Tidal Wave - Sara Evans 2010-05-11

Forty years ago few women worked, married women could not borrow money in their own names, schools imposed strict quotas on female applicants, and sexual harassment did not exist as a legal concept. Yet despite the enormous changes for women in America since 1960, and despite a blizzard of books that continue to argue about women's "proper place," there has not been a serious, definitive history of what happened -- until now. Sara M. Evans is one of our foremost historians of women in America. Her book *Personal Politics* is a classic that captured the origins of the modern women's movement; its successor, *Born for Liberty*, set the standard for sweeping histories of women. In *Tidal Wave* Evans again sets the standard by drawing on an extraordinary range of interviews, archives, and published sources to tell the incredible story of the past forty years in women's history. Encompassing both the so-called Second Wave of feminism's initial explosion in the 1960s and 1970s, and the Third Wave of the 1980s and 1990s, she challenges traditional interpretations at every step. She shows that the Second Wave was beset by

fragmentation and infighting from the beginning; its slogan, "the personal is political," was both a rallying cry and the seed of its self-destruction. Yet the Third Wave has been surprisingly strong, and almost all women today might be thought of as feminists -- in practice if not in name. From national events, and from leaders of institutions such as NOW and Emily's List to little-known local stories of women who simply wanted more out of their lives only to discover that they were creating a movement, *Tidal Wave* paints a vast canvas of a society in upheaval -- from politics to economics to popular culture to marriage and the family. Today, Evans argues, the women's movement is as alive and vital as ever, precisely because it has enjoyed such stunning success. Though not all women are comfortable with the term "feminist," the vast majority hold jobs and enjoy previously unimaginable personal freedoms. Never before in American or world history have women experienced full and equal citizenship and opportunity. At last, the extraordinary story can be told.

The Columbia Documentary History of American Women Since 1941 - Harriet Sigerman 2003

From the Hoover vacuum cleaner to the fax machine, from the pill to reproductive rights, from Rosie the Riveter to Martha Stewart and Hillary Rodham Clinton, American women have grappled with a sometimes dizzying rate of social and economic change and continually shifting conceptions of gender. This collection of documents seeks to chronicle the exciting and tumultuous recent history of American women, beginning with the watershed event of World War II and the lasting impact of the war effort on women's social and economic opportunities. Subsequent documents speak to the ideas and changes brought about by the women's movement; the challenges to and defense of reproductive rights; the backlash against feminism in the name of family values; and new visions for women's lives in the twenty-first century.

Sexual Harassment in America - Laura W. Stein 1999-01-30

A breakthrough collection of key documents on sexual harassment, providing an overview of the development of the concept in America.

Directions in Sexual Harassment Law - Catharine A. MacKinnon 2008-10-01

When it was published twenty-five years ago, Catharine MacKinnon's pathbreaking work *Sexual Harassment of Working Women* had a major impact on the development of sexual harassment law. The U.S. Supreme Court accepted her theory of sexual harassment in 1986. Here MacKinnon collaborates with eminent authorities to appraise what has been accomplished in the field and what still needs to be done. An introductory essay by Reva Siegel considers how sexual harassment came to be regulated as sex discrimination. Contributors discuss how law can best address sexual harassment; the importance and definition of consent and unwelcomeness; issues of same-sex harassment; questions of institutional responsibility for sexual harassment in both employment and education settings; considerations of freedom of speech; effects of sexual harassment doctrine on gender and racial justice; and transnational approaches to the problem. An afterword by MacKinnon assesses the changes wrought by sexual harassment law in the past quarter century. /DIV

Sex, Sexuality, Law, and (In)justice - Henry F. Fradella 2016-02-26

Sex, Sexuality, Law, and (In)Justice covers a wide range of legal issues associated with sexuality, gender, reproduction, and identity. These are critical and sensitive issues that law enforcement and other criminal justice professionals need to understand. The book synthesizes the literature across a wide breadth of perspectives, exposing students to law, psychology, criminal justice, sociology, philosophy, history, and, where relevant, biology, to critically examine the social control of sex, gender, and sexuality across history. Specific federal and state case law and statutes are integrated throughout the book, but the text moves beyond the intersection between law and sexuality to focus just as much on social science as it does on law. This book will be useful in teaching courses in a range of disciplines—especially criminology and criminal justice, history, political science, sociology, women and gender studies, and law.

Communication and Disenfranchisement - Eileen Berlin Ray 2013-12-02

This volume and its companion case studies book deal with some of the people, groups, and classes who are living a disenfranchised existence in the United States. Whether through birth, life events, or unfortunate circumstances, they are denied full privileges, rights, and power within the existing societal structure. Centered around societal health problems as they relate to socioeconomic status, family, abuse, and health concerns, these volumes examine salient issues from several theoretical frameworks, including feminist theory and the social construction of reality. *Communication and Disenfranchisement* provides theory-based essays on topics such as the homeless, adult survivors of sexual assault, battered women, persons with disabilities, impoverished women, the indigent living in the inner city, persons with HIV/AIDS, the

terminally ill, and the elderly. *Case Studies in Communication and Disenfranchisement* provides parallel case studies, applying the issues and concepts discussed in the essays. Used together, these books provide theoretically-based applications of social health issues within a communication framework. Traditionally, health communication research has emphasized the communication-physical health relationship. Inadvertently, this primary focus has restricted what information has been included under the domain of health communication. These books expand that domain by examining how the communication-disenfranchisement relationship is accomplished, managed, and overcome, and by recognizing the significance of the pragmatic and theoretic implications of this inquiry.

