Harrington Lesbian Fiction Quarterly - 2000

The Mentor - Jay Quinn 2000

Examine a moving, personal narrative about growing up gay in the south! Students, teachers, and anyone interested in gay studies and experiences will find that *The Mentor: A Memoir of Friendship and Gay Identity* (a 2001 Lambda Literary Foundation Gay Male Biography/Autobiography Award finalist) delivers a captivating and honest look into the challenges of growing up gay through the context of firsthand experiences, revelations, and realizations. This unique book is an intelligent and personal narrative that considers the social, religious, and emotional aspects of what it is like to grow up as a gay male in the south and examines the enormous social changes regarding homosexuality that have taken place in America during the last half of the century. Written to reveal the importance of the author's mentor in helping him form his self-identity and educating him about being gay, this book challenges the stereotypical idea that, unlike heterosexuals, gay men are not able to form nurturing, fulfilling bonds between themselves. *The Mentor* delivers an inspiring story about accepting and understanding your sexuality with the help and guidance of other men who have traveled the road to a successful gay identity. This unique book offers the courage, strength, and support of a mentor to help guide you through the trials that many young gay men experience, such as: recognizing the possibilities of exploitation by older gay men due to a lack of emotional and social experience creating a loyal relationship with a man that does not include sex but which satisfies

emotional needs that many gay men need and long for discovering the importance of a mentor to gay youths, since there are few homosexual role models to learn from Sincere and well-written, *The Mentor* provides insight into everything from the author's experience with intolerance of homosexuality by certain religions to struggles with fidelity and infidelity, illustrating the difficult yet universal challenges of life relationships. *The Mentor* contains suggestions that will help you recognize that your feelings of desire and love and your quest for human connection as a gay man are not the distorted reflections of a heterosexual image, but a healthy gay identity. With this unique book, you will discover how to make the shift from confusion to full acceptance of your gay identity, you will understand that you are not alone, and perhaps you will be encouraged to pass on the legacy of a mentor to other young gay men.

Sex, Drugs and Young People - Peter Aggleton
2013-09-13

Sexual practices and drug use among the young are examined in this book, calling into question mainstream assumptions about 'adolescence'. Bringing together a range of cross-cultural and cross-national contributions, the book reveals both similarities and important differences that mark sexuality and drug use among young in different social and cultural settings. In doing so, it allows the reader to build up a clearer understanding of the challenges that must be faced in public health and education if we are to develop programs and interventions that really serve the needs of young people. The book will be of interest to professionals working with young people and is suitable for a wide range of

multidisciplinary courses covering areas such as human sexuality, sex education, public health and social work.

[The Oxford Handbook of Latin American History](#)

- Jose C. Moya 2011

This Oxford Handbook comprehensively examines the field of Latin American history.

AIDS, Culture, and Gay Men - Douglas A. Feldman 2010

"AIDS, Culture, and Gay Men addresses the urgent need for research on HIV and the behaviors of men who have sex with men. Based on studies in the U.S., Australia, Greece, and Belgium, the authors provide ethnographic, epidemiological, biological, and historical data and cover issues of risk, ethics, language, and the nature of evidence, all directed at developing effective forms of intervention."--Shirley Lindenbaum, City University of New York

"This book makes a compelling case that culturally oriented anthropological research is essential in understanding and responding to the AIDS crises among MSM and in gay communities."--Serena Nanda, City University of New York

There are approximately seven million adult gay and bisexual men in the United States and 120 million adult gay and bisexual men globally. This highly readable volume of original essays explores the cultural dimensions of AIDS among men who have sex with men (MSM). The traditional emphasis in HIV/AIDS research within gay communities has focused on sexual behavior and psychological issues. Yet to better understand the social and cultural dimensions of the disease, and to halt the spread of HIV, it is essential to recognize and understand the culture of MSM. Cultural anthropologists, unquestionably, are in a unique position to achieve this understanding. Douglas Feldman has gathered a diverse group of experts to contribute to this collection, and the volume features a wealth of scholarly data unavailable elsewhere.

