The Secret Place - Tana French 2014-09-02

“An absolutely mesmerizing read. . . . Tana French is simply this: a truly great writer.”

—Gillian Flynn Read the New York Times bestseller by Tana French, author of the forthcoming novel *The Searcher* and “the most important crime novelist to emerge in the past 10 years” (*The Washington Post*). A year ago a boy was found murdered at a girls’ boarding school, and the case was never solved. Detective Stephen Moran has been waiting for his chance to join Dublin’s Murder Squad when sixteen-year-old Holly Mackey arrives in his office with a photo of the boy with the caption: “I KNOW

WHO KILLED HIM.” Stephen joins with Detective Antoinette Conway to reopen the case—beneath the watchful eye of Holly’s father, fellow detective Frank Mackey. With the clues leading back to Holly’s close-knit group of friends, to their rival clique, and to the tangle of relationships that bound them all to the murdered boy, the private underworld of teenage girls turns out to be more mysterious and more dangerous than the detectives imagined.

Headhunters - Jules Bass 2001

Four female friends, posing as rich ladies on a trip to Monte Carlo, play their part to the hilt and attract four very handsome suitors. However, are these guys just gold-diggers or

someone with whom they will find true romance?

Edible Insects - Arnold van Huis 2013

Edible insects have always been a part of human diets, but in some societies there remains a degree of disdain and disgust for their consumption. Although the majority of consumed insects are gathered in forest habitats, mass-rearing systems are being developed in many countries. Insects offer a significant opportunity to merge traditional knowledge and modern science to improve human food security worldwide. This publication describes the contribution of insects to food security and examines future prospects for raising insects at a commercial scale to improve food and feed production, diversify diets, and support livelihoods in both developing and developed countries. It shows the many traditional and potential new uses of insects for direct human consumption and the opportunities for and

constraints to farming them for food and feed. It examines the body of research on issues such as insect nutrition and food safety, the use of insects as animal feed, and the processing and preservation of insects and their products. It highlights the need to develop a regulatory framework to govern the use of insects for food security. And it presents case studies and examples from around the world. Edible insects are a promising alternative to the conventional production of meat, either for direct human consumption or for indirect use as feedstock. To fully realise this potential, much work needs to be done by a wide range of stakeholders. This publication will boost awareness of the many valuable roles that insects play in sustaining nature and human life, and it will stimulate debate on the expansion of the use of insects as food and feed.

The Dry Forests and Woodlands of Africa -

Emmanuel N. Chidumayo 2010-09-23

The dry forests and woodlands of Sub-Saharan Africa are major ecosystems, with a broad range of strong economic and cultural incentives for keeping them intact. However, few people are aware of their importance, compared to tropical rainforests, despite them being home to more than half of the continent's population. This unique book brings together scientific knowledge on this topic from East, West, and Southern Africa and describes the relationships between forests, woodlands, people and their livelihoods. Dry forest is defined as vegetation dominated by woody plants, primarily trees, the canopy of which covers more than 10 per cent of the ground surface, occurring in climates with a dry season of three months or more. This broad

definition - wider than those used by many authors - incorporates vegetation types commonly termed woodland, shrubland, thicket, savanna, wooded grassland, as well as dry forest in its strict sense. The book provides a comparative analysis of management experiences from the different geographic regions, emphasizing the need to balance the utilization of dry forests and woodland products between current and future human needs. Further, the book explores the techniques and strategies that can be deployed to improve the management of African dry forests and woodlands for the benefit of all, but more importantly, the communities that live off these vegetation formations. Thus, the book lays a foundation for improving the management of dry forests and woodlands for the wide range of products and services they provide.

Daugherty, author of NIGHT SCHOOL Six girls, six boys. Each in the two separate bays of a single spaceship. They have six minutes each week to seduce and to make their choices, under the unblinking eye of the on-board cameras. They are the contenders in the Genesis programme, the world's craziest speed-dating show ever, aimed at creating the first human colony on Mars. Leonor, an 18 year old orphan, is one of the chosen ones. She has signed up for glory. She has signed up for love. She has signed up for a one-way ticket. Even if the dream turns to a nightmare, it is too late for regrets.

