

# The Relationship Between Strategic Leadership And

## **Exploring the Relationship Between Strategic Leadership, Quality Culture and Performance in International Schools in Malaysia** - Fakhriyah Eslami 2016

*Strategic Leadership in the Public Services* - Paul Joyce 2012-03-12

In turbulent times, strategic leadership of public services becomes ever more important. Strategic leaders are steering their organizations into a new relationship with the public, often in conditions of intensified competition between public services providers and thus the quality of leadership they offer is critical. Providing insights into useful approaches and techniques for strategic leaders, *Strategic Leadership in the Public Services* covers topics such as the nature of leaders and how leaders lead. It probes strategic thinking and thoroughly explores strategic processes of implementation, monitoring and evaluation. It provides advice on being strategic and encourages the reader to appreciate the challenges of strategic leadership in practice. In the end, the book argues that leadership and strategy have become hegemonic ideas for reinventing the state. Replete with real world practical case studies and examples, drawn from a range of countries, the book provides students with a truly international outlook on the subject and offers a clear understanding of the emerging significance of leadership, strategic management, and public services reform. Essential reading for postgraduate students taking leadership and management courses for the public services, the book will also be a useful resource for individuals currently pursuing executive management careers in the public services, or hope to do so in the future.

## **The Handbook of Research on Top Management Teams** - Mason Andrew Carpenter 2011-01-01

This Handbook presents original research and theory on executives, top management teams, and boards of directors and illustrates the vital importance of this field of study. Top management teams are responsible for the strategic choices and major decisions in organizations. These organizations are a reflection of the members that make up their strategic management. The roles top management play and the impact they have are clearly visible in firms around the world, both large and small. The international group of authors that comprise this volume address questions central to the field of strategy and strategic leadership. They review the determinants of top management team composition, their social networks, and executive dismissal; the psychological and personality profiles of top executives; the methodologies relevant to the study of top teams; and the roles of top executives in cross business unit collaboration, competitive behavior, and strategic entrepreneurship. Each chapter presents path-breaking research and provides a roadmap for new research avenues and agendas. Professors, students and researchers in the area of strategy, management and strategic leadership will find this book an invaluable resource.

## **Handbook of Research on Strategy and Foresight** - Laura Anna Costanzo 2009-03-31

This important Handbook explores and evaluates dynamic environments and the appropriate strategic responses to them in the 21st century. Drawing together a collection of 29 original chapters, the Handbook makes an invaluable contribution to theory and practice by stimulating disciplined, rigorous and imaginative enquiry into the relationship between strategy and foresight. Leading scholars in the field of strategic management are brought together to offer innovative and multi-disciplinary perspectives on the past, present and future of strategy formation and foresight. In so doing, they challenge research in four key areas: strategy and foresight processes; strategy innovation for the future; understanding the future; and strategically responding to the future. The Handbook of Research on Strategy and Foresight is a comprehensive resource that will be invaluable for academics, students and practitioners interested in this important phenomenon.

## **Strategic Leadership and Management in Nonprofit Organizations** - Martha Golensky 2020-01-30

Nonprofit organizations need smart, informed managers. This comprehensive introductory textbook aims to expose students to the range of responsibilities expected from modern nonprofit organizations and their

boards, executive management, frontline staff, and community volunteers. Section 1 focuses on the characteristics of a nonprofit organization, with an explanation of the specific attributes of both charitable and member-serving nonprofits. It considers the historical development of the nonprofit sector as a whole and of the human services subsector in particular, culminating with a review of the political and economic climate in which nonprofits operate. Section 2 considers theories of leadership. The multiple roles of the nonprofit professional leader are delineated, to recognize that the same person may serve as manager and administrator, motivated by different priorities when functioning in each capacity. Ethical issues are also considered, along with the theoretical and practical aspects of decision-making, and the relationship between organizational culture and organizational change. Sections 3 and 4 address the specific skills of the nonprofit leader involved in securing material resources and managing human resources, respectively. The book concludes with a focus on the role of volunteers and the need for organizations to provide them good experiences if they want volunteers to keep coming back. Featuring an extended case study, this book is a useful guide for students and professionals new to the workplace on topics such as successfully managing change, strengthening programs, nurturing a dynamic board of directors, diversifying revenues, and building a strong, committed staff and volunteer corps.

