Ninth House - Leigh Bardugo 2019-10-08

"The best fantasy novel I've read in years, because it's about real people....Impossible to put down." —Stephen King The smash New York Times bestseller from Leigh Bardugo, a mesmerizing tale of power, privilege, and dark magic set among the Ivy League elite.

Goodreads Choice Award Winner Locus Finalist Galaxy "Alex" Stern is the most unlikely member of Yale's freshman class. Raised in the Los Angeles hinterlands by a hippie mom, Alex dropped out of school early and into a world of shady drug-dealer boyfriends, dead-end jobs,

and much, much worse. In fact, by age twenty, she is the sole survivor of a horrific, unsolved multiple homicide. Some might say she's thrown her life away. But at her hospital bed, Alex is offered a second chance: to attend one of the world's most prestigious universities on a full ride. What's the catch, and why her? Still searching for answers, Alex arrives in New Haven tasked by her mysterious benefactors with monitoring the activities of Yale's secret societies. Their eight windowless "tombs" are the well-known haunts of the rich and powerful, from high-ranking politicians to Wall Street's biggest players. But their occult activities are more sinister and more extraordinary than any paranoid imagination might conceive. They tamper with forbidden magic. They raise the dead. And, sometimes, they prey on the living. Don't miss the highly-anticipated sequel, *Hell Bent*.

A History of Religion in 5 1/2 Objects - S. Brent Plate 2015-03-10

A leading scholar explores the importance of physical objects and sensory experience in the practice of religion. *A History of Religion in 5 1/2 Objects* takes a fresh and much-needed approach to the study of that contentious yet vital area of human culture: religion. Arguing that religion must be understood in the first instance as deriving from rudimentary human experiences, from lived, embodied practices, S. Brent Plate asks us to put aside, for the moment, questions of belief and abstract ideas. Instead, beginning with the desirous, incomplete human body, he asks us to focus on five ordinary objects—stones, incense, drums, crosses, and bread—with which we connect in our pursuit of

religious meaning and fulfillment. As Plate considers each of these objects, he explores how the world's religious traditions have put each of them to different uses throughout the millennia. Religion, it turns out, has as much to do with our bodies as our beliefs. Maybe even more.

Psychodynamic Formulation - Deborah L. Cabaniss 2013-03-22

How do our patients come to be the way they are? What forces shape their conscious and unconscious thoughts and feelings? How can we use this information to best help them?

Constructing psychodynamic formulations is one of the best ways for mental health professionals to answer questions like these. It can help clinicians in all mental health settings understand their patients, set treatment goals, choose therapeutic strategies, construct meaningful interventions and conduct treatment. Despite the centrality of psychodynamic formulation to our work with patients, few students are taught how to construct them in a clear systematic way.

This book offers students and practitioners from all fields of mental health a clear, practical, operationalized method for constructing psychodynamic formulations, with an emphasis on the following steps: DESCRIBING problems and patterns REVIEWING the developmental history LINKING problems and patterns to history using organizing ideas about development. The unique, up-to-date perspective of this book integrates psychodynamic theories with ideas about the role of genetics, trauma, and early cognitive and emotional difficulties on development to help clinicians develop effective formulations. Psychodynamic Formulation is written in the same clear, concise style of Psychodynamic Psychotherapy: A Clinical Manual (Wiley 2011). It is reader friendly, full of useful examples, eminently practical, suitable for either classroom or individual use, and applicable for all mental health professionals. It can stand alone or be

A Theology for Family Ministry - Michael

Anthony 2011-07-01

The times are definitely changing. What was

once simply referred to as a Nuclear Family in North America has morphed into labels such as Non-Traditional Families, Fragmented Families, Single-Parent Families, Gay-Partner Families, Blended Families, and beyond. "It may not always be pretty, but it is reality, and that's the intersection between biblical ideal and ministry practice," writes editor Michael J. Anthony in *A Theology for Family Ministry*. With thoroughly researched input from a broad team of family experts, the book advises church and ministry leaders on how to make biblically and philosophically informed choices when reaching out to adults and children within these shifting paradigms. Emphasis is placed on what the Scriptures teach about the composition of the home, followed by discerning and hope-filled strategies for helping all families live out their God-given mandates. "While the family may continue to change into models that bring discomfort and angst to some of us, we rest in the assurance that God has a plan for those who

Lawson, Richard Melick Jr., Curt Hamner, Leon Blanchette, Gordon R. Coulter, James W. Thompson, Timothy Paul Jones, Randy Stinson, Kit Rae, and David Keehn.

Brands of Faith - Mara Einstein 2007-09-14

In a society overrun by commercial clutter, religion has become yet another product sold in the consumer marketplace, and faiths of all kinds must compete with a myriad of more entertaining and more convenient leisure activities. Brands of Faith argues that in order to compete effectively faiths have had to become brands - easily recognizable symbols and spokespeople with whom religious prospects can make immediate connections Mara Einstein shows how religious branding has expanded over the past twenty years to create a blended world of commerce and faith where the sacred becomes secular and the secular sacred. In a series of fascinating case studies of faith brands, she explores the significance of branded church courses, such as Alpha and The Purpose Driven Life, mega-churches, and the popularity of the televangelist Joel Olsteen and television presenter Oprah Winfrey, as well as the rise of Kaballah. She asks what the consequences of this religious marketing will be, and outlines the

possible results of religious commercialism - good and bad. Repackaging religion - updating music, creating teen-targeted bibles - is justifiable and necessary. However, when the content becomes obscured, religion may lose its unique selling proposition - the very ability to raise us above the market.

The Center Cannot Hold - Elyn R. Saks
2007-08-14

A much-praised memoir of living and surviving mental illness as well as "a stereotype-shattering look at a tenacious woman whose brain is her best friend and her worst enemy" (Time). Elyn R. Saks is an esteemed professor, lawyer, and psychiatrist and is the Orrin B. Evans Professor of Law, Psychology, Psychiatry, and the Behavioral Sciences at the University of Southern California Law School, yet she has suffered from schizophrenia for most of her life, and still has ongoing major episodes of the illness. The Center Cannot Hold is the eloquent, moving story of Elyn's life, from the first time

that she heard voices speaking to her as a young teenager, to attempted suicides in college, through learning to live on her own as an adult in an often terrifying world. Saks discusses frankly the paranoia, the inability to tell imaginary fears from real ones, the voices in her head telling her to kill herself (and to harm others), as well as the incredibly difficult obstacles she overcame to become a highly respected professional. This beautifully written memoir is destined to become a classic in its genre.

National Identity, Popular Culture and Everyday Life - Tim Edensor 2020-06-15

The Millennium Dome, Braveheart and Rolls Royce cars. How do cultural icons reproduce and transform a sense of national identity? How does national identity vary across time and space, how is it contested, and what has been the impact of globalization upon national identity and culture? This book examines how national identity is represented, performed, spatialized

and materialized through popular culture and in everyday life. National identity is revealed to be inherent in the things we often take for granted - from landscapes and eating habits, to tourism, cinema and music. Our specific experience of car ownership and motoring can enhance a sense of belonging, whilst Hollywood blockbusters and national exhibitions provide contexts for the ongoing, and often contested, process of national identity formation. These and a wealth of other cultural forms and practices are explored, with examples drawn from Scotland, the UK as a whole, India and Mauritius. This book addresses the considerable neglect of popular cultures in recent studies of nationalism and contributes to debates on the relationship between 'high' and 'low' culture. *A Theology for Family Ministries* - Michael J.