A Thousand Splendid Suns - Khaled Hosseini
2009-02-24

Mariam is only fifteen when she is sent to Kabul to marry Rasheed. Nearly two decades later, a friendship grows between Mariam and a local teenager, Laila, as strong as the ties between mother and daughter. When the Taliban take over, life becomes a desperate struggle against starvation, brutality and fear. Yet love can move

a person to act in unexpected ways, and lead them to overcome the most daunting obstacles with a startling heroism.

of early agriculture, political economies, and the domestication and management of plants and animals. Scholars from diverse fields have explored the symbolic complexity of food and its preparation, as well as the social importance of feasting in contemporary and historical societies. This book unites these disciplinary perspectives — from the social and biological sciences to art history and epigraphy — creating a work comprehensive in scope, which reveals our increasing understanding of the various roles of foods and cuisines in Mesoamerican cultures. The volume is organized thematically into three sections. Part 1 gives an overview of food and feasting practices as well as ancient economies in Mesoamerica. Part 2 details ethnographic, epigraphic and isotopic evidence of these practices. Finally, Part 3 presents the metaphoric value of food in Mesoamerican symbolism, ritual, and mythology. The resulting volume provides a thorough, interdisciplinary resource for understanding, food, feasting, and

cultural practices in Mesoamerica.

Stable Isotope Ecology - Brian Fry 2007-01-15

A solid introduction to stable isotopes that can also be used as an instructive review for more experienced researchers and professionals. The book approaches the use of isotopes from the perspective of ecological and biological research, but its concepts can be applied within other disciplines. A novel, step-by-step spreadsheet modeling approach is also presented for circulating tracers in any ecological system, including any favorite system an ecologist might dream up while sitting at a computer. The author's humorous and lighthearted style painlessly imparts the principles of isotope ecology. The online material contains color illustrations, spreadsheet models, technical appendices, and problems and answers.

irresistible. Carol Burnett is one of the most beloved and revered actresses and performers in America. The Carol Burnett Show was seen each week by millions of adoring fans and won twenty-five Emmys in its remarkable eleven-year run. Now, in *This Time Together*, Carol really lets her hair down and tells one funny or touching or memorable story after another. In engaging anecdotes, Carol discusses her remarkable friendships with stars such as Jimmy Stewart, Lucille Ball, Cary Grant, and Julie Andrews; the background behind famous scenes, like the moment she swept down the stairs in her curtain-rod dress in the legendary "Went with the Wind" skit; and things that would happen only to Carol—the prank with Julie Andrews that went wrong in front of the First Lady; the famous Tarzan Yell that saved her during a mugging; and the time she faked a wooden leg to get served in a famous ice cream emporium. This poignant look back allows us to cry with the actress during her sorrows, rejoice

in her successes, and finally, always, to laugh. *Spice and Wolf, Vol. 1 (light novel)* - Isuna Hasekura 2016-12-13

The life of a traveling merchant is a lonely one, a fact with which Kraft Lawrence is well acquainted. Wandering from town to town with just his horse, cart, and whatever wares have come his way, the peddler has pretty well settled into his routine—that is, until the night Lawrence finds a wolf goddess asleep in his cart. Taking the form of a fetching girl with wolf ears and a tail, Holo has wearied of tending to harvests in the countryside and strikes up a bargain with the merchant to lend him the cunning of "Holo the Wisewolf" to increase his profits in exchange for taking her along on his travels. What kind of businessman could turn down such an offer? Lawrence soon learns, though, that having an ancient goddess as a traveling companion can be a bit of a mixed blessing. Will this wolf girl turn out to be too wild to tame?

