"Jacobsen's" Index of Objectionable Literature - Jacobsen's Publishers 1968

Fahrenheit 451 - Ray Bradbury 1968

A fireman in charge of burning books meets a revolutionary school teacher who dares to read. Depicts a future world in which all printed reading material is burned.

Bunny - Mona Awad 2019-06-11

"The Secret History meets Jennifer's Body. This brilliant, sharp, weird book skewers the heightened rhetoric of obsessive female friendship in a way I don't think I've ever seen before. I loved it and I couldn't put it down." - Kristen Roupenian, author of *You Know You Want This: "Cat Person" and Other Stories* The Vegetarian meets Heathers in this darkly funny, seductively strange novel about a lonely graduate student drawn into a clique of rich girls who seem to move and speak as one. "We were just these innocent girls in the night trying to make something beautiful. We nearly died.

We very nearly did, didn't we?" Samantha Heather Mackey couldn't be more different from the other members of her master's program at New England's elite Warren University. A self-conscious scholarship student who prefers the company of her imagination to that of most people, she is utterly repelled by the rest of her fiction writing cohort--a clique of unbearably twee rich girls who call each other "Bunny," and are often found entangled in a group hug so tight it seems their bodies might become permanently fused. But everything changes when Samantha receives an invitation to the Bunnies' exclusive monthly "Smut Salon," and finds herself drawn as if by magic to their front door--ditching her only friend, Ava, an audacious art school dropout, in the process. As Samantha plunges deeper and deeper into Bunny world, and starts to take part in the off-campus "Workshop" where they devise their monstrous creations, the edges of reality begin to blur, and her friendships with Ava and the Bunnies are brought into deadly collision. A spellbinding, down-the-rabbit-hole tale about loneliness and

belonging, creativity and agency, and female friendship and desire, Bunny is the dazzlingly original second book from an author with tremendous "insight into the often-baffling complexities of being a woman" (The Atlantic).

Something from Tiffany's - Melissa Hill 2011-05-26

Doesn't every girl dream of getting . . . something from Tiffany's? 'The kind of book that you can't put down' - Sunday Independent It's Christmas Eve. And on 5th Avenue in New York City, two very different men are shopping for gifts for the women they love. Gary is buying his girlfriend Rachel a charm bracelet. Partly to thank her for paying for their holiday-of-a-lifetime to New York. But mainly because he's left his Christmas shopping far too late. Whereas Ethan's looking for something a little more special - an engagement ring for the first woman to have made him happy since he lost the love of his life. But when the two men's shopping bags get confused, and Rachel somehow ends up with Ethan's ring, the couples' lives become

intertwined. And, as Ethan tries to reunite the ring with the woman it was actually intended for, he finds it trickier than expected. Does fate have other ideas for the couples? Or is there simply a bit of Tiffany's magic in the air . . .

True Homosexual Experiences - William E. Jones 2016

Boyd McDonald (1925-1993) had the makings of a successful career in the 1950s--an education at Harvard, jobs at Time/Life and IBM--but things didn't turn out as planned. Containing in-depth interviews with friends and family members and a wealth of previously unpublished material, *True Homosexual Experiences: Boyd McDonald and Straight to Hell* is the first book devoted to this key figure of the American underground.

House of Leaves - Mark Z. Danielewski 2000-03-07

"A novelistic mosaic that simultaneously reads like a thriller and like a strange, dreamlike excursion into the subconscious." —The New York Times Years ago, when *House of Leaves* was first being passed around, it was nothing more than a badly bundled heap of paper, parts of which would occasionally surface on the Internet. No one could have anticipated the small but devoted following this terrifying story would soon command. Starting with an odd assortment of marginalized youth -- musicians, tattoo artists, programmers, strippers, environmentalists, and adrenaline junkies -- the book eventually made its way into the hands of older generations, who not only found themselves in those strangely arranged pages but also discovered a way back into the lives of their estranged children. Now this astonishing novel is made available in book form, complete with the original colored words, vertical footnotes, and second and third appendices. The story remains unchanged, focusing on a young family that moves into a small home on Ash Tree

Lane where they discover something is terribly wrong: their house is bigger on the inside than it is on the outside. Of course, neither Pulitzer Prize-winning photojournalist Will Navidson nor his companion Karen Green was prepared to face the consequences of that impossibility, until

the day their two little children wandered off and their voices eerily began to return another story -- of creature darkness, of an ever-growing abyss behind a closet door, and of that unholy growl which soon enough would tear through their walls and consume all their dreams.
