**Friendly Enemies** Delia Salvi 2003 It's the best-kept secret in the entertainment industry: how much actors—even award-winning movie stars—distrust directors, and how most directors, in turn, fear actors. In *Friendly Enemies*, professor, acting coach, and actress Delia Salvi shows today's young film and television directors how to overcome the obstacles and meet the challenges of working with actors effectively and successfully. Based on the popular course she teaches at UCLA, seven comprehensive chapters provide proven guidance on such key topics as understanding the actor, the director's preparation, casting, rehearsals, and working on the set. An additional chapter features directors' notes, character analysis, and a scene breakdown from a section of the movie classic *On the Waterfront*. Finally, *Friendly Enemies* features fascinating one-on-one interviews with entertainment professionals including: • Burt Brinckerhoff, well-known producer and director of the successful television series *Seventh Heaven* and director of over 46 legendary television shows • Tom Holland, Emmy-winning director of *Malcolm in the Middle*, as well as *The Larry Sanders Show* and *Twin Peaks* • Geena Davis, star of *The Accidental Tourist*, *Thelma and Louise*, and *A League of Their Own* • Anthony Franciosa, star of stage, screen, and television • Barry Primus, who has recently appeared in the films *Life as a House* and *15 Minutes*, as well as such television shows as *The Practice*, *X-Files*, and *Law and Order*

**Troutmouth** Ronald F. Borne 2015-05-27 Hugh Clegg (1898-1979) was among the most notable Mississippi historical figures during the 1920s through the 1960s. Born in Mathiston, Mississippi, he was a member of the Federal Bureau of Investigation from 1926 to 1954, during which time he rose to the top leadership and worked directly under Director J. Edgar Hoover and Associate Director Clyde Tolson. In his second career, as executive assistant to Chancellor J. D. Williams at the University of Mississippi from 1954 to 1969, he was in a top leadership position before and during the civil rights crises in the State of Mississippi and at Ole Miss. While with the Bureau, Clegg's responsibilities included leading the search for many of the most dangerous gangsters in the country, including John Dillinger, Baby Face Nelson, the Barker gang, and Alvin Karpis. He established the FBI's National Training Academy and coordinated the hunt for atom bomb spy Harry Gold, collaborator with German spy Emil Klaus Fuchs. He was sent to England by Director Hoover prior to the outbreak of World War II to study British intelligence agencies. A close friend of many of the leading federal and state elected officials and of members of the US Supreme Court, Clegg was well known to many in power. At the University of Mississippi he was the prime contact between the university and the federal government during the desegregation crises of Clennon King and James Meredith. He was also assigned the lead role in combating the efforts of Mississippi politicians to discredit and remove faculty members when scholars were thought "too liberal" and therefore a threat to the state. Through a Freedom of Information request from the FBI, author Ronald F. Borne obtained thousands of pertinent documents. In addition, he mined Clegg's oral history and an unpublished book manuscript. Borne interviewed close relations, colleagues, and friends to reveal a portrait of a distinguished, loyal man who significantly shaped the training procedures for the FBI and then mediated the University of Mississippi's conflicts with both state officials and the federal government.

**The US Versus the North Korean Nuclear Threat** Er-Win Tan 2013-11-26 Although the current world order is still dominated by the US, there is increasing international concern over the possibility of regional security dilemmas arising from smaller powers' attempts to develop Weapons of Mass Destruction. A study of US-North Korean interaction using the security dilemma as a conceptual frame of analysis is thus not only hugely topical, but also particularly relevant for the 21st century on theoretical as well as empirical grounds. Is there the prospect of a security dilemma contagion if North Korea acquire nuclear weapons capability leading to an Asia Pacific wide nuclear arms race? This book examines this contentious issue in-depth and explores the difficult choices policymakers face as a result of the uncertainty in international politics.

