The Meaning of Leisure - Vania L. Sandoval
2017-07-26

This book deals with the concept of leisure and the everyday leisure practices of a group of diverse single women in an urban setting—Mannheim, Germany. Vania Sandoval focuses on how social structure and individual choices relate to each other in the local context. Initially, the book considers the women as a relatively homogenous group, analyzing how they conceive, organize and experience their leisure in a similar manner with individual nuances. It then proceeds to highlight some of the processes that lead, in this particular case, to migration-based differences in their leisure practices.

[The Universal Dating Regulations and Bylaws](#) -
Jeff Wise 2001

At last, the official guidance American singles so desperately need! Since 1976, the American Dating Association, the official governing body of courtship in the United States, has labored tirelessly to codify acceptable dating practice, and its definitive findings are now available to

the general public for the very first time. You'll learn: What Acts of God permit a man to have sex with a woman who is not his girlfriend? Are email, pagers, or instant messaging permissible for informing your partner that you are breaking up with him? After how many dates without sex should you put aside any hope that it may someday occur? When men and women date in compliance with ADA regulations, fewer people are needlessly hurt. Dating compliance -- it's a beautiful thing! For more about the ADA and its services, including the Rogue Dater Advisory Service and ADA Dating Arbitration, please visit the ADA website at www.americandating.org.

Internet and Emotions - Tova Benski

2013-11-07

It features theoretical and empirical chapters from international researchers who investigate a wide range of issues concerning the sociology of emotions in the context of new media. The book fills a substantial gap in the social research of digital technology, and examines whether the internet invokes emotional states differently from other media and unmediated situations, how emotions are mobilized and internalized into online practices, and how the social definitions of

emotions are changing with the emergence of the internet. It explores a wide range of behaviors and emotions from love to mourning, anger, resentment and sadness. What happens to our emotional life in a mediated, disembodied environment, without the bodily element of physical co-presence to set off emotional exchanges? Are there qualitatively new kinds of emotional exchanges taking place on the internet? These are only some of the questions explored in the chapters of this book, with quite surprising answers.

Commuter Spouses - Danielle Lindemann

2019-03-15

What can we learn from looking at married partners who live apart? In *Commuter Spouses*, Danielle Lindemann explores how couples cope when they live apart to meet the demands of their dual professional careers. Based on the personal stories of almost one-hundred commuter spouses, Lindemann shows how these atypical relationships embody (and sometimes disrupt!) gendered constructions of marriage in the United States. These narratives of couples who physically separate to maintain their professional lives reveal the ways in which traditional dynamics within a marriage are highlighted even as they are turned on their heads. *Commuter Spouses* follows the journeys

of these couples as they adapt to change and shed light on the durability of some cultural ideals, all while working to maintain intimacy in a non-normative relationship. Lindemann suggests that everything we know about marriage, and relationships in general, promotes the idea that couples are focusing more and more on their individual and personal betterment and less on their marriage. Commuter spouses, she argues, might be expected to exemplify in an extreme manner that kind of self-prioritization. Yet, as this book details, commuter spouses actually maintain a strong commitment to their marriage. These partners illustrate the stickiness of traditional marriage ideals while simultaneously subverting expectations.
