

The Chronicles Of The Sex Ahead Vol 1

Testosterzones

The Chronicles of the Sex Ahead: Vol. 1 - Nate Taber 2014-11-23

The Chronicles of The Sex Ahead are a collection of short stores, short and long, dark and light, combining three elements: *Futurism and Sci-Fi; *Sexuality, sensuality and reproductive issues of humans and robots; and *A surprise final story twist. The Chronicles are ripped from today's science headlines, including stories about: *Robot pimps, prostitutes, gigolos, hit-whores and dominatrixes*Sex with human-animal hybrids*Robot spies who bust people for feeling outlawed human emotions*Genetic plastic surgery gone haywire*Humans and Robot exchanging even private parts*Making love to a real woman (not an android) at least once before you die*Futuristic devices for self-pleasuring via the Internet *A handful of Trillionaires deciding to thin the herd by eliminating billions of "unnecessary" people*Kidnapping the reproductive materials of all members of the remorseless-killer SuperSoldier program*Machines seeking meaning, reproduction and evolution in their lives*Downloading human minds to machines and human immortality*Only persons of like Testosterone levels living in the same Testoster-Zones*The future of dating and mating*Lots more.

The Fair Tax Book - Neal Boortz 2009-03-17

Wouldn't you love to abolish the IRS . . .Keep all the money in your paycheck . . .Pay taxes on what you spend, not what you earn . . .And eliminate all the fraud, hassle, and waste of our current system? Then the FairTax is for you. In the face of the outlandish American tax burden, talk-radio firebrand Neal Boortz and Congressman John Linder are leading the charge to phase out our current, unfair system and enact the FairTax Plan-replacing the federal income tax and withholding system with a simple 23 percent retail sales tax. This dramatic revision of the current system, which would eliminate the reviled IRS, has already caught fire in the American heartland, with more than 600,000 taxpayers signing on in support of the plan. As Boortz and Linder reveal in this first book on the FairTax, this radical but eminently sensible plan would end the annual national nightmare of filing income tax returns, while at the same time enlarging the federal tax base by collecting sales tax from every retail consumer in the country. The FairTax, they argue, would transform the fearsome bureaucracy of the IRS into a more transparent, accountable—and equitable—tax collection system. Endorsed by scores of leading economists—and supported by a huge and growing grassroots movement—the FairTax Plan could revolutionize the way America pays for itself.
