My Body - Emily Ratajkowski  
2021-11-09

THE NEW YORK TIMES  
BESTSELLER A deeply honest investigation of what it means to be a woman and a commodity from Emily Ratajkowski, the archetypal, multi-hyphenate celebrity of our time. \_\_\_\_\_ 'This is the book for every woman trying to place their body on the map of consumption vs control, and every woman who wants to better understand her impulses. It left me much changed' - Lena Dunham 'I read these pages, breathless with recognition, and the thrill of reading a new voice telling it like it is' - Dani Shapiro 'Emily Ratajkowski's first essay collection needs to be read by

everyone [...] both page-turning and moving as hell' - Amy Schumer 'A slow, complicated indictment of a profession and the people who propel it [...] it will deliver a more nuanced and introspective rendering of her interior than those who come to it with those surface interests might expect' - Vogue 'Dazzling' - Observer 'Ratajkowski brings nuanced insight to questions about empowerment versus commodification of women's bodies and sexuality. Blending cultural criticism and personal stories, My Body is smart and powerful' - Time Magazine 'Raw, nuanced and beautifully written. A moving and enlightening experience to join a woman openly exploring such deep parts of her physical self via the written word. A truly impressive debut' - Emma Gannon 'Excellent [...]' Ratajkowski writes with curiosity, intellect and acute awareness' - Harper's Bazaar 'Superb [...] it feels revolutionary' - Telegraph 'I admire and envy her artistry' -

Guardian \_\_\_\_\_ Emily Ratajkowski is an acclaimed model and actress, an engaged political progressive, a formidable entrepreneur, a global social media phenomenon, and now, a writer. Rocketing to world fame at age twenty-one, Ratajkowski sparked both praise and furor with the provocative display of her body as an unapologetic statement of feminist empowerment. The subsequent evolution in her thinking about our culture's commodification of women is the subject of this book. My Body is a profoundly personal exploration of feminism, sexuality, and power, of men's treatment of women and women's rationalizations for accepting that treatment. These essays chronicle moments from Ratajkowski's life while investigating the culture's fetishization of girls and female beauty, its obsession with and contempt for women's sexuality, the perverse dynamics of the fashion and film industries, and the grey area between consent

and abuse. Nuanced, unflinching, and incisive, My Body marks the debut of a fierce writer brimming with courage and intelligence.

**Social Media in Trinidad -**

Jolynna Sinanan 2017-11-21

Drawing on 15 months of ethnographic research in one of the most under-developed regions in the Caribbean island of Trinidad, this book describes the uses and consequences of social media for its residents.

Jolynna Sinanan argues that this semi-urban town is a place in-between: somewhere city dwellers look down on and villagers look up to. The complex identity of the town is expressed through uses of social media, with significant results for understanding social media more generally. Not elevating oneself above others is one of the core values of the town, and social media becomes a tool for social visibility; that is, the process of how social norms come to be and how they are negotiated. Carnival logic and high-impact visuality is pervasive in uses of social media, even if Carnival is

not embraced by all Trinidadians in the town and results in presenting oneself and association with different groups in varying ways. The study also has surprising results in how residents are explicitly non-activist and align themselves with everyday values of maintaining good relationships in a small town, rather than espousing more worldly or cosmopolitan values.

An Instant New York Times Bestseller! This joyful and lyrical picture book from New York Times bestselling author Eva Chen and illustrator Sophie Diao is a moving ode to the immigrant experience, as well as a manifesto of self-love for Chinese American children. What do you see when you look in the mirror, Mei? Do you see beauty? We see eyes that point toward the sun, that give us the warmth and joy of a thousand rays when you smile. We see hair as inky black and smooth as a peaceful night sky. We see skin brushed with gold. Praise for *I Am Golden*: "[A] richly metaphoric celebration of Chinese American identity ... Luminous, gently textured digital art by Diao includes thoughtful, recognizably Chinese cues that add further dimension ... A loving, affecting tribute to how children of immigrants can serve as bridges and torchbearers for their communities."

—Publishers Weekly, starred review "From the outset, this gorgeous picture book exudes joy and celebration of identity. Through dazzling illustrations, Diao brings to exuberant life best-selling Chinese American author Chen's message of finding love and power in one's differences. ... This powerful and uplifting story captures [Chinese] American joy and is a definite must-read." —Booklist, starred review

[Ugly Love](#) - Colleen Hoover

2014-08-05

From Colleen Hoover, the #1 New York Times bestselling author of *It Starts with Us* and *It Ends with Us*, a heart-wrenching love story that proves attraction at first sight can be messy. When Tate Collins meets airline pilot Miles Archer, she doesn't think it's love at first sight. They wouldn't even go so far as to consider themselves friends. The only thing Tate and Miles have in common is an undeniable mutual attraction. Once their desires are out in the open, they realize they have the perfect set-up. He

doesn't want love, she doesn't have time for love, so that just leaves the sex. Their arrangement could be surprisingly seamless, as long as Tate can stick to the only two rules Miles has for her. Never ask about the past. Don't expect a future. They think they can handle it, but realize almost immediately they can't handle it at all. Hearts get infiltrated. Promises get broken. Rules get shattered. Love gets ugly.

Derinta Entas 2023-06-12

This is an open access book. Reinventing Hospitality, Travel, and Event for a Future Direction The tourism industry is an important sector in the world, particularly in terms of its ability to create jobs, generate income and contribute to people's well-being. While of its importance, the tourism industry is vulnerable to external disruptions. Historically, the tourism industry has been

vulnerable to terrorist attacks, recessions, pandemics, natural disasters, and the effects of climate change. Such challenges have also forced the industry to accelerate innovation and transformation to survive and thrive.

