Millions of adults struggle with an uncomfortable and persistent ache: platonic longing, which is the unfulfilled wish for authentic, resilient, close friendships. But it doesn't have to be this way. Making and maintaining friendships during adulthood can be hard--or, with a bit of intention and creativity, joyful. Author Kat Velloso, experience designer and founder of Better Than Small Talk, tackles the four most common challenges of adult friendship: constant relocation, full schedules, the demands of partnership and family, and our culture's declining capacity for compassion and intimacy in the age of social media. Combining expert research and personal stories pulled from conversations with hundreds of adults, *We Should Get Together* is the modern handbook for making and maintaining stronger friendships. With this book you

will learn to: Make and maintain friendships when you (or your friends) keep moving Have deeper and more meaningful conversations Triumph over awkwardness in social situations Become less dependent on your phone Identify and prioritize quality connections Find time for friendship despite your busy calendar Create closer, more durable friendships Full of relatable stories, practical tips, 60 charming illustrations, 55 suggested activities, a book club discussion guide, and 300+ conversation starters, *We Should Get Together* is the perfect book for anyone who wants to have dedicated, life-enriching friends, and who wants to be that kind of friend, too.

Your Child's First Crush - What It Means and How To Talk About It - Cynthia Malu

class, your child's first crush is a new frontier, and its best to prepare yourself long before it happens. As a parent, you can take an active part in helping your child navigate his or her romantic feelings. To be a positive part of your child's first experience with puppy love, the most important thing you can do is help your child feel comfortable communicating with you. A crush is no more than an infatuation. Unlike a true romantic relationship, when two individuals acknowledge their deep feelings for one another, a crush is often a one-sided attraction. When children have a crush, they are not focused on loving the object of their affection as an entire person, flaws and all. Instead, they build up a fantasy of sorts in their minds, and spend time daydreaming about what it would be like to be together.

EXCERPT FROM THE BOOK
Try to find out how your child's crush is responding to him. Ask him if his crush talks to him at school. This will help you gauge the level of intensity and

the direction things are headed. If his crush returns his feelings, he may be on the verge of a relationship. While you won't be able to change the eventual outcome of your son's crush, you can guide him as he navigates the unfamiliar waters of romantic feelings. The way you approach the subject will depend on your child's age. For a young child, be positive but truthful when you talk about the crush. Explain that it's normal to have strong feelings for people when you like their looks and behavior, but make sure your child knows that it's not necessary to act on those feelings. Guide him or her in making appropriate decisions. For instance, if your daughter wants to give a gift to a boy she likes on Valentine's Day, help her choose something that won't be overwhelming for either party. If the object of your young child's affection is an adult, don't be overly concerned. According to Dr. Laura Rocker, a pediatric physician, children often experience their first crush on a celebrity or an adult they find

attractive. This behavior is normal, and as a child grows older, he or she will become interested in peers his or her own age... Buy a copy to keep reading! “Over a decade after its publication, one book on dating has people firmly in its grip.”
—The New York Times We already rely on science to tell us what to eat, when to exercise, and how long to sleep. Why not use science to help us improve our relationships? In this revolutionary book, psychiatrist and neuroscientist Dr. Amir Levine and Rachel Heller scientifically explain why why some people seem to navigate relationships effortlessly, while others struggle. Discover how an understanding of adult attachment—the most

advanced relationship science in existence today—can help us find and sustain love.

Pioneered by psychologist John Bowlby in the 1950s, the field of attachment posits that each of us behaves in relationships in one of three distinct ways: • Anxious people are often preoccupied with their relationships and tend to worry about their partner's ability to love them back • Avoidant people equate intimacy with a loss of independence and constantly try to minimize closeness. • Secure people feel comfortable with intimacy and are usually warm and loving. Attached guides readers in determining what attachment style they and their mate (or potential mate) follow, offering a road map for building stronger, more fulfilling connections with the people they love.

notes professional matchmaker Patti Novak. You have to work for it-and want it. Forget eight-minute speed dates or online dating sites with twenty-page questionnaires that promise a scientifically calculated perfect match. The fact that you both like golf, stamp collecting, and pizza with anchovies is great, but it won't mean a thing if you don't feel that zing. But before there can be sparks, there have to be dates. And before the first date, you need to get over yourself! Taking a tough-love approach, and in her signature straight-shooting style, Patti will show you how to fix what needs to be fixed, reach your core, and identify who you are and what you want in a partner. She uses a three-part common-sense formula:

- Getting Over What? Assess your dating weaknesses, recognize what's not working, and adjust your expectations. Delve into your personal history and past relationships, and pinpoint the issues that have been holding you back.
- Almost Over It Fine-tune your attitude, your look, and your

behavior to maximize your dating chances. Novak lays out strategies to help you deal with the brutal dating monsters you find along the way.

- Over It Learn the do's and don'ts of the first date, the second date, and beyond. Remember, it's not a job interview or therapy session. Pretend you're meeting a new friend, not a prospective husband or wife. Finding your one and only isn't about having the right shoes or a flat stomach. It's about being true to yourself, being vulnerable, and being ready for love. Whether you're new to the dating scene, divorced and looking, or just trying to reach that second date, Get Over Yourself! will help you get the love you've always wanted and deserve.

The Laws of Human Nature. In the book that People magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, The 48 Laws of Power is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.