We peer through the lens of science fiction with the help of H.G. Wells, Walt Disney, 'Star Trek', David Cronenberg, Philip K. Dick, and many others, in search of a theory of ethics that leaves open the possibility of the Other and encourages empathy, which is necessary for survival in our multicultural world.

**Overlapping Regional Orders in the Middle East and North Africa** Jordi Quero 2023-11-24 Focused on a set of overlapping international orders of regional scope present in the Middle East and North Africa, this book argues that rules and primary institutions have sanctioned the foreign behavior of the sub-system's international actors since 1945. The author avoids recent IR trends focused on narrow case studies, instead providing a comprehensive overview of the MENA's regional politics. The normative content and evolution of multiple international orders are examined, constituting the intra-Arab order, the Arab-Israeli order and the Arab-Iranian order, as well as the expression of the global order in regional interactions. Drawing on Area Studies and English School and constructivist IR theories, the author argues that a plurality of overlapping regional orders have coexisted since 1945, not just one as is commonly suggested in the literature. Each of these orders is integrated by different participants and has developed its own differentiated norms and institutions setting parameters on legitimate behavior. This analytical proposal helps make sense of foreign relations otherwise labeled as incoherent. The book has wide appeal, accessible both to students wishing to learn about the politics, history and sociology of the Middle East, as well as to specialists seeking original research on the functioning of the MENA's regional orders.

**The Oxford Companion to American Theatre** Gerald Bordman 2004-05-06 First published in 1984, Gerald Bordman's Oxford Companion to American Theatre is the standard one-volume source on our national theatre. Critics have hailed its "wealth of authoritative information" (Back Stage), its "fascinating picture of the volatile American stage" (The Guardian), and its "well-chosen, illuminating facts" (Newsday). Now thoroughly revised, this distinguished volume once again provides an up-to-date guide to the American stage from its beginnings to the present. Completely updated by theater professor Thomas Hischak, the volume includes playwrights, plays, actors, directors, producers, songwriters, famous playhouses, dramatic movements, and much more. The book covers not only classic works (such as *Death of a Salesman*) but also many commercially successful plays (such as *Getting Gertie's Garter*), plus entries on foreign figures that have influenced our dramatic development (from Shakespeare to Beckett and Pinter). New entries include recent plays such as *Angels in America* and *Six Degrees of Separation*, performers such as Eric Bogosian and Bill Irwin, playwrights like David Henry Hwang and Wendy Wasserstein, and relevant developments and issues including AIDS in American theatre, theatrical producing by Disney, and the rise in solo performance. Accessible and authoritative, this valuable A-Z reference is ideal not only for students and scholars of theater, but everyone with a passion for the stage.

**Politics Is about Relationship** H. Saunders 2005-12-22 In this straightforward exploration of core problems facing humanity, Harold Saunders outlines how concerned citizens can bring about social and political change. **Enemies to Allies** Brian C. Etheridge 2016-01-26 "Addresses a compelling and fascinating feature of the Cold War Era, namely the rapid reversal of America's alliance relationships after World War II." —Thomas A. Schwartz, coeditor of *The Strained Alliance* At the close of World War II, the United States went from being allied with the Soviet Union against Germany to alignment with the Germans against the Soviet Union—almost overnight. While many Americans came to perceive the German people as democrats standing firm with their Western allies on the front lines of the Cold War, others were wary of a renewed Third Reich and viewed all Germans as nascent Nazis bent on world domination. These adversarial perspectives added measurably to the atmosphere of fear and distrust that defined the Cold War. In *Enemies to Allies*, Brian C. Etheridge examines more than one hundred years of American interpretations and representations of Germany. With a particular focus on the postwar period, he demonstrates how a wide array of actors—including special interest groups and US and West German policymakers—employed powerful narratives to influence public opinion and achieve their foreign policy objectives. Etheridge also analyses bestselling books, popular television shows such as *Hogan's Heroes*, and award-winning movies such as *Schindler's List* to reveal how narratives about the Third Reich and Cold War Germany were manufactured, contested, and co-opted as rival viewpoints competed for legitimacy. This groundbreaking study draws from theories of public memory and public diplomacy to demonstrate how conflicting US accounts of German history serve as a window for understanding not only American identity, but international relations and state power. "A masterful combination of diplomatic and cultural history." —Stewart Anderson, Brigham Young University