Water Communication aims at setting a first general outlook at what communication on water means, who communicates and on what topics. Through different examples and based on different research and contributions, this book presents an original first overview of “water communication”. It sets its academic value as one distinct scientific domain and provides tips and practical tools to professionals. The book contributes to avoid mixing messages, targets and discourses when setting communication related to water issues. The book facilitates coordination within the water sector and its organizations as water is a wide field of applications where inadequate words and language understanding between its stakeholders is one of the main obstacles today. Water Communication provides and describes: a general outlook and retrospective of the history of the water sector in terms of communication the landscape of organizations communicating

on water and classification of topics the differences between communication, information, mediation, raising awareness examples of communication campaigns on water Water Communication is a vital resource for communication managers, utility managers, policy makers involved in water management and students in water sciences and environment. normal rules of behaviour no longer seem to apply.' All of the following is true. Only the names have been changed to protect the guilty. All the anecdotes, the stories, the characters, the situations, the highs, the lows, the scams, the drugs, the misery, the love, the death and the insanity are exactly as was told by Anonymous - someone who has spent his whole career working in hotels at the heart of London's luxury hotel industry. However, for legal reasons, the stories now take place in a fictitious hotel known as Hotel Babylon. More than a decade is compressed into a day. Everything else is as it should be. The rich spend money, the hotel makes money and the chambermaids still fight the bellboys over a two-pound coin. It's just another twenty-four hours in an expensive London hotel.

The Kite Runner - Khaled Hosseini 2011-09-05

Frida Kahlo - Maria Isabel Sanchez Vegara

2018-03-15

This board book version of Frida Kahlo—an international bestseller in the critically acclaimed Little People, BIG DREAMS series—introduces the youngest dreamers to this world-renowned painter. When Frida was a teenager, a terrible road accident changed her life forever. Unable to walk, she began painting from her bed. Her self-portraits, which show her pain and grief, but also her passion for life and instinct for survival, have made her one of the most famous artists of the twentieth century. Babies and toddlers will love to snuggle as you read to them the engaging story of this fascinating painter, and will also enjoy exploring the stylish and quirky illustrations of this sturdy board book on their own. Little People, BIG DREAMS is a best-selling series of books and educational games that explore the lives of outstanding people, from designers and artists

to scientists and activists. All of them achieved incredible things, yet each began life as a child with a dream. This empowering series offers inspiring messages to children of all ages, in a range of formats. The board books are told in simple sentences, perfect for reading aloud to babies and toddlers. The hardcover versions present expanded stories for beginning readers. Boxed gift sets allow you to collect a selection of the books by theme. Paper dolls, learning cards, matching games, and other fun learning tools provide even more ways to make the lives of these role models accessible to children. Inspire the next generation of outstanding people who will change the world with Little People, BIG DREAMS!

Firestorm - Stephen Prince 2009-08-06

did ebb, the full impact of the attacks on Hollywood's creative output is still taking shape. Did 9/11 force filmmakers and screenwriters to find new methods of storytelling? What kinds of movies have been made in response to 9/11, and are they factual? Is it even possible to practice poetic license with such a devastating, broadly felt tragedy? Stephen Prince is the first scholar to trace the effect of 9/11 on the making of American film. From documentaries like *Fahrenheit 9/11* (2004) to zombie flicks, and from fictional narratives such as *The Kingdom* (2007) to Mike Nichols's *Charlie Wilson's War* (2007), Prince evaluates the extent to which

filmmakers have exploited, explained, understood, or interpreted the attacks and the Iraq War that followed, including incidents at Abu Ghraib. He begins with pre-9/11 depictions of terrorism, such as Alfred Hitchcock's *Sabotage* (1936), and follows with studio and independent films that directly respond to 9/11. He considers documentary portraits and conspiracy films, as well as serial television shows (most notably Fox's *24*) and made-for-TV movies that re-present the attacks in a broader, more intimate way. Ultimately Prince finds that in these triumphs and failures an exciting new era of American filmmaking has taken shape.
