communicate well with others (even when patience is thin), and become socially conscious and confident human beings. How do we raise a happy, confident kid? And how can we be confident that our parenting is preparing our child for success? Our confidence develops from understanding and having a mastery over our emotions (aka emotional intelligence)—and helping our children do the same. Like learning to play a musical instrument, we can fine-tune our ability to skillfully react to those crazy, wonderful, big feelings that naturally arise from our child's constant growth and changes, moving from chaos to harmony. We want our children to trust that they can conquer any challenge with hard work and persistence; that they can love boundlessly; that they will find their unique sense of purpose; and they will act wisely in a complex world. This book shows you how. With author and educator Jennifer Miller as your supportive guide, you'll learn: the lies we've been told about emotions, how they shape our

choices, and how we can reshape our parenting decisions in better alignment with our deepest values. how to identify the temperaments your child was born with so you can support those tendencies rather than fight them. how to align your biggest hopes and dreams for your kids with specific skills that can be practiced, along with new research to support those powerful connections. about each age and stage your child goes through and the range of learning opportunities available. how to identify and manage those big emotions (that only the parenting process can bring out in us!) and how to model emotional intelligence for your children. how to deal with the emotions and influences of your choir—the many outside individuals and communities who directly impact your child's life, including school, the digital world, extended family, neighbors, and friends. Raising confident, centered, happy kids—while feeling the same way about yourself—is possible with *Confident Parents, Confident Kids*.

Mostly Likely - Sarah Watson 2020-04-02

From the creator of the hit TV series *The Bold Type* comes an empowering and heartfelt novel about a future female president's senior year of high school. Ava, CJ, Jordan, and Martha (listed in alphabetical order out of fairness) have been friends since kindergarten. Now they're in their senior year, facing their biggest fears about growing up and growing apart. But there's more than just college on the horizon. One of these girls is destined to become the president of the United States. The mystery, of course, is which girl gets the gig. Is it Ava, the picture-perfect artist who's secretly struggling to figure out where she belongs? Or could it be CJ, the one who's got everything figured out...except how to fix her terrible SAT scores? Maybe it's Jordan, the group's resident journalist, who knows she's ready for more than their small Ohio suburb can offer. And don't overlook Martha, who will have to overcome all the obstacles that stand in the

way of her dreams. This is the story of four best friends who have one another's backs through every new love, breakup, stumble, and success--proving that great friendships can help young women achieve anything...even a seat in the Oval Office.

What to Talk About - Christopher Colin
2014-04-15

Homo sapiens have been speaking for hundreds of years—and yet basic communication still stymies us. We freeze up in elevators, on dates, at parties, under Dumpsters. We stagger through our exchanges merely hoping not to crash, never considering that we might soar. We go home sweaty and eat a birthday cake in the shower. But no more. With *What to Talk About* you'll learn to speak—fluently, intelligently, charmingly—to family, friends, coworkers, lovers, future lovers, horse trainers, children, even yourself. This hilarious manual, written by two award-winning authors and illustrated by legendary cartoonist Tony Millionaire, is tailor-made for anyone who might one day attend a dinner party, start a job, celebrate a birthday, graduate from school, date a human, or otherwise use words. *What to Talk About* is not

'Just read it . . . Outstanding' Matt Haig 'To say I love this book is an understatement . . . It moved me to tears' Reese Witherspoon 'Beautifully written, completely charming, and extremely wise on the subject of adolescence and influence' Nick Hornby Everyone in Shaker Heights was talking about it that summer: how Isabelle, the last of the Richardson children, had finally gone around the bend and burned the house down. In Shaker Heights, a placid, progressive suburb of Cleveland, everything is meticulously planned - from the layout of the winding roads, to the colours of the houses, to the successful lives its residents will go on to lead. And no one embodies this spirit more than Elena Richardson, whose guiding principle is

playing by the rules. Enter Mia Warren - an enigmatic artist and single mother- who arrives in this idyllic bubble with her teenage daughter Pearl, and rents a house from the Richardsons. Soon Mia and Pearl become more than just tenants: all four Richardson children are drawn to the mother-daughter pair. But Mia carries with her a mysterious past, and a disregard for the rules that threatens to upend this carefully ordered community. When old family friends attempt to adopt a Chinese-American baby, a custody battle erupts that dramatically divides the town - and puts Mia and Elena on opposing sides. Suspicious of Mia and her motives, Elena is determined to uncover the secrets in Mia's past. But her obsession will come at an unexpected and devastating cost . . .

Bossypants - Tina Fey 2011-04-18

Once in a generation a woman comes along who changes everything. Tina Fey is not that woman, but she met that woman once and acted weird around her. Before 30 Rock, Mean Girls and

'Sarah Palin', Tina Fey was just a young girl with a dream: a recurring stress dream that she was being chased through a local airport by her middle-school gym teacher. She also had a dream that one day she would be a comedian on TV. She has seen both these dreams come true. At last, Tina Fey's story can be told. From her youthful days as a vicious nerd to her tour of duty on Saturday Night Live; from her passionately halfhearted pursuit of physical beauty to her life as a mother eating things off the floor; from her one-sided college romance to her nearly fatal honeymoon - from the beginning of this paragraph to this final sentence. Tina Fey reveals all, and proves what we've all suspected: you're no one until someone calls you bossy.

[Modern Romance](#) - Aziz Ansari 2015-06-16

The #1 New York Times Bestseller "An engaging look at the often head-scratching, frequently infuriating mating behaviors that shape our love lives." —Refinery 29 A hilarious, thoughtful, and in-depth exploration of the pleasures and perils of modern romance from Aziz Ansari, the star of Master of None and one of this generation's sharpest comedic voices At some point, every one of us embarks on a journey to find love. We meet people, date, get into and out of relationships, all with the hope of finding someone with whom we share a deep connection. This seems standard now, but it's wildly different from what people did even just decades ago. Single people today have more romantic options than at any point in human history. With technology, our abilities to connect with and sort through these options are staggering. So why are so many people frustrated? Some of our problems are unique to our time. "Why did this guy just text me an emoji of a pizza?" "Should I go out with this girl even

though she listed Combos as one of her favorite snack foods? Combos?!" "My girlfriend just got a message from some dude named Nathan. Who's Nathan? Did he just send her a photo of his penis? Should I check just to be sure?" But the transformation of our romantic lives can't be explained by technology alone. In a short period of time, the whole culture of finding love has changed dramatically. A few decades ago, people would find a decent person who lived in their neighborhood. Their families would meet and, after deciding neither party seemed like a murderer, they would get married and soon have a kid, all by the time they were twenty-four. Today, people marry later than ever and spend years of their lives on a quest to find the perfect person, a soul mate. For years, Aziz Ansari has been aiming his comic insight at modern romance, but for *Modern Romance*, the book, he decided he needed to take things to another level. He teamed up with NYU sociologist Eric Klinenberg and designed a massive research

project, including hundreds of interviews and focus groups conducted everywhere from Tokyo to Buenos Aires to Wichita. They analyzed behavioral data and surveys and created their own online research forum on Reddit, which drew thousands of messages. They enlisted the world's leading social scientists, including Andrew Cherlin, Eli Finkel, Helen Fisher, Sheena Iyengar, Barry Schwartz, Sherry Turkle, and Robb Willer. The result is unlike any social science or humor book we've seen before. In *Modern Romance*, Ansari combines his irreverent humor with cutting-edge social science to give us an unforgettable tour of our new romantic world.