Latino(a) Research Review - 2002

Practicing Safer Texts - Kenneth Stone
2005-05-30

This book uses the ubiquitous comparison between food and sex as a framework for examining a number of texts from the Hebrew Bible, as well as later readings of those texts and interpretive issues raised by the texts. A range of biblical texts in which both food and sex appear are analyzed in an interdisciplinary fashion with the help of both traditional tools of biblical scholarship and less traditional tools such as Queer studies and cultural anthropology. By utilizing a reading lens that relates food and sex to one another intentionally, rather than treating them separately, the book will among other things question the tendency of readers of the Bible to overstress the gravity of sexual matters in relation to other matters of potential ethical, theological, exegetical and cultural concern, such as food. At the same time, as the title *Practising Safer Texts* indicates, the book also proposes a pragmatic approach to biblical interpretation that uses strategies of "safer sex" as a sort of loose model. Such an approach assesses texts and readings of the Bible not in a universalizing fashion but rather in terms of their likely effects, for good or ill, on particular readers in particular contexts and situations (just as notions of "safer sex" ask us to assess sexual acts not in a moralizing fashion but, rather, in terms of their likely effects on particular persons).

Male Sex Work and Society - Victor Minichiello
2014-09-23

This new collection explores for the first time male sex work from a rich array of perspectives and disciplines. It aims to help enrich the ways in which we view both male sex work as a field of commerce and male sex worker themselves. Leading contributors examine the field both historically and cross-culturally from fields including public health, sociology, psychology, social services, history, filmography, economics, mental health, criminal justice, geography, and migration studies, and more. Synthesizing introductions by the editors help the reader understand the implications of the findings and conclusions for scholars, practitioners, students, and members of the interested/concerned public.

Latina/o Sexualities - Marysol Asencio 2010
Latina/os are currently the largest minority population in the United States. They are also one of the fastest growing. Yet, we have very

limited research and understanding of their sexualities. Instead, stereotypical images flourish even though scholars have challenged the validity and narrowness of these images and the lack of attention to the larger social context. Gathering the latest empirical work in the social and behavioral sciences, this reader offers us a critical lens through which to understand these images and the social context framing Latina/os and their sexualities. Situated at the juncture of Latina/o studies and sexualities studies, *Latina/o Sexualities* provides a single resource that addresses the current state of knowledge from a multidisciplinary perspective. Contributors synthesize and critique the literature and carve a separate space where issues of Latina/o sexualities can be explored given the limitations of prevalent research models. This work compels the current wave in sexuality studies to be more inclusive of ethnic minorities and sets an agenda that policy makers and researchers will find invaluable.

Heterogender Homosexuality in Honduras - Manuel Fernández-Alemany 2002

This ethnography of the sexual culture of males who have sex with males in the lower-class part of San Pedro Sula, Honduras shows that the analytic distinction between gender and sexuality is inoperative for Honduran men. It provides original research and innovative analysis of Latin American sexual culture and the gendering of Latino sexualities and, based on the views of lower-class Hondurans, challenges the heralding of globalization as liberation. The collaboration between a Latin American anthropologist and an American comparativist sociologist is particularly novel and noteworthy for including the perspectives on homosexuality of the young men (hombres) who penetrate those classified as "homosexuals" and makes important contributions to Latin American studies, gender studies, cultural studies, and to understanding sexual cultures.

Sex and Class in Latin America - June C. Nash 1976

Compilation of conference papers studying discrimination against women, particularly working class women, in Latin America - reports on interdisciplinary research analysing ideologies and practices at the family level, the struggle to obtain equal opportunity for woman

workers in the labour market, and the role of women in political participation. References and statistical tables. Conference held in Buenos Aires 1974 ar 18 to 23.

Public Sex in a Latin Society - Jacobo Schifter 2000

"Public Sex in a Latin Society is one of the first books to explore the lives of people who look for sex in public places in Latin America and the dangers involved -- from murder to HIV infection. The book examines why many gay men frequent public sex places, such as parks, bathhouses, saunas, and movie theaters, and also explores the unique culture surrounding sex in these places. This informative book examines the dangers of violence, murder, and HIV contraction and how community organizations are trying to address these issues. Containing interviews with police officials, murderers, and the sex workers themselves, this in-depth study discusses data on assault and crime to provide you with information on how individuals can stay safe while seeking sex in public places"--Jacket.

