**Music in World War II** Pamela M. Potter 2020-10-06 How can music withstand the death and destruction brought on by war? Global conflicts of the 20th century fundamentally transformed not only national boundaries, power relations, and global economies, but also the arts and culture of every nation involved. An important, unacknowledged aspect of these conflicts is that they have unique musical soundtracks. *Music in World War II* explores how music and sound took on radically different dimensions in the United States and Europe before, during, and after World War II. Additionally, the collection examines the impact of radio and film as the disseminators of the war's musical soundtrack. Contributors contend that the European and American soundtrack of World War II was largely one of escapism rather than the lofty, solemn, heroic, and celebratory mode of "war music" in the past. Furthermore, they explore the variety of experiences of populations forced from their homes and interned in civilian and POW camps in Europe and the United States, examining how music in these environments played a crucial role in maintaining ties to an idealized "home" and constructing politicized notions of national and ethnic identity. This fascinating and well-constructed volume of essays builds understanding of the role and importance of music during periods of conflict and highlights the unique aspects of music during World War II.

**Polysexuality** Francois Peraldi 1981 Mixing documents, interviews, fiction, theory, poetry, psychiatry and anthropology, "Polysexuality" became the encyclopedia sexualis of a continent that is still emerging. Originally conceived as a special Semiotext(e) issue on homosexuality at the end of the 70s, "Polysexuality" quickly evolved into a more complex and iconoclastic project whose intent was to do away with recognized genders altogether, considered far too limitative. The project landed somewhere between humor, anarchy, science-fiction, utopia and apocalypse. In the few years that it took to put it together, it also evolved from a joyous schizo concept to a darker, neo-Lacanian elaboration on the impossibility of sexuality. The tension between the two, occasionally perceptible, is the theoretical subtext of the issue. Upping the ante on gender distinctions, "Polysexuality" started by blowing wide open all sexual classifications, inventing unheard-of categories, regrouping singular

features into often original configurations, like Corporate Sex, Alimentary Sex, Soft or Violent Sex, Discursive Sex, Self- Sex, Animal Sex, Child Sex, Morbid Sex, or Sex of the Gaze. Mixing documents, interviews, fiction, theory, poetry, psychiatry and anthropology, "Polysexuality" became the encyclopedia sexualis of a continent that is still emerging. What it displayed in all its forms could be called, broadly speaking, the Sexuality of Capital. (Actually the issue being rather hot, it was decided to cool it off somewhat by only using "capitals" throughout the issue. It was also the first issue for which we used the computer). The "Polysexuality" issue was attacked in Congress for its alleged advocacy of animal sex. Includes work by Alain Robbe-Grillet, Félix Guattari, Paul Verlaine, William S. Burroughs, Georges Bataille, Pierre Klossowski, Roland Barthes, Paul Virilio, Peter Lamborn Wilson, and more.

**Communists and British Society, 1920-1991** Kevin Morgan 2007 The revolutionary appeal of Communism in 20th-century Britain is analyzed in this examination of why Communist Party members joined, how they participated in the party's activities, and why, in many cases, they left the party. Archival resources, hundreds of interviews, and sociological analyses document the nature of left-wing activism in Britain from its earliest incarnations to the schisms of the 1980s. The role of Communism in British politics and society is illuminated by discussions of constructions of political authority; the role of gender, generation, and social class; and the significance of political space and mobility in recruitment.

**Understanding and Proving International Sex Crimes** Morten Bergsmo 2012-04-25 "[This anthology] addresses the gap between international standard-setting prohibiting international sex crimes and actual accountability for individuals who are responsible for such crimes. The book provides detailed analysis of the legal requirements of international sex crimes and types of fact that can be used to meet these requirements. It includes a unique knowledge-base that digests international case law on such crimes. The anthology also contains several studies of institutional and evidentiary challenges in the prosecution of international sex crimes"--Series pref.

