

On The Body A Contemporary Theology Of Sexuality

Alien Sex - Gerard Loughlin 2008-04-15

Gerard Loughlin is one of the leading theologians working at the interface between religion and contemporary culture. In this exceptional work, he uses cinema and the films it shows to think about the church and the visions of desire it displays. Discusses various films, including the Alien quartet, Christopher Nolan's Memento, Stanley Kubrick's 2001: A Space Odyssey and A Clockwork Orange, Nicolas Roeg's The Man Who Fell to Earth and Derek Jarman's The Garden. Draws on a wide range of authors, both ancient and modern, religious and secular, from Plato to Levinas, from Karl Barth

and Hans Urs von Balthasar to André Bazin and Leo Bersani. Uses cinema to think about the church as an ecclesiacinema, and films to think about sexual desire as erotic dispossession, as a way into the life of God. Written from a radically orthodox Christian perspective, at once both Catholic and critical.

The Good News of the Body - Lisa Isherwood
2000-01-01

This book examines the power to define sexuality. It asks whether women are even present in the many acts of religious/sexual intercourse that define and control, but rarely engage them. A number of authors reflect from

varying perspectives on the status of women within patriarchal understandings of sexuality. They take seriously the bodies of women as sites of resistance to patriarchy, in the pain of those bodies, their fecundity and their capacity for erotic revolution. For this book also explores ways to rebel!

Sex These Days - Jon Davies 1997-06-01

What has been lost, what has been gained, in replacing sexual orthodoxy with the 'heresies' of postmodern sexualities? In the recent past-even within living memory-sex has usually been a matter of monogamous heterosexual marriage and the procreation of children. Other sexual practices were seen as deviations from the 'patriarchal' norm. Today things are different, and western liberal societies promote and celebrate a growing multiplicity of sexual, familial and procreational practices and relationships. Nine writers assess the directions in which our societies are being led.

The Sexuality of Christ in Renaissance Art and in

Modern Oblivion - Leo Steinberg 2014-12-10
Originally published in 1983, Leo Steinberg's classic work has changed the viewing habits of a generation. After centuries of repression and censorship, the sexual component in thousands of revered icons of Christ is restored to visibility. Steinberg's evidence resides in the imagery of the overtly sexed Christ, in Infancy and again after death. Steinberg argues that the artists regarded the deliberate exposure of Christ's genitalia as an affirmation of kinship with the human condition. Christ's lifelong virginity, understood as potency under check, and the first offer of blood in the circumcision, both required acknowledgment of the genital organ. More than exercises in realism, these unabashed images underscore the crucial theological import of the Incarnation. This revised and greatly expanded edition not only adduces new visual evidence, but deepens the theological argument and engages the controversy aroused by the book's first publication.

On the Body - Carlo Maria Martini 2001
Martini presents a theology of the body, including the sensitive topic of sexuality. He draws on Scripture, the writings of Pope John Paul II, and contemporary science. This text carefully is structured in five parts, and does a major study on the Church's understanding of the human body and the spirit that lies within.

Sexuality and the Christian Body - Eugene F. Rogers, Jr. 1999-08-25

God and the Body addresses the challenges to traditional Christianity by gay and lesbian Christians and their critics within the church. This controversial book will be welcomed for the radical new insights it provides into Christian arguments about the body.

Sexuality and the World's Religions - David Wayne Machacek 2003-08-13

Exploring one of the most controversial topics in contemporary theology, this scholarly volume reveals what the world's great faiths—East and West—preach about sexuality, with a special

emphasis on American religion. What do the world's most important religious texts have to say about one of humanity's favorite activities? Editors David W. Machacek and Melissa M. Wilcox have brought together top scholars in the field of religious studies to ask and answer these critical questions. Carefully researched, elegantly written, and respectfully presented, *Sexuality and the World's Religions* explores the intersection of the spiritual and the carnal in Buddhism, Christianity, Confucianism, Daoism, Hinduism, Islam, Judaism, and African and Native American spiritual traditions. A separate section explores critical religious and sexual topics in American society, including the role of spirituality in gay, lesbian, bisexual, and transgender communities; the role of sex in the modern witchcraft community; and the ever thorny problem of religion and sexual liberty. Reconciling sexuality and spirituality in every human soul is one of religion's most important tasks. Students and other readers will find this

timely and comprehensive volume of interest in exploring these issues.

