Diary of an Uber Driver - TheOriginalUberDriver 2016-02-01

'The best storyteller we've had on the show' Kyle Sandilands, Kyle & Jackie O, KIIS FM Welcome to the secret world of the Uber driver. Ben Phillips enjoys an intimate glimpse into the lives of ordinary people around Sydney -- from their morning routines to their despair after a date gone wrong, the trip out to the city and the drunken ride home afterwards. He acts as a sounding board, takes the rap for loud music, sees people at their finest and weakest, and most importantly gets to observe a cast of thoroughly extraordinary characters that make a big metropolis. Featured on ABC The Drum, The Today Show and KIIS FM, Ben Phillips' wry wit and insight have taken Sydney by storm. Diary of an Uber Driver is a snapshot of our unerring propensity to share, and overshare, from the safe anonymity of the back seat. These are your stories -- whether you remember telling them or not.

**Diary of an Uber Driver, by Great Granny Margaret** - Margaret Eileen High 2019-08-27

While driving for Uber I find that my passengers enjoy a good conversation they often talk about the courses they are taking, or what job they are going to, what are their ambitions and goals for the future they may have. Sometimes they feel comfortable enough to get a little personal with me, especially on a long trip. As a "Mom and Grand-Mom and a Great Grand-Mom", the one thing I learned is when to listen and when to respond. I found that most often most of my passengers are from another country and don't have family here, they just need someone to talk to and sometimes could use a little direction from an older person. These are very well educated young men and woman of the future, and they do know when you are being sincere and you show that you actually care, and I do hope that they sense my caring because I do. These young students don't have it that easy, they are under such pressure succeed from their parents who often pay for their education in Canada

**Rideshare Revelations From An LA Uber Driver** - Mark Alan Nisall 2020-11-19

What really happens inside an Uber? Rideshare passengers can be fun,

interesting and wildly entertaining. But some individuals are strange, deeply troubled or bizarre at times. So fasten your seatbelts are get ready for some crazy rides around Southern California. Imagine your riding inside the Uber as you navigate through the diverse neighborhoods of Los Angeles and nearby cities. You can expect the unexpected because you never know what might happen when strangers get inside your vehicle. Forget what you previously thought about rideshare work and prepare to be shocked and surprised as you drive off into the unknown. Mark Nisall is a retired public safety veteran who completed 6,056 trips while driving 61,200 miles by working part time over three years. With 29 years of combined experience in law enforcement and judicial administration, he is uniquely well qualified to authentically narrate his most memorable rideshare adventures. These wide ranging situations are portrayed in clear and vivid detail so readers can vicariously experience them as if they were actually there. In this book, you will meet: A Swedish woman who encounters a naked homeless man inside her Bronson Canyon home below the Hollywood Sign. A Forensic Mortician who performs autopsies and embalming services under contract with the Los Angeles International Airport. An NBA basketball player over 7 feet tall at the SLS Hotel in Beverly Hills. The A-list television star and his entourage at the Catch LA Restaurant on Melrose Avenue. A transgendered woman and You Tube star who also works as a woman's swimsuit model. The entire defensive line for the UCLA Football Team on their way to an In-And-Out Burger Restaurant in Westwood. Three Escorts who stop at a Seven Eleven store to buy condoms before meeting their clients at a Beverly Hills Hotel. A famous Porn Star and internet business woman who shares the details of her adult film career and offers relationship advice to her Uber driver. You'll also learn: How drug and alcohol abuse affects the behavior of many passengers especially on the weekends. The prevalence of mental illnesses amongst passengers, other rideshare drivers and the homeless. The medieval, putrid and dangerous conditions in and around of our growing homeless encampments that are visible and unavoidable in almost every neighborhood of the city. Rideshare work is engaging and

compelling, but it's random and unpredictable as well. So if you thought you've seen and heard it all before, you couldn't be more wrong. Discover that whatever happens inside an Uber, doesn't necessarily stay inside the Uber. So pick up your copy today by clicking the BUY NOW button at the top of this page.

