore is a typical Hollywood bad boy, and millions of women would love to be stranded on a desert island with him. Not every woman finds him irresistible, though. Allie Read is an uptight documentary filmmaker with no tolerance for men like Jack. It does not take long for the sparks to fly between this mismatched pair, and no one is more surprised than Allie when she becomes attracted to him. As their physical attraction heats up, Jack and Allie struggle to control themselves in front of the cameras, while at the same time dealing with their growing feelings for each other. ** A BookStrand Mainstream Romance

Sexual Health in Recovery - Douglas Braun-Harvey 2010-12-15

"The curriculum provides a vision for chemical dependency treatment I have attempted to address for many years. This looks like an approach that finally meets this need." --Eli Coleman, PhD, Director of the Program in Human Sexuality University of Minnesota The ideal of successful treatment is to maintain abstinence for the rest of the addict's life; yet few treatment programs meet this goal. For many men and women in recovery, sexual behavior linked with drug or alcohol use is the primary reason for relapse. A large number of addicts have sex/drug-linked patterns of combining drugs, such as crystal meth, cocaine, alcohol, and club drugs, with sexual relations. In recovery, they may be unprepared for the dual absence of drug use and sexual relations. Additionally many addicts have past histories of sexual abuse. While great strides have been made in treating women and men suffering from addiction, their sexuality is too often marginalized. When sexuality is not directly and positively addressed in drug and alcohol treatment, it can contribute to treatment failure, relapse, and untold costs in the lives of addicts and their families. Sexual Health in Drug and Alcohol Treatment introduces a pioneering evidence-based curriculum, designed to integrate concepts of sexual health, current sex research, and recent developments in relapse prevention research. Complete with suggested group activities, guided discussions, role plays, and more, the program can reduce the risk of relapse and increase client retention for men and women with sex/drug linked addiction and alcoholism. This curriculum was created by drug and alcohol counselors, sexual health advocates, and psychological/sexological research specialists. Key Features: Helps women and men in recovery identify sexual thoughts and feelings associated with increasing or decreasing risk of relapse Is compatible with all treatment settings, approaches, and clientele Includes psychoeducational material, experiential learning, skill-building exercises, assessments, worksheets, and more Proven to improve client retention and reduce sex/drug linked shame—a common cause of relapse

The Dreamers - Gilbert Adair 2014-07-17

Paris in the spring of 1968. The city is beginning to emerge from hibernation and an obscure spirit of social and political renewal is in the air. Yet Théo, his twin sister Isabelle and Matthew, an American student they have befriended, think only of immersing themselves in another, addictive form of hibernation: moviegoing at the Cinémathèque Française. Night after night, they take their place beside their fellow cinephiles in the very front row of the stalls and feast insatiably off the images that flicker across the vast white screen. Denied their nightly 'fix' when the French government suddenly orders the Cinémathèque's closure, Théo, Isabelle and Matthew gradually withdraw into a hermetically sealed universe of their own creation, an airless universe of obsessive private games, ordeals, humiliations and sexual jousting which finds them shedding their clothes and their inhibitions with equal abandon. A vertiginous free fall interrupted only, and tragically, when the real world outside their shuttered apartment succeeds at last in encroaching on their delirium. The study of a triangular relationship whose perverse eroticism contrives nevertheless to conserve its own bruised purity, brilliant in its narrative invention and startling in its imagery, *The Dreamers* (now a major film by Bernardo Bertolucci) belongs to the romantic French tradition of *Les Enfants Terribles* and *Le Grand Meaulnes* and resembles no other work in recent British fiction.

The Healing Power of Self Love - Oscar Bamwebaze Bamuhigire 2009-02

In the field of alcoholism and drug addiction treatment, there have always been questions for which there were no satisfactory answers: Is substance abuse is a problem of discipline or a disease? Why is it that most alcoholics/ drug addicts do not seek for, or receive treatment? Why is it that only 5- 10% of alcoholics/ drug addicts respond to treatment? Why do untreated addicts have a better chance at breaking the bond of addiction than addicts who get treated? Why has the incidence of recovery without the help of formal treatment continued to rise? Are the successes of Alcoholics Anonymous (A.A) nothing more than spontaneous remission? Why are some people able to quit their addiction without treatment, while others only get worse after treatment? Why does treatment have a negative effect? Why are some treatment programs more effective than others? Why has the world continued to experience a steady increase in the rate of addiction and self destruction? Why is it that 1 in 2 Americans has a diagnosable mental disorder each year, and 81 Americans commit suicide every day? Why do non-Hispanic blacks bear a disproportionate burden of disease, injury, death, and disability? Why do the most successful treatment programs for addicts have a spiritual component? Why do non white people suffer from a high rate of substance abuse and self destruction? Why does Africa have the highest rate of suicide, poverty, and disease in the world? Why are some treatment programs more effective than others? Etc. In a unique blend of psychology, psychiatry, metaphysics, medicine, orient and western religions, *The Healing Power Of Self Love* provides answers to these and many more questions. In making its revolutionary contribution to the scientific world, it also explains how addicts can enhance their chances of recovery from addiction through the treatment programs of their

choice, by utilizing the ancient tools of discipline, lateral thinking, and insight from the life experiences of the world's greatest leaders. Even though this book was initially designed to meet the needs of alcoholics

and drug addicts in treatment, it may be of great value to people who are struggling with other types of addiction, and those who are faced with major obstacles to their self-realization or self actualization.
