Reclaiming the Lost Life: Overcoming Emptiness and Self-Defeating Lifestyles - James A. Dauer 2014-05-16

Emptiness is our appetite for meaning and purpose. Sometimes Christians get lost or sidetracked and give up as they find themselves defeated and untouched by their Christian faith. Many Christians feed

their emptiness in two major ways: unhealthy relationships or intense, acting out behavior. This book is written with the hope that the reader may learn how to become integrated within him or herself by learning to become integrated in Christ. "With a gifted intellectual and caring Christian heart, this effective mental health counselor has written an insightful and compelling book designed to help people of faith overcome compulsive and self-destructive drives arising out of relational brokenness. It is a rare combination of sound theology, deep spirituality, and wise psychology. Reclaiming the Lost Life is a rare gem! I highly recommend the book to those suffering from self-destructive behaviors, as well as to loved ones and mental health professionals working with them." —Dr. Elmer M. Colyer, professor of systematic theology, the University of Dubuque Theological Seminary, Dubuque, Iowa "James Dauer is a straight shooter who gets to the heart of the matter from the very beginning. Through this book James gives everyday, practical advice and examples. As I read it, I felt like I had met the characters personally. James gives us the way forward with them and with ourselves. If we look honestly, we can really learn how to find the direction for our journey." —Pastor Dan Kellog, Gold Creek Community Church, Mill Creek, Washington

Managing Your Mind - Gillian Butler 2007-03-08

Originally published in 1995, the first edition of *Managing Your Mind* established a unique place in the self-help book market. A blend of tried-and-true psychological counseling and no-nonsense management advice grounded in the principles of CBT and other psychological treatments, the book straddled two types of self-help literature, arguing that in one's personal and professional life, the way to success is the same. By adopting the practical strategies that mental health experts Butler and Hope have developed over years of clinical research and practice, one can develop the "mental fitness" necessary to resolve one's personal and interpersonal challenges at home and work and to live a productive, satisfying life. The first edition addressed how to develop key skills to mental fitness (e.g., managing one's time better, facing and solving problems better, keeping things in perspective, learning to relax, etc.), how to improve one's relationships, how to beat anxiety and depression, and how to establish a good mind-body balance. For this new edition, Butler and Hope have updated all preexisting material and have added five new chapters on sexuality and intimate relationships; anger in relationships; recent traumatic events and their aftermath; loss and bereavement; and dealing with the past.

I Don't Have to Make Everything All Better - Gary B. Lundberg 1995-08

I Don't Have to Make Everything All Better makes two propositions: First, you don't have to solve other people's problems. And second, by appropriately validating feelings, you empower people to be their own problem solvers, which will significantly increase the quality of your relationships. The techniques of validation the Lundbergs share give people the space to solve their own problems while still feeling that someone cares. In the first half of the book the Lundbergs discuss the principles behind validation, while the second half shows how these techniques can work to improve communication and relationships with children, teens, spouses, blended families, and even on the job. The authors' anecdotal style and examples demonstrate validation in everyday situations and language that readers can easily master. And the results can be miraculous. Powerful ... practical suggestions on the how-to's of building meaningful relationships. -- Stephen R. Covey, author of *The 7 Habits of Highly Effective People* This book has the power to improve all relationships. I highly recommend it. -- Dr. Ronald Jorgensen, the Mayo Clinic

Formational Leadership - Marcus K. Kilian 2018-07-17

This book addresses the problem of toxic leadership in Christian contexts. Toxic leadership behaviors of narcissistic and obsessive-compulsive leaders will be emphasized. To counteract toxic Christian leadership, this book proposes a leadership development model, called formational leadership, which is based mostly on Wesleyan spirituality, but also includes monastic and Pentecostal spiritualities. Formational leadership is an eclectic leadership development model that includes components of transformational, authentic, and primal leadership approaches. Formational leadership emphasizes the spiritual, emotional, and ethical development processes in the leader and includes an analysis of orthokardia, orthodynamis, and orthopraxis. These components have a circular relationship with one another. Orthokardia includes the concepts of spiritual and emotional maturity that a Christian leader needs to develop in order to become an ethical and effective leader. Orthodynamis includes right power and influence motives based on Christian affections that should inform formational leadership. Orthopraxis refers to "right" and "just" leadership behaviors informed by Wesley's social holiness and justice values that need to be adopted as organizational core values. The implications of these components for leadership development are outlined in chapters 4-6 that include practical steps for helping toxic leaders change their dysfunctional and harmful intentions and behaviors.
