France and Indochina Kathryn Robson 2005-04-28 At the intersection of literary, cultural, and postcolonial studies, this volume looks at French perceptions of 'Indochina' as they are conveyed through a variety of media including cinema, literature, art, and historical or anthropological writings. The volume is long awaited, as France's memory of 'Indochina' is understudied compared to its relationship with its former colonies in West and North Africa. The book has contemporary urgency as the makeup of France's immigrant population changes and grows to include Vietnamese, Cambodian, and Laotian populations.

Ho Chi Minh's Blueprint for Revolution Virginia Morris 2018-08-27 When Saigon fell to North Vietnamese forces on April 30, 1975, the communist victory sent shockwaves around the world. Using ingenious strategy and tactics, Hồ Chí Minh had shown it was possible for a tiny nation to defeat a mighty Western power. The same tactics have been studied and replicated by revolutionary forces and terrorist organizations across the globe. Drawing on recently declassified documents and rare interviews with Hồ Chí Minh's strategists and operatives, this book offers fresh perspective on his blueprint and the reasons behind both the French (1945-1954) and the American (1959-1975) failures in Vietnam, concluding with an analysis of the threat this model poses today.

[The Buddha Side](#) Alexander Soucy 2012-07-31 The most common description of the supernatural landscape in Vietnam makes a distinction between Buddhist and non-Buddhist "sides." The "Buddha side" (ben phat) is the focus of this investigation into the intersection of gender, power, and religious praxis. Employing an anthropological approach to Buddhist practice that takes into account modes of action that are not only socially constructed and contextual, but also negotiated by the actors, *The Buddha Side* uniquely explores how gender and age affect understandings of what it means to be a Buddhist. In seeking to map out the ways and meanings of Buddhist engagement, Alexander Soucy examines everything from the skeptical statements of young men and devotional performances of young women to the pilgrimages of older women and performances of orthodoxy used by older men to assert their position within the pagoda space. Soucy draws on more than four years' experience conducting ethnographic research in Hanoi to investigate how religious practice is grounded in the constitution and marking of social identity. From this in-depth view, he describes the critical role of religion in shaping social contexts and inserting selves into them. Religion can thus be described as a form of theatre—one in which social identities (youth, old age, masculinity, femininity, authority) are constructed and displayed via religious practice. A compelling look at the performative aspect of Buddhism in contemporary Vietnam, *The Buddha Side* will be welcomed by anyone with an interest in Buddhism as it is practiced on the ground.

**Vietnam Stories** Jack Crouchet 1997 Complex stories of war-time bravery, brutality, compassion, and futility can be found in *Vietnam Stories: A Fudge's Memoir*. Jack Crouchet, retired U.S. Army Colonel and former military judge, brings to life a controversial picture of Americans and Vietnamese in Vietnam during the war years of 1968-1969. Crouchet's unique position as military judge made him privy to the stories and lives of American soldiers, Vietnamese people, and the U.S. non-military residents who appeared before his court. Though not a book of war stories per se, *Vietnam Stories* provides a unique overview of that historical time and includes the author's reflections on the politics of the Vietnam war. A strange culture was created by the war in Vietnam. While twelve percent of military personnel were involved in actual combat, many civilians and high-ranking military persons lived in luxury in Saigon. They were furnished with airconditioned villas, apartments, and hotels; ate in exquisite French

restaurants; and traveled in comfort. The Vietnam experience of youthful American combat soldiers was one of constant danger as well as confrontation with situations that many were unprepared to deal with. Well-armed and often immature, the soldiers sometimes made decisions which led to tragedy. Finally, there were the farmers of Vietnam, who wanted nothing more than to remain in their fields near the tombs of their ancestors. Those who have served in or have visited Vietnam will find much in their experiences to relate to in the pages of Vietnam Stories. -- Eugene F. Murrett, U.S. Court of Appeals for the Tenth Circuit

**Too Young to Escape** Marsha Forchuk Skrypuch 2018-11-02 During the aftermath of the Vietnam War, Van wakes up one morning to find that her mother, her sisters Loan and Lan, and her brother Tuan are gone. They have escaped the new communist regime that has taken over Ho Chi Minh City for freedom in the West. Four-year-old Van is too young--and her grandmother is too old--for such a dangerous journey by boat, so the two have been left behind. Once settled in North America, her parents will eventually be able to sponsor them, and Van and her grandmother will fly away to safety. But in the meantime, Van is forced to work hard to satisfy her aunt and uncle, who treat her like an unwelcome servant. And at school she must learn that calling attention to herself is a mistake, especially when the bully who has been tormenting her turns out to be the son of a military policeman. Van Ho's true story strikes at the heart and will resonate with so many families affected by war, where so many children are forced to live under or escape from repressive regimes.

