Nominated for the Left Coast Crime 2022 Lefty Award for the Best Humorous Mystery “Finlay Donovan is irresistible!”—Janet Evanovich Finlay Donovan is killing it . . . except, she’s really not. She’s a stressed-out single-mom of two and struggling novelist, Finlay’s life is in chaos: the new book she promised her literary agent isn’t written, her ex-husband fired the nanny without telling her, and this morning she had to send her four-year-old to school with hair duct-taped to her head after an incident with scissors. When Finlay is overheard discussing the plot of her new suspense novel with her agent over lunch, she’s mistaken for a contract killer, and inadvertently accepts an offer to dispose of a problem husband in order to make ends meet . . . Soon, Finlay discovers that crime in real life is a lot more difficult than its fictional counterpart, as she becomes tangled in a real-life murder investigation. Fast-paced, deliciously witty, and wholeheartedly authentic in depicting the frustrations and triumphs of motherhood in all its messiness, hilarity, and heartfelt moment, Finlay Donovan Is Killing It is the first in a brilliant new series from YA Edgar Award nominee Elle Cosimano.

The 48 Laws of Power Robert Greene 2000-09-01 Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control - from the author of The Laws of Human Nature. In the book that People magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your

The War Play Dilemma Diane E. Levin 2006 As violence in the media and media-linked toys increases, parents and teachers are also seeing an increase in children's war play. The authors have revised this popular text to provide more practical guidance for working with children to promote creative play, and for positively influencing the lessons about violence children are learning. Using a developmental and sociopolitical viewpoint, the authors examine five possible strategies for resolving the war play dilemma and show which best satisfy both points of view: banning war play; taking a laissez-faire approach; allowing war play with specified limits; actively facilitating war play; and limiting war play while providing alternative ways to work on the issues. New for the Second Edition are: more anecdotal material about adults' and children's experiences with war play, including examples from both home and school settings; greater emphasis on the impact of media and commercialization on children's war play, including recent trends in media, programming, marketing, and war toys; expanded discussion about the importance of the distinction between imitative and creative war play; and summary boxes of key points directed at teachers or parents. * New information about violent video games, media cross feeding, and gender development and sex-role stereotyping.

Signs of Hope Donna West 2012-01-17 Winner of the 2013 Outstanding Qualitative Book Award by the International Congress of Qualitative Inquiry. Signs of Hope tells the story of a narrative inquiry with three deafhearing families. For many of us, deafness represents loss and silence. For others, being deaf is a genetic quirk; an opportunity for learning, spiritual adventure and reward. For yet others, it is the most natural thing in the world; a connection to a genealogical layer of signing ancestors and the continuation of a culture. Amid the noise of mainstream, medical and educational discourses of deafness, here are family voices demanding to be heard - whether spoken or signed -

that challenge audiological and surgical intervention, that call for scrutiny and critique of 'inclusive' deaf-related pedagogical practices, that rail against marginalisation of members of minority cultures. Over four years, Donna West has recorded the stories of three families who wish to counter and resist what they see as damaging misconceptions and discriminatory constructions of deafness and deafhearing family life. Here, spaces are created that respect and acknowledge human beings - adults, children, deaf, hearing - as storytellers. The poetic and performative narratives at the heart of this book reveal not only the ways in which hurtful definitions of, and discrimination towards, deaf people and signing deafhearing families is destabilised, but also the ways in which celebration of deaf culture and sign language are affirming and vital for healthy family life.

The Guyde Howie Reith 2016-11-19 The Guyde is the most comprehensive men's dating and self-improvement book ever written, designed to be everything you need to transform into the most confident version of yourself. There are no lines or routines; instead you'll find exercises and information to improve your self-esteem, social skills, and other elements integral to social success. Everything in these pages is backed with scientific evidence, and when I say scientific evidence, I mean cited peer-reviewed literature, not pop evolutionary psychology or the "law of attraction." You won't be reading anecdotes telling you about my "successes" or opinions; you'll be learning the practical steps necessary for the specific changes you want to manifest in your life. The Guyde is divided into four sections: Part I - Psychology Part I focuses on the internal elements of social interaction. How do you overcome your toxic self-limiting beliefs that keep you from being authentic with people? How do you overcome your fears? How can you stay motivated to make your changes? You will learn clinically effective approaches to all of these and more. Part II - Social Skills For many men, the biggest barrier between themselves and social success is a lack of social skills and