[The Joy of Uber Driving](#) - Yamini Redewill 2019-06-25

Yamini Redewill is an Uber driver in San Francisco—one of a growing number of rideshare drivers around the world. What makes her unique is that she's a seventy-nine-year-old single woman who views her Uber driving as a form of spiritual practice! The Joy of Uber Driving chronicles the unexpected corkscrew twists and turns Redewill encounters on the road to love and happiness. How could she know that all those fabulous dreams she cherished as a younger woman were just illusions on the way to reality and would vanish like dust in the wind? But ultimately, her wild ride through life—which includes obsessive love on Catalina; sex, drugs, and alcohol in Hollywood; eleven years of celibacy in Buddhism, and Tantric sex and spirituality in India—helps her wend her way to her authentic self and to creative fulfillment in the winter of her life. In The Joy of Uber Driving, Redewill shares the wisdom that comes from living a full life of heart-centered passion, as well as the self-awareness that has allowed her to be the happy, confident, creative, and young “old broad” she now finds herself to be.

[High Maintenance Women](#) - Lisa Portolan 2023-03-08

A modern-day women's manifesto: a look at how love, romance, and the digital domain police women's behaviours. Be the cool girl and get the guy. Otherwise you're ... Too fat or too thin; too clever or too stupid; too free or too restricted. You need to be .... Pretty but relatable, not difficult, not demanding - yes, virtually invisible. Play down your attributes, your wants, your needs and most definitely, don't be high maintenance! The term “high-maintenance” is part of everyday speech, and usually refers to a woman who places a high value on her personal image, wants or needs. Often uttered within the context of dating, the implication is the woman in question is too much hard work. Rarely, if ever, do we come across the term “high-maintenance man”. On a daily

basis women are deliberately portraying themselves as “low-maintenance”, “chill” and “cool”. Hidden behind these seemingly insignificant, even innocuous words, is something far more sinister. They tend to describe the multitude of ways women reign themselves in to appease men. The “high-maintenance” woman is too much to handle – confirming known stereotypes that women are expected to be quiet, subservient, opinion-less, and always amenable. That they shouldn’t be difficult. This rhetoric is dangerous. It teaches women around the world, and distressingly, the next generation that they need to play into a male stereotype of what a woman should be – and that’s smaller, and less than. This is a call to arms to women. To take up as much space as you like. To be as clever, as madeup, as dull, as vibrant, as curious, or as difficult as you choose. To live wildly. To occupy and embrace different spaces. This is your moment to be, yes, high maintenance. Embrace it

Uber Diva - Charles St. Anthony 2017-09-18

She's sitting on a secret. With thousands Uber and Lyft rides under her belt, Uber Diva offers a birds eye view of what it's really like to work as a rideshare driver. She also instructs passengers on how to avoid getting spanked with a 1 Star rating. Meet the freaks, learn the equipment, and see how this diva survived when a drunk driver T-Boned her car. Based on true rideshare experiences in the San Francisco Bay Area. "Uber Diva" includes educational chapters answering these burning questions: What kind of insurance is needed as an Uber driver? What equipment will be necessary before drivers start driving? How is Uber different than driving for Lyft? What's the etiquette for passengers? What about driver and passenger safety? This book is the author's personal opinion, and does not necessarily reflect the views of the companies mentioned in the book including Uber, Lyft, Google, Apple or Twitter.