## Strategic Leadership - John Adair 2010-10-03

A strategic leader is essentially the leader of any organization and someone who has to steer the company in times of change, whilst motivating and inspiring their team. Strategic Leadership from the renowned leadership expert John Adair encourages leaders to focus on tomorrow rather than yesterday. It explores the nature and origin of strategic leadership, transferable skills and the art of inspiring others. It then describes the role itself and broad functions of that role such as building and maintaining a team, achieving a common task and motivating and developing the individual. It moves on to assess the skills you need to be effective, and the seven generic functions that make up the role of strategic leader which include providing direction, strategic thinking and planning, building partnerships and developing tomorrow's leaders. Full of checklists, summaries and historical examples, Strategic Leadership will encourage you to ask the right questions whilst defining the role and skills of a strategic leader.

## **Examining the Relationship Between Strategic Leadership, Leadership Styles and Knowledge Sharing in the Electric Power Sector in Jordan** - Mohammad Bany Essa 2018

## **An Examination of the Relationship Between Strategic Leadership and Organizational Commitment Mediated by Organizational Culture in a Mid-Atlantic Historically Black Institution** - E. Wayne Rose 2019

## **Influence of Strategic Leadership** - Moses Mulama Shimengah, Andrew Shangarai Jumanne, Ambrose Kipruto Chepkwei, Aviha Odari Sylvia, Ezekiel Owuor 2023-08-09

TOPICS IN THE BOOK Influence of Strategic Leadership Practices on Service Delivery within County Governments in Kenya: A Literature Review Structural Change Management and Employee Performance in Public Sector Organizations in Kenya: Case of Parliamentary Service Commission Sustainable Strategic Growth, Savings and Credit Cooperative Society and Credit Union Industry: A Global Overview Devolution Strategies in Healthcare Provision and Quality of Services in Hospitals: The Case of Mbagathi Hospital, Nairobi County Impact of Disruptive Technology on the Performance of Insurance Firms in Kenya The Relationship Between Strategic Leadership and Strategic Alignment in High-performance Companies in South Africa - Lorraine Wendy Lear 2012

## **Formal and Informal Strategic Planning** - Daniel Ebner 2013-12-09

Previous research focused either on the relationship between strategic planning and performance or coordination mechanisms and performance. Therefore, a conceptually and empirically validated understanding of the interaction between these three factors is limited. This study addresses this gap in the literature by delivering three contributions to theory and empirical research: firstly, by clarifying and proposing the influences of strategic planning and strategic organization on the performance; secondly, by developing a model and associated hypotheses on both direct and interaction effects of strategic planning and coordination mechanisms; and thirdly, by testing the hypotheses. Findings regarding strategic planning suggest the coexistence of formal and informal strategic planning activities. Furthermore, results show that the relationship between strategic planning and performance is moderated by coordination mechanisms.

**Business Strategy and Leadership Style: Impact on Organizational Performance in the Manufacturing Sector in Ghana** - John Parker Yanney 2015-02-03

Doctoral Thesis / Dissertation from the year 2014 in the subject Business economics - Business Management, Corporate Governance, grade: B, ( Atlantic International University ) (Department Of Business Administration, Atlantic International University, USA), course: Business Management, language: English, abstract: This study sought to investigate the impact of leadership styles and business strategy on the organizational performance of Small-Medium Scale Enterprises (SMEs) in the manufacturing sector of Ghana. This had become necessary due to the fact that available literature on the subject matter lacked precision in terms of the specific leadership style and strategy which could better be employed to improve performance in the chosen area of study. A field survey (by means of questionnaires) was conducted in Accra, involving 60 CEOs and Senior managers drawn from 10 organizations, which were randomly sampled for the study. In addition, a time series data from 2008 to 2013 on sales, profits before tax and employment from the 10 organizations were collected to develop performance indices for the organizations. Regression and analysis of variance (ANOVA) were then run to examine the relationship between leadership, strategy and organizational performance. The study revealed that leadership and business strategy statistically and significantly impacted on organizational performance but strategy had the greater influence. Again, transformational leadership style and cost leadership significantly influenced organizational behaviour ( $p=.000$ )