For the Body - Timothy C. Tennent 2020-11-17
An in-depth look at what it means to be created in the image of God and how our bodies serve as icons that illuminate God's purposes instead of ours. The human body is an amazing gift, yet today, many people downplay its importance and fail to understand what Christianity teaches about our bodies and their God-given purposes. Many people misunderstand how the body was designed, its role in relating to others; and we lack awareness of the dangers of objectifying the body, divorcing it from its intended purpose. Timothy Tennent covers topics like marriage, family, singleness, and friendship, and he looks at how the human body has been objectified in art and media today. For the Body offers a biblical framework for discipling people today in a Christian theology of the body. Tennent—theologian and president of Asbury Theological Seminary—explores the contours of

a robust Christian vision of the body, human sexuality, and the variety of different ways we are called into relationships with others. This book will reveal a theological vision that: Informs our self-understanding of our own bodies. Examines how we treat others. Reevaluates how we engage today's controversial and difficult discussions on human sexuality with grace, wisdom, and confidence. For the Body is a call to a deeper understanding of our bodies and an invitation to recapture the wonder of this amazing gift.

The Ashgate Research Companion to Contemporary Religion and Sexuality -

Andrew K.T. Yip 2016-04-01

The Ashgate Research Companion to Contemporary Religion and Sexuality provides academics and students with a comprehensive and authoritative state-of-the-art review of current research in the area of sexuality and religion, broadly defined. This collection of expert essays offers an inter-disciplinary study of

*Downloaded from
legacy.opendemocracy.net on
2023-05-13 by guest*

the important aspects of sexuality and religion, calling upon sociological, cultural, historical and theological contributions to an under-researched subject. The Companion focuses on the exploration of diverse religious faiths, spiritualities, and sexualities with contributions that embrace many contrasting approaches related to the contemporary context. By adopting a truly inter-disciplinary and multi-dimensional perspective, the Companion embraces the complexities of both sexuality and religion. Aimed primarily at a readership with specialist interest in both, The Ashgate Research Companion to Contemporary Religion and Sexuality offers an innovative and refreshing analysis of key theoretical and empirical issues in an increasingly relevant and expanding area of academic interest. The Companion comprises five main thematic sections, each with chapters ranging across a variety of crucial topics traversing various faith traditions. The principal themes are: epistemological and methodological

issues; the significance of religious text; institutional religious settings; stability transformation and change; contesting hegemonic structures and discourses. Each section includes four chapters contributed by leading international experts in their respective fields and who are at the cutting-edge of current research. Collectively, they offer an inter-disciplinary and comprehensive survey of sexuality and religion.

Contemporary Christianity and LGBT Sexualities - Stephen Hunt 2016-05-13

The subject of gay and lesbian sexuality is perhaps the most vexed issue in the contemporary Christian Church. Many churches have been forced to confront the matter, both theologically and pastorally and in consequence, controversies have proved divisive within the Church, most notably between conservative and liberal orientated denominations, as well as evangelical churches. This book explores these themes from a sociological perspective,

addressing not only gay and lesbian sexualities, but also bi- and transgendered sexualities. With rich empirical material being presented by a team of experts, this book constitutes the first comprehensive sociological study of 'non-hetero' sexualities in relation to contemporary Christianity. As such, it will appeal to sociologists, scholars of religion and theology as well as readers across a range of social sciences

Theology and Sexuality - Susannah Cornwall
2013

The SCM Studyguide Pastoral Theology designed to support undergraduate courses for the training of clergy and lay pastoral workers at an accessible introductory level. The book aims to develop pastoral wisdom and integrity through a critical integration of theology and the human sciences. Introducing key themes in theological anthropology and pastoral practice, it shapes a creative pastoral vision which is deeply rooted in a Christian vision of what it means to be human and what it takes to care.