**War Song** Martin Naparstek 2000-04 The Vietnam War divided America, and it divided one of its soldiers, Michael Cull, who struggled to decide, first, if he was willing to go, and then, once there, how he would participate in it. War Song is a psychological study of one soldier that parallels America's wrenching experience with the most unpopular war in its history. "War Song is a lost classic that is finally back in print. No writer has dealt more honestly with the tragedy of the Viet Nam War and its impact on the Vietnamese people. It is that rarity, a well-developed Vietnamese character." —David Willson, co-editor of Vietnam War Literature: An Annotated Bibliography, February 2000 Martin Naparstek's writing is "knee deep in particulars, with the power of close-focus psychological observation." —short story writer Veronica Geng, Mississippi Review, Fall 1960 Naparstek's writing "takes risks and survives, indeed prospers because of its honesty....As readers and human beings we all too seldom reflect on truth until we've the fortune to read authors like the one here." —novelist Colin Hester, Diamond Sutra, 1997 "Quirky, playful, and original, the work of Martin Naparstek is not easily forgotten." —Janet Hutchings, editor of Ellery Queen's Mystery Magazine, July 1996

**Popular Music of Vietnam** Dale A. Olsen 2008-06-30 Based on the author's research in Ho Chi Minh City, Hanoi, and other urban areas in Vietnam, this study of contemporary Vietnamese popular music explores the ways globalization and free market economics have influenced the music and subcultures of Vietnamese youth, focusing on the conflict between the politics of remembering, nurtured by the Vietnamese Communist government, and the politics of forgetting driven by the capitalist interests of the music industry. Vietnamese youth at the end of the second and beginning of the third millennium are influenced by the challenges generated by a number of seemingly opposite ideologies and realities, such as "the past" versus "the present," socialism versus capitalism, and cultural traditionalism versus globalization. Vietnam has undergone a radical demographic shift with a very pronounced youth movement, and consequently, Vietnamese popular culture has been radically reshaped by a young population coming of age in the twenty-first century. As Olsen reveals, the way Vietnamese young people cope with these opposing and contrasting forces is often expressed in their active and passive music making.

**Human Trafficking in Cambodia** Chenda Keo 2013-10-30 Reporting the findings of a comprehensive study of human trafficking in Cambodia, this book focuses on the characteristics and operations of the traffickers. It provides a theoretical framework that explains the emergence of the phenomenon, and the role of moral panic and western hegemony in the war on human trafficking. Using a multi-method and multi-source research

design, which includes an examination of police and prison records as well as interviews with 91 incarcerated human traffickers, police and prison officers, court officials, and members of NGOs, this book investigates five major themes about human traffickers in Cambodia: who are they, how do they operate, how much profit do they make, why are they involved in human trafficking, and how does the Cambodian Criminal Justice System (CJS) control their activities? A novel and unique analysis, this book is of interest to a wide academic audience in the fields of Asian Studies, Human Trafficking, Sociology, Anthropology, Political Science, Human Geography and Critical Legal Studies.

*New Horizon* John Arthur Cooper 2018-12-04 When you've been a policeman long enough to know that 'it's not working' for many people over thirty trapped by drugs, crime, and prison. What do you do? The answer for PC Jack Carter, as he slid rapidly towards his retirement, was to create and run a small residential support home for guys who wanted help. wanted change, but couldn't do it on their own. As a registered charity it needed trustees. Jack assumed that all trustees were good honest people but if they're not! What do you do? When someone steals what you've created. When someone poisons the mind of your best friend. What do you do?

*Vietnam, a Memoir* David S. Holland 2005 Want an uplifting account of one young Army officer's service in the Vietnam War? *Vietnam, A Memoir: Saigon Cop*, is not it. The focus of this book and of two later volumes in the series is war stripped of glory, high purpose, inspiration, and easy but false patriotism. Instead, the focus is on five Bs: booze, babes, boredom, bureaucracy, and occasionally battle. Heroes are few. Hyperbole is minimal. Yet the tale is an unusual one. The author was an ROTC graduate with no long term Army commitment. After serving a year as a Military Police platoon leader in Saigon, a period that is the subject of this first volume, he stayed in Vietnam for another year and a half. His months as an infantry officer are covered in later volumes. Military Police duty in Saigon in 1966-67 was a surreal combination of Army nitpicking on a stateside scale, protecting U.S. facilities against Viet Cong terrorism, and policing the large U.S. presence in the city. MPs lived, worked, and occasionally played in the middle of an Oriental metropolis of strange sights, sounds, and smells. Lengthy stretches of tedious, humdrum activity were interrupted by sudden bursts of danger and fear.

