Warrenton Virginia, BISPHAM HOUSE Walt H. Sirene 2023-11-13 Warrenton Virginia BISPHAM HOUSE Introduction The House - Part 1 A noteworthy part of this illustrated account is about the Bispham's who built the house, ca. 1856, at the highest elevation in town (660' vs. usually claimed point 646' at Court House Square)) It is called Baptist Hill, for the nearby church and minister's house next door to the Bispham's. Soon after the house was built, the Civil War began. Because the town was at an important crossroads and rail branch line terminus, it became an army supply depot. Consequently, the two sides changed occupation 67 times. The first family's experiences and neighbors add to understanding the times in a small Southern town. Included are interesting happenings and images of early scenes in Warrenton. All owners to current time are identified along with their caretaking and additions to the property. The house and owners help introduce captivating local and national history. Scrapbook - Part 2 The Scrapbook sections are three fourths of the document where images bring to life local events and people that inform about the Warrenton area through the years including: Historical Maps, slavery, General McClellan's farewell to his troops; distinguished people, visits by Presidents, Lafayette, and former residents: The Great Chief Justice John Marshall, John Singleton Mosby, Anthony Dangerfield, Dangerfield Newby, plus others. Artwork Surprising artworks amplify the local story; many by renowned Richard Norris Brooke; three creative murals by Stewart Burgess White; and three paintings of Mosby's Berryville Raid; Edwin Austin Forbes, Civil War scenes. The art's subject matter stimulates critical thinking that may inspire further research for forming educated judgments about historical times and events. Interpretive History Used throughout is a teaching technique which combines facts, illustrative photos, and maps (high resolution, when possible, enables zooming for details) with stimulating explanatory information. It helps to tell a story about Warrenton, Fauquier, and America. Many images convey their own tale. This study began when the eighth owners wanted to gather photos and information about the old place. Their expanded discoveries and use of over 500 splendid illustrations provide a remarkable history lesson in this free eBook available to others interested in historical Warrenton Virginia and beyond. EBOOK: Rethinking Experiences of Childhood Cancer: A Multidisciplinary Approach to Chronic Childhood Illness Mary Dixon-Woods 2005-06-16 "The experiences of the families rang true throughout. I have experienced many of these personally. ...It made me think differently about my personal experience as a parent of a child with cancer and my son's current social experiences." Macmillan Cancer Support This book offers a radical critique of existing psychosocial research on children's experiences of cancer and proposes an alternative view informed by recent interpretive perspectives. Exploring topics from obtaining a diagnosis of childhood cancer through to sharing decision-making and communication, it reviews a wide-ranging body of research and theory on childhood, chronic illness, and cancer. The book also examines research that has focused on how parents and other family members experience childhood illness. Written by a sociologist, a psychologist and a practising paediatric oncologist, this book is unique in its approach and provides key reading across traditional disciplinary boundaries. In particular, the book highlights the emerging contribution of interpretive work to understanding chronic childhood illness and further develops the dialogue that has only recently emerged between the sociology of illness and the sociology of childhood. Rethinking Experiences of Childhood Cancer is aimed at researchers, students and practitioners in the fields of social science, childhood studies, nursing, medicine, mental health care, social work, clinical psychology and other professions allied to medicine, and

will also be of interest to families who have been affected by childhood cancer.

Emotion in Texts for Children and Young Adults Karen Coats 2023-01-06 Emotion in Texts for Children and Young Adults: Moving stories takes up key issues in affect studies while putting forward new approaches and ways of thinking about the intricate entanglements of emotion, affect, and story in relation to the functions, processes, and influences of texts designed for youth. With an emphasis on national literatures and international scholarship, it examines a variety of storytelling forms, formats, genres, and media crafted for readers ranging from the very young to the newly adult. Layering recent cognitive approaches to emotion, affect studies, and feminist perspectives on emotion, it investigates not only what texts for children and young adults have to say about emotion but also how such texts try to move their readers. In this, the chapters draw attention to the ways narrative literary texts address, elicit, shape, and/or embody emotion.

Thinking Queerly Jes Battis 2021-06-08 Why do we love wizards? Where do these magical figures come from? Thinking Queerly traces the wizard from medieval Arthurian literature to contemporary YA adaptations. By exploring the link between Merlin and Harry Potter, or Morgan le Fay and Sabrina, readers will see how the wizard offers spaces of hope and transformation for young readers. In particular, this book examines how wizards think differently, and how this difference can resonate with both LGBTQ and neurodivergent readers, who've been told they don't fit in.