**Power Politics and State Formation in the Twentieth Century** Bridget Coggins 2014-04-24 From Kurdistan to Somaliland, Xinjiang to South Yemen, all secessionist movements hope to secure newly independent states of their own. Most will not prevail. The existing scholarly wisdom provides one explanation for success, based on authority and control within the nascent states. With the aid of an expansive new dataset and detailed case studies, this book provides an alternative account. It argues that the strongest members of the international community have a decisive influence over whether today's secessionists become countries tomorrow and that, most often, their support is conditioned on parochial political considerations.

**The 48 Laws of Power** Robert Greene 2000-09-01 Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control – from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed "beguiling" and "fascinating," Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence ("Law 1: Never Outshine the Master"), others teach the value of confidence ("Law 28: Enter Action with Boldness"), and many recommend absolute self-preservation ("Law 15: Crush Your Enemy Totally"). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

**The World According To Israeli Newspapers** Margret Müller 2017-01-26 Since its outbreak, the Israeli-Palestinian conflict has been shaped by international involvement. These external engagements in the conflict are primarily transmitted to Jewish Israelis through the Israeli mass media. These media portrayals shape not only perceptions of the "global" attitudes towards the conflict, but in so doing they also influence and legitimize domestic political debates and decisions. This research is guided by the question how Israeli newspapers represent international involvement in the Israeli-Palestinian conflict. How is the involvement contextualized and how qualified? Do societal constructs and beliefs shape the media representations and if so, in which manner? Do media representations differ in times of crisis and routine? Margret Müller explores these questions in a content analysis of the four general daily Israeli newspapers' media coverage during the Gaza flotilla raid 2010.

**Security and Bilateral Issues between Iran and its Arab Neighbours** Anoushiravan Ehteshami 2016-12-21 This book provides a detailed analysis of the complicated relations between Iran and its Arab neighbours. Arab perceptions of Iran, its regional policies and role in the Arab region, have never been more complicated than today. How is one to make sense of the increasingly complex and at times tense relationship between Iran and its Arab neighbours? Given the strategic significance of this sub-region and the importance of relations between its states to international security, this edited volume systematically accounts for each Arab neighbour's perception, policies and approach towards the Islamic republic, for the first time providing a clear and detailed comparative analysis of these relationships. This book, bringing together a group of leading scholars of the region, not only provides a clear lens for the policy community through which to gauge the causes of change and the reasons for continuity in relations, but also offers an invaluable tool for scholars of the wider region and the growing community of researchers focusing on this sub-region.

**La verdad del personaje teatral** César Oliva Bernal 2004 El presente libro nace de la preocupación del autor por enlazar temas de investigación en práctica escénica con su correspondiente base teórica. Es lo que le llevó a analizar los problemas que rodean la verdad escénica, siguiendo las pautas del conocido método de las acciones físicas que aplicara Stanislavski, y que tiene su más moderna versión en las enseñanzas del Actors Studio. De ahí su tesis doctoral, y esta obra, que parte de aquellos estudios, remodelados hoy en forma de específica monografía. Ésta se interna en el análisis de la trayectoria histórica de la verdad en el personaje teatral, tanto desde su vertiente teórica como en la práctica escénica, aprovechando las enseñanzas recibidas de maestros como Ellen Burstyn, Carlin Glynn, Sam Schacht, Doug Moston, Ann Jacksin o Barbara Portier, todas ellas apoyadas por las opiniones de los actores americanos más destacados del momento, tomadas de una serie de entrevistas que mantuvieron con los alumnos del Actors Studio.