**Strategic Leadership** - Sydney Finkelstein 2009

This book integrates and assesses the vast and rapidly growing literature on strategic leadership, which is the study of top executives and their effects on organizations. The basic premise is that in order to understand why organizations do the things they do, or perform the way they do, we need to deeply comprehend the people at the top-- their experiences, abilities, values, social connections, aspirations, and other human features. The actions--or inactions--of a relatively small number of key people at the apex of an organization can dramatically affect organizational outcomes. The scope of strategic leadership includes individual executives, especially chief executive officers (CEOs), groups of executives (top management teams, or TMTs); and governing bodies (particularly boards of directors). Accordingly, the book addresses an array of topics regarding CEOs (e.g., values, personality, motives, demography, succession, and compensation); TMTs (including composition, processes, and dynamics); and boards of directors (why boards look and behave the way they do, and the consequences of board profiles and behaviors). Strategic Leadership synthesizes what is known about strategic leadership and indicates new research directions. The book is meant primarily for scholars who strive to assess and understand the phenomena of strategic leadership. It offers a considerable foundation on which professionals involved in executive search, compensation, appraisal and staffing, as well as board members who evaluate executive performance and potential, might build their tools and perspectives.

**Impact of Strategic Leadership on Employee Creativity and Employee Performance in Telecom Sector of Pakistan Moderating Role of Trust** - Muhammad Irfan 2023-09-22

Master's Thesis from the year 2023 in the subject Leadership and Human Resources - Miscellaneous, grade: B, , language: English, abstract: The purpose of this study is to investigate the impact of strategic leadership on employee creativity and employee performance by analyzing Strategic leadership's various dimensions (client centricity, business development, operational efficacy and organizational creativity). This impact is analyzed through influencing role of trust and also to what extent trust impact on relationship

between strategic leadership and employee creativity as well as strategic leadership and employee performance.

**Strategic Leadership** - Victor C.X. Wang 2018-02-01

Strategic leadership is broadly defined as utilizing particular approaches in the management of employees. The main objective is productivity. It provides the vision and direction for the long term growth and success of an organization. It requires objectivity and potential to look at the broader picture. It is leaders' responsibility to incorporate aspects of both the analytical and human dimensions to effectively drive the organizations forward. As an academic subject, it is taught in both education and business. Leaders and managers have turned to strategic leadership to inspire and guide their visions, and to formulate the directions so essential for the long term growth and success of an organization or a country. Leaders need the skills and tools for strategy formulation and implementation in order to deal with change in our society. Managing change and ambiguity requires strategic leaders who not only provide a sense of direction, but who can also build ownership and alignment within their workgroups to implement change. The goal of strategic leadership is to drive innovation, and maximize team performance to enhance organizations' long term growth and success in today's complex world of fastpaced, dramatic change. Research on strategic leadership has been going on for decades. Textbooks on this subject are readily available. If we look deeper, we realize the vast majority of these books were written from a practitioner's perspective. In other words, these books were not based on empirical research. Naturally, these existing books have failed to better serve the needs of today's graduate students who should be equipped with empirical research on such an academic subject. This book will investigate emergent administrative techniques and business practices being used within educational establishments and corporate worlds. It will highlight empirical research and best practices within strategic leadership.

**The Relationship Between Strategic Leadership Practices and Self-efficacy Among School Leaders in Republic of Maldives** - Aniyath Ali 2013

The main purpose of the study is to investigate if there is any significant relationship between Strategic Leadership characteristics of Maldivian school leaders and their Self-efficacy. The study employed a survey method and data were collected using an adapted questionnaire with seven point Likert scale. It measured the Self-Strategic Leadership Practices and Self-efficacy characteristics. Data were collected from 23 schools in the capital city Male', Maldives. A total of 200 school leaders (45 males and 155 females) participated in the study. The data were analyzed using frequencies, descriptive statistics and Pearson product-moment correlation coefficient. The findings of the study revealed that the school heads in the capital city of Maldives possessed all the nine dimensions of Strategic leadership. It also indicated that school leaders' in Male' have quite a bit of control in their roles as school heads, revealing a high perception level of self-efficacy. Moreover, results of the correlation analysis indicated that there was a statistically significant and positive relationship between Strategic Leadership characteristics and leaders' Self-efficacy characteristics. The scope of the study limited the research by confining it to school leaders' residing in the capital city of Maldives and besides that, the study is confined to the original ninepoint model of strategic leaders (five organizational abilities and four individual characteristics of strategic leaders) by Davies (2004); Davies and Davies (2006); Davies and Davies (2009). Moreover, the present study provides a starting-point for further research exploring the strategic leadership qualities and self-efficacy of school leaders which are vital to bring a positive reform in schools. As countries strive to reform education system and improve students' performance, a lot of challenges are faced by the school leaders. Thus, this study highlights that executing effective leadership styles such as strategic leadership are essential to deal with both the need for continuity and the need for change. It further indicates that both self-efficacy and strategic leadership are importance for school leaders' as they affect performance of the leaders through different mechanisms.