The Sound of Silence Michael G. Ankerich 2011-02-25 Marion Shilling began her career as a silent film ingenue for MGM and went on to play heroines in Westerns of the 1930s. Stage actress Esther Muir made the transition from Broadway to Hollywood just as talkies became popular. Hugh Allan was a leading man in the last years of the silents only to leave the film business in 1930 because of the uncertainty surrounding his transition to sound films and his disgust with studio politics. These three performers and thirteen others (Barbara Barondess, Thomas Beck, Mary Brian, Pauline Curley, Billie Dove, Edith Fellows, Rose Hobart, William Janney, Marcia Mae Jones, Barbara Kent, Anita Page, Lupita Tovar, and Barbara Weeks) reminisce here about Hollywood and the movie business as it made the transition.

Cornerstones of Attachment Research Robbie Duschinsky 2020 This is an open access title available under the terms of a [CC BY-NC-ND 4.0 International] licence. It is free to read at Oxford Clinical Psychology Online and offered as a free PDF download from OUP and selected open access locations. Attachment theory is among the most popular theories of human socioemotional development, with a global research community and widespread interest from clinicians, child welfare professionals, educationalists and parents. It has been considered "one of the most generative contemporary ideas" about family life in modern society. It is one of the last of the grand theories of human development that still retains an active research tradition. Attachment theory and research speak to fundamental questions about human emotions, relationships and development. They do so in terms that feel experience-near, with a remarkable combination of intuitive ideas and counter-intuitive assessments and conclusions. Over time, attachment theory seems to have become more, rather than less, appealing and popular, in part perhaps due to alignment with current concern with the lifetime implications of early brain development. Cornerstones of Attachment Research re-examines the work of key laboratories that have contributed to the study of attachment. In doing so, the book traces the development in a single scientific paradigm through parallel but separate lines of inquiry. Chapters address the work of Bowlby, Ainsworth, Main and Hesse, Sroufe and Egeland, and Shaver and Mikulincer. Cornerstones of Attachment Research utilises attention to these five research groups as a lens on wider themes and challenges faced by attachment research over the decades. The chapters draw on a complete analysis of published scholarly and popular works by each research group, as well as much unpublished material.

Anne's World Irene Gammel 2010-06-19 The recent 100 year anniversary of the first publication of L.M. Montgomery's *Anne of Green Gables* has inspired renewed interest in one of Canada's most beloved fictional icons. The international appeal of the red-haired orphan has not diminished over the past century, and the cultural meanings of her story continue to grow and change. The original essays in *Anne's World* offer fresh and timely approaches to issues of culture, identity, health, and globalization as they apply to Montgomery's famous character and to today's readers. conversation with each other and with the work of previous experts, the contributors to Anne's World discuss topics as diverse as Anne in fashion, the global industry surrounding Anne, how the novel can be used as a tool to counteract depression, and the possibility that Anne suffers from Fetal Alcohol Syndrome. Anne in translation and its adaptation for film and television are also considered. By establishing new ways to examine one of popular culture's most beloved characters, the essays of Anne's World demonstrate the timeless and ongoing appeal of L.M. Montgomery's writing.

Enchanted Hunters: The Power of Stories in Childhood Maria Tatar 2009-04-20 Highly illuminating for parents, vital for students and book lovers alike, Enchanted Hunters transforms our understanding of why children should read. Ever wondered why little children love listening to stories, why older ones get lost in certain books? In this enthralling work, Maria Tatar challenges many of our assumptions about childhood reading. Much as our culture pays lip service to the importance of literature, we rarely examine the creative and cognitive benefits of reading from infancy through adolescence. By exploring how beauty and horror operated in C.S. Lewis's Chronicles of Narnia, Philip Pullman's His Dark Materials, J.K. Rowling's Harry Potter novels, and

many other narratives, Tatar provides a delightful work for parents, teachers, and general readers, not just examining how and what children read but also showing through vivid examples how literature transports and transforms children with its intoxicating, captivating, and occasionally terrifying energy. In the tradition of Bruno Bettelheim's landmark *The Uses of Enchantment*, Tatar's book is not only a compelling journey into the world of childhood but a trip back for adult readers as well.