**Hollywood in Wide Angle** Jack Rothman 2004 This unique collection of interviews covers the broad spectrum of film directing experience--from first timers to award-winning veterans. Hischak 2009-04-22 New York City's Broadway district is by far the most prestigious and lucrative venue for American performers, playwrights, entertainers and technicians. More than 14,000 productions are briefly described, including hundreds of plays, musicals, revivals, and specialty programs. Entries include famous and forgotten works, designed to give a complete picture of Broadway's history and development, its evolution since the early twentieth century, and its rise to unparalleled prominence in the world of American theater. The productions are identified in terms of plot, cast, personnel, critical reaction, and significance in the history of New York theater and culture. In addition to a chronological list of all Broadway productions between 1919 and 2007, the book also includes approximately 600 important productions performed on Broadway before 1919.

**Geographies of Peace and Armed Conflict** Audrey Kobayashi 2013-09-13 This collection addresses the impact of armed conflict and explores pathways to peace across the world. Topics range from geopolitics to the effects of armed conflict on the environment, resources, health, children, and transnational migration. Others explore the social processes involved in post-conflict situations, and others still the lessons for achieving effective peace. The geographical concepts addressed include the notion of "conflict space," landscapes of terror, the relationship between violence and justice, the conditions for peace, and the dynamics of post-conflict. Methods include landscape analysis, interviews with a range of citizens, mapping and geographic information science, and policy analysis. Several papers address the situation of children in conflict zones, the impact of conflict on patterns of migration, the role of gender in achieving peace, the concept of territory as a basis for conflict and for negotiation of peace, as well as the economic impact of conflict. The studies cover several world regions, including Africa, the Middle East, South and Southeast Asia, and eastern Europe. This book was originally published as a special issue of *Annals of the Association of American Geographers*.

**Relational peace practices** Anna Jarstad 2023-05-30 This book presents a new approach for studying peace beyond the absence of war. As war ends, the varying nature of the peace that ensues has been the object of much debate. Through in-depth case studies, including Cyprus, Cambodia, South Africa, Abkhazia, Transnistria/Russia, Colombia, Sri Lanka, the Philippines and Myanmar, the book illustrates how conceptualising 'relational peace' provides a framework that can be applied across cases and actors, different levels of analysis, a variety of geographical contexts and using different temporal perspectives and types of data. This novel framework enables improved empirical studies of peace. The book contributes nuanced understandings of peace in particular settings and demonstrates the multifaceted nature of peaceful relations - what is termed 'relational peace practices' - making important contributions to the field of studying peace beyond the absence of war.

**Contemporary China in Anglo-American and Chinese Perspectives** Emre Demir 2022-12-29 This book identifies differing approaches to the issues of conceptualising hegemony, hegemony-building processes and the relationship between a hegemonic state and a rising power. It focuses on transformations of the Chinese state, society and political-economy, China's rapidly ascending status in the world order and changing relations with the outside world, in particular with the US. Bringing together mainstream and critical approaches from Anglo-America and China, which occupy

different positions in the core-periphery structure of social sciences knowledge production and provide diverging standpoints to understanding the phenomenon of a rising China, the book questions the existing division of labour in IR and in general social sciences knowledge production. Through the lenses of multiple Anglo-American and Chinese scholars, it offers a nuanced and multifaceted view on the issue and focuses on a direct comparison of different localized perspectives. The author scrutinizes the heterogeneity of knowledge, the relationship between power and knowledge production and the region-centricity, in particular the Western-centricity, of knowledge production by analysing the discourse on the "(re-) rising" status of China in the world. The book problematizes the close link between power and knowledge production and presents a more critical view on the conclusions drawn by each approach. Offering an understanding of the nexus between knowledge production and power structures, the heterogeneity and multiplicity of knowledge and the influence of locality on the knowledge produced in social sciences, the book will be of interest to academics working in the fields of International Relations theories, critical approaches, non-Western theories, Euro- or Western-centrism, and social sciences in China, Area Studies, in particularly China and East Asia.