Clinical Aspects of Sexual Harassment and Gender Discrimination - Sharyn Ann Lenhart 2004-03-20

This book addresses the psychological impact of sexual harassment and gender discrimination from both a clinical and theoretical perspective, whereas previous literature on the topic has emphasized legal and employment consequences. To start, Lenhart provides a comprehensive summary and integration of existing literature and discusses relevant aspects of the workplace and legal environments. The second portion of the book deals with the psychodynamics of sexual harassment and gender discrimination, placing these violations in proper psychological perspective, along the same lines as rape, battering and other forms of gender-based abuse. The wide spectrum of psychological consequences of discrimination will be discussed and an effective and integrative model for intervention and treatment will be presented.

Handbook of Employment Discrimination Research - Laura Beth Nielsen 2008-06-06

This volume contains a collection of original papers by leading legal scholars and social scientists that develop new perspectives on anti-discrimination law, with an emphasis on employment discrimination. The articles were written for a conference held at Stanford Law School in Spring 2003 that was sponsored by the American Bar Foundation and Stanford Law School. The purpose of that conference, this volume, and ongoing work by the Discrimination Research Group based at the American Bar Foundation and the Center for Advanced Study in the Behavioral Sciences is to advance the social scientists' understanding of employment discrimination and the operation of employment discrimination law as a social system, and to consider the legal and policy implications of this emerging body of social science. Now is a pivotal moment for an attempt at a deeper understanding of discrimination and law. After three decades of theoretical development and empirical research

on employment discrimination and its treatment in law, it is crucial that lawyers, social scientists, and policymakers assess what we know and do not know about employment discrimination and its treatment by law. To date, there are several streams of active research that only occasionally engage with each other. Economists and sociologists continue to debate the extent to which women, minorities, and other traditionally disadvantaged groups face discrimination in labor markets and organizations. Organization scholars and legal scholars have begun to map the effect of anti-discrimination law on organizational structures and processes, and to raise questions about the extent to which the legalization of organizational employment systems represents symbolic or substantive changes in employment practices.

Bad Girls Go Everywhere - Jennifer Scanlon 2010-08-31

The biography of the revolutionary magazine editor who created the "Cosmo Girl" before *Sex and the City*'s Carrie Bradshaw was even born. As the author of the iconic *Sex and the Single Girl* (1962) and the editor-in-chief of *Cosmopolitan* magazine for over three decades, Helen Gurley Brown (1922-2012) changed how women thought about sex, money, and their bodies in a way that resonates in our culture today. In Jennifer Scanlon's widely acclaimed biography, the award-winning scholar reveals Brown's incredible life story from

her escape from her humble beginnings in the Ozarks to her eyebrow-raising exploits as a young woman in New York City, and her late-blooming career as the world's first "lipstick feminist." A mesmerizing tribute to a legend, *Bad Girls Go Everywhere* will appeal to everyone from *Sex and the City* and *Mad Men* fans to students of women's history and media studies.

Battleground States - Michael Mooradian Lupro 2009-10-02

Stemming from an interdisciplinary conference sponsored by Culture Club: The Cultural Studies Scholars' Association that included scholars from various disciplines and from around the world, this volume collects the work of graduate students and junior faculty which all examine the meaning of cultural scholarship in an ever-changing and increasingly global milieu. These voices, which often become marginalized and go unheard, represent what we see as the futures of interdisciplinary academic work in the humanities. The

conference and this book are opportunities for scholars of diverse backgrounds and disciplines to come together and engage in a real dialogue with one another. Bringing disparate thoughts on politics, film, television, history, policy, and literature together counters the pressures pushing individuals to take political, religious, scholarly, and ideological sides. Through the efforts represented here, we gain a distanced, yet engaged, view on the many threads that bind us together and the forces that seek to separate us. Looking at this volume, the reader encounters many different approaches, from critical analysis of individual texts to autoethnography. The contributors and compilers of this book do not place these in separate sections or in any hierarchy but rather wish that all of these appear on an equally vital level that displays the ways in which each of the subjects and approaches might open up a piece of culture in a way that draws attention to the connections between them all.

Black Women in White America - Gerda Lerner 1972

"In this fine collection of rare documentary sources, many of them previously unpublished, African-American women in their rich diversity speak of themselves, their lives, their ambitions, their struggles. Theirs are stores of oppression and survival, of family and community self-help, of inspiring heroism and grass-roots organizational continuity in the face of racism, economic hardship, and, far too often, violence. In the spirit of the slave mother who counseled her daughter, "Fight, and if you can't fight, kick; if you can't kick, then bite," black women resisted sexual abuse and economic oppression, cared for black children and neighbors, and organized for survival and political power. Their vivid accounts, their strong and insistent voices, make for inspiring reading, enriching our understanding of the American past"--Book cover.

The Face of Discrimination - Vincent J. Roscigno 2007-05-18

The Face of Discrimination documents the extent, character, and implications of race and sex discrimination at work and in housing, drawing from a rich body archived discrimination suits themselves. It moves beyond traditional social science research on the topic and grounds the reader in the reality of discrimination as it is played out in the actual jobs, neighborhoods, and lives of real people.

The Gender Communication Connection - Teri Kwal Gamble 2014-12-18

The authors explore the many ways that gender and communication intersect and affect each other. Every chapter encourages a consideration of how gender attitudes and practices, past and current, influence personal notions of what it means not only to be female and male, but feminine and masculine. The second edition of this student friendly and accessible text is filled with contemporary examples, activities, and exercises to help students put theoretical concepts into practice.
