Montessori Madness - Trevor Eissler 2009
"We know we need to improve our traditional school system, both public and private. But how? More homework? Better-qualified teachers? Longer school days or school years? More testing? More funding? No, no, no, no, and no. **Montessori Madness!** explains why the incremental steps politicians and administrators continue to propose are incremental steps politicians and administrators continue to propose are incremental steps in the wrong direction. The entire system must be turned on its head. This book asks parents to take a look--one thirty-minute observation--at a Montessori school. Your picture of what education should look like will never be the same"--Back cover.

Marshfield Dreams - Ralph Fletcher
2005-09-01

The colorful boyhood of a popular author comes to life in this personal account. Imagine learning from a nosy classmate that your mother is having yet another baby. To Ralph's classmates, news of one more Fletcher baby is just "scuttlebutt." But for Ralph, the oldest of nine, being part of a large family means more kids to join in the fun—from making tripods in the woods and "snicking" up the rug, to raising chicks and even discovering a meteor (well, maybe). It doesn't feel like there's life beyond Marshfield, Massachusetts. Then one day Dad's new job moves the family to Chicago, and there's so much Ralph has to leave behind. In this humorous and captivating memoir, Ralph Fletcher traces the roots of his storytelling.

Catholicism and Children's Literature in

France - Sophie Heywood 2012-02-15

This is the first book-length history of the classic French children's author, the Comtesse de Ségur. Virtually unknown in the English-speaking world, in France, Ségur is a national icon and a cultural phenomenon. Generations of children have grown up reading her stories. This book combines a discussion of her life, her works, and their reception with a broader analysis of the cultural context of the mid-nineteenth century. It offers a unique insight into the political engagement of Catholic women through the medium of children's literature and education, and brings out new aspects of the history of publishing aimed at children, with particular reference to the market for books for girls. With its lively subject matter and accessible style, this book will appeal not only to scholars of nineteenth-century France, but also to specialists and students interested in the fields of children's literature, gender studies, and religious history.