Invisible No More - Pedro Noguera 2013-06-17

Latino men and boys in the United States are confronted with a wide variety of hardships that are not easily explained or understood. They are populating prisons, dropping out of high school, and are becoming overrepresented in the service industry at alarming degrees. Young Latino men, especially, have among the lowest wages earned in the country, a rapidly growing rate of HIV/AIDS, and one of the highest mortality rates due to homicide. Although there has been growing interest in the status of men in American society, there is a glaring lack of research and scholarly work available on Latino men and boys. This groundbreaking interdisciplinary volume, edited by renowned scholars Pedro Noguera, Aída Hurtado and Edward Fergus addresses the dearth of scholarship and information about Latino men and boys to further our understanding of the unique challenges and obstacles that they confront during this historical moment. The contributors represent a cross section of disciplines from health, criminal justice, education, literature, psychology, economics, labor, sociology and more. By drawing attention to the sweeping issues facing this segment of the population, this volume offers research and

policy a set of principles and overarching guidelines for decreasing the invisibility and thus the disenfranchisement of Latino men and boys.

The Queer Encyclopedia of the Visual Arts - Claude Summers 2012-03-23

A distinctly queer presence permeates the history of the visual arts — from Michelangelo's David and homoerotic images on ancient Greek vases to Frida Kahlo's self-portraits and the photography of Claude Cahun and Robert Mapplethorpe. *The Queer Encyclopedia of the Visual Arts* is a comprehensive work showcasing the enormous contribution of gay, lesbian, bisexual, transgender, and queer artists to painting, drawing, photography, printmaking, sculpture, and architecture. International in scope, the volume includes overviews of the various periods in art history, from Classical Art to Contemporary Art and from African Art to Erotic and Pornographic Art; discussions of topics ranging from AIDS Activism in the Arts, Censorship in the Arts, and the Arts and Crafts Movement to Pulp Paperbacks and Their Covers; surveys of the representation of various subjects in the visual arts, from Androgyny to Vampires; and biographical entries on significant figures in the history of art, such as Andy Warhol, Keith Haring, El Greco, Leonardo da Vinci, David Hockney, Ruth Bernhard, Rosa Bonheur, Romaine Brooks, Simeon Solomon, and Nahum Zenil. Includes more than 100 illustrations and photographs.

Crime and Punishment in Latin America - Ricardo D. Salvatore 2001-09-20

DIVEssays in collection argue that Latin American legal institutions were both mechanisms of social control and unique arenas for ordinary people to contest government policies and resist exploitation./div

Sexuality, Women, and Tourism - Susan Frohlick 2013

This book is the first to focus on why and how

foreign Western women engage in cross-border sexual and intimate relations as tourists travelling, or temporarily dwelling, in a Central American country. The book combines descriptions of women's travels and sexual relations across racial and class boundaries with feminism, postcolonial theory, and poststructuralist theories of gender and sexuality, to show how tourism as a wide range and set of desires serves as a central shaping force in the formation of women's sexual subjectivities in contemporary life in postindustrial capitalism. In doing so it offers new insights into how tourist women express heterosexuality shaped by gender, race, class, and identities.

G.K. Hall Bibliographic Guide to Latin American Studies - Benson Latin American Collection 2000

The Latin American Casebook - Juan F. Gonzalez-Bertomeu 2016-04-20

Traditionally relegated because of political pressure and public expectations, courts in Latin America are increasingly asserting a stronger role in public and political discussions. This casebook takes account of this phenomenon, by offering a rigorous and up-to-date discussion of constitutional adjudication in Latin America in recent decades. Bringing to the forefront the development of constitutional law by Latin American courts in various subject matters, the volume aims to highlight a host of creative arguments and solutions that judges in the region have offered. The authors review and discuss innovative case law in light of the countries' social, political and legal context. Each chapter is devoted to a discussion of a particular area of judicial review, from freedom of expression to social and economic rights, from the internalization of human rights law to judicial checks on the economy, from gender and reproductive rights to transitional justice. The book thus provides a very useful tool to scholars, students and litigants alike.