**Behavioral Economics** - Edward Cartwright 2023-12-15

Over the last few decades behavioral economics has revolutionized the

discipline. It has done so by putting the human back into economics, by recognizing that people sometimes make mistakes, care about others and are generally not as cold and calculating as economists have traditionally assumed. The results have been exciting and fascinating, and have fundamentally changed the way we look at economic behavior. This textbook introduces all the key results and insights of behavioral economics to a student audience. Ideas such as mental accounting, prospect theory, present bias, inequality aversion and learning are explained in detail. These ideas are also applied in diverse settings, such as auctions, stock market crashes, charitable donations and health care, to show why behavioral economics is crucial to understanding the world around us. Consideration is also given to what makes people happy, and how we can potentially nudge people to be happier. This new edition contains expanded and updated coverage of several topics and applications, including fraud and cybercrime, cryptocurrency, public health messaging, and the COVID-19 pandemic. The companion website is also updated with a range of new questions and worked examples. This book remains the ideal introduction to behavioral economics for advanced undergraduate and graduate students.

Jo had thought that her life - and her heart - was full. With a busy job, a husband and a teenage daughter who is going off the rails, keeping her life running smoothly had already felt hard enough. But now Jo sits at the funeral of her best friend Ginny, crushed by the loss of a friendship that had endured for thirty years: from college and their first days at work through to settling down and raising their own children. Against her husband's wishes, Jo has made a life-changing decision: to take in Ginny's teenage son Victor and raise him as her own. Despite her misgivings, Jo feels she had no choice: Ginny was a single parent and Victor had no other family who could take care of him. But Victor's arrival is about to break open the fragile cracks that were already forming on the surface of Jo's family life and in her small rural community... and expose a secret that has remained hidden for many years, with devastating consequences. From the bestselling author of *The Silent Wife* and *The Woman I Was Before*, *Another Woman's Child* is an unputdownable and heartbreaking read about the secrets we keep from our families, and the sacrifices we are willing to make for those we love. *Confessions of a Late Night Uber Driver* - Matt Pridgen 2020-09-01

"HEY, UBER DRIVER! DO YOU THINK MY FRIEND SHOULD GO HOME WITH THIS GUY?" My rider blurted out the question without my prompting. I kept my mouth shut and my eyes on the road. "We just met him tonight...but he bought us hotdogs and drinks." Pop music from a local radio station played softly in the background as I began to process her statement. I AM A LATE NIGHT UBER DRIVER. Well, actually I'm a stay-at-home dad trying to earn a few extra bucks on the weekends. Driving the night shift in a college town, I was originally enticed by the

surge fares and 2 a.m. bar rush, but I soon discovered something far more valuable than an extra boost of income. I found that the young people I drive around need more than just a safe ride home-they need to know that there is still hope in this crazy world. JOIN ME AS I SHARE MY TALES OF LATE NIGHTS on the Uber circuit-the good, the bad and the ugly. And stick around to discover the answer to the one question everyone always wants to know: "Has anyone ever puked in your car?" *Travels with Vanessa* - John F. Ince 2017-09-23

In this book, I share an amazing collections of stories from my three years as an Uber / Lyft driver and the countless ways that we all are trying to adapt to a world in which freedom of time, thought and attention are now the scarce commodities in life. Meet Danielle, the young lady on a booty call to meet her Tinder match. She openly admits that she's in it for the sex and she doesn't have time for romance any more because she has to work 60-70 hours a week. Meet the passenger who was so wasted he thought nothing of getting into the back seat naked. We get a lot of naked looks at people in this book. Then there's the woman being rushed to the hospital because of a bleeding wrist - and the creep who's so wasted he didn't recognize it when he was delivered home - or the witch who brought her father back to life by administering CPR - and the street hustler who successfully posed as my Guardian Angel at my moment of great need. How all these people and many others ended up in the back seat of my 2002 Volvo V70 is still a mystery. But might have something to do with about the role of chance in our lives. This book is a testament to the power of Serendipity and its kissing cousin, Serendigity - a blend of fate and digital technology. Over my 69 years in this gig they call life, I've learned to totally give into the power of both Serendipity and Serendigity, especially when it yields such a rich treasure chest of stories like these. The rideshare revolution with Uber and Lyft leading the charge, is arguably the biggest business story in recent history. It's an amazing tale of bravado and disruption. From it's inception Uber has been in a street brawl - with angry taxi drivers, frustrated regulators, formidable competitors, harassed employees, upset passengers and an army of increasingly pissed off drivers. Uber