Technology and digitalization are more commonly used in businesses and organizations' operations. There are shifts in consumer behavior as a result of disruptions. Travelers demand safer products and services and more efficient ways to travel. New products and services emerge as a result of the disruptions, for example, trends in virtual conferences, cloud kitchens, staycations, and many more.

children's first digital footprints are made before they can walk—even before they are born—as parents use fertility apps to aid conception, post ultrasound images, and share their baby's hospital mug shot. Then, in rapid succession come terabytes of baby pictures stored in the cloud, digital baby monitors with built-in artificial intelligence, and real-time updates from daycare. When school starts, there are cafeteria cards that catalog food purchases, bus passes that track when kids are on and off the bus, electronic health records in the nurse's office, and a school surveillance system that has eyes everywhere. Unwittingly, parents, teachers, and other trusted adults are compiling digital dossiers for children that could be available to everyone—friends, employers, law enforcement—forever. In this incisive book, Leah Plunkett examines the implications of “sharenthood”—adults' excessive digital sharing of children's data. She outlines

the mistakes adults make with kids' private information, the risks that result, and the legal system that enables “sharenting.” Plunkett describes various modes of sharenting—including “commercial sharenting,” efforts by parents to use their families' private experiences to make money—and unpacks the faulty assumptions made by our legal system about children, parents, and privacy. She proposes a “thought compass” to guide adults in their decision making about children's digital data: play, forget, connect, and respect. Enshrining every false step and bad choice, Plunkett argues, can rob children of their chance to explore and learn lessons. The Internet needs to forget. We need to remember. And after all you've learned and all you've done, there's a reason you still haven't put the pieces together and used the Law of Attraction to manifest the life you've always wanted. And it's not because it doesn't work. Let's be clear. The Law of Attraction WORKS. It's been working this whole time, with absolute precision, right underneath your nose. The answers to these questions will not only explain everything in a way you never would have expected, but they're going to demonstrate with crystal clarity everything you've been missing until now. You're about to learn firsthand why every other Law of Attraction book never actually worked for you (it's not what you think -- they actually gave you 100% accurate info). than you realize -- it only takes ONE small adjustment). And you're going to stop wasting years of your life wishing for a better way ...and finally attract and manifest the money, relationships, health, and success you've always dreamed of. **Inferior** - Angela Saini  
2017-05-30

What science has gotten so shamefully wrong about women, and the fight, by both female and male scientists, to rewrite what we thought we knew For hundreds of years it was common sense: women were the inferior sex. Their bodies were weaker, their minds feebler, their role subservient. No less a scientist than Charles Darwin asserted that women were at a lower stage of evolution, and for decades, scientists—most of them male, of course—claimed to find evidence to support this. Whether looking at intelligence or emotion, cognition or behavior, science has continued to tell us that men and women are fundamentally different. Biologists claim that women are better suited to raising families or are, more gently, uniquely empathetic. Men, on the other hand, continue to be described as excelling at tasks that require logic, spatial reasoning, and motor skills. But a huge wave of research is now revealing an alternative version of what we thought we

knew. The new woman revealed by this scientific data is as strong, strategic, and smart as anyone else. In *Inferior*, acclaimed science writer Angela Saini weaves together a fascinating—and sorely necessary—new science of women. As Saini takes readers on a journey to uncover science’s failure to understand women, she finds that we’re still living with the legacy of an establishment that’s just beginning to recover from centuries of entrenched exclusion and prejudice. Sexist assumptions are stubbornly persistent: even in recent years, researchers have insisted that women are choosy and monogamous while men are naturally promiscuous, or that the way men’s and women’s brains are wired confirms long-discredited gender stereotypes. As Saini reveals, however, groundbreaking research is finally rediscovering women’s bodies and minds. *Inferior* investigates the gender wars in biology, psychology, and anthropology, and delves into

cutting-edge scientific studies to uncover a fascinating new portrait of women's brains, bodies, and role in human evolution.

**Maid** - Stephanie Land

2020-01-21

NEW YORK TIMES

BESTSELLER Evicted meets Nickel and Dimed in Stephanie Land's memoir about working as a maid, a beautiful and gritty exploration of poverty in America. Includes a foreword by Barbara Ehrenreich. At 28, Stephanie Land's plans of breaking free from the roots of her hometown in the Pacific Northwest to chase her dreams of attending a university and becoming a writer, were cut short when a summer fling turned into an unexpected pregnancy. She turned to housekeeping to make ends meet, and with a tenacious grip on her dream to provide her daughter the very best life possible, Stephanie worked days and took classes online to earn a college degree, and began to write relentlessly. She wrote the true stories that weren't being told: the stories

of overworked and underpaid Americans. Of living on food stamps and WIC (Women, Infants, and Children) coupons to eat. Of the government programs that provided her housing, but that doubled as halfway houses. The aloof government employees who called her lucky for receiving assistance while she didn't feel lucky at all. She wrote to remember the fight, to eventually cut through the deep-rooted stigmas of the working poor. Maid explores the underbelly of upper-middle class America and the reality of what it's like to be in service to them. "I'd become a nameless ghost," Stephanie writes about her relationship with her clients, many of whom do not know her from any other cleaner, but who she learns plenty about. As she begins to discover more about her clients' lives-their sadness and love, too-she begins to find hope in her own path. Her compassionate, unflinching writing as a journalist gives voice to the "servant" worker, and those pursuing the

American Dream from below the poverty line. Maid is Stephanie's story, but it's not

her alone. It is an inspiring testament to the strength, determination, and ultimate triumph of the human spirit.
