Dataclysm - Christian Rudder 2014-09-09

A New York Times Bestseller An audacious, irreverent investigation of human behavior—and a first look at a revolution in the making Our personal data has been used to spy on us, hire and fire us, and sell us stuff we don't need. In Dataclysm, Christian Rudder uses it to show us who we truly are. For centuries, we've relied on polling or small-scale lab experiments to study human behavior. Today, a new approach is possible. As we live more of our lives online,

researchers can finally observe us directly, in vast numbers, and without filters. Data scientists have become the new demographers. In this daring and original book, Rudder explains how Facebook "likes" can predict, with surprising accuracy, a person's sexual orientation and even intelligence; how attractive women receive exponentially more interview requests; and why you must have haters to be hot. He charts the rise and fall of America's most reviled word through Google Search and examines the new dynamics of collaborative rage on Twitter. He shows how people express themselves, both privately and publicly. What is the least Asian thing you can say? Do people bathe more in Vermont or New Jersey? What do black women think about Simon & Garfunkel? (Hint: they don't think about Simon & Garfunkel.) Rudder also traces human migration over time, showing how groups of people move from certain small towns to the same big cities across the globe. And he grapples with the challenge of

maintaining privacy in a world where these explorations are possible. Visually arresting and full of wit and insight, Dataclysm is a new way of seeing ourselves—a brilliant alchemy, in which math is made human and numbers become the narrative of our time.

present a surprising tale of expectations and mismatches. If you are currently single, this book is about your place in the dating market - your successes, your failures and what they mean. If you are in a relationship, it is about why you chose the person you are with, why they chose you - and the circumstances in which either of you might put it all at risk and stray. In *X and Why*, Tom Whipple delves into the sexual subconscious to explain the inner workings of character and desire. It will change the way you see yourself and everyone around you.

Is There Still Sex in the City? - Candace Bushnell 2019-08-08

Candace Bushnell gets personal in her new memoir - an investigation into what happens when a woman of a certain age (ok, let's call it 'middle') finds herself not-so-young, free and single in the city. MILFs, cougars, love, sex, divorce - Candace's brilliantly funny and honest first-person account lays bare the truth behind middle-aged romance. Among other revelations

we read her *Modern Day Cougar Compendium*, including guidance on such important matters as the Unexpected Cub Pounce (sometimes the cub does the pouncing); what to do when your age-appropriate date asks you to pay for his kitchen renovation, and the Pluses and Minuses of Being Older and Wiser.

[How to Be Alone](#) - Lane Moore 2018-11-06

The former Sex & Relationships Editor for *Cosmopolitan* and host of the wildly popular comedy show *Tinder Live with Lane Moore* presents her poignant, funny, and deeply moving first book. Lane Moore is a rare performer who is as impressive onstage—whether hosting her iconic show *Tinder Live* or being the enigmatic front woman of *It Was Romance*—as she is on the page, as both a former writer for *The Onion* and an award-winning sex and relationships editor for *Cosmopolitan*. But her story has had its obstacles, including being her own parent, living in her car as a teenager, and moving to New York City to pursue her dreams. Through it

all, she looked to movies, TV, and music as the family and support systems she never had. From spending the holidays alone to having better “stranger luck” than with those closest to her to feeling like the last hopeless romantic on earth, Lane reveals her powerful and entertaining journey in all its candor, anxiety, and ultimate acceptance—with humor always her bolstering force and greatest gift. *How to Be Alone* is a must-read for anyone whose childhood still feels unresolved, who spends more time pretending to have friends online than feeling close to anyone in real life, who tries to have genuine, deep conversations in a roomful of people who would rather you not. Above all, it’s a book for anyone who desperately wants to feel less alone and a little more connected through reading her words.

The Guyde - Howie Reith 2016-11-19

The Guyde is the most comprehensive men's dating and self-improvement book ever written, designed to be everything you need to transform

into the most confident version of yourself. There are no lines or routines; instead you'll find exercises and information to improve your self-esteem, social skills, and other elements integral to social success. Everything in these pages is backed with scientific evidence, and when I say scientific evidence, I mean cited peer-reviewed literature, not pop evolutionary psychology or the "law of attraction." You won't be reading anecdotes telling you about my "successes" or opinions; you'll be learning the practical steps necessary for the specific changes you want to manifest in your life. The Guyde is divided into four sections: Part I - Psychology Part I focuses on the internal elements of social interaction. How do you overcome your toxic self-limiting beliefs that keep you from being authentic with people? How do you overcome your fears? How can you stay motivated to make your changes? You will learn clinically effective approaches to all of these and more. Part II - Social Skills For many men, the biggest barrier between

Downloaded from
legacy.opendemocracy.net on 2020-11-22
by guest

themselves and social success is a lack of social skills and awareness. In Part II, you'll learn how to shore up this weakness. You will learn how to listen, banter, share stories, and assert yourself with others. You'll learn how to improve your body language and vocal tonality to project confidence and charisma. Part III - Physical Attractiveness Part III will teach you how to improve your physical features. The first two chapters detail the most clinically effective approaches to diet and exercise. We'll also discuss the basics of fashion and how to dress to impress. Master Part III, and when you go out, you will turn heads. Part IV - Dating The final portion of The Guyde deals with dating, in this version, in a heterosexual male context. You'll learn the best places to meet potential dates, how to flirt, and how to ask someone out. You'll learn how to plan brag-worthy romantic evenings and how to address problems like rude cancellations and "ghosting." You'll learn how to interact physically while being sensitive to your

date's wishes, as well as how to perform better in bed. You'll learn why relationships fail and how to avoid the pitfalls most couples fall into, and you'll come to understand a bit about what it's like to date from a woman's perspective, including many of the cultural factors they face that most men don't understand. The Guyde is a labor of love. I wrote it to be everything I wish I'd known when I was younger, the sorts of things that turned my life around for the better. I hope it does the same for you.

No Country for Old Maids? - Hannah August 2015-08-07

'Hannah August's intelligent and humane study illuminates, sometimes uncomfortably, the ways in which our demographics are changing and our attitudes are not. This is public intellection that is curious, rigorous, and highly relevant to our time.' Eleanor Catton In 2013, there were over 66,000 more women between the ages of 25-49 living in New Zealand than there were men. This so-called 'man drought' is a hot topic for journalists and academics alike, who comment on how the situation might affect New Zealand women's chances of finding love. Yet they rarely stop to ask women their own opinions on the matter. In this BWB Text, Hannah August does just that, integrating interview material, statistics and cultural commentary in order to demonstrate why we need to talk differently about the 'man drought'.