Working with case studies, the book will introduce broad frameworks of understanding of issues such as growth, loss, and sexuality, together with critical perspectives on important aspects of practice such as language, power and boundaries. The book provides an accessible overview of key concepts in pastoral theology, offering key entry points for further discussion and study. Each chapter includes discussion questions and/or reflective exercises at the end of each chapter together with a short bibliography. Throughout the text, key summaries of learning will be indicated by boxed Practice Points.

The Oxford Handbook of Theology, Sexuality, and Gender - Adrian Thatcher
2014-11-13

The Oxford Handbook of Theology, Sexuality, and Gender presents an unrivalled overview of the theological study of sexuality and gender. Not merely contentious and pervasive topics, sexuality and gender have escalated in

*Downloaded from
legacy.opendemocracy.net on

importance within theology. Theologians increasingly agree that even the very doctrine of God cannot be contemplated without a prior grappling with each. Featuring 41 newly-commissioned essays, written by the foremost scholars in the discipline, this authoritative collection presents and develops the latest thinking in the area. Divided into eight thematic sections, the Handbook explores key methodological approaches, concepts, and issues, as well as current controversies within various denominations. Selected essays draw on reason as a distinct source of theology, discussing evolutionary biology and behavioural genetics, psychology, anthropological research, philosophical research, and queer theory. It examines the history of in theologies of sexuality and gender, with close analysis of the Bible and the Christian tradition. The final section considers theology in relation to different expressions of sexual identities. This volume is an essential reference for students and scholars,

which will also stimulate further research.

Making Sense of Sex - Adrian Thatcher
2012-06-21

All living creatures are sexed. Human beings belong to societies where traditions about who can have sex with whom, and how, and when, are centuries old. Making sense of sex assumes that there is a rational way of understanding our basic drives. But our inevitable failure to get sex right is the beginning of a proper and theological understanding of sex. The Christian tradition, especially in its conservative forms, is often thought to be unhelpful in making sense of sex. Christian sexual ethics may seem overly demanding: holistic in theory, yet sexist and pessimistic in practice. Adrian Thatcher argues, however, that instead of being pessimistic about sex, Christians can be grateful realists instead. Making Sense of Sex draws on the resources of Liberal Theology to promote a mature union of spirituality and sexuality. Exploring topics such as desire, bodies and the Body of Christ, sexual

difference, homosexuality, marriage, and Paul's reflection on 'flesh' and 'spirit', it will help to guide readers towards a spiritual understanding of shared sexual love.

Transforming Bodies and Religions - Mariecke van den Berg 2020-10-01

This book sheds an interdisciplinary light on 'transforming bodies': bodies that have been subjected to, contributed to, or have resisted social transformations within religious or secular contexts in contemporary Europe. It explores the intersections of race, ethnicity, gender, sexuality and religion that underpin embodied transformations. Using post-secularist, postcolonial and gender/queer perspectives, it aims to gain a better understanding of the orchestrations and effects of larger social transitions related to religion. This volume is the outcome of the intensive collaboration of the authors, who for years have been meeting regularly in Utrecht, the Netherlands, to discuss themes related to religion and 'the challenge of

difference', with an added afterword by Prof. Pamela Klassen from the University of Toronto. The book is divided in three subsections that focus on particular types of embodiment: body politics in governmental and NGO organisations; the role of the body in literary and/or autobiographical narratives; and ethnographic case studies of bodies in daily life. Doing so, it provides an innovative exploration of contemporary religion and the body. It will, therefore, be of great interest to scholars of Religious Studies, Gender and Sexuality Studies, Post-Colonial Studies, Anthropology, Sociology, Theology, and Philosophy.

