In her previous life, Rei had no interest in the princes the game had to offer. She only had eyes for Claire François, her nemesis. Now, armed with her extensive knowledge of the game, and her undying love for Claire, will Rei finally be able to win over the woman of her dreams?

Claire François has it all: beauty, brains, and the blood of nobility. As the daughter of a high-ranking noble, she takes her status and the according responsibilities with utmost seriousness--even as the king threatens to undermine his realm's stability with his visions of "meritocracy." Claire is nevertheless prepared to take this societal change in stride, until one of the new commoner students at her elite academy, Rae Taylor, turns her life upside down. Everything about Rae confounds Claire, from her behavior to her intellect to her bizarre fixation on Claire herself. Little does she realize just how much Rae will change her world, and how much she'll change Rae in turn.