**Jarhead** Anthony Swofford 2008-12-09 A harrowing yet inspiring portrait of a tormented consciousness struggling for reconciliation and peace, JARHEAD is authentic, revelatory and brilliantly crafted. Anthony Swofford's grandfather fought in WWII; his father fought in Vietnam; and he - a directionless, testosterone-battered teenager - became a scout/sniper in the marines and fought in the Gulf War. His account of that time is also part of a lineage - after Wilfred Owen, Norman Mailer, Michael Herr and Tim O'Brien, it brings the raw and searing tradition of soldiers' stories up to date.

**Blindsight** Peter Watts 2006-10-03 Hugo and Shirley Jackson award-winning Peter Watts stands on the cutting edge of hard SF with his acclaimed novel, *Blindsight* Two months since the stars fell... Two months of silence, while a world held its breath. Now some half-derelict space probe, sparking fitfully past Neptune's orbit, hears a whisper from the edge of the solar system: a faint signal sweeping the cosmos like a lighthouse beam. Whatever's out there isn't talking to us. It's talking to some distant star, perhaps. Or perhaps to something closer, something en route. So who do you send to force introductions with unknown and unknowable alien intellect that doesn't wish to be met? You send a linguist with multiple personalities, her brain surgically partitioned into separate, sentient processing cores. You send a biologist so radically interfaced with machinery that he sees x-rays and tastes ultrasound. You send a pacifist warrior in the faint hope she won't be needed. You send a

monster to command them all, an extinct hominid predator once called vampire, recalled from the grave with the voodoo of recombinant genetics and the blood of sociopaths. And you send a synthesist—an informational topologist with half his mind gone—as an interface between here and there. Pray they can be trusted with the fate of a world. They may be more alien than the thing they've been sent to find. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Two years later, a probe satellite falls to the earth and lands in a desolate region of northeastern Arizona. *Alien Interview* Lawrence R. Spencer 2008-01-01 The content of this book is the letter, Top Secret interview transcripts and personal notes received from the late Matilda O'Donnell MacElroy, an Army Air Force nurse who stationed at the Roswell Army Air Field 509th Bomb Group. Her letter asserts that this material is based on a series of interviews she conducted with an extraterrestrial being as part of her official duty as a nurse in the U.S. Army Air Force. During July and August she interviewed a saucer pilot who crashed near Roswell, New Mexico on July 8th, 1947. *Roman Holidays And Others* William Dean Howells 2020 With that genially serious attention to minute details, that humorous circumstantiality in treating the commonplace, which we have all come to know so well and to like (or dislike) so heartily in Mr. Howells, he has filled a substantial volume with his easily-flowing narrative of a Mediterranean vacation journey, naming his book 'Roman Holidays and Others.' The first landing of his party was made at Madeira, whence they proceeded to Gibraltar, and then to Genoa, Naples, Rome, Leghorn, Pisa, Genoa again, and Monte Carlo. The style of the narrative — if it is necessary to indicate it at all — is well illustrated by the opening words of the second chapter: "There is nothing strikes the traveler in his approach to the rock of Gibraltar so much as its resemblance to the trade-mark of the Prudential Insurance Company. He cannot help feeling that the famous stronghold is pictorially a plagiarism from the advertisements of that institution." Mr. Howells says of the Romans of these days that they have "a republican simplicity of manner, and I liked this better in the shop people and work people than the civility overflowing into servility which one finds among the like folk, for instance, in England."

**Articulating Aliens** Holly Sevier 2019-10-26 This book examines the successive collectives of migrant others who are excluded from the US, as well as the myriad ways that popular discourses interact to code particular desired and undesired national subjects. This colorful, genealogical

analysis travels the gamut of US history from the 1790 Naturalization Act to today, and evokes a range of alien others from Chinese railroad workers of the late nineteenth century to today's migrant 'caravans'. In order to highlight transformations to the alien migrant subjectivity over time, Sevier draws on diverse discourses where alien others are found. These include popular tales about 'problem' animals, as well as ideas about aliens from 'outer' space. Theorizing that such discourses interact to produce wide-reaching political and material effects, Sevier considers a broad array of media from legal statutes to street celebrations and presidential tweets. Analyzing across disparate genres and taking a long historical view offers a broad picture of how the migrant subjectivity is produced and reproduced in the US. **\*\*Black and White version\*\***