awareness. In Part II, you'll learn how to shore up this weakness. You will learn how to listen, banter, share stories, and assert yourself with others. You'll learn how to improve your body language and vocal tonality to project confidence and charisma. Part III - Physical Attractiveness Part III will teach you how to improve your physical features. The first two chapters detail the most clinically effective approaches to diet and exercise. We'll also discuss the basics of fashion and how to dress to impress. Master Part III, and when you go out, you will turn heads. Part IV - Dating The final portion of The Guyde deals with dating, in this version, in a heterosexual male context. You'll learn the best places to meet potential dates, how to flirt, and how to ask someone out. You'll learn how to plan brag-worthy romantic evenings and how to address problems like rude cancellations and "ghosting." You'll learn how to interact physically while being sensitive to your date's wishes, as well as how to perform better in bed. You'll learn why relationships fail and how to avoid the pitfalls most couples fall into, and you'll come to understand a bit about what it's like to date from a woman's perspective, including many of the cultural factors they face that most men don't understand. The Guyde is a labor of love. I wrote it to be everything I wish I'd known when I was younger, the sorts of things that turned my life around for the better. I hope it does the same for you.

In this revolutionary book, psychiatrist and neuroscientist Dr. Amir Levine and Rachel Heller scientifically explain why some people seem to navigate relationships effortlessly, while others struggle. Discover how an understanding of adult attachment—the most advanced relationship science in existence today—can help us find and sustain love. Pioneered by psychologist John Bowlby in the 1950s, the field of attachment posits that each of us behaves in relationships in one of three distinct ways: • Anxious people are often preoccupied with their relationships and tend to worry about their partner's ability to love them back • Avoidant people equate intimacy with a loss of independence and constantly try to minimize closeness. • Secure people feel comfortable with intimacy and are usually warm and loving. Attached guides readers in determining what attachment style they and their mate (or potential mate) follow, offering a road map for building stronger, more fulfilling connections with the people they love.

For seventh-grader Mila, it starts with some boys giving her an unwanted hug on the school blacktop. A few days later, at recess, one of the boys (and fellow trumpet player) Callum tells Mila it's his birthday, and asks her for a "birthday hug." He's just being friendly, isn't he? And how can she say no? But Callum's hug lasts a few seconds too long, and feels...weird. According to her friend, Zara,

Let's Pretend This Never Happened Jenny Lawson 2013-03-05 The #1 New York Times bestselling (mostly true) memoir from the hilarious author of *Furiously Happy*. “Gaspingly funny and wonderfully inappropriate.”—O, The Oprah Magazine When Jenny Lawson was little, all she ever wanted was to fit in. That dream was cut short by her fantastically unbalanced father and a morbidly eccentric childhood. It did, however, open up an opportunity for Lawson to find the humor in the strange shame-spiral that is her life, and we are all the better for it. In the irreverent *Let's Pretend This Never Happened*, Lawson's long-suffering husband and sweet daughter help her uncover the surprising discovery that the most terribly human moments—the ones we want to pretend never happened—are the very same moments that make us the people we are today. For every intellectual misfit who thought they were the only ones to think the things that Lawson dares to say out loud, this is a poignant and hysterical look at the dark, disturbing, yet wonderful moments of our lives. Carnovsky's Retreat Larry Duberstein 2015-04-14 A midsummer morning, Brooklyn, 1955. Oscar Carnovsky, a respectable (yet hardly distinguished) middle-aged man, leaves for work in the usual fashion: takes his share of the morning paper, kisses his wife goodbye, and waves back as he turns the corner of Linden Boulevard. He has done it precisely this way five thousand times. This particular morning, however, he waves from the corner and is not seen again, nor is he heard from, for years. Decades later (at Oscar's funeral) his daybooks come to light—a record of the missing years and of his life as *The Invisible Mensch*. This unremarkable man will soon become an unforgettable character as you accompany him on his flight through the 1950s in a highly original second novel from Larry Duberstein, whose earlier work, *The Marriage Hearse*, was hailed by the critics.