**Strategic Leadership: Realizing Student Aspiration Outcomes** - Inas Zulkipli Ph.D. 2018-10-08

Strategic leadership is considered alienated to the education administrators' fraternity. The scholars of education were unaware of this knowledge because education stood by itself. The dynamic globalization changed the world in almost everything, including education. This dynamic and fast-changing environment almost shocked the education fraternity. Instantaneously, they felt left out and lacking of effective and

dynamic strategies to cope up with the swift change. Therefore, the new and contemporary educational strategic leadership knowledge content of this book is able to contribute to the endeavors of future educational leaders. Our precious book is definitely invaluable to educational leaders and educational managers all over the world. As for postgraduate students in educational leadership, this book might be useful for you as well.

**Being There Even when You are Not** - 2007

Whereas most of the leadership literature has focused on direct, interpersonal leadership, few researchers have examined indirect leadership or the leadership of organizations. Of course, direct, personal leadership plays an important role at all levels of the organization. However, we focus here on how leaders use strategy, structures, and systems to create the conditions that stimulate others to meaningfully contribute to the overarching goals of the organization. We therefore explore the role of the strategic leader as an architect. In this role as strategic architect, we examine how top-level leaders create organizations wherein leadership is developed, knowledge is created and disseminated, meaning is shaped and shared, and where the vision cascades to all corners of the organization. We also explore the darker side of leader discretion to show the deleterious consequences of leader power. Finally, we examine the complex nature of organizations and the roles of leaders in adapting the organization to the environment in which it operates. The six major sections in this book coincide with these aspects of the leaders architectural focus. The first chapter in each section provides a short theoretical introduction. Following the theory chapters are application chapters, highlighting the practical implications of the theory with real-life examples. The sixth section explores the relationship between complexity theory and strategic leadership. It examines indirect leadership - the leadership OF organizations. It explores how leaders exercise leadership indirectly through structures, processes and systems that stimulate others to contribute to organizational goals. It contains six major sections: leadership development, knowledge management, influencing and shaping meaning, leader

discretion, vision cascading, and complexity theory and the networked organization."

*Encyclopedia of Strategic Leadership and Management* - Wang, Victor C. X. 2016-12-12

Strategic leadership techniques are the cornerstone to positive growth and prosperity within businesses and organizations. Implementing new management strategies and practices helps to ensure managers are optimizing their resources and driving innovation. The Encyclopedia of Strategic Leadership and Management investigates emergent administrative techniques and business practices being utilized within corporate and educational settings. Highlighting empirical research and best practices within the field, this encyclopedia will be an authoritative reference source for students, researchers, faculty, librarians, managers, and leaders across various disciplines and cultures.

Leadership in the Context of Strategic Management - Michel Neumann 2021-09-17

Seminar paper from the year 2021 in the subject Business economics - Business Management, Corporate Governance, grade: 1,3, AKAD University of Applied Sciences Stuttgart, language: English, abstract: The aim of the assignment is to discuss the importance of leadership in the context of strategic management. In order to achieve this goal, the term leader must be distinguished from manager as a modal goal.

Furthermore it needs to be clarified the relationship between strategic management and leadership. To be able to achieve these goals the theoretical foundations about leadership and strategic management must first be developed in the second and third chapter. This includes respectively the history and evolution and a definition of these terms. After the basic understanding was created, the role of leadership in strategic management will be discussed in the main unit. Chapter five provides a conclusion and a critical examination of the research findings. In many industries and sectors are currently undergoing a shift from evolutionary change to increasingly disruptive change. In this process, existing offerings and services are fundamentally called into question and in some cases even become obsolete. With this development, companies are forced to completely realign their business activities and thus face a complex challenge.