has raised over \$15 billion from investors (and rumored to be on track to raise another \$10 billion), but drivers are getting wise. They're increasingly aware they're not making as much, after expenses, as advertised. With lowered fares and higher commissions, Uber now takes more and more money out of driver's pockets. One Uber executive was caught off guard when an offhand comment to investors went viral. "We take 20% commission, but we can raise that to 25 or 30 percent ... or more. Why? Because we can. Because we can ... That's both tag line for this story of bravado and the rallying cry for the skeptics who see Uber as the villains of this classic tale. It's a succinct statement of the Uber mindset - a bold attitude that explains the success of a small group of visionary entrepreneurs, executives and investors. They believed they could do it. ... and they did it. But wait? How much sharing is going on when the CEO is worth \$5 billion and the drivers struggle to make car payments each month. Okay, Uber made urban transit cheaper and more efficient? Okay they created \$69 billion of paper wealth out of thin air. Okay they provided hundreds of thousands of drivers with a flexible income stream. Okay, they created a trusted mode of social interaction between strangers in the intimacy of the car. Okay, it's a triumph of determination and an ingenious technology over bureaucratic inertia and long standing inefficiencies. So then, why are so many people so angry that the bad boys of tech? That's what you're about to find out - sitting in the front seat of my 2002 Volvo XC70 - the Brown Bullet - sharing thoughts with our imaginary GPS companion - in our Travels with Vanessa.

*Left to Our Own Devices* - Margaret E. Morris 2018-12-25

Unexpected ways that individuals adapt technology to reclaim what matters to them, from working through conflict with smart lights to celebrating gender transition with selfies. We have been warned about the psychological perils of technology: distraction, difficulty empathizing, and loss of the ability (or desire) to carry on a conversation. But our devices and data are woven into our lives. We can't simply reject them. Instead, Margaret Morris argues, we need to adapt technology creatively to our needs and values. In *Left to Our Own Devices*, Morris offers

examples of individuals applying technologies in unexpected ways—uses that go beyond those intended by developers and designers. Morris examines these kinds of personalized life hacks, chronicling the ways that people have adapted technology to strengthen social connection, enhance well-being, and affirm identity. Morris, a clinical psychologist and app creator, shows how people really use technology, drawing on interviews she has conducted as well as computer science and psychology research. She describes how a couple used smart lights to work through conflict; how a woman persuaded herself to eat healthier foods when her photographs of salads garnered “likes” on social media; how a trans woman celebrated her transition with selfies; and how, through augmented reality, a woman changed the way she saw her cancer and herself. These and the many other “off-label” adaptations described by Morris cast technology not just as a temptation that we struggle to resist but as a potential ally as we try to take care of ourselves and others. The stories Morris tells invite us to be more intentional and creative when left to our own devices.

**Computers and Society** - Ronald M. Baecker 2019-04-18

The last century has seen enormous leaps in the development of digital technologies, and most aspects of modern life have changed significantly with their widespread availability and use. Technology at various scales - supercomputers, corporate networks, desktop and laptop computers, the internet, tablets, mobile phones, and processors that are hidden in everyday devices and are so small you can barely see them with the naked eye - all pervade our world in a major way. *Computers and Society: Modern Perspectives* is a wide-ranging and comprehensive textbook that critically assesses the global technical achievements in digital technologies and how they are applied in media; education and learning; medicine and health; free speech, democracy, and government; and war and peace. Ronald M. Baecker reviews critical ethical issues raised by computers, such as digital inclusion, security, safety, privacy, automation, and work, and discusses social, political, and ethical controversies and choices now faced by society. Particular attention is paid to new and exciting developments in artificial

intelligence and machine learning, and the issues that have arisen from our complex relationship with AI.