*Dealing in Desire* Kimberly Kay Hoang 2015-02-11 "This fascinating ethnography examines one segment of Vietnam's diverse sex industry. Between 2006 and 2010, author Kimberly Kay Hoang was employed at four exclusive Saigon hostess bars catering to high-end clientele: wealthy Asian businessmen, Western expatriates and tourists, local Vietnamese men, and Viet Kieus (ethnic Vietnamese living abroad). Using participant observation and in-depth interviews with the sex workers, bar owners, managers, and mostly rich clients at all four locations, Hoang argues that Vietnam's high-end sex industry is much more than a byproduct of globalization--it's an integral component of the country's free-market capitalism, including its emergence as a regional economic player. Major business deals in Vietnam often occur within hostess bars, which businessmen use to stage a display of power, forge relationships, and impress clients. Hostesses facilitate these transactions by socializing with clients, as well as fulfilling fantasies of the flesh and of the culture. The author reveals how recent changes in the political economy have shaped the social structure of sex work in the country, just as actors involved in the sex industry have actively shaped Vietnam's political economy. Multiple constructions of gender are emerging across local, national, and global socio-spaces from the bottom up and the top down"--Provided by publisher.

**Unrequited Time** James McCurrach 2011-10 James C. McCurrach was born in Brooklyn, New York and was the namesake of a self made business success story. He had a privileged upbringing that included a succession of private schools culminating in a B.A. from Brown University in Providence, R.I. He traveled a circuitous route as an adult - a journey that included tennis, a Vice Presidency at the former Bankers Trust Company in New York City as well as the principal in a New York restaurant. After many personal hurdles, he finally succeeded in his original goal of a teaching career. Additionally, his work assisting foreign students in the English language resulted in the publication of two English textbooks for English beginners in Japan and Korea. He is a former squash racquets champion with numerous top ten rankings in various age categories. He resides in San Francisco with his partner of 29 years. This Memoir is dedicated to P. Justin Jacobs for his loyalty, support and continuing encouragement. A troubled youth in search of direction finds himself groping to find his place despite numerous obstacles centering about his Father looking for a duplicate. Such are some of the problems facing James C. McCurrach Jr. as he passes through his early childhood years and the social upheavals encountered on the path to a new century. All of this is complicated by his growing uncertainty of his sexual proclivities at a time when homosexuality was ridiculed and considered a deviancy beyond the pale. At the same time, his Fathers' influence was a constant presence that would lead to a series of disasters, both socially and financially. Despite trying to throw off his Father's yoke, there remained a continuing need to please him and establish some sort of positive approval resulting in a series of tumultuous relationships and career moves. His Mom had always told the youngster that he would be a late bloomer and indeed that prediction would come to pass as in his later years the teaching profession would provide the purpose and rewards that had long eluded him.

Overcoming Deafness Ellis Douek 2014-06-27 Hearing is one of the most empowering of our senses; it enables us to work, socialise and communicate. It's hard to imagine living in a silent world, yet just 60 years ago this was the inevitable outcome for the majority of people with ear disease or language problems. Nowadays, virtually everybody can be helped to some extent and many cured. But how did we get here? This book tells the fascinating story of science and medicine's winning battle with deafness, covering all the hearing diseases and the progress of their treatment from the beginning of Ellis Douek's career in the 1950s to the present day. Unlike other books on hearing, this covers language disorders as well as the surgery of deafness; it is a book about human communication, discussing music and poetry as well as delving into the medical science. In our ageing population, hearing disorders are increasingly a part of everyday life; that they are almost always treatable should not be taken for

granted. This book should be the first reference for anyone who has experienced hearing loss and would like to know more about hearing and language development, and for professionals in hearing science, medicine and allied fields of interest. Contents: Sound and Hearing: Sound Hearing Deafness: Conductive Deafness Disease of the Middle Ear Perceptive or Neurosensory Deafness Communication: Language Music and the Sound of Feelings Poetry and the Sound of Words Impaired Communication: When Hearing is Impaired When the Hearing is Normal Readership: Professionals dealing with communication disorders and hearing science including Surgeons, Paediatricians, Audiologists, Doctors, Therapists and Teachers. Key Features: There are no competing books as all others address only single specialities Keywords: Deafness; Hearing; Language Development; Communication Disability Reviews: "Authored by one of the pioneers in the development of the cochlear implant for deafness, this book is timely because of a need in the field of communication disorders to understand the past and present, and plan for the future." Abraham Shulman, MD, F A C S Professor Emeritus Clinical Otolaryngology State University New York/Downstate "Douek's presentation is always original and easy to follow — in short, clearly written sections, he shows the differences between one hearing loss and another, the various ways we communicate, and the development of written language, poetry, symbols and gesture ... to follow Douek's flow of imagination and knowledge, I guarantee a good read."