Michel Foucault and Theology - James Bernauer 2017-03-02

Whilst Foucault's work has become a major strand of postmodern theology, the wider relevance of his work for theology still remains largely unexamined. Foucault both engages the Christian tradition and critically challenges its disciplinary regime. Michel Foucault and

Theology brings together a selection of essays by leading Foucault scholars on a variety of themes within the history, thought and practice of theology. Revealing the diverse ways that the work of Michel Foucault (1926-1984) has been employed to rethink theology in terms of power, discourse, sexuality and the politics of knowledge, the authors examine power and sexuality in the church in late antiquity, (Castelli, Clark, Schuld), raise questions about the relationship between theology and politics (Bernauer, Leezenberg, Caputo), consider new challenges to the nature of theological knowledge in terms of Foucault's critical project (Flynn, Cutrofello, Beadoin, Pinto) and rethink theology in terms of Foucault's work on the history of sexuality (Carrette, Jordan, Mahon). This book demonstrates, for the first time, the influence and growing importance of Foucault's work for contemporary theology.

UNDERSTANDING HUMAN SEXUALITY IN JOHN PAUL II'S THEOLOGY OF THE BODY -

John Segun Odeyemi 2023-08-29

This book addresses the opposing positions held by Catholic orthodoxy and modern liberal societies on questions about human sexuality, marriage and family life. The author argues that true to the nature of doctrine, some moral teachings are open to development and some dogmatic ones are irreversible. In five chapters, relying on historical analysis, a hundred-year timeline is used to examine related papal encyclicals. A review of the natural law theory from its Stoic antecedents, Thomistic scholasticism, and the philosophical 20th-century new natural law theory are examined. John Paul II's Theology of the Body is used as a subtext. Intellectual, cultural and gendered perspectives are put in dialogue while paying attention to two current issues; same-sex unions as sacramental unions and the possibility of the use of condoms as prophylaxis for discordant married persons. This work appeals to both specialists and non-specialists, scholars,

students of theology and those who are interested in matters concerning the development of Christian [moral] doctrines. It can be used as a whole or in chapters for private studies, classroom work or in pastoral settings.

Theology and Sexuality - Eugene F. Rogers, Jr.
2002-02-01

This much-needed volume draws on a wide range of resources and some of the freshest talent in the field to examine debates about theology and sexuality. Material is drawn from a variety of ancient, medieval, modern and contemporary texts to provide readers with a broad perspective on the issues discussed.

SCM Core Text Theology and Sexuality -
Susannah Cornwall 2013-02-18

The SCM Core Text Theology and Sexuality provides a clear overview of the theological debate surrounding sexuality as broadly understood. It gives an outline of the major themes surrounding sexuality in theological perspective, focusing on key thinkers, concepts,

and areas of discussion. This student-friendly textbook is aimed at theology students and ordinands studying at undergraduate level 3 and MA level who are undertaking modules on theology and sexuality, gender, sex and the human body. It is also accessible to Christian clergy and laypeople who wish to engage with issues of sexuality in congregations. The use of extensive glossaries, breakout definitions and examples makes the book accessible to those with little existing knowledge of contemporary debates on theology and sexuality. The book includes chapters on definitions of sexuality, sexuality in the Christian tradition, Christian approaches to marriage, celibacy and virginity and same-sex relationships.

Queer Theology - Gerard Loughlin 2009-02-04
Queer Theology makes an important contribution to public debate about Christianity and sex. A remarkable collection of specially commissioned essays by some of the brightest and best of Anglo-American scholars Edited by

one of the leading theologians working at the interface between religion and contemporary culture Reconceptualizes the body and its desires Enlarges the meaningfulness of Christian sexuality for the good of the Church Proposes that bodies are the mobile products of changing discourses and regimes of power.

Thinking Again About Marriage - John Bradbury
2016-02-28

What is involved in the practice of thinking theologically about marriage? Key writers and thinkers offer an informed, considered and constructive guide to a number of central questions, including:

- Mike Higton on marriage,

- gender and Christian doctrine
- Charlotte Methuen on what we can learn from the history of marriage
- Ben Fulford on thinking about marriage with scripture
- Julie Gittoes on the liturgical theology of marriage
- John Bradbury on marriage as vocation
- Brett Gray on reproduction and the body's grace
- Susannah Cornwall on being faithful to our sexuate bodies
- Rachel Muers on developing a contemporary theology of marriage and much more

Reflecting a broad theological and eccesiological spectrum within the Christian tradition, Thinking Again About Marriage offers a vital resource for critical thinking and reflective practice.
