Canadian Perspectives on Immigration in Small Cities Glenda Tibe Bonifacio 2016-10-31 This book examines immigration to small cities throughout Canada. It explores the distinct challenges brought about by the influx of people to urban communities which typically have less than 100,000 residents. The essays are organized into four main sections: partnerships, resources, and capacities; identities, belonging, and social networks; health, politics, and diversity, and Francophone minority communities. Taken together, they provide a comprehensive, multi-disciplinary perspective on the contemporary realities of immigration to small urban locations. Readers will discover how different groups of migrants, immigrants, and Francophone minorities confront systemic discrimination; how settlement agencies and organizations develop unique strategies for negotiating limited resources and embracing opportunities brought about by changing demographics; and how small cities work hard to develop inclusive communities and respond to social exclusions. In addition, each essay includes a case study that highlights the topic under discussion in a particular city or region, from Brandon, Manitoba to the Thompson-Nicola Region in British Columbia, from Peterborough, Ontario to the Niagara Region. As a complement to metropolitan-based works on immigration in Canada, this collection offers an important dimension in migration studies that will be of interest to academics, researchers, as well as policymakers and practitioners working on immigrant integration and settlement.

Working and Mothering in Asia Theresa W. Devasahayam 2007 "Large numbers of women in Asia engage in paid work, in many cases outside the home. Some of them simply need to support their families. Others, particularly educated women, hope to develop rewarding careers. Many of these women also continue to shoulder the home and family responsibilities that social and cultural norms define as their primary concern. In an effort to balance the conflicting demands of these roles, women in various Asian societies are negotiating, contesting and reconfiguring motherhood." -- Back cover.

Health Insurance and Canadian Public Policy Malcolm Taylor 2014-05-14 Medicare in Canada is not only this country's most treasured social program, it has become a defining national characteristic. Even with recent concerns over flaws in the system - long wait times, shortages of key service providers - leading to questions about the possible benefits of a two-tiered approach, the consensus is that single-payer, publicly funded health care has worked for forty years to provide Canadians with accessible, high quality services at a much lower cost than in the mainly for-profit system to the south.
